Science, Technology, Engineering & Mathematics

Programming and Software Development

The Programming and Software Development program of study explores the occupations and education opportunities associated with researching, designing, developing, and testing operating systems-level software, compilers, and network distribution software for medical, industrial, military, communications, aerospace, business, scientific, and general computer applications. This program of study may also include exploration into creating, modifying, and testing the codes, forms, and script that allow computer applications to run.

Level 1	**7931** Fundamentals of Computer Science
Level 2	**7932P** AP Computer Science Principles **7930** Game Programming and Design
Level 3	**7933P** AP Computer Science A
Level 4	**7391/L** Career Preparation I
