## Bathroom Expectations:

In 4K we take a group bathroom break where multiple students use the bathroom and teachers are in the hallway helping with handwashing. It is a goal that your child is potty trained and independent in the bathroom. Including wiping, pulling up/down clothes, and washing hands. We understand that all children develop at different times with these skills, please let us know if you have concerns about your child completing these tasks independently. If needed we can provide you with tools to implement these skills at home. Encourage your child to wear clothing that will allow them to be independent with these skills and be sure to practice at home.
