

You work to keep **your students safe.**

We work to protect your health.

For your safety, similar to your campus COVID screening process, CareATC screens clinic staff and ISD members when entering your clinic.

Schedule by phone

Call the Patient Access Center (800) 993-8244.
You will answer a series of questions such as:

- ▶ Have you tested positive for COVID or recently had exposure to a known positive?
- ▶ Are you exhibiting any of the following symptoms:

Fever

Shortness of Breath

Loss of Taste
or Smell

Muscle or
Body Aches

Cough

Fatigue

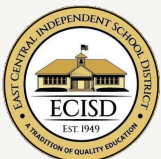

Based upon the outcome of your answers you will be offered an in-clinic or virtual visit.

Schedule by the CareATC App or online Patient Portal

You will be asked to confirm that you have not tested positive for COVID nor actively experiencing any related symptoms. If confirmed, you may choose between an in-clinic or virtual visit based upon your preference.

Influenza, Strep and COVID testing will be provided via car-side appointment should the Physician determine necessary.

Your campus. Your clinic. Your health.

**THE
POWER
TO BE WELL**
