

Estimated Schedule of Pest Control Inspections & Potential Applications

May 2022 – April 2023

ISD #728 has contracted with Guardian Pest Control Services for the district's pest control program.
Guardian makes service visits as follows:

First Wednesday of the Month

District Office
Twin Lakes Elementary

Second Wednesday of the Month

All Zimmerman Schools

Third Wednesday of the Month

All Rogers Schools
Otsego Elementary

Fourth Wednesday of the Month

District Service Center
Elk River High School
Elk River Middle ALC
Handke Family Center
Ivan Sand Community High School
Lincoln Elementary
Meadowvale Elementary
Parker Elementary
Prairie View Elementary and Middle School
Salk Middle School
VandenBerge Middle School

The service includes inspection and monitoring with glue monitors for insects and multi-catch traps for mice in the food storage areas and near entrances. If necessary, pesticides may be applied during these visits. Guardian makes every effort to apply pesticides after school hours, on weekends, or on non-school days.

The following is a list of the pesticides generally used by Guardian Pest Control Services if a problem arises:

- Advance Ant Bait Station
- CB-80 Extra (insecticide)
- Contrac All-Weather Blox (rodenticide)
- Demand CS (insecticide)
- Termidor SC (insecticide)

NOTE: These products are only used as needed and upon district approval.

ISD #728 has contracted with TruGreen for the district's lawn weed control program.

The TruGreen schedule is as follows:

May 7-8, 2022	Otsego, Rogers, Zimmerman	Fertilizer and Broad-Leaf Weed Control
May 14-15, 2022	Elk River	Fertilizer and Broad-Leaf Weed Control
May 16-20, 2022	Weather delay alternate dates	
July 5-9, 2022	All Locations	Fertilizer and Spot Weed Control
Sept. 10-11, 2022	Otsego, Rogers, Zimmerman	Fertilizer and Spot Weed Control
Sept. 17-18, 2022	Elk River	Fertilizer and Spot Weed Control
Sept. 19-23, 2022	Weather delay alternate dates	

The service includes inspection and monitoring for nuisance weeds and insects on the building grounds, as well as fertilizer application. Herbicide is applied during the spring dates. If necessary, herbicides may also be spot-applied to remaining weeds during the summer and fall dates listed. TruGreen makes every effort to apply necessary applications of herbicides after school hours when the grounds are not occupied.

The following is a list of the herbicides generally used by TruGreen as needed:

- Dimension 2EW
- Escalade 2
- Tri-Power Selective Herbicide
- TruPower 3 Selective Herbicide
- Barricade 4FL
- Razor Pro
