CODING, ROBOTICS & VIDEO GAME DESIGN FOR KIDS

www.codefu.co/tampa

@ RIVERVIEW ACADEMY OF MATH & SCIENCE

CodeFu students embark on the path of becoming computer programming experts by learning the front & back-end of video game design, app development, robotics + more! Whether they're learning block based code or more advanced languages such as Python, HTML, JS etc., our students will have created a number of different challenging games & programs throughout their coding journey.

**Upper Dojo: 3rd-8th
Tuesdays**

**Mini Dojo: K-2nd
Fridays**

**3 Seasons
Fall, Winter & Spring**

CODING/COMPUTER PROGRAMMING

Back-end game coding skills;
Block Coding, Python, JS, C++, HTML

ROBOTICS CODING

Art & Play Using Tangible Coding

VIDEO GAME DEVELOPMENT

Constructing full-scale games using
front-end skills, animation and design.
