2021-2022 School Accountability Report Card

(Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Rancho Santa Fe School District, located in Rancho Santa Fe, CA, operates two schools on a single site - an elementary school that serves students in Kindergarten - fifth grade and a middle school that serves students in grades 6 - 8. District enrollment is approximately 600 students from the communities of Rancho Santa Fe, El Cielo, The Bridges, and Elfin Forest. We are committed to being the school of choice within our community. After their K-8 experience, Rancho Santa Fe students move on to attend the high-performing public high schools in the San Diego Union High School District.

2022-23 School Overview

The campus was completely renovated in 2010 at a cost of \$35 million using voter approved bond funds. It boasts a beautiful campus with an administration building, five classroom buildings, a performing arts center, a gymnasium, a library, three playgrounds, and a turf athletic field. Our state of the art classrooms are equipped with interactive whiteboards, document cameras, and a one-to-one ratio of iPads to students. The campus is adjacent to the Rancho Santa Fe Public Library and the Rancho Santa Fe Community Center.

The Rancho Santa Fe School District is one of the oldest districts in San Diego County and has a longstanding history of academic success. We are proud of our rigorous curriculum and instruction in core subjects, as well as our comprehensive enrichment programs in music, art, drama, mathematics, and engineering. We are committed to engaging students in their learning, inspiring their creativity, supporting their efforts, and giving them many opportunities to learn their strengths and explore topics and skills that may result in finding their passions. Our students engage in Physical Education classes taught by certificated PE teachers each week at the elementary school. Our emphasis on social/emotional learning helps students to develop competencies and to meet our school wide expectations of being responsible, resilient, and respectful. We are a caring community that promotes mutual respect, interdependence, global awareness, and service to others.

Our parent population is very supportive of our efforts and partner with us in the education of their children. The Rancho Santa Fe Education Foundation supports the District through executing successful fundraising campaigns, hosting community-building events, and providing volunteers.

Unlike many elementary schools, RSF families are the third and fourth generation to attend R. Roger Rowe Elementary School. One of our most heart-warming and celebrated events is Grandparents' and Special Friends' Day, where multiple generations of RSF families attend elementary music and drama performances, as well as spend time in their grandchildren's classrooms. It is very special to grandparents, parents, and students who spend time together in a school that is "home" for each of them.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Rancho Santa Fe School District held a public hearing on September 15, 2022, and determined that each school within the district had sufficient and quality textbooks, instructional materials, and science lab equipment pursuant to the settlement of Williams vs. the State of California. All students, including English learners, are given their own individual standards-aligned textbooks and instructional materials in core subjects for use in the classroom and for home assignments. Textbooks and supplemental materials are adopted according to a cycle, making the textbooks used in the school current. Materials approved for use by the State are reviewed by teachers and administrators and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the District office prior to adoption. The table below displays information collected in September 2022 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

Year and month in which the data were collected September 2022

School Facility Conditions and Planned Improvements

R. Roger Rowe Elementary School provides a safe, clean environment for students, staff, and community members. In 2010, we completed a district-wide modernization project where we demolished the original school buildings which were built in 1955. The campus was rebuilt using voter approved bonds in conjunction with state facilities improvement funds. The campus houses the elementary and middle school as well as the district's central office. The beautiful two-story campus provides students, parents, and staff with an inviting, state of the art school environment. At the center of the campus is a performing arts center that can accommodate an orchestra, dramatic performances, and instructional assemblies, as well as student science and art shows. The campus also includes a dance studio, robotics/engineering space, science labs, a library, and a number of computer science labs. The outdoor space includes three playgrounds, a turf athletic field, lunch patios, courtyards, and blacktop areas.

This chart shows the results of the most recent school facilities inspection. Facilities at R. Roger Rowe Elementary School are conducted on an annual basis.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	93	N/A	91	N/A	47
Mathematics (grades 3-8 and 11)	N/A	89	N/A	84	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

The parent community is very supportive of the programs at R. Roger Rowe Elementary School. Each year, parents volunteer hundreds of hours to serve on committees, as room parents, to help with events, and to chaperone field trips.

The District has an Education Foundation that raises funds each year to support our programs. Their primary source of fundraising is a very successful annual giving campaign, highlighted by "Red Envelope Day", complete with festivities. Our Community Partners program provides opportunities for local businesses to partner with the District to support events. The annual "Creative Affair" art auction showcases our students' artistic talents, provides a lovely community-building event for parents, and is also a successful fundraiser. Our Education Foundation also organizes social events for the school community. The support of parents, community members, and local businesses instills students at R. Roger Rowe Elementary School with a sense of pride in their school and connection to their community.

The District hosts Principal's Coffees, Superintendent's Chats, and Board Members' Coffees to keep parents informed and provide a venue for questions and concerns. The Superintendent works with the site administrators and leaders of the Education Foundation to produce a weekly newsletter that keeps parents informed. Parent education, such as the annual Cyber Safety Workshop, Fostering Resilience in Children, etc. are hosted each year and are responsive to parents' needs and requests.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	0	1.0	2.45
Expulsions	0.00	0.00	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

The Comprehensive School Safety Plan was developed by the District to comply with Senate Bill 187 (SB 187) of 1997. The plan provides students and staff a means of ensuring a safe and orderly learning environment. The District includes the following requirements of SB 187 within its safe school plan: current status of school crime; child abuse reporting procedures; disaster procedures, routine and emergency procedures; policies related to suspension and expulsion; notification to teachers of dangerous students; sexual harassment policy; provision of a school-wide dress code; safe ingress and egress of pupils, parents, and school employees; safe and orderly school environment; and school rules and procedures.

The District evaluates the plan annually and updates it as needed. It was updated last at the Special Board of Education meeting on February 11, 2022. Safety procedures, including elements of the Comprehensive School Safety Plan, are reviewed with school and District staff at the start of each school year. A copy of the plan is available for public review at the school office.

The District's disaster preparedness plan includes steps for ensuring student and staff safety during a disaster. Fire, disaster, and lockdown drills are conducted on a regular basis throughout the school year. The District has implemented the Bright Arrow emergency communication system that allows the District to place up to 25,000 telephone calls and text messages to emergency contacts within 15 minutes.

Professional Development

The Rancho Santa Fe School District is dedicated to continuous growth and improvement. Our administrators and teachers review school achievement data, anecdotal notes of classroom observations, and student and parent feedback to inform our goals for the following school year. Additionally, we review updates to state standards, frameworks, etc. and ensure that our curriculum and instruction is aligned with state instructional priorities.

Our professional development supports our curriculum adoptions, District priorities, new technology, and social/emotional learning. The professional development offered through the District has utilized consultants who work with teachers in grade level teams. In that way, the specific needs of the teachers at that grade level can be met. Release time during the school day is often given for training with consultants and for additional planning time when new curriculum is adopted. The principal supports the efforts of the teachers through professional coaching in the classrooms as well. Grade level teachers also work collaboratively for a minimum of two hours per week when students are engaged in enrichment classes with certificated teachers. In addition, teachers have late start Mondays where District-wide committee meetings, professional development, and additional collaboration occur.

Evaluations and formal observations are designed to encourage collaborative goals and to comply with the State's evaluation criteria and District policies. Temporary and probationary teachers are formally observed three times a year and tenured teachers are formally observed twice a year. All teachers are observed informally on an ongoing basis during the school year. Evaluation criteria, based on the California Standards for the Teaching Profession, include: engaging and supporting all students in learning; creating and maintaining effective environments for student learning; understanding and organizing subject matter for student learning; planning instruction and designing learning experiences for all students; assessing student learning; and developing as a professional educator.
