- Failure to comply with the above procedure will result in immediate confiscation without warning by faculty, administration, and/or security.

- If a 6th grader requires an inhaler for asthma or an Epi pen for food allergies:
  - Please provide a note from your child's doctor stating he or she may self-carry the medication, or
  - If both the parent/guardian and doctor are not comfortable having the child self-carry these medications and want them kept in the Health Office, please provide a doctor's note indicating this.
- PARENTS/GUARDIANS, NOT THE CHILD, NEED TO BRING ANY MEDICATION TO THE NURSE'S OFFICE.

- Students may bring their own lunch.
  - Lunch cannot be delivered and/or dropped off from outside food establishments.

# 6th Grade Success Tips

Want to have a great sixth grade year?  
These 10 tips are a good place to start!

## 1. Have routines.

Have a morning routine that gets your day off to a good start, and a nighttime routine that includes getting everything ready for the next day before you go to bed.

## 2. Get organized.

Use a planner to record assignments, tests, activities, and appointments. Make To-Do lists and cross things off as you complete them.

## 4. Study smart.

Create a daily homework plan. Decide what you need to get done and the order in which you're going to do it. Break large assignments into more manageable parts.

## 3. Learn in class.

When you're in class, ask and answer questions, and participate in discussions. You'll learn more, get better grades, and the time will go a lot faster.

# Tips for Success for Scholars!

## 5. Make good choices.

You are responsible for what you say and do—so think before you act, speak, or post something online. Consider the consequences!

## 6. Join something.

Participating in activities is a great way to make friends and have some fun.

## 7. Set goals.

Goals give you direction, focus, and purpose. Set some academic and personal goals to work toward.

## 8. Do things for yourself.

Make an effort this year to do things on your own—like getting your homework done without being reminded or hassled by a parent.

## 9. Be smart with technology.

Never post anything that's mean, offensive, or embarrassing. *And don't spend too much time online!*

## 10. Build good character.

Be kind to everyone and try to always do the right thing. Be the kind of person you would want to be around!

## 6th Grade Success Tips for Parents

Help your child have a great sixth grade year. These ten tips are sure to put your child on the path to success this year—and for years to come!

### 1. Encourage a love of reading.

Visit the library often and help your child find books to read for pleasure (e.g., mysteries, biographies, science fiction, teen fiction).

### 2. Learn math from your child.

Have your child make up problems for you to solve—and then have him/her explain how to solve them.

### 3. Help your child stay on track.

Encourage your child to use a planner to write down assignments, tests, quizzes, and anything else he/she needs to remember.

### 4. Monitor homework.

Make homework a part of the regular daily routine. Be interested and supportive, but insist that homework be your child's responsibility.

### 5. Help your child stay organized.

Help your child create a system for organizing papers so that there's a specific place (folder, binder, etc.) for every paper.

# Tips for Success for Parents!

### 6. Make attendance a priority.

Attendance is the #1 school success factor. Make sure your child is in school, on-time, every day.

### 7. Get to know your child's friends.

Invite your child's friends into your home, and be available to drive them to various activities. You'll learn a great deal just by listening to them.

### 8. Be in the know.

When your child leaves home, know who he/she will be with, where they are going, and what they'll be doing. Require your child to check in often.

### 9. Monitor screen time.

As children get older, it becomes more difficult to monitor their TV, video games, and online activities. Sixth graders nevertheless need their parents to provide technology limits and guidelines.

### 10. Provide support.

Spend time with your child to help him/her develop a strong sense of self, and provide your child with a loving, stable home environment.

Helping your child have a successful year doesn't require doing extraordinary things. It's the little things you do each day that provide the guidance and support your child needs.
