### **Baldy View ROP receives Accreditation from the Council on Occupational Education**

In addition to being accredited by the Western Association of Schools and Colleges (WASC) last December, Baldy View ROP has also been granted accreditation by the Council on Occupation Education (COE). The COE was founded in 1971 and its accreditation is a mark of assured quality and integrity in career technical education. It has long been regarded by the US Secretary of Education as a reliable authority in assessing the quality of education in the institutions it accredits.

Baldy View ROP has provided hands-on, experiential work education and training to high school and adult students since 1972. Its mission is to analyze current future and economic data and trends in order to identify the necessary skills and attitudes that connects its students to successful work and careers in a local and global economy. The COE's accreditation underscores Baldy View ROP's commitment to understanding the current needs of the labor force and preparing students for a career after high school or post-secondary education.

For more information, please contact Baldy View ROP at 909-947-3400 or visit [www.baldyviewrop.com](http://www.baldyviewrop.com).
