

## Creative Digital Skills

Digital skills have proven to be a must-have in today's world. The NOVA ES students will have the opportunity to explore the creative side of digital skills starting this semester. After a brief introduction into the digital world, the students will continue learning two software programs: **Adobe Photoshop and Adobe Illustrator**. During these classes students will expand and learn new ways of expressing their creativity while also gaining technical knowledge. By the end of the course each student will be able to produce a personal project (e.g. birthday card, movie poster, postcard etc.)

### Course objectives:

- Digital literacy
- Design principles
- Creative thinking | Critical thinking
- Attention to detail
- Time management

**Grade:** 3rd - 5th

**Number of students:** 10

The classes will be held in the computer laboratory on campus. Each student will have access to a computer equipped with the software.

**Instructor:** Bojana Shutarev
