Friday, Aug. 4: Norwalk Public Schools Graduating 84 Students at Summer Graduation Ceremony

On Friday, Aug. 4, Norwalk Public Schools will celebrate the graduation of over 60 students who completed their high school graduation requirements this summer. These students come from all four high schools and will walk the stage at Norwalk High School at 6 p.m.

Norwalk Public Schools offers multiple programs in the summer to help students graduate high school. For some students, without these programs, attaining their high school degree would not have been possible.

Since its launch in 2022, the NPS Twilight Academy has provided a more flexible schedule for students to complete their studies outside of normal school hours. The Multilingual Learners Accelerated Summer Program helped 13 students from the Class of 2023 complete their graduation requirements. One student from the Class of 2022 will also graduate this year thanks to the MLL Accelerated Program and two other students will graduate early.

We invite you to attend the graduation. We also have three to four students available to speak about their experiences this summer and how their program helped them finish high school successfully.
