

MEET THE TEAM:

Shana McComb

*College Counselor, Registrar,
Test Coordinator, Sophomore Academy*

Shana McComb joined Maclay in 2017 and has worked as a Learning Specialist and Learning Support Department chair, advising students on their own unique academic path beginning as young as 6th grade. Her knowledge and experience of working with ACT® and CollegeBoard®, and as SSD coordinator for five years, have provided her with exceptional experience and knowledge in guiding our younger Upper School students throughout the college selection journey.

Mrs. McComb focuses on working with sophomore students and families by developing relationships. By taking the time to meet with students and families early, she develops a better understanding of the families' goals and desires while navigating the ever-evolving world of college admissions.

With a firm understanding that success looks different for each student, Mrs. McComb strives to be a strong advocate for students to set specific and realistic goals that are revised throughout the year. The college admission process can be overwhelming, so she strives to help each student to feel confident and supported in their decisions as they head into the next chapter.

As the Upper School Registrar and Testing Coordinator for all Maclay students, Mrs. McComb coordinates on-site testing and assists with curriculum for Maclay 10th graders and the Sophomore Academy.
