

## Ahera Management Plan Notification

In accordance with 40 CFR §763.84.c, regard this statement as the district's annual notification to all workers, students and/or their legal guardians that the district continues to maintain its Asbestos Management Plan (AMP) which documents all performed or planned asbestos related inspections, response actions, and post-response action activities, including periodic re-inspection and surveillance activities within the school district. A copy of this AMP is available for your review and or inspection at the district's facilities office and within the main office of each school building.

### **Notification to persons in parental relation and staff pursuant to Section 409-H of the State Education Law\***

New York State Education Law Section 409-H, effective July 1, 2001, requires all public and non-public elementary and secondary schools to provide written notification to all persons in parental relation, faculty, and staff regarding the potential use of pesticides periodically throughout the school year.

The **Oceanside School District** is required to maintain a list of persons in parental relation, faculty and staff who wish to receive 48 hour prior written notification of certain pesticide applications. The following pesticide applications are **NOT** subject to prior notification requirements:

- A school remains unoccupied for a continuous 72-hours following an application;
- Anti-microbial products;
- Nonvolatile rodenticides in tamper resistant bait stations in areas inaccessible to children;
- Nonvolatile insecticidal baits in tamper resistant bait stations in areas inaccessible to children;
- Silica gels and other nonvolatile ready-to-use pastes, foams, or gels in areas inaccessible to children;
- Boric acid and disodium octaborate tetrahydrate;
- The application of EPA designated biopesticides;
- The application of EPA designated exempt materials under 40CFR152.25;
- The use of aerosol products with a directed spray in containers of 18 fluid ounces or less when used to protect individuals from an imminent threat from stinging and biting insects including venomous spiders, bees, wasps, and hornets.

In the event of an emergency application necessary to protect against an imminent threat to human health, a good faith effort will be made to supply written notification to those on the 48-hour prior notification list.

If you would like to receive 48 hour prior notification of pesticide applications that are scheduled to occur in your school, please complete the form below and return it to **Mark Montemarano, The Oceanside School District** pesticide representative at: 145 Merle Ave., Oceanside, N 11572. Please feel free to contact Mr. Montemarano at 516-594-2333.
