

Model COVID-19 Prevention Procedures (CPP)

In California, all employers are required to establish, implement, and maintain an effective, written Injury and Illness Prevention (IIPP) program that meets the requirements of California Code of Regulations (CCR), Title 8, section 3203. COVID-19 is considered a workplace hazard and most employers must address COVID-19 prevention under their workplace IIPP. COVID-19 prevention procedures must be addressed either in the written IIPP or maintained in a separate document.

Cal/OSHA has developed this model COVID-19 CPP to assist employers that choose to address their written COVID-19 hazard control procedures in a document separate from their IIPP. Employers are not required to use this CPP. Instead, they may create their own or use another CPP template. Cal/OSHA encourages employers to engage with employees in the design, implementation, and evolution of their CPP.

Using this model alone does not ensure compliance with the Cal/OSHA COVID-19 Prevention standard. To use this model CPP effectively, and ensure it meets the COVID-19 standard requirements, the person(s) responsible for implementing the CPP should carefully review:

- Elements that may be required in the following CCR, Title 8 sections:
 - [3205, COVID-19 Prevention](#)
 - [3205.1, COVID-19 Outbreaks](#)
 - [3205.2, COVID-19 Prevention in Employer-Provided Housing](#)
 - [3205.3, COVID-19 Prevention in Employer-Provided Transportation](#)
 - The three **Additional Considerations** provided at the end of this CPP to see if they are applicable to their workplace.
- Additional guidance and resources are available at www.dir.ca.gov/dosh/coronavirus/

CCR, Title 8 sections 3205 through 3205.3 apply until two years after February 3, 2023, except for the recordkeeping subsections 3205(j)(2) through (3), which apply until three years after February 3, 2023.

COVID-19 Prevention Procedures (CPP) for Coast Unified School District

This CPP is designed to control employees' exposures to the SARS-CoV-2 virus (severe acute respiratory syndrome coronavirus 2) that causes COVID-19 (Coronavirus Disease 2019) that may occur in our workplace.

Date: September 2023

Authority and Responsibility

The Superintendent has overall authority and responsibility for implementing the provisions of this CPP in our workplace. In addition, all managers and supervisors are responsible for implementing and maintaining the CPP in their assigned work areas and for ensuring employees receive answers to questions about the procedures in a language they understand.

All employees are responsible for using safe work practices, following all directives, policies and procedures, and assisting in maintaining a safe work environment.

Application of the Coast Unified Injury & Illness Prevention Program (IIPP)

COVID-19 is a recognized hazard in our workplace that is addressed through our IIPP, which will be effectively implemented and maintained to ensure the following:

1. When determining measures to prevent COVID-19 transmission and identifying and correcting COVID-19 hazards in our workplace:
 - a. All persons in our workplace are treated as potentially infectious, regardless of symptoms, vaccination status, or negative COVID-19 test results.
 - b. COVID-19 is treated as an airborne infectious disease. Applicable State of California and the San Luis Obispo County Health Department orders and guidance will be reviewed when determining measures to prevent transmission and identifying and correcting COVID-19 hazards. COVID-19 prevention controls include:
 - i. Remote work.
 - ii. Physical distancing.
 - iii. Reducing population density indoors.
 - iv. Moving indoor tasks outside.
 - v. Implementing separate shifts and/or break times.
 - vi. Restricting access to work areas.
2. Training and instruction on COVID-19 prevention is provided:
 - a. When this CPP was first established.
 - b. To new employees.
 - c. To employees given a new job assignment involving COVID-19 hazards and they have not been previously trained.
 - d. Whenever new COVID-19 hazards are introduced.
 - e. When we are made aware of new or previously unrecognized COVID-19 hazards.
 - f. For supervisors to familiarize themselves with the COVID-19 hazards to which employees under their immediate direction and control may be exposed.

Appendix A COVID-19 **Training Roster** will be used to document this training.

3. Procedures to investigate COVID-19 illnesses at the workplace include:
 - a. Determining the day and time a COVID-19 case was last present; the date of the positive COVID-19 tests or diagnosis; and the date the COVID-10 case first had one or more COVID-19 symptoms. Appendix B Investigating COVID-19 Cases will be used to document this information.
 - b. Effectively identifying and responding to persons with COVID-19 symptoms at the workplace. This will be done in cooperation with the County Health Department.
 - c. Encouraging employees to report COVID-19 symptoms and to stay home when ill.
4. Effective procedures for responding to COVID-19 cases at the workplace include:
 - a. Immediately excluding COVID-19 cases (including employees excluded under CCR, Title 8, section 3205.1) according to the following requirements:
 - i. COVID-19 cases who do not develop COVID-19 symptoms will not return to work during the infectious period.
 - ii. COVID-19 cases who develop COVID-19 symptoms will not return to work during the shorter of either of the following:
 - a. The infectious period.
 - b. Through 10 days after the onset of symptoms and at least 24 hours have passed since a fever of 100.4 degrees Fahrenheit or higher has resolved without the use of fever-reducing medication.
 - iii. Regardless of vaccination status, previous infection, or lack of COVID-19 symptoms, a COVID-19 case must wear a face covering in the workplace until 10 days have passed since the date that COVID-19 symptoms began or, if the person did not have COVID-19 symptoms, from the date of their first positive COVID-19 test.
 - iv. Elements i. and ii. apply regardless of whether an employee has been previously excluded or other precautions were taken in response to an employee's close contact or membership in an exposed group.
 - b. Reviewing current [California Department of Public Health \(CDPH\)](#) guidance for persons who had close contacts, including any guidance regarding quarantine or other measures to reduce transmission.
 - c. The following effective policies will be developed, implemented, and maintained to prevent transmission of COVID-19 by persons who had close contacts. Following CDPH and SLOCHD guidelines.
 - d. If an order to isolate, quarantine, or exclude an employee is issued by a local or state health official, the employee will not return to work until the period of isolation or quarantine is completed or the order is lifted.
 - e. If removal of an employee would create undue risk to a community's health, Coast Unified may submit a request for a waiver to Cal/OSHA in writing to rs@dir.ca.gov to allow employees to return to work if it does not violate local or state health official orders for isolation, quarantine, or exclusion.
 - f. Upon excluding an employee from the workplace based on COVID-19 or a close contact, Coast Unified will provide excluded employees information regarding COVID-19-related benefits to which the employee may be entitled under applicable federal, state, or local laws. This includes any benefits available under legally mandated sick leave, workers' compensation law, local governmental requirements, and Coast Unified leave policies and leave guaranteed by contract.

Testing of Close Contacts

COVID-19 tests are available at no cost, during paid time, to all of our employees who had a close contact in the workplace. These employees will be provided with the information outlined in paragraph (4)(f), above.

Exceptions are returned cases as defined in CCR, Title 8, section 3205(b)(11).

Notice of COVID-19 cases

Employees and independent contractors who had a close contact, as well as any employer with an employee who had a close contact, will be notified as soon as possible, and in no case longer than the time required to ensure that the exclusion requirements of paragraph (4)(a) above, are met.

When Labor Code section 6409.6 or any successor law is in effect, Coast Unified will:

- Provide notice of a COVID-19 case, in a form readily understandable to employees. The notice will be given to all employees, employers, and independent contractors at the worksite.
- Provide the notice to the authorized representative, if any of:
 - The COVID-19 case and of any employee who had a close contact.
 - All employees on the premises at the same worksite as the COVID-19 case within the infectious period.

Face Coverings

Employees will be provided face coverings and required to wear them:

- When required by orders from the CDPH. This includes spaces within vehicles when a CDPH regulation or order requires face coverings indoors.
- During outbreaks and major outbreaks.
- When employees return to work after having COVID-19 until 10 days have passed since the date that COVID-19 symptoms began or, if the person did not have COVID-19 symptoms, from the date of their first positive COVID-19 test, or after a close contact. Please refer to the section in this FAQ on CDPH's Isolation and Quarantine Guidance.

Face coverings will be clean, undamaged, and worn over the nose and mouth.

The following exceptions apply:

1. When an employee is alone in a room or vehicle.
2. While eating or drinking at the workplace, provided employees are at least six feet apart and, if indoors, the supply of outside or filtered air has been maximized to the extent feasible.
3. While employees are wearing respirators required by the employer and used in compliance with CCR, Title 8 section 5144.
4. Employees who cannot wear face coverings due to a medical or mental health condition or disability, or who are hearing-impaired or communicating with a hearing-impaired person. Such employees shall wear an effective non-restrictive alternative, such as a face shield with a drape on the bottom, if the condition or disability permits it.
5. During specific tasks which cannot feasibly be performed with a face covering. This exception is limited to the time period in which such tasks are actually being performed.

If an employee is not wearing a face covering due to exceptions (4) and (5), above, the COVID-19 hazards will be assessed, and action taken as necessary.

Employees will not be prevented from wearing a face covering, including a respirator, when not required by this section, unless it creates a safety hazard.

Respirators

Respirators will be provided for voluntary use to employees who request them and who are working indoors or in vehicles with more than one person. Employees who request respirators for voluntary use will be:

- Encouraged to use them.
- Provided with a respirator of the correct size.

- Trained on:
 - How to properly wear the respirator provided.
 - How to perform a user seal check according to the manufacturer's instructions each time a respirator is worn.
 - The fact that facial hair interferes with a seal.

The requirements of CCR, Title 8 section 5144(c)(2) will be complied with according to the type of respirator (disposable filtering face piece or elastomeric re-usable) provided to employees.

Ventilation

For our indoor workplaces we will:

- Review CDPH and Cal/OSHA guidance regarding ventilation, including the CDPH [Interim Guidance for Ventilation, Filtration, and Air Quality in Indoor Environments](#). Coast Unified will develop, implement, and maintain effective methods to prevent transmission of COVID-19, including one or more of the following actions to improve ventilation:
 - Maximize the supply of outside air to the extent feasible, except when the United States Environmental Protection Agency (EPA) Air Quality Index is greater than 100 for any pollutant or if opening windows or maximizing outdoor air by other means would cause a hazard to employees, for instance from excessive heat or cold.
 - In buildings and structures with mechanical ventilation, filter circulated air through filters at least as protective as Minimum Efficiency Reporting Value (MERV)-13, or the highest level of filtration efficiency compatible with the existing mechanical ventilation system.
 - Use High Efficiency Particulate Air (HEPA) filtration units in accordance with manufacturers' recommendations in indoor areas occupied by employees for extended periods, where ventilation is inadequate to reduce the risk of COVID-19 transmission.
- Determine if our workplace is subject to CCR, Title 8 section 5142 Mechanically Driven Heating, Ventilating and Air Conditioning (HVAC) Systems to Provide Minimum Building Ventilation, or section 5143 General Requirements of Mechanical Ventilation Systems, and comply as required.

In vehicles, we will maximize the supply of outside air to the extent feasible, except when doing so would cause a hazard to employees or expose them to inclement weather.

Reporting and Recordkeeping

Appendix B **Investigating COVID-19 Cases** will be used to keep a record of and track all COVID-19 cases. These records will be kept by Human Resources and retained for two years beyond the period in which it is necessary to meet the requirements of CCR, Title 8, sections 3205, 3205.1, 3205.2, and 3205.3.

The notices required by subsection 3205(e) will be kept in accordance with Labor Code section 6409.6 or any successor law.
