Code of Conduct: Rights and Responsibilities for Students, Families, and Staff

Foreword

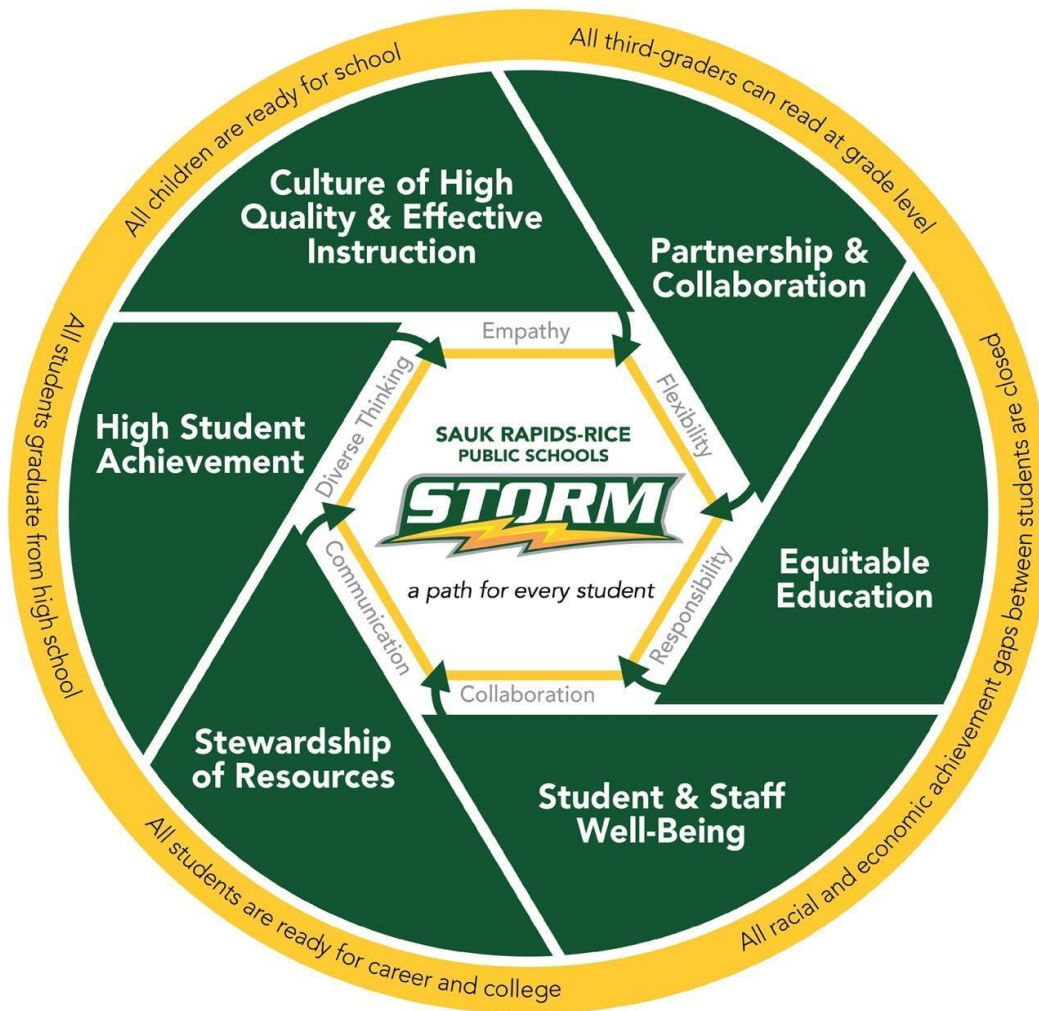

This Code of Conduct is a guide to student behavior. The Sauk Rapids-Rice Public Schools, ISD 47, Board of Education creates and adopts policies to guide the actions of everyone in the district. The district team develops procedures to show how these policies will be implemented in the Sauk Rapids-Rice Public Schools and the superintendent, principals and program administrators can then add specific school guidelines and expectations. Teachers and other staff work with students to set and follow the expectations for how they will work together in each classroom. Adult staff members are held to high standards of behavior and are subject to all applicable laws, Board of Education policies, and Human Resources' rules and practices. The rules and regulations regarding student behavior, intervention, and discipline in this document fulfill the Board of Education's policies as stated in [Sauk Rapids-Rice Public Schools District Policies](#).

This Code of Conduct applies to incidents and situations that occur on school premises, on school district property, at school functions or activities, on school transportation, or on school computers, networks, forums, and mailing lists. This document may also apply to incidents that occur off school premises to the extent that it substantially and materially disrupts student learning or the school environment.

This Code of Conduct has been adapted from ISD 742 and ISD 625.

The Sauk Rapids-Rice Public Schools believe in effective partnerships between students, staff, families and community members to create a climate that is inclusive, safe, caring and stimulating, and promotes shared responsibility for performance and innovation.

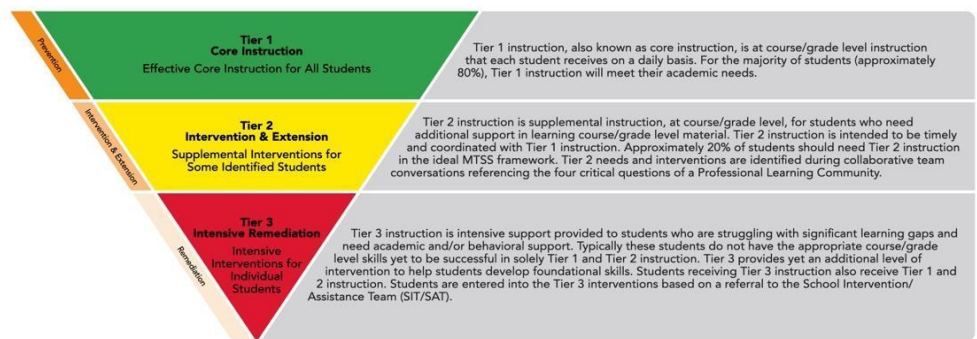

In order to support our school climate initiatives, Sauk Rapids-Rice Public Schools use evidence-based strategies to support positive student development. Multi-Tiered Systems of Support

A Systemic, Integrated, Comprehensive Framework That Focuses on the Alignment of Systems Necessary for All Students' Academic, Behavioral, & Social Success

Standards of Student Behavior

A safe and positive learning environment is essential. Knowing and complying with the district's expectations and procedures will support students in making positive choices. When students are disruptive or act inappropriately, they will be held accountable for their actions. When students do not follow the rules, school staff are expected to respond appropriately and consistently.

Refer to the Student Handbook of your child(ren)'s school for information beyond the SRR Code of Conduct:

This section of the Code of Conduct identifies the five levels of behavior infractions with examples of supports, interventions and responses. These guidelines describe the various actions that may be taken when a behavior infraction occurs.

Interventions and responses will be used within the general guidelines of the five levels of the behavior matrix. Level one is the least severe and level five is the most severe. The format of this section includes the behavior infractions, their definitions and the levels of each behavior. The dots in the matrix denote the level of behavior infractions but do not indicate which response will be taken at the administrative level. There shall be a logical relationship between the severity and frequency of the behavior infraction, the age of the student and the administrative action. School administrators will inform the parent/guardian of any student whose behavior is in serious conflict with established rules and procedures. Students and their families are responsible for working collaboratively with school staff to support the rules and procedures outlined in this Code of Conduct.

Unless otherwise noted, these policies apply to student behavior infractions occurring on any property owned or controlled by Sauk Rapids-Rice Public Schools, occurring in connection with any activity sponsored by or associated with Sauk Rapids-Rice Public Schools or off school premises to the extent that it substantially and materially disrupts student learning or the school environment.

Additional Information

Intervention Processes

All intervention actions will be processed pursuant to Sauk Rapids-Rice Public Schools discipline policies, the requirements of the [Minnesota Pupil Fair Dismissal Act](#) and other applicable law.

- School staff will first use non-exclusionary practices, unless the student may create an immediate danger to self and/or property. Minnesota Statute 121A.45, subdivision 1.
- School staff will use support, responses and interventions in the Code of Conduct to respond to behavior infractions.
- Juvenile or criminal proceedings or consequences against the student do not preclude the school district from disciplining the student for violations of the Rights and Responsibilities Handbook or for other misconduct.
- Any student who violates a policy that has a potential consequence of suspension from school for more than one school day shall have an informal conference with a school administrator.
- If a student's total days of removal from school exceeds ten (10) cumulative days in a school year, the school district shall make reasonable attempts to convene a meeting with the student and the student's parent or guardian before subsequently removing the student from school.
- All students who violate a policy or rule that has the potential consequence of expulsion or exclusion will be given the opportunity to have a hearing in accordance with Minnesota law.
- See the [Minnesota State High School League Official Handbook](#) to determine the impact of administrative actions on student eligibility and participation in Minnesota State High School League activities.

Alternative Educational Services Procedures

When students are removed from class because of a behavior infraction, school staff must provide missed assignments and the opportunity to make up those assignments in a reasonable amount of time without penalty. * Students with Individualized Education Programs (IEPs) and 504 Plans have additional protections.

If a student is suspended for more than five (5) school days, the student is entitled to alternative educational services that will allow the student to progress toward meeting graduation requirements and the suspending administrator must provide the superintendent with a reason for the longer suspension. Generally, Sauk Rapids-Rice Public Schools provides alternative educational services according to the following schedule:

Length of Suspension	Services Provided	School Administrator or Designee Responsibility	Parent/Guardian Responsibility
Up to five (5) school days	Current classroom work and homework will be made available, if possible	Arrange for collection of classroom work and homework from teachers	Pick up classroom work and homework from school or arrange to have it mailed to home Return completed work upon student's return to school
Six (6) to ten (10) school days*	Current classroom work and homework will be made available no later than the sixth school day of suspension	Arrange for collection of classroom work and homework from teachers	Pick up classroom work and homework from school or arrange to have it mailed to home Return completed work to school administrator
Up to 15 school days (only pending expulsion, consideration of administrative transfer, or when student constitutes a substantial and immediate danger)*	Alternative education services must be arranged to begin no later than the 11 th school day	Arrange for alternative education services as soon as a determination has been made to refer student for expulsion or transfer	Assist school administrator in establishing a schedule for the delivery of alternative education services

This schedule does not preclude school administrators from providing different alternative educational services that allow the student to progress toward meeting graduation requirements. Each suspension action will include a readmission plan. The readmission plan shall include, where appropriate, a provision for implementing alternative educational services upon readmission and may not be used to extend the current suspension.

The school administrator is responsible for ensuring that the school attempts to provide required alternative educational services. Families also have the responsibilities set forth above. Parents who have concerns about the school's compliance with these procedures should contact the school administrator or superintendent promptly.

Students with a Section 504 Plan

Students covered by Section 504 of the Rehabilitation Act of 1973 may be disciplined for behavior related to their disabilities, unless the discipline would result in a significant change of placement. A qualified student with a disability may not be suspended for more than ten cumulative school days without a manifestation determination conducted by the student's 504 team.

Students with an Individualized Education Program (IEP)

When a student with a disability is dismissed for more than ten (10) days in a school year, is being considered for a 45-day unilateral placement, or before initiating any expulsion or exclusion, relevant members of the child's IEP team and the child's parent shall, consistent with federal law, conduct a manifestation determination meeting. That meeting must occur as soon as possible, but no more than ten days after the sixth consecutive day of suspension or when the tenth cumulative day of suspension has elapsed. The team will determine if the behavior is related to the student's disability. The team may need to conduct a Functional Behavior Assessment and write a behavior intervention plan to support the student at school.

A dismissal for one (1) school day or less is a day of suspension if the student with a disability does not receive regular or special education instruction during that dismissal period. A student with a disability shall be provided alternative educational services to the extent a suspension exceeds five (5) consecutive school days.

Consistent with federal law, before initiating an expulsion or exclusion, the district, relevant members of the student's IEP team, and the student's parent shall determine whether the student's behavior was caused by or had a direct and substantial relationship to the student's disability and whether the student's conduct was a direct result of a failure to implement the student's IEP. When a student with a disability who has an IEP is excluded or expelled for misbehavior that is not a manifestation of the student's disability, the district shall continue to provide special education and related services during the exclusion or expulsion. [Minnesota Statute 121A.43](#)

- *Unless the student has been removed 11 or more cumulative days in a school year. [Minnesota Statute 121A.43\(a\)](#).
- **In-school suspension is not considered a day of suspension for a student with a disability as long as the student continues to receive regular and special education services during the in-school suspension.
- ***If bus transportation is a part of the student's IEP, a bus suspension would be treated as a removal unless the school provides transportation in some other way, because that transportation is necessary for the student to obtain access to the location where all other services will be delivered. If bus transportation is not a part of the student's IEP, a bus suspension typically would not be a removal.
