

Business OperationsContracting for Services

Contractual services which by their nature are not adapted to award by competitive bidding, such as contracts for the services of individuals possessing a high degree of professional skill, where the ability or fitness of the individual plays an important part, are not subject to bid but are subject to approval by the Board of Education in conformity with established policy except that services approved by a child's individualized education program (IEP) team need not be approved by the Board of Education. Contracts (i.e. speech-language, occupational therapy, physical therapy, etc.) with service providers that are not specific to an individual student, but the contractor provides services to multiple students via the same contract, should be presented to the Board of Education for consideration.

Every contract for services to be provided to the Plattsmouth Community School District shall require that the contractor use a federal immigration verification system to determine the work eligibility status of new employees physically performing services within the State of Nebraska. Such requirement shall be deemed to be included and a part of the terms of every contract for services with the School District, including but not limited to, oral contracts.
