

## DISTRICT CODE OF CONDUCT

### INTRODUCTION

The Saugerties School District is committed to maintaining high standards of education for students in the schools. Because the District believes that order and discipline are essential to being educated effectively, the District is also committed to creating and maintaining high behavioral standards and expectations. An orderly educational environment requires that everyone in the school community play a role in contributing to an effective environment. It also requires the development and implementation of a code of conduct that clearly defines individual responsibilities, describes unacceptable behavior, and provides for appropriate disciplinary options and responses.

The parent/guardian is expected to assume primary responsibility for control of his or her child. The parent/guardian may be called upon to actively cooperate with the school in providing the necessary structure to promote his or her child's social and educational growth. To this end, a high degree of parent-school communication will be fostered by the school.

The District believes that order and discipline must be a shared responsibility between school, home and community. This Code of Conduct was developed in collaboration with student, teacher, administrator and parent organizations, school safety personnel and other Board-approved school personnel. Finally, it is our belief that, to be effective, such a code must:

- identify, recognize and emphasize acceptable behavior;
- identify, recognize and prevent unacceptable behavior;
- promote self-discipline;
- consider the welfare of the individual as well as that of the school community as a whole;
- promote a close working relationship between parents/guardians and the school staff,
- distinguish between minor and serious offenses, as well as between first time and repeated offenses;
- provide disciplinary responses that are appropriate to the misbehavior;
- outline procedures to ensure that it is administered in a way that is fair, firm, reasonable, and consistent;
- encourage a high regard for every person's right to reasonable hearing procedures and due process when accused of misconduct;
- comply with the provisions of federal, state and local laws, as well as the guidelines and directives of the New York State Education Department and the Board of Regents.

A school's primary concern in establishing a code of conduct is to enable our young people to become responsible, respectful and caring citizens within the school and community settings. The Board of Education is responsible for ensuring that essential regulations are established and adequate discipline is maintained in the operation of the schools to effectively promote safety, as well as the social and educational growth of the students. Administrative regulations are developed and enforced by the school administration and staff.

Disciplinary measures available to the administration of each school building include conferences, detention, in-school suspension, out-of-school suspension and administrative hearings with the designated hearing officer. Administrative hearings can result in out-of-school suspensions of more than five days and, in particularly serious cases, a student may be permanently suspended from school.

## STUDENT BILL OF RIGHTS AND RESPONSIBILITIES

The Saugerties Central School District believes in the right of each child, between the ages of five and 21 years or until the child receives a high school diploma, whichever comes first, to receive a free education. All students in this state between the ages of six and the school year through which he or she becomes 16 are required by law to regularly attend school, either in the public schools, non-public schools that are approved for equivalency of instruction by the appropriate school authorities, or in the home in accordance with the Regulations of the Commissioner of Education.

The right to a free public school education extends to all students, including those with disabilities. However, this right is not unconditional. As long as due process of law requirements are met, a student may be removed from the classroom, suspended temporarily or suspended permanently from school. Only students within the compulsory education ages (age six through the school year in which the student turns 16) are entitled to alternative, equivalent instruction following suspension.

## RIGHTS OF STUDENTS

Education in a free society demands that students be aware of their rights and learn to exercise them responsibly. To this end, students have a right

- to be provided with an education that is intellectually challenging and relevant to demands of the 21st century;
- to learn in an environment free from interruption, harassment, discrimination, bullying, intimidation and fear;
- to participate in district activities on an equal basis regardless of race, color, weight, creed, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender (identity or expression), or sex.
- to be informed of all school rules;
- be guided by a discipline policy which is fairly and consistently implemented.

In addition, students in this District are afforded the following rights:

1. **Student Expression** - Students shall be allowed the opportunity for the free expression of ideas consistent with rights established by the federal and state constitutions. However, a student's freedom is subject to limitation in that the constitutional protections will not extend to libelous, slanderous, vulgar, lewd, indecent or obscene words or images or to words or images which by their very use incite others to damage property or physically injure persons. Furthermore, speech which materially and substantially disrupts the work and discipline of the school, whether originating from within or without the School District and communicated to other students, School District officers or employees, may be subject to limitation.
2. **Symbolic Expression** - Students, in light of constitutionally protected free speech rights, may wear political buttons, armbands or badges of symbolic expression so long as the same conform to the limits set forth herein under "school newspaper" and "dress code".
3. **Student Activities** - All students shall enjoy equal access to the extent of their capabilities for participation in the various extra-curricular and co-curricular activities sponsored by the School District. The privilege of participating in such activities shall be conditioned upon appropriate conduct as established by the student code of conduct and any rules promulgated specifically for participation in extra and/or co-curricular activities.
4. **Student Government** - Students are encouraged to participate in the various student governmental bodies which have been or may be established in our schools. It shall be the duty of the student governmental body to establish reasonable standards for qualification of candidates to serve in offices of the government. Elections for student government shall be conducted in accordance with the principles of our democracy and elected student representatives shall work with the faculty, administration and student body in identifying cooperatively those areas of appropriate student responsibility. All student governmental bodies shall

have a faculty advisor and shall be organized pursuant to a specific written constitution which the students shall participate in formulating.

5. **Student Clubs and Other Student Organizations** - The District encourages students to participate in curriculum related extra-curricular activity clubs and/or organizations. To the extent that the District authorizes meetings of non-curriculum related clubs or organizations, the same shall be subject to the constitution of the student government and shall be conducted in accordance with any applicable federal or state law, as well as Board of Education policy or regulations.
6. **Privacy Rights [Search and Seizure]** - Students in attendance in our public schools are protected against illegal or unreasonable personal searches or seizures of their property by both the federal and state constitutions. In light of these protections, no student's person or property shall be searched for illegal substances or materials unless the school authorities conducting the search have reasonable suspicion to do so. Lockers, desks, textbooks, computers and other materials, supplies or storage spaces loaned by the District to students may be subject to inspection at any time by school officials since such places are not the property of the student, but rather are owned by the School District and shared with the student.
7. **Pregnant Students** - During pregnancy and the period of pregnancy related disability which follows childbirth, a student shall be entitled to home instruction, upon request, or the student may continue to attend their regularly scheduled classes with provision for special instruction, scheduling and counseling where needed.

Grievances or complaints may be appealed in writing to the Superintendent of Schools if the Principal's/Assistant Principal's answer or proposed resolution is not deemed satisfactory by the student. The Superintendent of Schools shall respond to all grievances and complaints within a reasonable period of time following receipt of the written appeal document.

#### REMOVAL OF A STUDENT FROM THE CLASSROOM

The School District has determined that certain acts of misconduct interfere with instruction and/or the safety and welfare of students and staff. Although some incidents of misconduct may require removal from the classroom or suspension from school, effort will be made to deal with misconduct without removal from the classroom or suspension from school. This is in keeping with the District goal of avoiding consequences that interrupt or interfere with learning. However, no child will be allowed to continue disrupting the instruction of the class or interfering with the safety of the school, its staff, students and visitors.

Teachers shall have the authority to remove a student from their classrooms whenever the student substantially disrupts the educational process or substantially interferes with the teacher's authority over the classroom. "Substantially disruptive" shall mean that the course of instruction has to be discontinued more than momentarily such that it breaks the continuity of the lesson, to address the disruptive conduct of the student. "Substantially interferes" with the teacher's authority over the classroom shall mean that the student has been insubordinate to the teacher in the presence of the class and has failed to obey the teacher's directives to cease and desist (e.g., at least two directives).

A teacher may remove a student for the remainder of the class upon the first event and for two days of class upon the second or third event. Upon the occurrence of a fourth event, a Principal's suspension shall occur.

Notwithstanding the above, in light of circumstances that warrant suspension, a Principal's suspension for substantially disruptive behavior may be implemented in addition to or in lieu of removal of the student from the classroom by the teacher.

Once the teacher determines that the student has been substantially disruptive or substantially interferes with the teacher's authority over the classroom:

- the teacher must confront the student in class (or within 24 hours of removal where the student is unmanageable at the time of initial removal) to inform the student of the reason(s) for the removal;
- prior to removal from the classroom (or within 24 hours of removal where the student presents an ongoing threat of disruption or a continuing danger at the time of removal), the teacher shall inform the student of the basis for the removal and allow the student to informally present his/her version of the relevant events;
- the Building Principal/Assistant Principal or designee must be notified immediately, in writing, by the teacher of the student's removal from the teacher's class;
- the Building Principal/Assistant Principal or designee must inform the student's parent of the removal and the reasons therefore within 24 hours of the student's removal;
- upon request, the student and his/her parent must be given an opportunity for an informal conference with the Principal /Assistant Principal or designee to discuss the reasons for removal. If the student denies the charge(s), the Principal /Assistant

Principal or designee must provide an explanation of the basis for the removal and allow the student and/or his/her parent an opportunity to present the student's version of the relevant events within 48 hours of the student's removal;

- the Principal /Assistant Principal or designee may not set aside the removal unless s/he finds that the charges against the student are not supported by substantial evidence or the student's removal otherwise violates law or the conduct warrants suspension from school and a suspension will be imposed;
- the Principal's/Assistant Principal 's/designee's determination on whether or not to support the teacher's removal of the student shall be made by the close of business on the day succeeding the 48-hour period for the informal Principal's/Assistant Principal's removal conference. The teacher who causes the removal may be required to attend the Principal's/Assistant Principal's conference at the Principal's/Assistant Principal's discretion.

The District shall provide continued educational programming and activities for students who are removed from their classrooms.

An appeal brought by the parent or student over the age of 18 of a Principal's/Assistant Principal's removal decision must be presented to the Superintendent of Schools or his/her designee prior to any further appeal.

## **STUDENT SUSPENSION PROCESS**

The Board of Education, District Superintendent, Superintendent of Schools, a Building Principal or in his/her absence an acting Building Principal, may suspend a student from school where it is determined that the student:

- is insubordinate or disorderly, or exhibits conduct which endangers the safety, morals, health or welfare of others; or
- exhibits a physical or mental condition(s) which endangers the health, safety or morals of himself/herself or of other students; or
- is removed from a classroom for substantially disrupting the educational process or substantially interfering with the teacher's authority in the classroom four or more times in one semester.

In addition to the statutory grounds for suspension from school for conduct or health condition, students shall also be subject to suspension based upon a violation of the specific disciplinary infractions listed below.

### **A. Pre-suspension Process**

Prior to being suspended from school, the student shall be confronted by a school official empowered to suspend, as referenced above, at which time the evidence upon which the decision to suspend is based shall be stated to the student and the student shall be given the opportunity to explain his/her version of the facts. The student shall also be afforded the right to present other persons to the suspending authority in support of his/her version of the facts. If the student's presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, such confrontation shall occur following suspension, as soon thereafter as is reasonably practicable. There shall be no suspension until after the informal Principal's conference, unless waived, as described in paragraph "C", below or unless the student is dangerous or an ongoing threat of disruption to the academic process.

### **B. Short Term Suspension Process**

Prior to a proposed suspension from school for between one and five days by a Building Principal or an acting Principal in the absence of the Building Principal, the student and his/her parent shall be notified, in writing, by personal delivery, express mail or overnight service. They shall also be notified by telephone, if possible, within 24 hours of the decision to propose suspension or suspend. Such written notice shall include a description of the incident(s) resulting in the suspension and shall inform the parent of their right to request an immediate informal conference with the Principal at which the student and/or his/her parent may present the student's version of the event and ask questions of complaining witnesses. Upon such request, an informal conference with the Principal and other parties involved shall be convened prior to the suspension. The right to an informal conference with the Principal shall also extend to a student if 18 years of age or older. The notice and informal conference shall be in the dominant language or mode of communication used by the parent. If the student's presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

### **C. The Long-term Suspension Process: Suspension for More than Five Days**

Any suspension from school in excess of five school days shall be considered a long-term suspension. Unless there is a written agreement between the person requesting the suspension and the parent, a long-term suspension may be done only after the Superintendent of Schools or the Board of Education has conducted a hearing.

When a student is subject to a long-term suspension, a hearing shall be conducted by the Superintendent if the Building Principal, acting Building Principal or the Superintendent has made the original suspension, or before the Board where that body has made the original suspension. The Superintendent of Schools or Board of Education may designate a Hearing Officer to make findings of fact with respect to the charges of infractions under this code of conduct, as well as penalty recommendation pursuant to the penalty parameters described herein.

#### **D. Alternative Instruction**

Only students within the compulsory education ages (age six through the school year in which the student turns 16) are entitled to alternative, equivalent instruction following suspension.

#### **E. Appeals Process**

If a parent/person in parental relation wishes to appeal the decision of the Building Principal to suspend a student from school, the parent/person in parental relation must appeal to the Superintendent prior to commencing an appeal to the Board of Education. Any appeal to the Superintendent must be commenced within ten (10) days from the date of the principal's decision. To be timely, the appeal must be received by the District Office within this ten (10) day period. If a parent/person in parental relation wishes to appeal the decision of Superintendent to suspend a student from school, regardless of the length of the student's suspension, the parent/person in parental relation must appeal to the Board of Education prior to commencing an appeal to the Commissioner of Education. Any appeal to the Board must be commenced within ten (10) days from the date of the Superintendent's decision. To be timely, the appeal must be received by the District Clerk within this ten (10) day period.

#### **F. Off-Campus Misconduct**

A student may be subject to discipline for conduct which is committed off of school premises or at non-school sponsored activities which the District reasonably anticipates could cause, or does cause, a substantial disruption to the educational process.

#### **G. Dress Code**

The Saugerties Central School District has an obligation to help students make positive decisions that lead to success in life, including choosing appropriate dress for a variety of situations. The District has therefore developed a standard of dress and appearance that balances personal expression with providing a school environment that is safe and conducive to learning.

This dress code was developed collaboratively by a committee of teachers, administrators, students, and parents. Students and parents have the primary responsibility for adhering to the student dress code. All adult members of the school community share responsibility for reinforcing and exemplifying acceptable student dress and appearance.

This standard of dress is to be followed during school hours and at school functions by all students. The Principal/Assistant Principal and their designee shall exercise appropriate discretion in implementing this policy, on the basis of students' religious beliefs or medical conditions, or the nature of special events (i.e. proms, field trips, special ceremonies, etc.).

Presenting a bodily appearance or wearing clothing which is disruptive, revealing, profane, vulgar, obscene, or which endangers the health and safety of others is prohibited. The following are considered to be inappropriate dress and appearance and are prohibited in school and at school functions:

- Any dress or appearance that constitutes a threat or danger to the health and safety of students (e.g. heavy jewelry, heavy chains, or jewelry with spikes of sharp edges that can injure the student or others.)
- Any form or article of clothing designed primarily for outdoor use, while attending class or before/after school indoor activities (e.g. parkas, rain or trench coats, large jackets, gloves, mittens, sunglasses in the school building unless worn for medical reasons, etc.)
- Any form or article of clothing designed primarily for in-home use.
- Any clothing or appearance which allows sight of private parts, midriff, or undergarments.
- Any dress or appearance that encourages or advocates the use of illegal drugs, alcohol, and/or tobacco.
- Any dress or appearance that advocates or encourages illegal or violent crimes, or gang related activity and/or colors.
- Any dress or appearance that advocates discrimination, insults, is libelous or denigrates self or others based on race, color, weight, creed, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender (identity or expression), or sex.
- Any dress or appearance that covers or hides an individual's identity (e.g. non-medical related masks, hoods).
- Any dress or appearance with messages that encourage or advocate sexual activity.
- Any dress or appearance that constitutes a disruption to the educational process.

In addition to the above, the following guidelines apply:

- Students may wear hats provided that they allow full face and profile to be visible. This is subject to the discretion of building administrators and individual teachers during classroom instruction.
- Appropriate footwear must be worn at all times to ensure personal safety and the safety of others.
- Students must be dressed in appropriate clothing and protective equipment as required for physical education classes, participation in athletics, science laboratories, family and consumer science, technology classes, and on playgrounds.
- If a student feels uncomfortable being addressed by a staff member regarding dress code issues, that student should request to meet with a different staff member.

Students who violate the dress code will be required to comply with teacher and/or administrator requests to cover or remove the offending item, and if practical, replace it with an acceptable item. Any student who refuses may be subject to further disciplinary action due to insubordination.

## **H. Computer and Internet Use**

The following prohibited use of District-owned computer drives, network facilities and Internet links may give rise to disciplinary action against users of such equipment and/or facilities:

1. E-mail originating from the school premises or originating off school premises and received at the school premises that a student user creates that:
  - is lewd, vulgar, obscene, indecent or inappropriate for student recipients of certain ages;
  - conveys a threat of violence, including sexual violence, to a specific individual or individuals;
  - constitutes a state and/or federal crime;
  - is the cause of or a substantial contributing factor to a substantial interference with the orderly functioning of the school(s);
  - attributes the text of e-mail to school officials or that the text is school endorsed, unless there is such official endorsement or consent from school officials;
2. Internet use that circumvents access restrictions placed upon the District's computer systems by the Board of Education or its administrative designee(s).
3. Computer and/or Internet use that is not school related or is unauthorized.
4. Permitting the use of a student's computer access code by any other person and such student shall assume responsibility for occurrences in violation of this code of conduct that occurs under the student's access code number.

## **I. Possession of Electronic Devices in School**

Electronic devices, including but not limited to cell phones, handheld video games, digital music and video devices, personal digital assistants, etc. (except those required for medical or educational access reasons), may not be used or displayed during the school day. For this purpose, the school day begins when a student enters the building in the morning and ends when the student leaves the building at the end of his/her academic day (including after school activity/extra-help period). If a student carries an electronic device for use outside the school day it is to be turned off and put away during school hours.

These devices are prohibited at all times in locker rooms, bathrooms, or any area where a student has a reasonable expectation of privacy.

If these rules are violated, the device will be confiscated and held until picked up by a parent or guardian.

## **J. Suspension from Transportation Service**

Students may be suspended from transportation services for an infraction or infractions listed herein upon the conducting of an informal hearing by the Superintendent of Schools or his/her designee, at which time the student's parent/guardian or other representative shall be allowed to confront the witnesses relied upon by the District in determining the appropriateness of such suspension of service. If such informal hearing is conducted before the Superintendent's designee, the designee shall make a recommendation to the Superintendent as to the action to be taken.

## **K. Suspension from Extra-Curricular and Co-Curricular Activities, and School Functions**

A student may be suspended from participating in extra-curricular or co-curricular activities (including a sports team) for an infraction of any of the provisions herein, for violating a code of conduct issued to participants in the activity by the activity supervisor or for fighting at games. Upon the request of the student's parent/guardian, the Building Principal/Assistant Principal shall allow the parent/guardian or other representative of the student the right to appear before him/her informally, to discuss the conduct which led to suspension from the activity.

If a student is suspended from school pursuant to §3214 of the Education Law, s/he shall not be permitted to participate in any extra-curricular or co-curricular activities, as well as any other school events or activities which take place on the days of suspension (including intervening weekends).

## **L. Suspension of Students with Disabilities**

A Principal may suspend a student with an educational disability for a short-term (5 school days or less) in the same manner as non-disabled students may be suspended. A Principal's designation of an Interim Alternative Educational Setting must be made in consultation with the student's special education teacher.

In the event that a student has been identified as having a disability or is presumed to have a disability in accordance with applicable law and regulations, the District will first proceed to conduct a §3214 disciplinary proceeding for any suspension of more than five days. The §3214 disciplinary proceeding will be held in two parts, first to determine the student's guilt or innocence on the charges and the second to determine the penalty.

If guilt is determined, before a penalty may be imposed, the following rules shall apply:

### **Section 504/Title II ADA Disability**

Before discipline may be meted out for a student with a disability or suspected disability founded solely under §504 of the Rehabilitation Act of 1973 (hereinafter §504)/Title II of the Americans with Disabilities Act (hereinafter the ADA), §504 multi-disciplinary committee (hereinafter the §504 Committee) must make a determination of whether the conduct underlying the charge(s) was a manifestation of the disability.

1. If a nexus is found between the disability and the conduct underlying the charges, the §3214 proceeding must be discontinued and the matter placed under the jurisdiction of the §504 Committee for any further consideration. The §504 Committee must register a referral and bring about an evaluation of a student with a suspected disability or, if the student is already eligible under §504, it must consider possible program modification and disposition on a non-disciplinary basis.
2. If no nexus is found, yet a disability is indicated or has been identified, discipline may be imposed upon remand to the §3214 Hearing Officer. Students whose sole disabilities are founded under §504 and for whom no nexus is found shall be disciplined in the same manner as their non-disabled peers.

Any penalty imposed may not be based on past behavior for which a nexus determination was not made.

**The School District must continue to provide a free appropriate public education to students who have been suspended from school as required by the regulations implementing §504 (34 CFR §104 et. seq.) until the end of the school year in which the student reaches the age of 21.**

### **IDEA Disability**

Before discipline may be meted out for a student classified or deemed to be known as having a disability under the Individuals with Disabilities Education Act (hereinafter IDEA) [a student with an educational disability], the Committee on Special Education (hereinafter the CSE) must make a determination of whether the conduct underlying the charges was a manifestation of the disability:

1. If the conduct is found to be a manifestation between the disability and the conduct, the §3214 proceeding must be discontinued (except for weapons, drugs and dangerous behavior) and the matter placed under the jurisdiction of the CSE for any further consideration. The CSE must register a referral and bring about an evaluation in the case of a student who may be deemed to be known as having a disability or, if the student is already classified under IDEA, it must consider possible program modification and disposition on a non-disciplinary basis.
2. If the conduct is not a manifestation, discipline may be imposed upon remand to the §3214 Hearing Officer. The relevant disciplinary procedures applicable to children with disabilities may be applied in the same manner in which they would be applied to children without disabilities, as long as the child continues to receive a free appropriate public education during any such term of suspension.
3. Where no manifestation finding is made and no suspected disability is determined to exist, the matter shall be remanded to the §3214 Hearing Officer for a determination of penalty.

Any penalty imposed may not be based on past behavior for which a nexus determination was not made.

The School District must continue to provide a free appropriate public education to students who have been suspended from school. The Superintendent's determination of an Interim Alternative Educational Setting must be made in consultation with the student's special education teacher.

### **Suspensions Beyond Ten (10) School Days**

A student with a disability or suspected disability founded solely under §504/Title II of the ADA may not be suspended for more than 10 school days unless the §504 Committee has conducted a nexus determination and found that the behavior underlying the disciplinary charges was not a manifestation of the student's disability.

A student classified or presumed to have a disability under IDEA may not be suspended for more than 10 school days unless:

1. The CSE has made a determination that the student's misconduct was not a manifestation of the student's disability;
2. The School District obtains a court order authorizing the suspension;
3. The disciplinary charges involve the carrying of a weapon to school or a school function or the knowing possession, use or sale of illegal drugs at school or a school function;

4. The parent or student 18 years of age or older gives their consent, in writing.

In determining a disciplinary outcome, a §3214 Hearing Officer and/or decision making authority may not consider incidents in the past anecdotal record of a student with a disability under §504/Title II ADA and/or IDEA, or suspected of being a disability unless there has been a negative manifestation determination regarding such incident(s) by the §504 Team or CSE, respectively.

#### **Suspensions for Misconduct Involving Weapons and/or Drugs**

A student classified or presumed to have an educational disability under IDEA may be suspended and placed in an interim alternative educational setting for up to forty-five (45) calendar days (less if the discipline for a non-disabled student would be less), if the student carries a weapon to school or a school function, or knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance while at school or a school function.

1. In accordance with law, the term “weapon” means “a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than 2-1/2 inches in length.”
2. In accordance with law, the term “illegal drugs” means controlled substances but not those legally possessed or used under the supervision of a licensed health care professional or other permitted authority under the Federal Controlled Substances Act or under any other provision of Federal law. Controlled substances are drugs and other substances identified under schedules set forth in applicable Federal law provisions.

Before a student is suspended and placed in an interim alternative educational setting for up to 45 calendar days, as determined by the Superintendent of Schools via §3214(3) Education Law proceedings, for behavior involving weapons and/or drugs, the CSE must conduct a manifestation determination and a functional behavioral assessment, as well as implement a behavioral intervention plan that addresses the behavior underlying the disciplinary proceeding or review any such pre-existing plan for modification, if necessary.

1. Placement in an interim alternative educational setting as a result of conduct involving weapons and/or drugs is not contingent upon a CSE determination that the misconduct is not related to the student’s disability.
2. It is up to the CSE to determine what would constitute an interim alternative educational setting that would meet the requirements of the student’s IEP and enable the student to participate in the general curriculum (although in another setting). Such decision shall be communicated to the Superintendent of Schools for the implementation of the discipline.

The exception allowed for the suspension/removal of students with educational disabilities for up to 45 calendar days for conduct involving weapons and/or drugs does not apply to students whose disabilities are founded solely upon §504/Title II ADA.

Such an interim alternative educational setting shall be deemed the student’s “stay put” placement during the pendency of any due process proceedings contesting the interim alternative educational setting for the duration of the interim placement.

#### **Dangerous Students**

To continue the suspension of a student classified or deemed to be known as having an educational disability under IDEA for more than 10 school days, the School District may initiate a hearing before a special education impartial hearing officer who can order the placement of the student in an interim alternative setting for up to 45 calendar days.

1. The CSE must conduct a manifestation determination within 10 school days of the initial disciplinary action. Placement in an interim alternative educational setting as a result of dangerous behavior is not contingent upon a CSE determination that the misconduct is not related to the student’s disability.
2. It is up to the CSE to determine what would constitute an interim alternative educational setting.
3. The hearing officer may grant such if maintaining the student in the current placement is substantially likely to result in injury to the student and/or others, and the School District has made reasonable efforts to minimize the risk of harm in the current placement. The hearing officer must also consider the appropriateness of the student’s current placement and whether the interim alternative educational setting meets all the requirements of the student’s IEP, including continued participation in the general curriculum (although in another setting) with an appropriate behavioral component.

Such an interim alternative educational setting shall be deemed the student’s “stay put” placement during the pendency of any due process proceedings contesting the interim alternative educational setting for the duration of the interim placement.

#### **Declassified Students**

In accordance with law, the CSE must conduct a manifestation determination in the case of a student with an educational disability who has been declassified if the disciplinary matter involves behavioral problems.

#### **M. Disciplinary Measures**

The following shall constitute appropriate disciplinary measures authorized by this Student Code of Conduct:

1. Warning/reprimand (oral or written).
2. Detention (2:22-3:00PM or 2:30-4:30PM).
3. In-school suspension.
4. Suspension from school for up to five (5) school days.
5. Suspension from school in excess of five (5) days.
6. Suspension from school for at least one (1) year for possession of a weapon pursuant to the Gun-Free Schools Act of 1994 (subject to the right of the Superintendent to modify such penalty) or, in the case of a student with a disability whose possession of a weapon is determined not to be related to his/her disability, placement in an interim alternative educational setting for a period of up to forty-five (45) days.
7. Placement in an interim alternative educational setting for a period of up to forty-five (45) days, in the case of a student with a disability whose knowing possession or use of illegal drugs, or sale or solicitation of the sale of a controlled substance at a school or a school function is determined not to be related to his/her disability.
8. Permanent suspension (Expulsion).
