ACE Program and Dual Enrollment

General Information

This is an opportunity for high school juniors and seniors to take college level courses at Bloomsburg University at reduced prices and potentially receive high school credits for the coursework. Students choosing to take advantage of the ACE Program and Dual Enrollment have a unique opportunity, but with that opportunity come responsibilities.

ACE Program – allows students to take courses at Bloomsburg University at reduced rates. Tuition will be reduced by 75%. These reduced costs are available during the school year and summer sessions.

Procedures

1. Check the online schedule of courses for interest and availability.
2. Complete a *Course Approval Request* form and submit to the high school Guidance Office. This must be resubmitted if there is any change in the courses.
3. Complete and submit an official application to the Academic Advisement Center at Bloomsburg University. This may be done online.
4. Submit an *Authorization to Disclose Academic Information* form to the Registrar's Office at Bloomsburg University.
5. Request that an official transcript and a recommendation from the high school counselor or principal be sent to the university.

Additional Guidelines

You are expected to follow the rules and regulations established by Bloomsburg University. Please note that the university is likely to be open even if the Millville Area School District is closed. Our snow days are not considered an excused absence at the university.

Students will enroll and successfully complete two 3 hour courses, one in composition and one in literature, if the students are not enroll in an English class during the senior year at Millville High School.

For those taking twelve (12) credits at Bloomsburg University and also taking classes at Millville High School, the following guidelines apply:

- Students are expected to attend the class(es) at Millville High School each day that they are not required to be at the university. This includes university vacation days.

- Students will meet all the course requirements established by the classroom teacher. Generally, they will be required to do the same work in the same time frame as students who are enrolled and attending the class on a daily basis. Independent study does not mean a reduction in expectations or virtually unlimited time to complete the work.
