District Patrons, Parents and Colleagues,

The primary function of the budget that follows is to ensure Extraordinary Educational Experiences on behalf of the nearly 20,000 students we serve. In the upcoming year, North Kansas City Schools expects to build on the successes we've celebrated this past school year. Here are several items in which we take great pride:

- Academic Achievement as measured by state assessment equates to 96.4%
- Our graduation rate is at an all-time high. It is currently projected at 98.4%
- We have a high school ranked in US News and World Report's list of the best, nation-wide
- We have a high school ranked by the Washington Post as one of the most challenging in the nation
- We celebrated our first school honored as a National Blue Ribbon School (top .5% of the schools in the nation)
- The Department of Elementary and Secondary Education deemed one of our elementary sites a Gold Star School for the second year in a row (only 8 state-wide)
- We passed a \$114 million bond with a record-high 82% approval rate
- Feeder patterns were realigned for all schools
- Our middle school programming has been redesigned
- We opened the Northland Innovation Center – redefining K-5 gifted programming
- Three sites are currently under construction to accommodate student growth – each to be LEED Certified
- Twenty-two sites were awarded Energy Star certification
- We financed \$25 million in capital expenditures, reduced our environmental impact, all without an increase in the operating budget. Our utility costs were reduced by 34% as a result.
- We successfully implemented the nation's largest Compressed Natural Gas bus conversion
- We increased student enrollment in Advanced Placement courses by 68%
- We implemented more sports and activities at the middle school level
- We created a Grow Your Own program to recruit our own students to teach for us, in cooperation with a local university
- We reached the CTTN and Board goal of being at the median of the upper 1/3 regarding teacher salaries

- 100% of our AVID students have been accepted into college earning 3.8 million in scholarships and grants
- Two of our schools have been deemed AVID Sites of Distinction

As you can see, we have much to celebrate. Great opportunity exists for the students of North Kansas City Schools. As we look toward the future, our goals as an organization are grounded in the district's community-driven Strategic Plan. Tremendous work occurred throughout the school year to create a new Strategic Plan that will provide focus for the next five years. Many students, staff, parents and community members contributed to this guiding document, establishing our new Mission Statement:

As champions for students, North Kansas City Schools' mission is to ensure that all are life-ready and ethically grounded in an ever-changing world through innovative educational experiences that:

Inspire Lifelong Learning

Embrace Inclusion

Forge a Unified Community

In accomplishing this mission, we are thankful for the wisdom and commitment of our outstanding school board. Their innovative thinking and fiscal stewardship allow us to aspire to even greater successes with each passing year. These dedicated individuals are committed to providing equal access to Extraordinary Educational Experiences for all students. You will find the 2017-2018 budget presented in the pages that follow as a reflection of that commitment.

Sincerely,

Daniel N. Clemens, Ed.D.
Superintendent

2017-2018 Budget Proposal Executive Summary

By Matthew Fritz, MBA – Executive Director of Finance & Accounting

The following budget represents the financial plan of the North Kansas City School District for the 2017-18 fiscal year. The primary purpose is to provide timely and useful information concerning the past, present and projected financial status of the district as well as to facilitate financial discussions that support the District's strategic plan.

The budget is designed to meet the expectations of the Board of Education and the strategic initiatives of the District while maintaining fiscal responsibility. It provides the funding to attract and retain an outstanding employee workforce, add 126 new students, build two new elementary schools, renovate existing buildings to prepare for straight feeders and to provide required operating funds to sustain our existing campuses.

REVENUE PROJECTIONS:

The district's main sources of revenue are derived from:

- **Local Tax Revenue** (Local property taxes based on assessed valuation and tax levy)
- **State Tax Revenue** (State aid based on the State foundation formula)
- **Proposition "C" Sales Tax Revenue**
- **Sale of Bonds** (General obligation bonds for capital improvements)

Local Tax Revenue:

The District's local tax revenue is derived from the local tax rate, set by the District's Board of Education, and levied against the total assessed valuation of property within the District's boundaries as assessed by the County assessors of Clay and Platte counties. The total assessed valuation included in this budget is \$2,157,616,341 an increase from the prior year of \$67.1 million, or 3.2%. The increase is due to re-assessment and new construction and personal property within District boundaries. The County Assessors re-assesses property values every two years as required by Missouri law. Calendar year 2017 is a reassessment year.

The Board of Education is required to set the tax rates, by fund, each year. The tax rate calculation is prescribed by the Missouri State Auditor's office and takes into consideration the current and prior year assessed valuations, the year-over-year change in the Consumer Price Index (CPI), the prior year tax rate ceiling, and applicable voter approved tax rate increases. The change in the CPI for the period ending December 2016 was 2.1% and there were no voter approved rate increases in the current year. The District must file the new tax rate with the County Clerk's in both Clay and Platte counties by September 1, 2017. The tax rate calculated and used in this budget is as follows:

Tax Levy by Fund
Rates Per \$100 of Assessed Valuation

	2015-16 Actual Tax Rate	2016-17 Actual Tax Rate	2017-18 Estimate* Tax Rate	Decrease from 2016-17
General Fund	\$ 2.7733	\$ 2.7684	\$ 2.7680	\$ (0.0004)
Special Revenue Fund	2.2400	2.2400	2.2400	-
Capital Projects Fund	0.1300	0.1300	0.1300	-
Subtotal Operating Funds	5.1433	5.1384	5.1380	(0.0004)
Debt Service Fund	1.2900	1.2900	1.2900	-
Total	\$ 6.4333	\$ 6.4284	\$ 6.4280	\$ (0.0004)

* - Current estimate does not include a potential roll-back

Current local tax revenues, based on a collection rate of 97%, are budgeted at \$134.2 million, an increase of \$4.1 million or 3.2% over the prior year budget. The increase in revenue is due to the increase in assessed valuation.

State Tax Revenue:

The District's state tax revenue is derived from the Missouri State Foundation Formula. The formula utilizes the District's Weighted Average Daily Attendance (WADA), the State Adequacy Target (SAT), and other factors to derive the amount of state funding the District will receive. Current state tax revenues are budgeted at \$56.0 million, an increase of \$1.9 million or 3.6% over the prior year budget. The increase is mainly due to the increase in the District's WADA in conjunction with a projected increase in the SAT up to \$6,180.

Proposition "C" Sales Tax Revenue:

Sales tax allocation per eligible pupil is projected to increase to \$985 per weighted average daily attendance (WADA), an expected increase of \$0.6 million or 2.9% over the prior year budget. The Proposition "C" sales tax revenues fluctuate based upon the overall state economy.

Sale of Bonds:

On August 2, 2016 the voters of the North Kansas City School District approved a resolution to issue \$114 million in bonds in order to renovate North Kansas City High School and build two additional elementary schools. The District sold \$114 million par value bonds in November 2016 and construction has begun and will continue throughout the 2017-18 budget year. The bonds were issued at a premium resulting in additional funds that will be used to make much needed improvements to buildings throughout the District. The entire bond proceeds are projected to be used over the course of the next several years.

EXPENDITURE PROJECTIONS:

The district's largest expenditure categories are:

- **Salaries**
- **Benefits**
- **Purchased Services**
- **Materials and Supplies**
- **Capital Outlay**

Salaries:

Salaries and employee benefits make up approximately \$193.5 million or 78.4% of the operating budget. New salary schedules were approved by the Board of Education in May 2017, for 2017-18 fiscal year. Staff members were able to advance on the schedules based upon their educational degree hours and years of service. The Teacher's salary schedule was re-indexed to improve our competitive position among area school districts. The District's goal is for the teacher's salary schedule to be at the median of the upper 1/3 when comparing to area school districts, and for the first time ever the District was able to meet this goal through the re-indexing.

Benefits:

The District is offering a new healthcare plan for 2017-18 that includes two plan options with no increase to premiums and a guaranteed rate increase cap for 2018-19 to keep our insurance options affordable for District staff. The District offers a newly structured EPO plan and a Qualified High Deductible Plan to employees and has maintained current dental other benefits at no additional cost to the District or to District employees. The District is currently operating under a 12 month contract with Blue Cross that extends through June 30, 2017.

The Public School Retirement System (PSRS) contribution rate for certified teachers is set to remain at 14.5%, and the Public Education Employees Retirement System (PEERS) for classified staff is set to remain at 6.86%. Employees must work 17 or more hours per week on a regular basis to be members of PSRS and 20 hours or more to be members of PEERS.

Purchased Services:

Property, liability, and workers' compensation insurance premiums, account for a large portion of the District's purchased services. The District is currently evaluating the liability coverage with a broker for policies renewing on October 1, 2017. The overall Purchased Service category accounts for \$24.3 million or 9.9% of the total operating budget.

Materials and Supplies:

Materials, supplies and equipment account for \$28.9 million or 11.7% of the total operating budget. Materials, supplies and equipment are budgeted at the school building level and by department and are allocated on a per pupil basis at the Elementary, Middle and High School level. Departments submitted their budget proposals based upon projected needs.

Capital Outlay:

An allocation of \$12.0 million has been placed in the Capital Outlay budget. State accounting guidelines require any expenditure for tangible items costing \$1,000 or more, with a useful life of at least one year, to be accounted for in this fund. Therefore, all instructional equipment, school bus replacements, technology equipment, as well as facility upkeep and renovations are accounted for in this category.

In addition, the district will continue spending down the \$114 million in bond proceeds approved by District patrons in August 2016 to renovate North Kansas City High School, build two additional elementary schools, renovate buildings to create 6th grade centers and renovate various other buildings. The facility renovations are taking place over a 3-year period with \$82.1 million budgeted in 2017-18.

2017-18 BUDGET

**ORGANIZATIONAL
SECTION**

THE BUDGET PROCESS

The school budget is an instrument which provides a definite financial policy for the direction of business operations of the District. It provides an outline of the probable expenditures and the anticipated receipts during a specified period of time. The budget is one of the most important legal documents of a school district. It is not a static document but rather a working document that changes based on approved budget amendments throughout the year as actual financial data changes.

FINANCIAL MANAGEMENT

The Board of Education adopted a series of policies that provide direction regarding the district's budget and financial affairs that reflect the educational philosophy of the District and provide a framework in which the district's administration can effectively operate.

The budget and finance process conforms to all state and local requirements as set forth by the state constitution, state statutes, the DESE rules, and Board policies.

Good business practices necessitate keeping accurate, legal and understandable records of receipts and expenditures. It also is essential that procedures be followed to help ensure that the budget adopted by the Board of Education is effective in providing parameters for the fiscal affairs of the District.

The purpose of the district's budget and finance policies is to provide direction for a systematic process that maintains continuity from year to year and inform the public regarding the education and financial operations of the District.

PREPARATION OF BUDGET

Each year, the Superintendent of Schools is required to submit to the Board of Education for its consideration a detailed annual budget showing the estimates of income and expenditures for the ensuing fiscal year. The Board may accept, reject, modify, or request revisions of the budget, but will adopt a budget by June 30, according to statutory provisions.

By law the approved estimated expenditures for each fund cannot exceed the estimated revenues to be received plus the unencumbered beginning cash balance for the fund. After the beginning of the fiscal year, the Superintendent reviews with the Board the adopted budget in relationship to the beginning cash balances for each fund.

BUDGET IMPLEMENTATION AND TRANSFER

The annual budget governs the expenditures and obligations of all funds for the District. The Superintendent/designee establishes procedures for fund management and reporting.

No funds may be spent which are not authorized by the annual budget. If an unanticipated need arises, the Board may approve the Superintendent of Schools' recommendation to (1) appropriate an amount sufficient to cover the needed expenditure from unencumbered budget surplus, provided the appropriation can be made from the proper funds or (2) revise the budget so that sufficient funds may be available for the expenditure(s), if the expenditure(s) are approved by the Board.

The District, as approved by the Board, may transfer any unencumbered balance or portion thereof from the expenditure authorization of one account to another, subject to limitations of state statutes and DESE regulations. The Superintendent establishes regulations and prescribes written procedures and forms for line-item transfers of appropriations or personnel in compliance with state law so as to provide an audit trail of all such activities.

The Chief Financial Officer prepares a monthly statement to account for each month's expenditures and the total expended to date for the fiscal year. The monthly statement includes all receipts and remaining balances for each fund account.

BUDGETED REVENUE

Local Tax Sources

In the process of preparing the annual budget, the Chief Financial Officer estimates the amount of actual local tax revenue anticipated to be raised, the rate required to produce the amount, and the rate needed to support the principal and interest payment on bonded indebtedness and general financial obligations of the District. The Superintendent recommends the appropriate tax rate to the Board of Education for approval.

If required, the Board submits to the voters a proposition for increase in the tax rate beyond the current approved level if it is deemed necessary to obtain increased revenue to meet projected District expenses. State law and Article X, Section 11C of the Missouri Constitution governs tax election procedures.

State Tax Sources

All state funds are accepted for the operation of the District as provided by entitlement, by law and through regulations of the Missouri State Board of Education of Missouri Department of Elementary and Secondary Education.

The Superintendent or Chief Financial Officer is responsible for filing all required reports and forms to obtain state funds in which the District is entitled to receive according to developed rules and regulations.

BUDGET DEVELOPMENT

Developing the annual budget for the District involves all stakeholders within the community. Input is given from the Board of Education, district administration, building administration, school staff and the general public. The process is separated into four segments: planning, preparations, adoption, and implementation. There are two objectives driving the budget process. First, the goal of the District is to provide each student with a quality education. Second, the District focuses its resources in the most efficient and effective way to support the first objective. The annual budget creates a detailed analysis of the District's revenues and expenditures and allows the administration to focus its financial resources in a manner that best supports student learning.

BUDGET PLANNING

The planning process begins in the fall of the prior school year. A calendar is developed to outline the main activities and deadlines during the budget process. The calendar is used to gauge the district's progress toward adopting a budget for the next fiscal year.

BUDGET PREPARATION

Preparation of the annual budget begins in early January as the district administration holds an initial meeting with the budget administrators within the District. A User's Guide with budget parameters is distributed with completion information, and direction is given on any updated information on the budget collection system. The District created a worksheet that assists in the budget collection system. It allows the district administration detailed information on budget requests and allows the users to provide needs assessments on all proposed budget items.

In late February / March, the district administration meets with each budget administrator on their proposed budgets, clarifying any questions concerning items entered into the worksheet. Staffing levels are also reviewed and Board approval is requested. These two steps assist in finalizing the preliminary budget.

BUDGET ADOPTION

The preliminary budget parameters are developed by the Board of Education during their workshop in January. The Board reviews the budget and workshops are held to clarify any questions concerning the budget. The Board may request modifications of the preliminary budget during these meetings or at any time prior to adopting the budget. Final adoption occurs by June 30th.

BUDGET IMPLEMENTATION

Upon approval of the budget, the Financial Department uploads the new budget into the financial software system and the budget is available to use during the next fiscal year. The budget is also posted on the district's website in an effort to provide transparency and education to the budget process.

CAPITAL PROJECTS DEVELOPMENT PROCESS

The capital projects planning process begins with the building administrators and their assessment of the building needs. Administrators and staff are surveyed periodically as to the condition of the site, building envelope, interior, mechanical systems, electrical systems, fire and safety systems, equipment, and ADA compliance requirements relevant to their respective building. In addition, work requests can be submitted by building principals to Human Resources.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

North Kansas City School District was established under the Statutes of the State of Missouri. The District operates as a “six director” district (with seven members of the Board of Education) as described in RSMo Chapter 162.

A. Fund Accounting

The accounts of the District are organized on the basis of funds or account groups, each of which is considered to be a separate accounting entity. The operations of each fund or account group are summarized by providing a separate set of self-balancing accounts that include the assets, liabilities, and fund balances arising from revenues and expenditures. The following funds and groups of accounts are used by the District: General Fund, Special Revenue Fund, Capital Project Fund, and Debt Service Fund.

B. Basis of Accounting

The measurement focus and basis of accounting determine the accounting and financial reporting treatment applied to a fund. The District’s policy is to operate its financial statements on the modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become both measurable and available. The District considers available to mean collectable within thirty days after the end of the current period. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmeasured interest on general long-term debt, which is recognized when due.

C. Budgets and Budgetary Accounting

The District follows the procedures in establishing the budgetary data reflected in the financial statements:

- 1) In accordance with Chapter 67, RSMo, the District adopts a budget for each fund of the political subdivision.
- 2) Prior to July, the Chief Financial Officer, who serves as the budget officer, submits to the Board of Education a proposed modified accrual basis budget for the fiscal year beginning on the following July 1. The proposed budget includes estimated revenues and proposed expenditures for all district funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year.
- 3) A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
- 4) In June, the budget is legally enacted by a vote of the Board of Education.
- 5) Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the board. Adjustments made during the year are reflected in the budget information included in the general-purpose financial statements. Budgeted amounts are as finally amended by the Board of Education.

D. Property Taxes and Other Receivables

Property tax revenue is recognized in the fiscal year levied and available. Sales tax revenue is recognized when collected and available. Property tax and sales tax revenues are considered available when due or past due and receivable within the current period and collected within the current period or within sixty days after year-end.

Federal and State grant aid is considered revenue when the granting agency or authority has approved the reimbursement expenditure.

E. Post-Employment Benefits

COBRA Benefits – Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the District provides healthcare benefits to eligible former employees and eligible dependents. Certain requirements are outlined by the federal government for this coverage. This program is offered for the duration of 18 months after the termination date. There is no associated cost to the District under this program.

F. Inventories

Inventories are valued at cost and consist of purchased food, supplies and donated government commodities. The cost is recorded as expenditure at the time the inventory is purchased. Reporting inventories are equally offset by a fund balance reserve, which indicates they are unavailable for appropriation.

G. Teacher Salaries

The salary payment schedule of the District requires the payment of salaries over a twelve-month period. Consequently, payroll checks are included in accrued wages on the general-purpose financial statements. This practice has been consistently followed in previous years.

2. CASH AND TEMPORARY INVESTMENTS

The District maintains a cash and temporary investment pool that is available for use by all funds except the Debt Service Fund. (State law requires that all deposits of the Debt Service Fund be kept separate and apart from all other funds of the District.) Each fund type's portion of this pool is displayed on the combined statement of assets, liabilities and fund equity as "Cash and Equivalents" under each fund's caption. Investments of the pooled accounts consist primarily of repurchase agreements, carried at cost, which approximates market. Interest income, when earned, is allocated to individual funds based upon cash and temporary balances.

A. Deposits – Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. The District's deposits are categorized to give an indication of the level of risk assumed by the District at year-end. Category 1 includes deposits that are insured or collateralized with securities held by the District or by its agent in the District's name. Category 2 includes deposits collateralized with securities held by the pledging financial institution's trust department or agent in the District's name. Category 3 includes any remaining deposits that are uncollateralized. This includes any bank balance that is collateralized with securities held by the pledging financial, or by its trust department or agent, but not in the district's name.

B. Investments – The District may purchase any investments allowed by the State Treasurer. These include (1) obligations of the United States government or any agency or instrumentality thereof maturing and becoming payable not more than five years from date of purchase or (2) repurchase agreements maturing and becoming payable within ninety days secured by U.S. Treasury obligations or obligations of U.S. government agencies or instrumentalities of any maturity; as provided by law.

3. **TAXES**

Property taxes attach as an enforceable lien on property as of January 1. Taxes bills are mailed by the County Collector's office, typically in the month of November. All unpaid taxes become delinquent January 1 of the following year. The County collects the property taxes and remits them to the District on a monthly basis.

4. **CHANGES IN LONG-TERM DEBT**

Article VI, Section 26(b), Constitution of Missouri, limits the outstanding amount of authorized general obligation bonds of a district to fifteen percent of the assessed valuation of a district (including state-assessed railroad and utilities).

5. **PENSION PLANS**

The North Kansas City School District contributes to the Public School Retirement System of Missouri (PSRS), a cost-sharing, multiple-employer, defined benefit pension plan. PSRS provides retirement and disability benefits to certificated employees and death benefits to members and beneficiaries. Positions covered by the Public School Retirement System are not covered by Social Security. PSRS benefit provisions are set forth in Chapter 169-010-.141 of the Missouri Revised Statutes.

PSRS members are required to contribute 14.5% of their annual covered salary and the North Kansas City School District is required to contribute a matching amount. The contribution requirements of members and the North Kansas City School District are established and may be amended by the PSRS Board of Trustees.

The North Kansas City School District also contributes to the Public Education Employee Retirement System (PEERS), formerly known as the Non-Teacher School Employee Retirement System of Missouri (NTRS), a cost-sharing, multiple-employer, defined benefit pension plan. PEERS provides retirement and disability benefits to employees of the District who work 20 or more hours per week and who do not contribute to the Public School Retirement System of Missouri. Certain part-time certified employees may be covered by this plan. Benefit provisions are set forth in Chapter 169.600-.715 of the Missouri Revised Statutes.

PEERS members are required to contribute 6.86% of their annual covered salary and the North Kansas City School District is required to contribute a matching amount. The contribution requirements of members and the North Kansas City School District are established and may be amended by the Board of Trustees.

6. DEFERRED COMPENSATION PLAN

The District offers its employees a choice of deferred compensation plans created in accordance with Internal Revenue Code Sections 403(b) and 457(b). The plans are available to all district employees permits them to defer a portion of their salary until future years.

Under the 403(b) and 457(b) plans, all amounts of compensation deferred, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are (until paid or made available to the employee or other beneficiary) solely the property of the employee. All amounts being deferred are required to be held in a tax-exempt trust or custodial account of annuity contract.

7. MEDICAL BENEFITS

The District utilizes BlueCross BlueShield of Kansas City for health, EyeMed for vision, and Delta Dental insurance benefits to participating employees and their families. The participating employees cover costs associated with family through payroll deductions based on their coverage election. The District's maximum liability for each employee and in the aggregate for a one-year period is limited by insurance coverage specifications.

8. INSURANCE PROGRAM

The District, like other local large metropolitan school districts, participates with independent carriers on insurance coverage for workers' compensation, general liability and property casualty insurance.

9. CONTINGENCIES

Litigation – Should any claims and lawsuits be filed against the District, it is the opinion of District management that the potential loss on all claims and lawsuits will not be significant to the district's financial statements taken as a whole and most, if not all, will be covered by the district's Errors and Omissions Insurance Policies.

BOARD OF EDUCATION POLICIES

Fiscal Year

The fiscal year is defined as beginning annually on the first day of July and ending on the thirtieth day of June following.

The district Treasurer shall not draw any check or issue any order for payment that is in excess of the income and unencumbered fund balances of the school district for the fiscal year beginning on the first day of July and ending on the thirtieth day of June following.

Budget Adoption Procedures

The Superintendent, working with the staff, shall prepare a tentative budget for the next fiscal year. This budget must be ready for Board consideration at a regular Board meeting specified by the Board. The Board may revise the items contained therein.

The Superintendent will present a proposed budget to the Board at a regular or special Board meeting before the new fiscal year begins. The Board will conduct at least one public hearing in regard to the proposed budget and taxation rate.

Purchasing Authority

The Board of Education annually adopts the budget for the school district. The adopted budget shall be the guide for the Superintendent to follow in making school purchases. The Superintendent shall have supervision of school purchasing and shall be authorized to issue purchase orders not to exceed budget limitations. Bids may also be called on purchases where, in the opinion of the Superintendent, the welfare of the schools will be served.

Budget Implementation

The adopted budget of the North Kansas City School District serves as a guide to direct and limit expenditures in the district. Overall responsibility for assuring control rests with the Superintendent, who will establish procedures for budget control and reporting throughout the district.

The total amounts, which may be expended during the fiscal year for the operating of the school district, are set forth in the budget. The total budgeted expenditure for each program is the maximum amount that may be expended for that classification of expenditures during the school year, unless a budget transfer is recommended by the Superintendent and is approved by the Board.

In cases where a proposed expenditure has not been included in the adopted budget, no action shall be taken until the Superintendent informs the Board of the need for the expenditures(s). Thereafter, the Board may follow one of two plans:

- It may appropriate an amount sufficient to take care of the needed expenditure from the unencumbered budget surplus (fund balance), provided the appropriation and expenditure can be made from the proper funds.

- The Board of Education may instruct the Superintendent to revise the budget in order that sufficient funds may be available for the expenditure(s), if the expenditures(s) are approved by the Board.

The Board will review the financial condition of the District monthly and shall require the Superintendent to prepare a monthly reconciliation statement. The statement will show the amount expended during the month, total (to date) for the fiscal year, receipts, and remaining balances. This statement will be used as a guide for projected purchasing and as a guide for budget transfers.

Budget Transfer Authority

During the budget year, the Superintendent may transfer any unencumbered balance or portion thereof, from the expenditure authorization of one account to another, subject to limitations provided by state laws and approval of the Board.

Revenues from Investment/Use of Surplus Funds

The Board authorizes the Treasurer to invest surplus school district moneys, which are determined to not being immediately needed for the operation of the school district. The Treasurer shall follow procedures established by the Board in making investments and obtaining the best interest rates possible.

Future investments may be made only in those instruments approved by, and in a method in conformity with state law including any instrument permitted by law for the investment of state moneys according to Senate Bill 581, which became effective August 28, 1992. All investment earnings shall be credited to the fund from which investments were made.

Depository of Funds

Selection of depositories may be made by bid selection in accordance with state statutes. The Board of Education may receive bid proposals from banking institutions operating within the county in which the district is located or an adjoining county.

If bids are solicited, the Board shall open the bids in a public meeting, select from among the bidders those bids which will be accepted and notify each of those bidders so selected. The Board may reject any or all of the bids.

Each depository selected shall, within ten days after its selection, post securities in accordance with Sections 110.010-.020, RSMo.

State of Missouri – K-12 Education Foundation Formula

In 2005, the Missouri State Legislature passed a new funding formula for public education. The formula changed from a tax-rate driven formula under Senate Bill 380 to a student needs based formula under Senate Bill 287. The formula was phased-in over 7 years. Funding for the formula is dependent upon appropriations from the Missouri General Legislative Assembly and final approval by the Governor. If there is any shortfall in fully funding the formula due to economic conditions, the State Adequacy Target will be prorated.

- New State Formula – SB 287
- Weighted Average Daily Attendance
- X State Adequacy Target
- X Dollar Value Modifier
- - Less Local Effort

District Profile – 2017

Known for innovation and excellence, North Kansas City Schools serves nearly 19,600 students in suburban Clay County, Missouri. Established in 1913, the school district is rich in tradition with a heritage of active engagement with the 13 communities it serves. The District has 30 schools in Kansas City's "Northland" stretching from Briarcliff to the Staley neighborhoods.

As a state and nationally accredited district, recognized for "Extraordinary Education Experiences," North Kansas City Schools prepares students to be successful in a rapidly changing, diverse world. Students are engaged through challenging, thought-provoking educational experiences to master skills and knowledge to maximize their unique potential.

All four high schools are designated "A+ Schools," allowing students who meet academic, attendance and citizenship criteria to receive two years of college tuition reimbursement from the State of Missouri. Each high school offers the Distinguished Achievement Program, which includes the Gold Medallion Diploma option, Dual Credit classes (including the Maple Woods Community College Early College Dual Diploma program), and AP courses. Students also can elect to participate in highly specialized studies through International Baccalaureate or the International Baccalaureate Career Certificate program, Cerner Scholars, Monarchs Collegiate Academy, Northland Center for Advanced Professional Studies, and the Information Technology Academy as well as an automotive technology program. In addition, North Kansas City Schools offers students extensive online learning through its e-Campus program.

From birth, children in North Kansas City Schools can begin their path as learners through Parents As Teachers and district sponsored preschool programs. Students benefit from full-day kindergarten, gifted education, 5th grade strings, middle school extended-day programs, a summer enrichment program, and elementary before-and after-school childcare. Adult learners keep their minds active and skills sharp through an array of year-round Community Education offerings.

Although North Kansas City Schools is one of the larger suburban districts in Missouri, it is known for its neighborhood schools and sense of community. Teachers, support staff and educational leaders partner with parents and communities to ensure success for learners of all ages and abilities. Seventy-one percent of teachers hold advanced degrees and, on average, have more than a dozen years of experience.

Active advisory committees and a thriving Education Foundation engage the greater community to inspire future successes. Through these ongoing partnerships, North Kansas City Schools ensures every student will have a solid academic foundation and will explore lifelong learning opportunities that lead to success beyond their formal education.

There is no limit to the amount of unrestricted monies that can be transferred pursuant to this law. Districts must make the actual transfer prior to the end of the fiscal year. Districts should consider the future needs of the Capital Projects Fund prior to determining the amount of such transfer. Commingling of funds received for a restricted federal program with local, state and/or other restricted federal funds is prohibited. The Debt Service Fund cannot be commingled with other district funds. The Debt Service Fund must be maintained as a separate bank account per Section 165.011.1, RSMo.

Unlike defeased bonds, the escrow account pays only the interest payments on the new issue and the district continues to make all of the payments on the old issue until the optional call date of the old bonds. This date is often referred to as the crossover date. Under this type of refunding, the payments to be made by the district will not change until the crossover date.

Debt Service Balance Transfer - If a balance remains in the Debt Service Fund after the total outstanding bonded indebtedness has been paid, that balance may be transferred to the Capital Projects Fund. If the district elects not to make this transfer, the balance would be left in the Debt Service Fund for subsequent debt service requirements. Section 165.011, RSMo.

Defeased Refunding - A type of debt refunding in which the proceeds of the new issue are placed into an escrow account and used to pay all of the portion of the old issue being refunded (principal and interest) up to and including the call date. This results in a defeasance of the portion of the debt being refunded as the old issue becomes the responsibility of the escrow account trustee and the district begins paying on the new issue immediately.

Deferred Charges - Expenditures that are not chargeable to the fiscal period in which made but are carried on the asset side of the balance sheet pending amortization or other disposition. Deferred charges differ from prepaid expenses in that they usually extend over a long period of time and may or may not be regularly recurring costs of operation.

Discretionary Grant - Grant funds made available usually for a predetermined purpose and awarded to an applicant based on the judgment of the grantor.

District's Levy - Refers to the tax levy extended onto the tax books and assessed to the taxpayers for a school district and includes the rate for all funds including the Debt Service Fund.

DNR Energy Loan - Amounts received from the state for energy conservation programs pursuant to Sections 160.300-160.328, RSMo.
