November 20, 2017

To the Citizens and Members of the Board of Education Mapleton Public Schools (Adams County School District No. 1) Thornton, Colorado

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of Mapleton Public Schools for the year ended June 30, 2017.

Colorado State law requires all public school districts to publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with Generally Accepted Accounting Principles (GAAP) and audited in accordance with Generally Accepted Auditing Standards (GAAS) by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of Mapleton Public Schools, Adams County, Colorado, for the fiscal year ended June 30, 2017.

This report consists of Mapleton Public Schools administration's representations concerning the finances of the District. Consequently, the District's administration assumes full responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the entity's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Mapleton continues to maintain an efficient and streamlined system. As an organization, we believe the cost of internal controls should not outweigh their benefit. As a result, the District's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds.

The District's financial statements have been audited by RubinBrown, LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2017, are free of material misstatement. The independent audit involved examining on a test basis evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Based upon the audit, the independent auditor concluded, that there was a

reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2017, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are presented in the compliance section of this document.

The District's Comprehensive Annual Financial Report incorporates the reporting model prescribed by the Governmental Accounting Standards Board (GASB) Statement 34. This approach emphasizes the use of District-wide financial statements, in addition to fund financial statements, enabling the reader to obtain an overview of the District's financial position and results of operations.

The notes to the financial statements, including a summary of significant accounting policies of the District, are considered to be an integral part of the financial statements and contain certain information not shown on the face of the financial statements that is required to be disclosed under generally accepted accounting principles. Readers of the financial statements are encouraged to thoroughly review the information contained in the notes in connection with their overall review of the financial statements.

Generally Accepted Accounting Principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement Management's Discussion and Analysis and should be read in conjunction with it. This discussion and analysis can be found immediately following the Independent Auditor's Report on pages 1 and 2.

Profile of the School District

Mapleton Public Schools is one of seven school districts in Adams County, Colorado. At 25 square miles, it is one of the smallest districts in Adams County and is located in the southern section of the county. Ninety-five percent of the land within the District boundaries is considered fully developed.

The District is bordered on the east by Adams County School District No. 14 (Commerce City), on the west by Adams County School District No. 50 (Westminster), on the north by Adams County School District No. 12 (Northglenn-Thornton), and on the south by Denver Public Schools. The District is centrally located in the Denver metropolitan area with major transportation routes bisecting the district. The northern third of Mapleton Public Schools is within the boundary of the City of Thornton, while the southern two-thirds are located in unincorporated Adams County. The

portion located in Thornton is primarily residential, while the southern portion of the District is comprised of light to heavy industry.

Mapleton Public Schools is governed by a five-member Board of Education (the Board), whose members are elected by the qualified electors within the District's boundaries. Board of Education members have general duties that empower them to employ a Superintendent of Schools and approve the compensation of all personnel necessary to maintain the operations and carry out the educational programs of the District, to identify attendance boundaries, to establish annual budgets, to determine the educational programs to be carried on in the schools of the District, and to prescribe and approve the textbooks of any course of instruction or study in such educational programs. The District receives funding from local, state and federal government sources and must comply with the requirements of these funding sources.

The District has reviewed its reporting entity definition in accordance with the GASB, which defines the governmental reporting entity. This report includes all funds, organizations and activities for which the Board has oversight responsibility as further described in Note 1 in the Notes to Financial Statements.

Mapleton Public Schools provides a full range of traditional and non-traditional education programs and services. These programs and services include preschool, elementary and secondary curriculum offerings at the college preparatory level, as well as a broad range of co-curricular and extracurricular activities; special education programs; gifted and talented programs; and student support services. In school year 2006-07, the District completed its implementation of the *Small by Design/Choices for Learning* strategic reform plan, which eliminated internal attendance boundaries and allowed parents to choose from a variety of schools across the District. Today, choices include International Baccalaureate schools, a University Partnership school, Expeditionary Learning schools, Coalition of Essential Schools, Early College, Big Picture, Science, Technology, Engineering, and Math (STEM), and other choices. The District eliminated stand-alone middle school in favor of a combination of K-6, K-8 and K-12 schools. Transportation is provided to students living more than one mile from their school of choice.

Many of the school buildings in Mapleton were built between 1954 and 1962 with major renovations to the Welby school building in 2005 and to York International in 2011. The Skyview campus was completely renovated in 2011 with new buildings that house Academy High School and Clayton Partnership, Mapleton Early College (MEC) and Mapleton Expeditionary School of the Arts (MESA), as well as North Valley School for Young Adults (NVYAS) and a community library. As part of the successful 2016 District bond campaign, Adventure K-6 will be demolished after the construction of a new facility, the Global campus is being completely reimagined with the eventual demolition of the old building and the new construction of Global Primary, Global Intermediate, and Global Leadership Academy. The District was able to purchase and renovate the old Westwood College building on Broadway which is now home to Big Picture College and Career Academy, Administration, and the future home of the District's Career X program. An addition and renovation is currently underway for Welby Community School, the Skyview campus received a new track and field and 2 new schools are planned at Midtown and Homeplace. Several other schools will have renovations or replacements depending on additional funding through the Building Excellent Schools Today (BEST) grant program with the state of Colorado.

During the 2016-2017 school year, the District served 8,822 students in 17 District schools and one online contract school.

Major Initiatives

Mission:

The mission of Mapleton Public Schools, a community that embraces its children through high performing schools of choice, is to ensure that each student is empowered to achieve his or her dreams and contribute to his or her community and world through an education system distinguished by:

- A resourceful community working together to ensure that no obstacles impede student success;
- A tenacious pursuit of rigorous academics and personal development;
- An effective, student-focused and compassionate staff;
- Small family-like environments where relationships inspire achievement;
- Practices that honor the deeply-rooted history and diversity of our community.

School District Objectives

Mapleton Public Schools, through an exhaustive strategic planning process that included teachers, administrators, board members, parents and business leaders, developed the following objectives and strategies for FY 2016-17

- One hundred percent of Mapleton students will meet or exceed established expectations on any assessment approved by the District.
- One hundred percent of our students are experiencing success in the pursuit of their personal goals during and beyond their years in Mapleton Public Schools.
- **All students** will possess the character and personal attributes necessary to be responsibly contributing citizens.

School District Strategies

Strategy I: We will ensure the personal and academic achievement of all students.

Strategy II: We will ensure all staff are exceptional, caring, and capable of meeting our mission and objectives.

Strategy III: We will ensure all students possess the character and personal attributes necessary to realize their personal goals and potential.

Strategy IV: We will ensure motivating, supportive, and safe learning environments for all students.

Strategy V: We will establish and maintain effective internal and external communication.

Strategy VI: We will obtain and make maximum use of community support and involvement.

Strategy VII: We will enhance and align facilities to fulfill the mission of Mapleton Public Schools.

Strategy VIII: We will create and maintain an exemplary image of Mapleton Public Schools both internally and externally.

Factors Affecting Financial Condition

According to the Colorado Legislative Council's economic and revenue forecast for September 2017, the U.S. and Colorado economies are expected to follow a trajectory of moderate to steady growth through 2019. However, the national economy has structural dynamics that are now acting as constraints on growth. The most significant of these is the accelerating rate of demographic change. Thus far, the retirement by baby boomers has dampened wage growth and suppressed inflation. These effects will become more significant as additional workers leave the labor force. This is expected to peak in the early 2020's. The Federal Reserve has signaled its intention to incrementally tighten monetary policy, both with respect to interest rates and its balance sheet, by the end of the year. The difficulties associated with normalizing monetary policy at this point of the business cycle raise downside risks to the forecast, along with a fragile international economic expansion uncertain fiscal policy, and broader capacity constraints. These risks suggest that a recession is possible within the current forecast period.

Colorado's economy is slated to remain one of the strongest in the country. The state's unemployment rate is among the nation's lowest, contributing to high consumer confidence and more wage pressure than elsewhere. Additionally, Colorado's diverse collection of businesses make the state better equipped to weather shocks to individual industries. Increases in Front Range home prices have begun to slow and are expected to moderate further over the forecast period. Flattening prices confirm most economists' expectations that the torrid pace of appreciation in the Denver metro area in recent years is unsustainable. There is also a risk that real estate is presently overvalued and that prices will fall, a possibility that would sap currently high levels of consumer confidence if borne out. Colorado rental vacancies have also increased sharply after bottoming out last year.

Overall, the labor market in the Denver region remains healthy. Job gains have slowed reflecting population in-migration and an increasingly limited labor supply, which is expected to put upward pressure on wages. Contributing to slower population growth, rapid area home and rental price appreciation over the past five years has priced many workers out of the market and has pushed housing developments and commuters into surrounding areas. This phenomenon could be contributing to the enrollment growth in Mapleton. Following six years of strong gains, construction activity has leveled off in the metro Denver region. Residential permits have fallen in 2017 but remain at pre-recessionary highs, propped up primarily by strong multi-family building in the region.

Revenue in Colorado's state general fund that is subject to TABOR, is expected to fall short of the Referendum C cap by \$435.9 million. Exceeding this cap would trigger a TABOR refund obligation. Preliminary data indicate that a TABOR refund obligation is not expected through FY 2019-20, which is the end of the forecast period.

The Consumer Price Index for all Urban Consumers (CPI-U) for the Denver-Boulder-Greeley, Colorado metropolitan area is projected to increase for 2018 to 3.2 as estimated by the Colorado Legislative Council.

According to the Adams County Assessor, Mapleton's 2017 property values increased 20 percent, from \$569.2 million to \$682.5 million.

Mapleton continues to see growth in the number of students enrolled. In 2016-17 Mapleton Public Schools grew by a headcount of 91 students and in 2017-18, the unofficial October count shows growth in headcount of approximately 150, all of which are attributed to the core district. According to Adams County Economic Development Inc., Adams County will be one of the fastest growing counties in Colorado for the next 20 years. A study by Oxford Economics examined county level data to identify trends in growth and economic diversification. Suburban counties will likely have a large number of millennials, meaning suburban areas would begin growing faster than metropolitan areas. Adams County ranked No. 8 on the national list for strongest economic growth and was the only Colorado county that made the top nine.

There are four major projects impacting Adams County with FasTracks directly impacting Mapleton specifically. Construction of the North Metro Rail Line, an 18.5-mile-long commuter rail line, is well under way and is expected to run from Denver's Union Station through other communities into Thornton along 88th Avenue with a major stop adjacent to Mapleton Public Schools' Skyview Campus. Along with the rail extension into the community, an 88th Avenue station stop is proposed which is expected to include landscaping, plaza/walkway and a parking structure. Plans have also been proposed to build a mixed-use community adjacent to the rail station to include single-family homes, restaurants, and shopping. The redevelopment of this area and the properties east of the rail line will further reinvigorate the area. An additional stop is being developed near 104th and Steele which is also within the Mapleton boundaries and within walking distance of the proposed future home of Explore K-8. McStain Neighborhoods is planning a development of both multi and single family homes in the area.

Midtown, a new residential development, continues to be developed along West 68th Avenue and Pecos Street within the Mapleton Public Schools boundary. The 184-acre parcel, located 5 miles from downtown Denver, was vacant in unincorporated Adams County for many years. A new neighborhood of 850 energy efficient homes, priced from the low \$300,000s to \$700,000 plus, is partially occupied with new homes and businesses steadily being added. The neighborhood plans include a 47-acre park, a community center, community gardens, and an off-leash dog park. The development boasts that it is within walking distance to the future Light Rail Gold Line and Northwest Line that are expected to be completed in 2018. The development is expected by Adams County to deed or provide land to Mapleton Public Schools for a school site to serve the anticipated influx of students.

At the community's request, Mapleton Public Schools Board of Education placed a mill levy override and a \$150 million bond measure on the November 8, 2016 ballot. The mill levy, which will raise \$1 million the first year, \$2 million the second, and \$3 million each year after that, will be used to enhance classroom materials and equipment; create a high school career technology program; help maintain both existing and new school buildings and grounds; and attract and retain highly-qualified staff to work with Mapleton students. The bond proposal is a facilities reinvestment plan that will pay for replacements, renovations, and/or repairs to nearly every school in Mapleton. The Building Excellent Schools Today (BEST) Board and Colorado Board of Education approved Mapleton for a matching grant in the amount of \$6.6 million that will help replace the Adventure Elementary building. Many of the District's schools are more than 60 years old and in dire need of repair. It will also fund the construction of new schools which are planned

in the Midtown development and in the northern area of the District. Mapleton voters have approved both the mill levy override and the bond proposal. This means the District will be able to utilize the \$6.6 million it received from the BEST program.

District Funding

District funding is largely dependent upon enrollment. The table below outlines the school name, grade levels served, and enrollment as of the official count date in October 2016.

School	October 2013 Enrollment	October 2014 Enrollment	October 2015 Enrollment	October 2016 Enrollment	October 2017 Enrollment Projected
Achieve Academy (PK-8)	520	551	520	564	551
Adventure Elementary (PK-6)	415	452	399	408	372
Clayton Partnership School (K-8)	484	488	473	459	459
Explore Elementary (PK-6)	425	412	426	419	421
Welby Community School (PK-6)	284	259	266	253	250
Meadow Community School (PK-8)	514	529	508	510	504
Monterey Community School (PK-8)	471	471	488	484	481
Valley View (K-8)	483	485	452	438	428
Global Primary Academy (PK-3)	N/A	N/A	N/A	227	251
Global Intermediate Academy (4-8)	N/A	N/A	N/A	195	225
Global Leadership Academy (9-12)	N/A	N/A	N/A	199	244
Global Leadership Academy (PK-12)	600	592	646	N/A	N/A
York International School (K-12)	748	765	734	757	774
Mapleton Early College (9-12)	220	253	273	245	249
Big Picture College and Career (9-12)	N/A	N/A	N/A	92	154
Mapleton Exp. School of the Arts (7-12)	616	583	650	638	676
Academy High School (9-12)	379	382	404	435	447
North Valley School	88	49	72	73	78
Connections Academy (K-12) Online	2,161	2,375	2,420	2,426	2,344
New America Charter School (9-12)	N/A	N/A	N/A	N/A	N/A
Totals*	8,408	8,646	8,731	8,822	8,908

From FY 2012-13 to FY 2017-18, core District enrollment has increased by 5 percent (excluding Connections Academy). Fiscal year 2017-18 un-audited October count enrollments show a moderate amount of growth in Mapleton's core enrollment of about 150 pupils.

District Financial Rating

The District maintains an Aa2 rating through the Colorado State Intercept Program and underlying ratings of A+ from Standard and Poor's and Aa3 from Moody's.

District Budget Process

The District begins the budget development process in August of each year when state assessment results become available. Preliminary discussions are held to prioritize distribution of additional resources for sites in need. The budget process is continued in January by updating multi-year projections based on new assumptions including enrollment projections. February and March are

used to review funding needs and prioritize allocation of resources. Budget information is then distributed to schools and departments.

In the meantime, District administration conducts negotiation sessions with recognized employee groups. Licensed staffs are covered under a Master Agreement, whose bargaining unit is the Mapleton Education Association. Other staff groups negotiate on a more informal "meet and confer" process. Once negotiations are finalized and ratified by members and approved by the Board of Education, budget figures are adjusted for the new salaries.

The proposed budget book is produced after the schools and departments have completed their budgets. The proposed budget is reviewed by the District Accountability Advisory Committee and in May the Board of Education receives a copy of the proposed budget book. Within ten days after submission of the proposed budget, a public hearing notice is posted. The public budget hearing takes place in June followed by adoption of the final budget by the Board of Education.

Capital expenditures must also align with District strategic plans and/or school improvement plans. Capital equipment and site improvement requests are submitted through a zero-based budget process. Schools must show alignment of capital purchases with school improvement plans. Other District capital improvements are managed through the maintenance and operations department.

Financial Policies

Detailed descriptions of the District's accounting policies are contained in the Notes to the Financial Statements on pages 25-55 of this report. These policies describe the basis of accounting, funds and accounts used, valuation policies for inventories and investments, capital assets, and other significant accounting information.

The District maintains a number of budgetary controls. The objective of budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the District Board of Education. Activities of all funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level.

The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Unencumbered amounts lapse at year-end.

Awards and Acknowledgements

Mapleton Public Schools received the Association of School Business Officials International (ASBO) Certificate of Excellence in Financial Reporting for the fiscal year ended June 30, 2016. This award certified that the Comprehensive Annual Financial Report for the fiscal year ended June 30, 2016, substantially conformed to the principles and standards of financial reporting as recommended and adopted by ASBO. The award is granted only after an intensive review of

financial reports by an expert panel of certified public accountants and practicing school business officials.

The Government Finance Officers Association of the United States and Canada (GFOA) also awarded a Certificate of Achievement of Excellence in Financial Reporting to Mapleton Public Schools for its comprehensive annual financial report for the fiscal year ended June 30, 2016. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Excellence or a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, the contents of which conform to program standards. The CAFR must satisfy both Generally Accepted Accounting Principles and applicable legal requirements.

Certificates from both ASBO and GFOA are valid for a period of one year only. We believe our current report continues to conform to program requirements and we will submit to both ASBO and GFOA for review.

We want to thank the Board of Education for their leadership and support to the students, staff, and community of Mapleton Public Schools.

We extend special thanks to our independent certified public accountants, RubinBrown LLP, and their staff for their professional approach in the performance of the audit, and their assistance in the preparation of the CAFR.

Finally, we would like to offer special thanks to Ms. Deb Braa, Mr. Michael Everest, Ms. Sarah Martinez and the individuals who are employed in the District's Business Services Department. Their efforts and contributions made completion of the audit and preparation of this CAFR a success.

Board of Education Adams County School District No. 1 Denver, Colorado

Report On The Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Adams County School District No. 1 (the District) as of and for the year ended June 30, 2017 and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility For The Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the District as of June 30, 2017, and the respective changes in financial position thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 17, the budgetary comparison information on pages 56 through 60, the schedule of the District's proportionate share of the net pension liability and the schedule of the District's contributions to the pension plan on pages 61 through 62 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

$Supplementary\ Information$

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, individual fund financial statements and schedules, statistical section, the Colorado Department of Education Auditor's Electronic Financial Data Integrity Check Figures report and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The individual fund financial statements and schedules, the Colorado Department of Education Auditor's Electronic Financial Data Integrity Check Figures and the schedule of expenditures of federal awards are the responsibility of management and were derived from, and relate directly to, the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund financial statements and schedules, the Colorado Department of Education Auditor's Electronic Financial Data Integrity Check Figures and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required By Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 20, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

November 20, 2017

RulinBrown LLP

Management's Discussion and Analysis

As management of Mapleton Public Schools (District), we offer readers of the District's Comprehensive Annual Financial Report (CAFR) this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2017. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i-ix of this report.

Financial Highlights

- The total assets of the Primary Government, including land, buildings, equipment and deferred outflows of resources, were less than its total liabilities and deferred inflows of resources, including long term bonds payable, at the close of FY 2016-17 by \$80,873,122 (net position). The Primary Government's total net position decreased by \$35,856,581. Overall assets increased by \$134,334,683.
- At the close of the current fiscal year, the District's governmental funds reported a combined ending fund balance of \$142,391,512, an increase of \$119,657,896 from the prior year. The majority of this increase was in the Capital Projects/Building Fund due to the issuance of \$111.6 million of the \$150 million voter approved bonds. The General Fund balance decreased by \$333,631 in FY 2016-17 due to a budgeted spenddown for specific District initiatives.
- The governmental funds reported combined unassigned fund balance of \$2,929,572.
- At the end of the fiscal year, unassigned fund balance for the General Fund was \$2,935,809 or 5.3% of the total General Fund operating revenue not to include Self-Insurance or the Colorado Preschool Program Fund. Operating revenue consists of all District revenue minus the revenue passed through to Connections Academy (on-line school), which for FY 2016-17 totaled \$16,511,971. The total Nonspendable/Restricted/Committed/Assigned fund balances for FY 2016-17 are \$5,677,132, inclusive of restrictions of \$207,486 for the Insurance Fund and \$54,458 for the Colorado Pre-School Program Fund. Other restricted fund balances in governmental funds include: \$1,730,016 in the Capital Reserve Fund, \$118,693,344 in the Building Fund, \$1,851,085 in the Food Service Fund and \$11,504,126 in the Bond Redemption Fund.
- At June 30, 2017, \$2,460,021 of the \$8,612,941 fund balance of the General Fund was restricted for the emergency contingency required by Article X, Section 20 of the Colorado Constitution.
- The governmental activities total long-term debt excluding net pension liability increased by \$121,022,902 (333.3%) in FY 2016-17 due to the issuance of \$111.6 million in voter approved bonds.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to Mapleton Public Schools' basic financial statements. The District's basic financial statements are made up of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of Mapleton Public Schools' finances in a manner similar to a private-sector business. They consist of two statements:

The Statement of Net Position presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Mapleton Public Schools is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported on a full accrual basis; or in other words, as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenditures are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of Mapleton Public Schools that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of Mapleton Public Schools include instruction and support services of the District. As of July 1, 2014, the business-type activities of Mapleton Public Schools no longer include Child Nutrition Services. The activities in this fund were relocated to fund 21 which is a special revenue fund.

The government-wide financial statements can be found on pages 18-19 of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Mapleton Public Schools uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: *governmental funds, proprietary funds,* and *fiduciary funds*.

Governmental Funds. Governmental funds account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources

available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenue, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Mapleton Public Schools maintains six individual governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenue, Expenditures, and Changes in Fund Balances for the General Fund, the Debt Service Fund, the Capital Reserve Fund, the Food Service Fund, the Building Fund and the Grants Fund, because all are considered to be major funds.

The governmental fund financial statements can be found on pages 20-22 of this report.

Proprietary Funds. Mapleton Public Schools maintains one type of proprietary fund. *Internal service funds* are accounting devices used to accumulate and allocate costs internally among Mapleton's various functions. The District uses an internal service fund to account for its risk-related activities. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. For reporting purposes, these activities are included with the General Fund. Mapleton previously reported its Food Service fund in an enterprise fund; however, as of July 1, 2014, it accounts for these activities in a special revenue fund.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support Mapleton Public Schools' own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The Fiduciary Fund financial statement can be found on page 23 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the basic financial statements can be found on pages 24-55 of this report.

Other Information. Mapleton Public Schools adopts an annual appropriated budget for all funds. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget. The combining statements referred to earlier, in connection with non-major governmental funds, are presented after the notes to the financial statements.

Government-wide Financial Analysis

As noted earlier, *net position* may serve over time as a useful indicator of the District's financial position. In FY 2016-17, the District's assets were less than its liabilities by \$80,873,122. In FY 2015-2016, the District had a net position of (\$45,016,541) a decrease of \$35,856,581. Explanations for the change in net position are found below.

Governmental Activities. Governmental activities decreased the District's net position by \$35,856,581. Key elements of governmental activity are as follows:

- Total Governmental Activities Program, General, and Capital Revenue increased by \$4,460,747 from FY 2015-16 to FY 2016-17.
- The increase within the Capital Grants and Contributions column, is directly attributed to the Building Excellent Schools Today (BEST) grant which was beginning to be utilized

in FY 16-17. In general revenues, the District realized a significant increase in the amount property taxes collected due to the passage of the bond and mill-levy override. The District saw on overall increase in assessed value of 13.4% in the 2017 collection year and an increase of over \$400k in specific ownership tax collections. The remainder of the increase is attributed to higher investment earnings due to bond investments. Some of the gain is offset by a decrease in the gain on sale of assets attributed to the sale of the Old Mapleton property in the last fiscal year. The Adams County Assessor's Office reported an increase in assessed valuation for Mapleton of \$67,453,350 which is approximately 13.4%. The preliminary assessed valuation for calendar year 2018 shows an increase of \$112,804,360 or 19.8%.

- Primary government expenses for FY 2016-17 were \$132,323,813, an increase of \$43,664,927 or 49.2% from FY 2015-2016 which is mostly attributed by the increase in unfunded pension liability for all staff.
- Instructional expenses increased by \$27,286,178 or 54% on a governmental wide basis. This increase is also due to the unfunded pension liability for educational staff members. A small portion of the increase is due to instructional spending related to the pupil count increase and incremental salary and benefits for instructional employees.
- Primary government supporting services expenses increased by \$13,940,884 or 38.2% also attributed to the unfunded pension liability for support staff.
- The Governmental Grants fund expenditures vary from year to year based on award amounts. Expenditures in the Capital Reserve fund increased by \$8,482,239 due to renovation of the newly acquired Broadway Building which houses Big Picture College and Career Academy as well as non-operational administration and the future home of the District's Career X vocational education program.
- The amount the District charges for services was \$900,788, an increase of 35.2% from FY 2015-2016.
- The federal and state governments subsidized certain programs with operating grants and contributions totaling \$11,858,368 an increase of 2.5% from FY 2015-2016. The District is in year 2 of receiving funds from the Tiered Intervention Grant for Global Intermediate and Global Leadership Academy which contributed to this increase.
- Most of the District's governmental activities were financed by District and state taxpayers. General revenues for governmental activities consist of \$37,590,554 in local revenues including property taxes and \$45,613,941 of state revenues including unrestricted state equalization based on the statewide education aid formula.

Business-Type Activities. After the reclassification of the District's Food Service Fund to a Special Revenue Fund, the District no longer reports business-type activities.

Financial Analysis of the Governmental Funds

Governmental Funds. The focus of Mapleton Public Schools' governmental funds is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing Mapleton's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of the end of FY 2016-17, Mapleton Public Schools' governmental funds reported a combined ending fund balance of \$142,391,512, an increase of \$119,657,896 or 526%. The largest contributing factor is the addition of the Building Fund after the sale of \$111.6 million in voter approved bonds. Another significant increase is within the Bond Redemption Fund. The additional levy that local voters approved, collected additional funds for the principal and interest payments on the new bond. The Capital Reserve Fund balance was reduced by \$5 million, due to the planned expenditures related to the new Broadway Building. In the District's General Fund, only the restricted items are protected in un-expendable budget lines (Multi-Year Contracts, Emergency Reserves, etc.). The remaining unassigned fund balance is distributed throughout the District budget in accounts that are expendable or held as contingency.

General Fund

Revenues

The General Fund is the major operating fund of Mapleton Public Schools, providing the majority of the resources for educational and support programs. Revenues for the General Fund totaled \$75,736,259 before transfers in FY 2016-17. The following table reflects the amount of revenue from various sources:

General Fund Revenues:	FY 2017	FY 2016	Amount of	Percent of Change
			Change	
Local Property Taxes	20,604,152	18,514,315	2,089,837	11.3
Specific Ownership Taxes	2,356,761	1,908,133	448,628	23.5
Other Local	2,573,546	2,035,103	538,443	26.4
State of Colorado				
Equalization	45,613,941	46,215,333	(601,392)	(1.3)
Other State	3,412,227	3,614,724	(202,497)	(5.6)
Federal- Title I	1,175,632	1,092,788	82,844	7.5
Totals	75,736,259	73,380,396	2,355,863	3.2

Property Taxes. The calendar year 2017 General Fund property tax revenues were based upon a levy of 36.739 mills applied against an assessed valuation of \$569,244,410. The 2016 mill levy was 36.518 mills applied against an assessed valuation of \$501,791,060. Collection amounts remained steady at 98.5%.

Specific Ownership Taxes. Specific ownership tax is applied to the fair value of vehicles registered in Colorado. The tax is collected when vehicle owners renew their vehicle registrations each year. Last year collections increased by \$406,118 and this year increased by \$448,628 or 23.5%.

State Equalization. State equalization revenue for kindergarten through 12th grade education is the primary revenue source for the General Fund. Payments are received monthly at generally 1/12th of the annual state estimated revenue. Total state equalization payments decreased by \$601,392 or 1.3% in FY 2016-17 due to the increased local property tax funding as the result of rapidly improving assessed value in the District. The District received more funding from local share; therefore, the state equalization amount was less. FY 2010-11 marked the end of the provision in Amendment 23 of the state constitution which required that base funding for K-12 education increase by the rate of inflation plus 1%. The base funding will continue to increase

by the rate of inflation annually. Inflation for the Denver/Boulder metro area was estimated at 2.8% for CY 2016. However, FY 2016-17 marks the eighth year that the state has applied the "Negative Factor" to the funding formula. In 2016-17, these reductions amounted to approximately 11.5% of the amount the District was supposed to receive. This equates to more than an \$8 million reduction to Mapleton.

Education of the Handicapped. The majority of the District's revenue for education of disabled students is received in the fall of each year. Revenue received in FY 2016-17 was \$1,639,632 which was an increase of \$60,001 over FY 2015-2016.

Other State Sources. Other state sources consist of state English Language Proficiency (ELPA) revenue and transportation reimbursement revenue. Revenue received in FY 2016-17 for ELPA was \$781,041. Revenue received for the transportation reimbursement was \$501,054.

Expenditures

Expenditures in the General Fund, including the accrual for teacher salaries and benefits, totaled \$74,349,063 in FY 2016-17. This represents an increase of 5.6% from FY 2015-2016. The largest increase is recognized in instructional expenditures which included salary and benefit increases for certified staff along with the additional costs associated with the growth in pupil count.

General Fund Expenditures	FY 2017	FY 2016	Amount of Change	Percent of Change
Instruction	45,672,320	43,292,140	2,380,180	5.5%
Pupil Services	2,999,661	2,697,964	301,697	11.2%
Instructional Support	2,853,500	2,648,660	204,840	7.7%
General Administration	2,584,436	2,774,563	(190,127)	(6.8%)
School Administration	5,082,242	4,934,685	147,557	3.0%
Business Services	2,314,028	2,314,947	(919)	-
Operations and Maintenance	5,453,175	5,274,148	179,027	3.4%
Student Transportation	2,256,538	2,054,872	201,666	9.8%
Central Support	3.393.221	2,726,710	666,511	24.4%
Other Support	606,137	634,837	(28,700)	(4.5%)
Community Services	1,004,300	840,933	163,367	19.4%
Capital Outlay	81,084	177,556	(96,472)	(54.3%)
Debt Service	48,421	37,061	11,360	30.6%
Totals	74,349,063	70,409,076	3,939,987	5.6%

Transfers to Other Funds. During the year, the General Fund transferred \$38,586 to the Food Service Fund to cover uncollectable meal charges. The per pupil requirement for transfer to the Capital Reserve fund is no longer required; however, the General fund allocated \$1,748,541 of property tax revenues to the Capital Reserve Fund.

OTHER MAJOR FUNDS

Food Service Fund

The Food Service Fund's balance increased by \$252,402 in FY 2016-17. The department is anticipating a further spenddown of its reserves in the coming fiscal year as new equipment is purchased for various sites.

Bond Fund

The Bond Redemption Fund's balance increased by \$6,081,357 in FY 2016-17. The mills were adjusted to compensate for the payment of the GO Series 2017 Bond principal and interest payment which began in FY 2017. The revenue in this fund can also vary slightly due to percentage of property tax actually collected.

Governmental Grants Fund

The Grant Fund's balance has remained at \$0 for FY 2016-17. Activities from the Early Childhood Partnership of Adams County (ECPAC) were relocated from fund 73 to the Governmental Grant fund beginning in FY 2015.

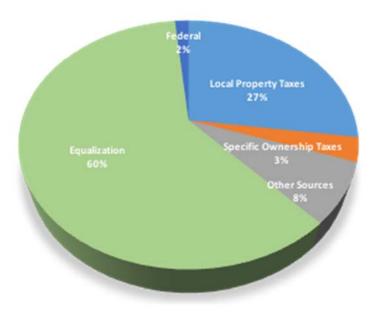

Capital Reserve Fund

The Capital Reserve Fund's balance decreased by \$5,035,576 in FY 2016-17. This was due to the planned expenditures related to the new Broadway Building. The General Fund allocated \$1,748,541 of Property Tax revenue to the Capital Reserve fund to address the capital needs of the District in FY 2016-17.

General Fund Budgetary Highlights

For audit purposes, the General Fund includes funds 10, 18, and 19. In the annual budget document, the funds are budgeted separately.

Mapleton Public Schools General Fund Revenues FY 2016-17

The original FY 2016-17 budget adopted by the Board of Education for the District as a whole totaled appropriations of \$106,860,445 million, including General Fund appropriations of \$78,924,600.

The final General Fund supplemental budget appropriation of \$79,913,159, reflected an increase in revenue due to the increased October pupil count of the District and Connections Academy.

FY 2016-17 budgeted Total Program Funding (including delinquent taxes from prior years) under the Public School Finance Act totaled \$68,275,947 while actual revenues totaled \$68,576,284.

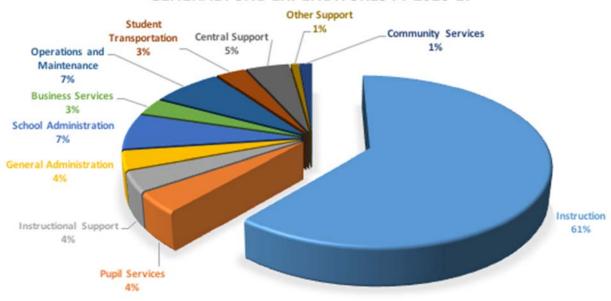

General Fund Budget vs. Actual Revenue*

General Fund Revenues:	Original Budget	Final Budget	Actual	Variance to Final

^{*}Before transfers

General Fund final budget to actual variance was \$472,557 or <1% over final budgeted revenues.

MAPLETON PUBLIC SCHOOLS GENERAL FUND EXPENDITURES FY 2016-17

General Fund Budget vs. Actual Expenditures

General Fund Expenditures:	Original Budget	Final Budget	Actual	Variance to Final
Instruction	47,406,274	46,687,549	45,672,320	(1,015,229)
Pupil Services	2,700,413	3,004,444	2,999,661	(4,783)
Instructional Support	2,824,103	3,037,291	2,853,500	(183,791)
General Administration	2,752,322	1,898,599	2,584,436	685,837
School Administration	4,820,620	5,091,797	5,082,242	(9,555)
Business Services	2,512,342	2,526,895	2,314,028	(212,867)
Operations and Maintenance	5,297,829	5,416,194	5,453,175	36,981
Student Transportation	2,097,920	2,192,228	2,256,538	64,310
Central Support	2,942,655	3,566,202	3,393,221	(172,981)
Other Support	558,730	632,632	606,137	(26,495)
Community Services	650,886	943,949	1,004,300	60,351
Contingency/Capital Outlay/Debt Service	0	1,053,931	129,505	(924,426)
Totals	74,564,094	76,051,711	74,349,063	(1,702,648)

General Fund final budget to actual variance was \$1,702,648 or 2.2% under final budgeted expenditures. The most significant variance was instructional expenditures which also contains the contingency for the General Fund. Some of the budget variance was due to changes submitted by Connections Academy contract school which are part of the overall budget appropriation, but not regulated by Mapleton's Board of Education.

Capital Asset and Debt Administration

Capital Assets. Mapleton Public Schools' investment in capital assets for its governmental as of June 30, 2017 amounts to \$96,883,282 (net of accumulated depreciation). This investment in capital assets includes land, buildings, service vehicles, buses, playgrounds, and office and instructional equipment.

	Government	al Activities
	2017	2016
Land	4,767,114	864,824
Construction in Progress	8,875,743	342,282
Site Improvements	17,991,374	17,991,374
Buildings and Improvements	99,513,241	96,352,787
Equipment and vehicles	9,209,211	8,639,582
Depreciation	(43,473,401)	(40,147,527)
Total Capital Assets	96,883,282	84,043,322

Additional information on the District's capital assets can be found in Note 3 of this report.

Long-Term Debt. As of June 30, 2017, the district had outstanding debt of \$166,432,286. Of this amount, \$124,235,000 is general obligation bonded debt, which is backed by the full faith and credit of the District, \$19,147,212 in matching money bonds from the state of Colorado through the Building Excellent Schools Today program (BEST). In addition, the District maintains leases on lighting, buses, technology and computer upgrades in the amount of \$530,651. These leases are collateralized with the upgraded equipment and the voter-approved mill levy override (technology equipment only). In FY 2004-05, the District secured \$5,567,202 in debt proceeds (less discount) through Certificates of Participation (COPS), which was refinanced in FY 2015-16 and now appear as the 2015 COPS debt with a balance of \$2,680,000. In FY 2016-17, the District secured an additional COPS in the amount of \$4,200,000, for the purchase of the Broadway Building. The District's remaining long-term debt is illustrated in the table below.

	Government	al Activities
	2017	2016
Governmental Activities		
General Obligation Bonds	124,235,000	14,420,000
Matching Money Bonds	19,147,212	20,147,274
Capital Leases	530,651	553,798
Certificates of Participation	6,690,000	2,940,000
Bond Premiums	14,620,004	951,219
COPS Discount	0	0
COPS Refunding Premium	78,408	88,209
Compensated Absences	1,131,011	982,847
Total Governmental Activities	166,432,286	40,083,347

As of June 30, 2017, the District's total long-term debt was 29.2% of the assessed valuation of \$569,244,410, or 5% of the actual valuation of \$3,268,307,094.

Mapleton Public Schools maintains an Aa2 rating through the Colorado State Intercept Program, and underlying ratings of A+ from Standard and Poor's and Aa3 from Moody's.

For more detailed information on debt administration, see Note 5 in the Notes to basic Financial Statements.

Economic Factors and Next Year's Budgets

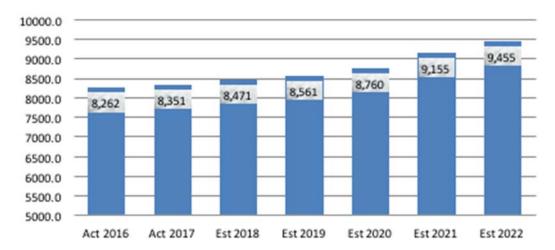

Colorado's economic growth has exhibited increased momentum thus far in 2017, led by the state's technology sector, new business formation, and growth in its skilled workforce. However, tight labor and housing market conditions are raising costs for individuals and businesses. According to the Governor's Office of State Planning and Budgeting (OSPB), the economic growth rate for the nation overall has improved in 2017, but remains more modest than in Colorado. On a national level, although recession risk appears low, events could develop that would change this outlook. The Federal Reserve has indicated that monetary tightening will continue, Monetary tightening in the current environment of modest U.S growth and tempered inflation may result in slowing economic conditions. The Governor's budget that was released in early November, showed an inflationary increase to base per pupil and categorical funding of 3.0% with an increase to the Negative Factor of \$70 million. This would result in an approximately \$343 per pupil increase for Mapleton.

Mapleton is experiencing growth as well. The District's core pupil count has increased by an estimated 317 students since FY 2012-13. Connections has grown by 183 students in the same period.

For calendar year 2017, the inflation rate is estimated at 2.8%. Early estimates indicate the inflation rate will increase to 3.2% in 2018.

At the close of the 2017-18 October count process, Mapleton Public Schools is anticipating an enrollment increase of approximately 120 students. The core District is increasing by approximately 170 students while Connections Academy enrollment decreased by 50 students.

Funded Pupil Count Projections FY 2016 - 2022

Salary adjustments for staff are the result of salary and compensation negotiations and discussions. For budget development purposes, salary and benefit amounts are primarily based on salary schedule increases consistent with the rate of increase in per pupil funding.

For FY 2017-18, the District agreed to funding a step and .5% for certified and classified employees as well as 3.3% for administrators. Employees who participate in the District's insurance saw an increase to their monthly insurance premiums as well.

On November 8, 2016, the District did successfully pass both a mill-levy override and a bond measure. The mill-levy override will raise \$1 million the first year, \$2 million the second year, and \$3 million for each subsequent year. The additional funds will be used to enhance classroom materials and equipment; create a middle/high school career technology program; help maintain both existing and new school buildings and grounds; and attract and retain highly-qualified staff to work with Mapleton students. The bond proposal is a facilities reinvestment plan that will pay for replacements, renovations, and/or repairs to nearly every school in Mapleton. The Building Excellent Schools Today (BEST) Board and Colorado Board of Education approved Mapleton for a partial matching grant in the amount of \$6.6 million that will help replace the Adventure Elementary building. Many of the District's schools are more than 60 years old and in dire need of repair. The bond proceeds will also fund the construction of new schools which are planned in the Midtown development and in the northern area of the District.

Requests for Information

This financial report is designed to provide a general overview of Mapleton Public Schools. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chief Financial Officer, 7350 N. Broadway, Denver, CO 80221 or (303) 853-1000.

Fund Balances - End Of Year	\$	8,612,941	\$		\$	1,851,085	\$	1,730,016	\$	118,693,344	\$	11,504,126	\$	142,391,512

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For The Year Ended June 30, 2017

Net Change	In Fund	Balances -	Governmenta	l Funds

\$ 119,657,896

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities, those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities. This is the amount by which capital outlay of \$16,366,626 exceeded depreciation expense of \$3,518,960.

12,847,666

The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins and donations) is to increase net position.

(7,706)

Revenues that do not provide current financial resources are deferred in the governmental funds. This amount represents the change in unavailable property taxes.

130,263

Pension expense does not use current financial resources and, therefore, is not reported as an expense in the governmental funds.

(41,640,454)

The issuance of and repayments on long-term debt (e.g., bonds, leases, certificates of participation (COP)) provides and consumes current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of premiums and discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The details of these items are as follows:

toms are as ronows.	
General obligation bonds principal payments	2,855,062
General obligation bonds and COP issued	(115,870,000)
Premium on general obligation bonds issued	(14,025,814)
COP principal payment	450,000
Capital lease principal payments	291,635
Capital lease issuance	(268,488)
Amortization of debt premiums	366,830
Amortization of deferred loss on refunding bonds	(99,403)
Amortization of deferred gain on refunding bonds	29,352
Change in accrued interest payable	(425,256)
Change in compensated absences	(148,164)

Change In Net Position Of Governmental Activities

NOTES TO FINANCIAL STATEMENTS June 30, 2017

1. Summary Of Significant Accounting Policies

The accounting policies of the Adams County School District No. 1 (the District) conform to generally accepted accounting principles (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following is a summary of the more significant policies:

Reporting Entity

The financial reporting entity consists of the District and organizations for which the District is financially accountable. All funds, organizations, institutions, agencies, departments and offices that are not legally separate are part of the District. In addition, any legally separate organizations for which the District is financially accountable are considered part of the reporting entity. Financial accountability exists if the District appoints a voting majority of the organization's governing board and is able to impose its will on the organization or if the organization provides benefits to or imposes financial burdens upon the District.

Government-Wide And Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Exceptions to this general rule are charges for interfund services that are reasonably equivalent to the services provided.

The statement of activities demonstrates the degree to which the direct expenses of the given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to students or other customers who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported instead as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

Notes To Financial Statements (Continued)

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the District's government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis Of Accounting And Financial Statement Presentation

The government-wide financial statements and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds utilize the accrual basis of accounting.

In the fund financial statements, the District reports the following major governmental funds:

- *General Fund* The General Fund is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.
- Special Revenue Funds The Grants Fund accounts for revenues and expenditures of specific local, state and federal grant awards. The District is considered the fiscal agent for the Early Childhood Partnership of Adams County that receives grants and donations to support a collaborative effort in Adams County to provide services and support for families with young children.

The Food Nutrition Fund accounts for the financial activities associated with the District's breakfast and lunch programs.

- Capital Projects Funds The Capital Reserve Fund accounts for purchases of equipment for the District.
 - The Capital Projects Fund accounts for bond proceeds and other revenues used for the construction and acquisition of major capital facilities.
- Debt Service Fund The Bond Redemption Fund accounts for resources accumulated for, and payments made on, long-term debt obligations of the District.

Notes To Financial Statements (Continued)

Additionally, the District reports the following fund type:

• *Agency Fund* - The Student Activity Fund is used to account for resources used to support each school's student activities. The District holds all resources in a purely custodial capacity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current year.

Property taxes, specific ownership taxes, grants and interest associated with the current year are considered to be susceptible to accrual. Therefore, they have been recognized as revenues of the current year in the government-wide presentation. All other revenues are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

During the course of operations, the District has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

Notes To Financial Statements (Continued)

Assets, Liabilities And Net Position/Fund Balance

Cash And Cash Equivalents - Cash on hand, demand deposits and highly liquid investments with maturities of three months or less from date of purchase are considered to be cash equivalents.

- Investments Investments are measured at net asset value (NAV), which approximates fair value, or at fair value in accordance with GASB Statement No. 72, Fair Value Measurement and Application, and as amended by GASB Statement No. 79, Certain External Investment Pools and Pool Participants.
- Receivables All receivables are reported at their gross value and, where
 appropriate, are reduced by the estimated portion that is expected to be
 uncollectible. Property taxes levied but not received at year end are recorded as
 property taxes receivable. Any taxes not collected within 60 days after year end
 are recorded as unavailable revenue in the fund financial statements.
- Inventories Food Nutrition Fund inventories consist of purchased and donated commodities. Purchased inventories are stated at average cost. Donated inventories, received at no cost under a program supported by the federal government, are valued based upon the cost furnished by the federal government, which approximates fair value. Inventory is recorded as an asset when individual items are purchased and as an expenditure when consumed.
- Capital Assets Capital assets, which include property and equipment, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value, as that term is defined in GASB 72, at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property and equipment of the District is depreciated using the straight-line method over the following estimated useful lives:

Site improvements 20 to 25 years
Buildings and improvements 15 to 50 years
Equipment 5 to 20 years

Notes To Financial Statements (Continued)

- Accrued Salaries And Benefits Salaries and benefits of certain contractually
 employed personnel are paid over a 12-month period from September to
 August, but are earned during a school year of approximately 9 to 10 months.
 The accrued salaries and benefits earned but unpaid are reported as a liability
 of the General, Grants and Food Nutrition Funds.
- Pensions The District participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension fund administered by the Public Employees' Retirement Association of Colorado (PERA). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments within SCHDTF are reported at fair value. Pension liabilities are liquidated primarily by the General Fund with lesser amounts liquidated by the Food Nutrition, Grants and Capital Projects funds.
- *Unearned Revenues* Unearned revenues include grant funds that have been collected but corresponding expenditures have not been incurred.
- Compensated Absences The District's policy allows certain classes of employees to accumulate sick and vacation leave. Classified employees may accumulate up to 150 sick days. A classified employee who has completed at least 7 years of service in the District shall be compensated for all unused sick leave at 60% of the employee's daily rate to a maximum of 90 days upon separation by voluntary resignation, retirement or disability. The District shall not pay for unused vacation time except upon termination of employment. An employee who resigns or whose employment is terminated shall receive full compensation for earned unused vacation time for which he/she is entitled at the time of severance to the nearest half day.

Certified employees may accrue a maximum of 150 sick days. Employees who retire from the District under favorable conditions (i.e., under conditions other than discharge or constructive discharge), after 20 years of experience within the District, will be compensated at the rate of 100% of the substitute teacher rate in effect on the employee's date of retirement for all unused cumulative leave.

Notes To Financial Statements (Continued)

Administrative employees may maintain a maximum of 50 days of cumulative leave or may request payment for any or all of their cumulative leave during the year. Any leave in excess of 50 days will result in a payment, annually in July, for administrators with 7 or more years of continuous, full-time employment as an administrator. Payment for unused days of cumulative leave will also occur when an administrator leaves District employment, if he/she has at least 7 years of service to the District as an administrator. All payments for cumulative leave days are subject to the following formula: 7 - 10 years, payment will be made at the rate of 50% of the administrator's latest regular daily salary for each unused day; 10 - 15 years, payment will be 65%; 15 - 20 years, payment will be 85%; and over 20 years, payment will be 100%.

These compensated absences are recognized as current salary costs when due in the governmental funds. A long-term liability has been reported in the government-wide financial statements for the accrued compensated absences.

• Long-Term Debt - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position.

In the fund financial statements, governmental funds recognize debt premiums and discounts during the current year. The face amount of debt issued is reported as another financing source. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as current expenditures.

• Net Position/Fund Balance - In the government-wide financial statements, net position is restricted when constraints placed on net position are externally imposed.

In the fund financial statements, fund balances of the governmental funds are classified as follows:

- o Nonspendable fund balance Cannot ever be spent, cannot currently be spent or legally required to be maintained intact
- o Restricted fund balance Amounts subject to externally enforceable legal restrictions
- o Committed fund balance Amounts whose use is constrained by limitations that the government imposes on itself. Decisions are made by the Board of Education.

Notes To Financial Statements (Continued)

- o Assigned fund balance Intended use of resources established by the government itself
- Unassigned fund balance Excess of total fund balance over all other designations

The District's fund balance policy requires Board of Education's, the highest level of decision-making authority for the District, approval via resolution to commit fund balance. Board resolution is also required to modify or rescind the commitment. The Board delegated the authority to authorize the assignment of fund balances to the Superintendent. When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance are available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds and finally unassigned funds, as needed, unless the Board of Education has provided otherwise in its commitment or assignment actions. The General Fund is the only fund that reports a positive unassigned fund balance. In other governmental funds, if expenditures incurred for specific purposes exceed restricted, committed and assigned amounts for those purposes, a negative unassigned fund balance may be reported.

Property Taxes

Property taxes are levied on January 1, based on the assessed value of property as certified by the County Assessor. The property tax may be paid in total by April 30 or one-half payment by February 28 and the second half by June 15. The billings are considered due on these dates. The bill becomes delinquent and penalties and interest may be assessed by the County Treasurer on the following day. The tax sale date is the first Thursday of November.

Property taxes are recorded initially at the budgeted collection rate as deferred revenue in the year levied and measurable. The deferred property tax revenues are recorded as revenue in the year they are available or collected in the governmental funds and in the period in which the tax is levied in the government-wide financial statements. The District reports deferred inflows of resources in the governmental funds for property tax collection not yet available at year end.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures; accordingly, actual results could differ from those estimates.

Notes To Financial Statements (Continued)

Deferred Outflows Of Resources And Deferred Inflows Of Resources

In addition to assets and liabilities, the statement of net position reports separate sections for deferred outflows of resources and deferred inflows of resources. For refunding of debt resulting in defeasance, deferred outflow of resources is the difference where net carrying value of the old debt is less than the reacquisition price. A deferred inflow of resources is the difference where net carrying value of the old debt is more than the reacquisition price in a refunding of debt resulting in defeasance. For pensions, these deferrals can result from the net difference between expected and actual experience, projected and actual earnings on pension plan investments, changes in the District's proportionate share of the net pension liability and changes of assumptions, as well as contributions made by the District to PERA after PERA's measurement date.

Generally, deferred inflows are not aggregated with deferred outflows.

2. Cash And Investments

At June 30, 2017, the District had the following cash and investments:

Cash on hand		\$ 23,560
Deposits		14,707,995
Investments	_	132,942,706
	_	
Total		\$ 147.674.261

Cash and investments are reported in the financial statements as follows:

Cash and investments Restricted cash and investments	\$ 16,170,086 131,240,081
Fiduciary fund cash and investments	 264,094
Total	\$ 147,674,261

Notes To Financial Statements (Continued)

Deposits

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by PDPA. PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits. At June 30, 2017, the District had bank deposits of \$16,700,874 collateralized with securities held by the financial institution's agent, but not in the District's name.

Investments

The District is required to comply with state statutes that specify investment instruments meeting defined rating, maturity and concentration risk criteria in which local governments may invest, which include the following:

- Obligations of the United States and certain U.S. agency securities
- Certain international agency securities
- General obligation and revenue bonds of U.S. local government entities
- Bankers' acceptances of certain banks
- Commercial paper
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools

The District categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are significant other observable inputs and Level 3 inputs are significant unobservable inputs.

Notes To Financial Statements (Continued)

At June 30, 2017, the District had the following fair value investments:

	Valı				
Investment	Level 1	Level 2	Lev	el 3	Total
Money market fund	\$ 10,243,452	\$ _	\$		\$ 10,243,452
FNMA		1,051,595		_	1,051,595
Corporate notes and bonds		8,286,271		_	8,286,271
U.S. agency notes and bonds		12,461,277		_	12,461,277
U.S. treasury notes and bonds	10,513,685			_	10,513,685
Total Investments At Fair Value	\$ 20,757,137	\$ 21,799,143	\$	_	\$ 42,556,280

- *Interest Rate Risk* State statutes limit investments in U.S. agency securities to an original maturity of five years unless the governing board authorizes the investment for a period in excess of five years.
- *Credit Risk* It is the District's policy to follow state statute. Colorado state statutes limit investments in money market funds to those that maintain a constant share price, with a maximum remaining maturity in accordance with Rule 2a-7, and either have assets of \$1 billion or the highest rating issued by a nationally recognized statistical rating organization.
- Concentration Of Credit Risk State statutes do not limit the amount the District may invest in one issuer.
- Government Investment Pool The District invests in the Colorado Local Government Liquid Asset Trust (COLOTRUST), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces the requirements of creating and operating COLOTRUST. COLOTRUST operates similarly to a money market fund with each share equal in value to \$1.00. Investments of COLOTRUST are limited to those allowed by state statutes. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions. Substantially, all securities owned are held by the Federal Reserve Bank in the account maintained for the custodial bank. The custodian's internal records identify the investments owned by the participating governments. To obtain more information, log on to COLOTRUST at www.colotrust.com.

Notes To Financial Statements (Continued)

COLOTRUST is routinely monitored by the Colorado Division of Securities with regard to its operations and investments, which are also subject to provisions of Colorado Revised Statutes (C.R.S.) Title 24, Article 75, Section 6. The fair value of the investments in COLOTRUST is the same as the value of the pool shares. None of these types of investments is categorized because they are not evidenced by securities that exist in physical or book entry form.

COLOTRUST is valued using NAV per share (or its equivalent) of the investments. COLOTRUST does not have any unfunded commitments, redemption restrictions or redemption notice periods. At June 30, 2017, the District's investments measured at NAV consist of \$90,386,426 with COLOTRUST, with a rating of AAAm.

Restricted Cash And Investments

Cash and investments of \$11,295,047 in the Bond Redemption fund are comprised of General Obligation Bond reserves restricted for use in accordance with applicable debt covenants. Cash and investments of \$119,945,034 in the Capital Projects Fund represents unspent bond proceeds reserved for capital purposes.

3. Capital Assets

Activity for capital assets of the District is summarized below:

		Balance June 30, 2016		Additions		Deletions		Transfers	,	Balance une 30, 2017

Instruction	\$ 3,139,942
Supporting services	 379,018
Total	\$ 3 518 960

4. Short-Term Debt

During the year ended June 30, 2017, the District approved a resolution allowing, but did not utilize, a loan from the state-sponsored interest-free loan program to provide cash flow throughout the fiscal year.

5. Long-Term Debt

Following is a summary of long-term debt transactions of the District for the year ended June 30, 2017:

		Balance					Balance	D	ue Within
	June 30, 2016		Additions Payments		June 30, 2017			One Year	
Governmental Activities									
Matching Money Bonds 2010	\$	20,147,274	\$ _	\$	1,000,062	\$	19,147,212	\$	1,040,884

Capital leases		553,798	268,488		291,635		530,651		248,588
Compensated absences		982,847	506,001		357,837		1,131,011		400,000
Total	\$	40,083,347	\$ 130,670,303	\$	4,321,364	\$	166,432,286	\$	9,104,472

Compensated absences of the governmental activities are expected to be liquidated with revenues of the General and Food Nutrition Funds.

Notes To Financial Statements (Continued)

General Obligation Bonds 2017

In February 2017, the District authorized issuance of General Obligation Bond, Series 2017 to the State of Colorado in the aggregate principal amount of \$111,670,000 for replacements, renovations and repairs to many school facilities within the District. In addition, it funded the construction of new schools in the Midtown development and in the northern area of the District. Interest payments are due semi-annually on June 1 and December 1 at rates ranging from 3.0% to 5.25%, commencing on June 1, 2017. Principal payments are due annually on December 1, commencing December 1, 2017, with final payment due on December 1, 2040. Bond payments, to maturity, are as follows:

Fiscal Year						
Ended June 30,		Principal		Interest		Total
2010	ф	× 400 000	ф	0.555 400	ф	10.155.400
2018	\$	5,400,000	\$	6,777,406	\$	12,177,406
2019		5,685,000		4,955,288		10,640,288
2020		5,910,000		4,723,388		10,633,388
2021		1,925,000		4,566,688		6,491,688
2022		2,005,000		4,488,088		6,493,088
2023 - 2027		11,285,000		21,147,440		32,432,440

Certificates Of Participation 2016

On September 6, 2016, the District issued \$4,200,000 of Certificates of Participation, Series 2016, with an interest rate of 3.25%. Principal and interest payments are due annually on June 1, commencing June 1, 2017, with final payment due on June 1, 2036. Bond payments, to maturity, are as follows:

Fiscal Year			
Ended June 30,	Principal	Interest	Total
2018	\$ 155,000	\$ 65,887	\$ 220,887
2019	160,000	63,340	223,340
2020	165,000	61,044	226,044
2021	170,000	58,000	228,000
2022	175,000	55,207	230,207
2023 - 2027	980,000	409,795	1,389,795
2028 - 2032	1,145,000	254,190	1,399,190
2033 - 2037	1,060,000	71,482	1,131,482
Total	\$ 4,010,000	\$ 1,038,945	\$ 5,048,945

General Obligation Refunding Bonds 2016

In March 2016, the District issued \$11,275,000 of General Obligation Refunding Bonds, Series 2016, with interest rates ranging from 2.00% to 4.00%, for the purpose of advance refunding the General Obligation Bonds, Series 2011, with an interest rate of 6.25%. The proceeds of the 2016 General Obligation Refunding Bonds were deposited with the escrow bank and invested in government obligations maturing at such time and in such amounts as required to provide funds sufficient to pay the principal and interest on the refunded bonds as they become due. As a result, the 2011 General Obligation Refunding Bonds are considered defeased, and the related liability for the bonds has been removed from the District's liabilities. The refunding resulted in a present value savings from cash flow of \$1,582,217 and an economic gain on the refunding of \$2,041,621.

The proceeds from the refunding bonds were placed into an irrevocable trust to provide all future debt service payments on the old bonds. At June 30, 2017, the outstanding balance of the defeased bonds was \$9,670,000, and the market value of the irrevocable trust was \$11,126,580.

Notes To Financial Statements (Continued)

Principal payments on the General Obligation Refunding Bonds 2016 are due annually starting December 1, 2017, with final payment due on December 1, 2035. Bond payments, to maturity, are as follows:

Fiscal Year			
Ended June 30,	Principal	Interest	Total
2018	\$ _	\$ 422,150	\$ 422,150
2019		422,150	422,150
2020	90,000	422,150	512,150
2021	90,000	421,250	511,250
2022	95,000	419,450	514,450
2023 - 2027	495,000	2,068,300	2,563,300
2028 - 2032	4,045,000	1,964,225	6,009,225
2033 - 2035	6,155,000	659,800	6,814,800
Total	\$ 10,970,000	\$ 6,799,475	\$ 17,769,475

General Obligation Refunding Bonds 2013

In September 2013, the District issued its General Obligation Refunding Bonds, Series 2013, in the par amount of \$5,650,000, with an average interest rate of 3.0% for the purpose of advance refunding the General Obligation Refunding Bonds, Series 2003, with an interest rate of 5.0%. The proceeds of the 2013 General Obligation Refunding Bonds were deposited with the escrow bank and invested in government obligations maturing at such time and in such amounts as required to provide funds sufficient to pay the principal and interest on the refunded bonds as they become due. As a result, the 2003 General Obligation Refunding Bonds are considered defeased, and the related liability for the bonds was removed from the District's liabilities. As of June 30, 2017, the refunded 2003 bonds have been paid in full, and the escrow account was closed.

Principal payments on the General Obligation Refunding Bonds 2013 are due annually on December 1, with final payment due on December 1, 2017. The remaining bond payment is as follows:

Fiscal Year Ended June 30,	Principal	I	nterest	Total
2018	\$ 1,595,000	\$	23,925	\$ 1,618,925

Notes To Financial Statements (Continued)

Matching Money Bonds

In November 2010, the District authorized issuance of General Obligation Bond, Series 2010, to the State of Colorado in the aggregate principal amount of \$22,031,271 to meet the 41% required match for the Colorado Building Excellent Schools Today (BEST) grant. The BEST grant included two new buildings on the Skyview site to house Skyview Academy, Clayton Partnership School, Mapleton Expeditionary School of the Arts and Mapleton Early College. The grant also requested funds for an addition to the existing Skyview building to house a media center and the North Valley School for Young Adults. The grant paid for demolition of the classroom sections of the Skyview building, as well as a limited amount of renovation to the remaining structure. Interest payments are due semi-annually on June 1 and December 1 at an annual rate of 4.082%, commencing on June 1, 2011. Principal payments are due annually on December 1, commencing December 1, 2014, with final payment due on December 1, 2030. Bond payments, to maturity, are as follows:

Fiscal Year			
Ended June 30,	Principal	Interest	Total
2018	\$ 1,040,884	\$ 760,345	\$ 1,801,229
2019	1,083,373	716,989	1,800,362
2020	1,127,596	671,863	1,799,459
2021	1,173,625	624,895	1,798,520
2022	1,221,532	576,010	1,797,542
2023 - 2027	6,897,579	2,074,007	8,971,586
2028 - 2031	6,602,623	552,511	7,155,134
Total	\$ 19,147,212	\$ 5,976,620	\$ 25,123,832

Refunding Certificates Of Participation 2015

In July 2015, the District issued \$3,265,000 of Refunding Certificates of Participation, Series 2015, with interest rates ranging from 2.00% to 3.00%, as a current refunding of the Certificates of Participation, Series 2005, with interest rates ranging between 3.00% and 5.00%. The proceeds of the Refunding Certificates of Participation 2015 were deposited with an escrow bank and used to pay the principal and interest on the refunded certificates of participation on December 1, 2015. As a result, the 2005 Certificates of Participation are considered defeased, and the related liability was removed from the District's liabilities. The refunding resulted in a present value savings from cash flow of \$201,136 and an economic gain on the refunding of \$713,247.

Notes To Financial Statements (Continued)

Principal payments are due annually on December 1, with final payment due on December 1, 2025. Bond payments, to maturity, are as follows:

Fiscal Year				
Ended June 30,	Principal]	Interest	Total
2018	\$ 265,000	\$	76,425	\$ 341,425

Capital Leases

The District entered into a lease agreement on July 1, 2013 in the amount of \$339,607 for technology equipment. The lease carries an interest rate of 4.368%. Lease payments of \$71,561 are due annually on July 1 through 2017. Capital assets of \$339,607 have been capitalized under this lease agreement. Accumulated depreciation amounted to \$194,061 at June 30, 2017.

The District entered into a lease agreement on November 1, 2013 in the amount of \$398,093 for laptops and computer equipment. The lease carries an interest rate of 1.905%. Lease payments of \$82,238 are due annually on November 1, 2013, and each subsequent July 1 through 2017. Capital assets of \$397,893 have been capitalized under this lease agreement. Accumulated depreciation amounted to \$291,788 at June 30, 2017.

The District entered into a lease agreement on March 3, 2014 in the amount of \$201,645 for a lighting system. The lease carries an interest rate of 4.95%. Lease payments of \$26,195 are due annually on March 3 through 2024. Capital assets of \$201,545 have been capitalized under this lease agreement. Accumulated depreciation amounted to \$31,911 at June 30, 2017.

The District entered into a lease agreement on August 30, 2015 in the amount of \$54,756 for copiers. Lease payments of \$1,524 are due monthly on the 30th of each month through July 2019. Capital assets of \$54,756 have been capitalized under this lease agreement. Accumulated depreciation amounted to \$16,849 at June 30, 2017.

Notes To Financial Statements (Continued)

The District entered into a lease agreement on June 15, 2016 in the amount of \$66,300 for copiers. Lease payments of \$1,943 are due monthly on the 30th of each month through May 2019. Capital assets of \$66,300 have been capitalized under this lease agreement. Accumulated depreciation amounted to \$12,155 at June 30, 2017.

The District entered into a lease agreement on July 10, 2016 in the amount of \$202,188 for buses. Lease payments of \$42,895 are due monthly on the 10th of each July through July 2020. Capital assets of \$202,188 have been capitalized under this lease agreement. Accumulated depreciation amounted to \$20,480 at June 30, 2017.

The total gross cost of assets under capital lease totaling \$1,262,589 is included in Equipment in Note 3.

Minimum lease payments, to maturity, are as follows:

Year Ended June 30,	Amount
2018	\$ 264,492
2019	95,284
2020	71,033
2021	69,090
2022	26,195
2023 - 2024	52,390
Minimum lease payments	578,484
Less: Interest portion	47,833
	_
Total	\$ 530,651

Notes To Financial Statements (Continued)

6. Interfund Transactions

Interfund balances, all of which are with major funds, for the year ended June 30, 2017, were comprised of the following:

Funds	Due From Other Funds	Due To Other Funds		
General Fund Grants Fund Food Nutrition Fund Capital Reserve Fund	\$ 1,377,364 ————————————————————————————————————	\$ — 1,236,350 142,950 —		
Total	\$ 1,379,300	\$ 1,379,300		

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system and (3) payments between funds are made.

Interfund transfers, all of which are among major funds, for the year ended June 30, 2017, were comprised of the following:

Transfers In	Transfers Out	Amount
Capital Reserve Food Nutrition Fund	General Fund General Fund	\$ 1,748,541 38,586
Total		\$ 1,787,127

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the funds that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Notes To Financial Statements (Continued)

7. Risk Management

Adams County BOCES Self-Insurance Pool

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; injuries to employees and natural disasters. The District plans to provide for or restore the economic damages of those losses through risk transfer. The District participates in the Adams County Board of Cooperative Educational Services (BOCES) Self-Insurance Pool (the Pool) for property, liability and workers' compensation insurance coverage.

The BOCES consists of four school districts in Adams County including:

Adams 1 - Mapleton

Adams 12 - Northglenn-Thornton

Adams 50 - Westminster

Adams/Weld School District 27J

The Pool provides property and liability, workers' compensation, boiler and machinery, errors and omissions and school board legal liability insurances for its member districts. Annually, each district provides funding for the Pool based on a pre-established amount that covers the cost of insurance, claims and operation of the Pool. Also, each district receives annual financial information on the equity interest and gains or losses. Pool members and percentage shares are as follows:

Adams County School Districts	% Shares In Pool
No. 1	9.02
No. 12	52.73
No. 27J	18.82
No. 50	19.43
	100.00

Notes To Financial Statements (Continued)

Following is an unaudited summary of financial information for the Pool as of and for the year ended June 30, 2017:

	\mathbf{D}	istrict's		
<u>-</u>		Share		Total
Assets	\$	757,628	\$	8,398,865
Liabilities		550,142		6,548,720
				_
Equity	\$	207,486	\$	1,850,145
Revenues	\$	554,715	\$	6,149,417
Expenditures		554,563		6,147,736
Net income		152		1,681
Reallocation		13,441		16,600
Surplus, Beginning		193,893		1,831,864
Surplus, Ending	\$	207,486	\$	1,850,145

Percentage shares are as of June 30, 2017. Percentages will vary slightly from year to year, depending upon premium allocation factors. The Pool's Board of Directors consists of one member appointed by the Board of Education of each participating school district. All members of the Pool's Board of Directors have an equal vote in the administration of the Pool's activities, are responsible for selection of management and have complete responsibility for all fiscal matters in the operation of the Pool. Separate financial statements for the Pool are available from the Adams County BOCES, 1400 W. 122nd Avenue, Suite 110, Westminster, Colorado 80234.

The District pays annual premiums for property, liability and workers' compensation coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from Pool members. Any excess funds that the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula. The Pool, which is subject to actuarial review and annual audit, has various levels of self-insured retentions and purchases excess insurance for amounts above the retentions for liability, property and workers' compensation coverage.

The District continues to carry commercial insurance coverage for errors and omissions, risks of loss and employee health. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Notes To Financial Statements (Continued)

Dental Self-Insurance Plan

The District maintains a dental self-insurance plan (the Plan) for employees who elect to participate in the Plan. The District pays monthly premiums on behalf of the employees of \$24 per month. Dependent coverage is also available. The Plan limits participant claims to \$1,000 per year and a lifetime \$1,000 per person orthodontic claim. The District consults with Segal Company annually to evaluate the Plan. Liabilities and related claims expense as reported were estimated based on analysis of the dental providers' claims data as of June 30, 2017. Claims due and payable at year end are reported in the General Fund and statement of net position under current liabilities.

	Balance Beg of Year			Claims Incurred		\mathbf{Claims}	Balance End of Year	
						Paid		
	\$	7,145	\$	250,627	\$	(248,675)	\$	9,097
		11,553		243,989		(248, 397)		7,145

8. Defined Benefit Pension Plan

Plan Description

Eligible employees of the District are provided with pensions through SCHDTF. Plan benefits are specified in Title 24, Article 51 of C.R.S., administrative rules set forth at 8 C.C.R. 1502-1 and applicable provisions of the federal Internal Revenue Code. Colorado state law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits Provided

PERA provides retirement, disability and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713 and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA benefit structure is the greater of the:

 Highest average salary multiplied by 2.5% and then multiplied by years of service credit

Notes To Financial Statements (Continued)

• The value of the retiring employee's member contribution account plus a 100% match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) benefit structure is the greater of the:

- Highest average salary multiplied by 2.5% and then multiplied by years of service credit
- An amount of \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases, the service retirement benefit is limited to 100% of the highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers, waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50% or 100% on eligible amounts, depending on when contributions were remitted to PERA, the date employment was terminated, whether five years of service credit has been obtained and the benefit structure under which contributions were made.

Benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments, referred to as annual increases in C.R.S. Benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 and all benefit recipients of the DPS benefit structure receive an annual increase of 2%, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2% or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 receive an annual increase of the lesser of 2% or the average CPI-W for the prior calendar year, not to exceed 10% of PERA's Annual Increase Reserve for SCHDTF.

Notes To Financial Statements (Continued)

Disability benefits are available for eligible employees once they reach five years of earned service credit and when it is determined that they meet the definition of disability. The disability benefit amount is based on the retirement benefit formula shown above, considering a minimum 20 years of service credit, if they are deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained and the qualified survivor(s) who will receive the benefits.

Contributions

Eligible employees and the District are required to contribute to SCHDTF at a rate set by Colorado statute. The contribution requirements are established and may be amended under C.R.S. § 24-51-401, et seq. Eligible employees are required to contribute 8% of their PERA-includable salary. The employer contribution requirements are summarized in the table below:

<u> </u>	2017	2016
Employer Contribution Rate ¹	10.15%	10.15%
Amount of employer contribution apportioned to the Health Care Trust Fund (HCTF) as specified in		
C.R.S. § 24-51-208(1)(f) ¹	1.02%	1.02%
Amount apportioned to SCHDTF ¹	9.13%	9.13%
Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411 $^{\rm 1}$	4.50%	4.50%
Supplemental Amortization Equalization Disbursement (SAED) as specified in		
C.R.S. § 24-51-411 ¹	5.00%	4.50%
Total Employer Contribution Rate To SCHDTF1	18.63%	18.13%

¹ Rates are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Employer contributions are recognized by SCHDTF in the period in which the compensation becomes payable to the member, and the District is statutorily committed to pay the contributions to SCHDTF. Employer contributions recognized by SCHDTF from the District were \$7,186,237 for the year ended June 30, 2017.

Notes To Financial Statements (Continued)

Pension Liabilities, Pension Expense, Deferred Outflows Of Resources And Deferred Inflows Of Resources Related To Pensions

At June 30, 2017, the District reported a liability of \$252,565,034 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2015. Standard update procedures were used to roll forward the total pension liability to December 31, 2016. The District proportion of the net pension liability was based on District contributions to SCHDTF for the calendar year 2016 relative to the total contributions of participating employers to SCHDTF.

At December 31, 2016, the District's portion was 0.8482%, which was an increase of 0.0158% from its portion measured as of December 31, 2015.

For the year ended June 30, 2017, the District recognized pension expense of \$48,213,527. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred			Deferred
	Ot	utflows Of	I	nflows Of
		Resources	I	Resources
Differences between expected and actual experience	\$	3,137,563	\$	2,196
Net difference between projected and actual earnings on pension plan investments		8,300,588		_
Changes of assumptions or other inputs		81,952,314		1,117,665
Changes in portion and differences between District contributions and proportionate share of contributions		1,580,859		275,071
District's contributions subsequent to the				
measurement date		3,710,745		
Total	\$	98,682,069	\$	1,394,932

Notes To Financial Statements (Continued)

The amount of \$3,710,745 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Amounts Report Collective D Outflows And Col Deferred Infl						
For The Year	Resources Recognized In					
Ended June 30,	Collective Pension Expense					
2018 2019 2020 2021 2022	\$ 37,403,117 37,491,684 18,597,351 84,240					
Thereafter	-					
Total	\$ 93,576,392					

Actuarial Assumptions

The total pension liability in the December 31, 2015 actuarial valuation was determined using the following actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.80%
Real wage growth	1.10%
Wage inflation	3.90%
Salary increases, including wage inflation	3.90% - 10.10%
Long-term investment rate of return, net of pension plan	7.50%
investment expenses, including price inflation	
Discount rate	7.50%
Future post-retirement benefit increases:	
PERA benefit structure hired prior to January 1, 2007, and DPS benefit structure (automatic)	2.00%
PERA benefit structure hired after December 31, 2006 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve

Notes To Financial Statements (Continued)

Based on the 2016 experience analysis and the October 28, 2016 actuarial assumptions workshop, revised economic and demographic assumptions were adopted by PERA's Board on November 18, 2016 and were effective as of December 31, 2016. These revised assumptions shown below were reflected in the roll-forward calculation of the total pension liability from December 31, 2015 to December 31, 2016:

Actuarial cost method	Entry age
Price inflation	2.40%
Real wage growth	1.10%
Wage inflation	3.50%
Salary increases, including wage inflation	3.50% - 9.70%
Long-term investment rate of return, net of pension plan	7.25%
investment expenses, including price inflation	
Discount rate	5.26%
Future post-retirement benefit increases:	
PERA benefit structure hired prior to January 1, 2007, and DPS benefit structure (automatic)	2.00%
PERA benefit structure hired after December 31, 2006 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve

Mortality rates used in the December 31, 2015 valuation were based on RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale AA to 2020, with Males set back one year and females set back two years. Active member mortality was based upon the same mortality rates but adjusted to 55% of the base rate for males and 40% of the base rate for females. For disabled retires, the RP-2000 Disabled Mortality Table (set back two years for males and set back two years for females) was assumed.

The actuarial assumptions used in the December 31, 2015 valuation were based on the results of an actuarial experience study for the period January 1, 2008 through December 31, 2011, adopted by PERA's Board on November 13, 2012, and an economic assumption study, adopted by PERA's Board on November 15, 2013 and January 17, 2014.

As a result of the 2016 experience analysis and the October 28, 2016 actuarial assumptions workshop, revised economic and demographic actuarial assumptions including withdrawal rates, retirement rates for early reduced and unreduced retirement, disability rates, administrative expense load, and pre- and post-retirement and disability mortality rates were adopted by PERA's Board on November 18, 2016 to more closely reflect PERA's actual experience. As the revised economic and demographic assumptions are effective as of the measurement date, December 31, 2016, these revised assumptions were reflected in the total pension liability roll-forward procedures.

Notes To Financial Statements (Continued)

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016. As a result of the October 28, 2016 actuarial assumptions workshop and the November 18, 2016 PERA Board meeting, the economic assumptions changed, effective December 31, 2016, as follows:

- Investment rate of return assumptions decreased from 7.50% per year, compounded annually, net of investment expenses to 7.25% per year, compounded annually, net of investment expenses.
- Price inflation assumption decreased from 2.80% to 2.40% per year.
- Real rate of investment return assumption increased from 4.70% per year, net of investment expenses, to 4.85% per year, net of investment expenses.
- Wage inflation assumption decreased from 3.90% per year to 3.50% per year.

As of the November 18, 2016 adoption of the current long-term expected rate of return by the PERA Board, the target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

		10-Year Expected
	Target	Geometric Real
Asset Class	Allocation	Rate Of Return
U.S. equity - large cap	21.20%	4.30%
U.S. equity - small cap	7.42%	4.80%
Non-U.S. equity - developed	18.55%	5.20%
Non-U.S. equity - emerging	5.83%	5.40%
Core fixed income	19.32%	1.20%
High yield	1.38%	4.30%
Non U.S fixed income - developed	1.84%	0.60%
Emerging market bonds	0.46%	3.90%
Core real estate	8.50%	4.90%
Opportunity fund	6.00%	3.80%
Private equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Notes To Financial Statements (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 5.26%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the fixed statutory rates specified in law, including current and future AED and SAED, until the Actuarial Value Funding Ratio reaches 103%, at which point, AED and SAED will each drop 0.50% every year until they are zero. Based on those assumptions, SCHDTF's fiduciary net position was projected to be depleted in 2041 and, as a result, the municipal bond index rate was used in the determination of the discount rate. The long-term expected rate of return of 7.25% on pension plan investments was applied to periods through 2041, and the municipal bond index rate, the December average of the Bond Buyer General Obligation 20-year Municipal Bond Index published weekly by the Board of Governors of the Federal Reserve System, was applied to periods on and after 2041 to develop the discount rate. For the measurement date, the municipal bond index rate was 3.86% resulting in a discount rate of 5.26%.

As of the prior measurement date, the GASB Statement No. 67 projection test indicated the SCHDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments of 7.50% was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination did not use a municipal bond index rate, and the discount rate was 7.50%.

Sensitivity Of The District's Proportionate Share Of The Net Pension Liability To Changes In The Discount Rate.

The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50%) or one percentage point higher (8.50%) than the current rate:

			Current	
	1% Decrease	Di	scount Rate	1% Increase
	 (4.26%)		(5.26%)	(6.26%)
				_
Proportionate share of the net pension liability	\$ 317,594,837	\$	252,565,746	\$ 199,603,150

Notes To Financial Statements (Continued)

Pension Plan Fiduciary Net Position

Detailed information about SCHDTF's fiduciary net position is available in PERA's comprehensive annual financial report, which can be obtained at www.copera.org/investments/pera-financial-reports.

9. Post-Employment Health Care Benefits

Plan Description

The District contributes to HCTF, a cost-sharing multiple-employer healthcare trust administered by PERA. The HCTF benefit provides a health care premium subsidy and health care programs (known as PERACare) to PERA-participating benefit recipients and their eligible beneficiaries. Title 24, Article 51, Part 12 of C.R.S., as amended, establishes HCTF and sets forth a framework that grants authority to the PERA Board to contract, self-insure and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of health care subsidies. PERA issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for HCTF. That report can be obtained at www.copera.org/investments/pera-financial-reports.

Funding Policy

The District is required to contribute at a rate of 1.02% of covered salary for all PERA members as set by statute. No member contributions are required. The contribution requirements for the District are established under Title 24, Article 51, Part 4, of C.R.S., as amended. The apportionment of the contributions to HCTF is established under Title 24, Article 51, Section 208, of C.R.S., as amended. The District's contributions to HCTF for the years ended June 30, 2017, 2016 and 2015 were \$398,786, \$377,785 and \$363,254, respectively, equal to the required contributions for each year.

10. Defined Contribution Pension Plan

Plan Description

Employees of the District who are also members of SCHDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S, as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available comprehensive annual financial report for the Plan. That report can be obtained at www.copera.org/investments/pera-financial-reports.

Notes To Financial Statements (Continued)

Funding Policy

The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of C.R.S., as amended. There is no employer match. For the year ended June 30, 2017, program members contributed \$280,252 to the Voluntary Investment Program.

11. Commitments And Contingencies

Claims And Judgments

The District participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental entities. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the District may be required to reimburse the grantor government. As of June 30, 2017, significant amounts of grant expenditures have not been audited, but the District believes that disallowed expenditures, if any, based on subsequent audits, will not have a material effect on the overall financial position of the District.

TABOR Amendment

In November 1992, Colorado voters passed Article X, Section 20 (the TABOR Amendment) to the State Constitution, which limits state and local government tax powers and imposes spending limitations. The District is subject to the TABOR Amendment.

In November 2002, voters within the District authorized the District to collect, retain and expend all excess revenues and other funds received from every source, without limitation, effective July 1, 2001, and each fiscal year thereafter without future voter approval, notwithstanding the limitations of the TABOR Amendment. The TABOR Amendment is subject to many interpretations, but the District believes it is substantially in compliance with the Amendment.

The TABOR Amendment requires the District to restrict an amount for emergencies.

Notes To Financial Statements (Continued)

Litigation

The District is involved in various lawsuits. In the opinion of management, any liability from claims or proceedings in excess of the amount covered by insurance will not have a material adverse effect on the District's net position, changes in net position or cash flows.

Environmental Remediation Loss Contingency

The District has several school buildings that contain asbestos and is a potentially responsible party regarding environmental impacts. Although a loss is probable at some point in the future, due to the uncertainty surrounding the timing and method of settlement, it is not possible to reasonably estimate the amount of any obligation for remediation that may be incurred at a future date.

12. Subsequent Events

Subsequent to June 30, 2017, the District entered into capital leases for one bus and four copiers. These leases were under terms substantially the similar to those for similar assets in capital leases described in Note 5.

NOTE TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2017

1. Stewardship, Compliance And Accountability

Budgets And Budgetary Accounting

Budgets are required by state statutes for all of the District's funds. Budgets for the governmental funds are adopted on a basis consistent with generally accepted accounting principles. Capital outlay and debt principal payments are budgeted as expenditures.

The District adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

- By May 31, the Superintendent of Schools submits to the Board of Education a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them. The Colorado Department of Education also requires a Budget Summary report to be filed with the adopted budget beginning July 1, 2012.
- Public hearings are conducted by the Board of Education to obtain taxpayer comments.
- Revisions that alter the total expenditures of any fund must be approved by the Board of Education. All annual appropriations lapse at fiscal year end.
- Prior to June 30, the budget is adopted by formal resolution.
- Expenditures may not legally exceed appropriations at the fund level.

Financial Trends Information

These tables contain trend information to help the reader understand how the District's financial condition has changed over time.

Revenue Capacity Information

These tables contain information to help the reader assess the District's largest revenue sources, state equalization and property taxes.

Debt Capacity Information

These tables present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic And Economic Information

These tables offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information

These tables contain service data to help the reader understand how the information in the financial report relates to the services the District provides and the activities it performs.

The Fiscal Health Program was developed by the Office of the State Auditor to help identify negative financial trends in local governments. The program is ratio-based and the financial data is derived from the audited financial report. The ratios are based on governmental funds balance sheet information, revenues, expenditures, fund balance information, and debt information. The ratios are calculated and analyzed for trends over three-year periods. Defined benchmarks are used to determine the threshold for negative indicators in these trends.

The following 6 pages present details and explanations for each ratio.

TABLE 6.2 FINANCIAL TRENDS INFORMATION FISCAL HEALTH TRACKING RATIOS - ASSET SUFFICIENCY RATIO (ASR) Last Ten Fiscal Years (Unaudited)

2017	15,325,245 6,403,343	=	2.3933
2016	15,221,419 5,989,451	=	2.5414
2015	13,118,988 5,502,574	=	2.3842
2014	12,403,963 4,952,293	=	2.5047
2013	12,491,571 5,272,606	=	2.3691
2012	12,359,721 5,905,589	=	2.0929
2011	12,852,415 5,727,757	=	2.2439
2010	12,161,245 5,328,400	=	2.2823
2009	9,841,274 5,159,899	=	1.9073
2008	8,587,197 4,153,370	=	2.0675

Formula: General Fund Total Assets

General Fund Total Liabilities

Description: Indicates the coverage of general fund assets to general fund liabilities

Benchmark: An ASR of 1 would indicate that total assets equals total liabilities

Negative Indicators: ASR < 1 (liabilities exceed assets)

Formula: Revenue of Funds Paying Debt Service

Total Governmental Debt Service Payments

Description: Indicates the coverage of revenue of fund(s) paying debt service to the

annual principal and interest payments, including leases.

Benchmark: A DBR of 1 would indicate that debt service equals the annual revenue of

the fund supporting the debt.

Negative Indicators: DBR < 1 (debt service exceeds revenue)

Formula: General Fund Fund Balance

Total General Fund Expenditures +/- Transfers

Description: Indicates the amount the general fund ending balance will cover the current

year general fund expenditures, including transfers

Benchmark: An ORR of 0.0192 (1/52, or one week) equates to one week of reserves for

current exenditures and transfers.

Negative Indicators: ORR < .0192

TABLE 6.5 FINANCIAL TRENDS INFORMATION FISCAL HEALTH TRACKING RATIOS - OPERATING MARGIN RATIO (OMR) Last Ten Fiscal Years (Unaudited)

2008	(381,223)	=	-0.0094

Formula: General Fund Total Revenues - (General Fund Total Expenditures +/- Transfers)

General Fund Total Revenues

Description: Indicates for every dollar produced in total general fund gross revenue the amount that

results in net income.

Benchmark: An OMR of 0.01 would indicate that \$.01 would result in net income for every \$1

produced in gross revenue.

Negative Indicators: OMR < 0.0

Formula: -(Total Deficit Fund Balances - Positive General Fund Balance)

Total Revenue in Deficit Fund Balances

Description: Indicates how many months or partial months of revenue in the next year are required to cover

the deficit fund balance (in excess of the deficit covered by the existing general fund balance).

Benchmark: A DFBR of .25 (1/4) would equate to three months of revenue in the subsequent year to cover

the deficit fund balance(s).

Negative Indicators: Deficit fund balances.

TABLE 6.7 FINANCIAL TRENDS INFORMATION FISCAL HEALTH TRACKING RATIOS CHANGE IN FUND BALANCE RATIO (CFBR)

2008	(381,223) = 4,815,050	-0.0792

Formula: Current Year Change in General Fund Balance

Prior Year General Fund Balance

Description: Indicates the change in the general fund balance from one year to the next in

relationship to the prior year fund balance.

Benchmark: A CFBR of 0 would indicate that the fund balance had not changed from the prior year

Negative Indicators: CFBR < 0 (this would be a negative fund)

^{*} In 2015, the Colorado Department of Education switched to the PARRC for student evaulation for Language Arts and Mathematics. Results from the new assessments should not be compared to previous TCAP and CSAP results.

p= Additional psychometric procedures were applied in 2016 to increase the comparability between online and paper-based forms of the assessments. This district or school had 80% or more of their students take the assessment using a paper form in 2015 when these additional procedures were not applied. This school or district may show a decline in scores in part due to the change in the procedure, rather than a change in student performance.

** = The results for 2015 high school math are suppressed because the populations tested in 2015 and 2016 are not comparable. In 2016 10th and 11th graders were not included in testing.

Independent Auditors' Report On Internal Control Over Financial Reporting And On Compliance And Other Matters Based On An Audit Of Financial Statements Performed In Accordance With Government Auditing Standards

Board of Education Adams County School District No. 1 Denver, Colorado

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Adams County School District No. 1 (the District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 20, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance And Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose Of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report On Compliance For Each Major Federal Program And Report On Internal Control Over Compliance Required By The Uniform Guidance

Board of Education Adams County School District No. 1 Denver, Colorado

Report On Compliance For Each Major Federal Program

We have audited Adams County School District No. 1's (the District) compliance with the types of compliance requirements described in the Office of Management and Budget's *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2017. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion On Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report On Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS June 30, 2017

1. Basis Of Presentation

The accompanying schedule of expenditures of federal awards, which includes the federal grant activity of the Adams County School District No. 1 (the District), is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the Uniform Guidance. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the District's financial statements for the year ended June 30, 2017.

2. Noncash

The District receives food commodities from the U.S. Department of Agriculture for use in its food service program. The commodities are recognized as revenue when received. The commodities are recognized as expenditures when used by the schools. Commodities are valued based on current market value. Expenditures totaling \$210,952 were recognized for food commodities used during the year ended June 30, 2017. The majority of the commodities are stored at the individual schools, instead of a central warehouse. As such, the District has determined that the title to the commodities passes to the District upon receipt of the commodities. Since the District has received title to the commodities, the unused commodities are not reflected as deferred revenue.

3. Indirect Costs

The District has not elected to use the 10% de minimis indirect cost rate as allowed in the Uniform Guidance, Section 414.

Fax: 303.853.1086

Status of Prior Year Audit Findings

Finding 2016-001

Preparation Of A Complete And Accurate Schedule Of Expenditures Of Federal Awards (SEFA)

Significant Deficiency

Criteria: OMB Uniform Guidance identifies and details the required elements of the Schedule of Expenditures of Federal Awards (SEFA). The District is required to prepare a complete and accurate SEFA, and to have a system of internal controls, the design and operation of which allows management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, errors on a timely basis. The District is also required to comply with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts.

Condition: The District failed to identify a federal grant program and report federal expenditures of \$127,204 in its original SEFA for the year ended June 30, 2016. All required details for the grant program were also omitted from the SEFA.

Questioned Costs: None.

Effect: As a result of the omission, the SEFA was incomplete. Inaccurate identification of federal awards can result in inaccurate major program determination, risk assessments, materiality determinations, identification of compliance requirements, reporting errors and could result in unintentional disbursement of federal awards on disallowed costs. Management corrected the SEFA.

Cause: The District was not aware that the specific grant's expenditures were required to be reported on the SEFA because the funds were passed through from a county agency and did not identify the nature of the funds through the agreement with the agency.

Recommendation: The District should review the requirements of OMB Uniform Guidance and establish procedures to ensure that each grant/award/contract is reviewed at inception to determine the existence or absence of federal funding. Also, the District should correspond with awarding agencies at the time of award to determine and document whether the award is federal or nonfederal.

7350 N. Broadway, Denver, CO 80221 Phone: 303.853.1000

Fax: 303.853.1086

Views Of Responsible Officials And Planned Corrective Action: Procedures will be put in place for the grant writer and the Chief Financial Officer to review and sign-off on all grant applications and awards to determine the existence or absence of federal funding, as well as review their inclusion or exclusion on the prepared SEFA.

Status: This recommendation has been implemented. Chief Financial Officer (CFO) and the district grant writer reviewed all new grants for federal elements, to include sub-recipient awards. The SEFA was reviewed by the Chief Financial Officer, the Assistant Director of Finance, and the Grant Accountant and was cross-referenced against board meeting minutes spanning the fiscal year to verify that all federal grants approved by the board were included. Applicable District employees including the CFO, Assistant Director of Finance, Grant Accountant, and Purchasing Agent continue to attend federal grant compliance trainings whenever possible including the most recent Uniform Grant Guidance (UGG) training from RubinBrown, as well as a webinar offered by another audit firm. The District has scheduled federal grant training for federal grant managers and school directors as well.
