Hello everyone,

Thank you so much for your input, guidance, and connections over the development of the 2020-2030 Enrollment Projections. Our final report is attached here along with a couple key workbooks containing the data and calculations for these projections.

- "Birth Data 1.2 CK" – summarizes the data we received from DOH
- "Survival Rates 1.4 CK" – summarizes the enrollment data we received from the District and calculates survival rate projections incorporating the DOH birth data
- "Enrollment projections – OFM and 2030 Targets" – calculates projections using the GMA targets.

We invite your quick feedback on this project at the following survey link: <https://www.surveymonkey.com/r/P969RXV?P=R0010500&PM=VS&client=SteilacoomSD> . We'd be happy to schedule a phone debrief with one of our office managers if you prefer instead.

Trish from our office will be sending a final invoice, but don't hesitate to reach out if you have any questions!

Best,

Vivien and Chloe
