Riverview Community School District offers an optional Chromebook device protection plan that can be purchased to protect you from unexpected repair costs.

Intentional damage will not be covered by this protection plan.

Accidental damage will no longer be covered by the district but damages can be covered under the protection plan.

The RCSD Technology Department will assess the device damage and choose to repair or replace the device. Parents/Students will be charged the correlating amount unless the protection plan was purchased.

The optional protection plan cost is \$25.00 annually for each Chromebook and is non-refundable. If there is financial hardship and you cannot pay the technology protection plan fee, please contact your student's Principal.

The Protection Plan must be paid by October 1st of each school year or 30 days after your student enrolls. You may not opt into the insurance program after October 1st.

Students who un-enroll from Riverview Community School District during the school year must return the device, along with any issued accessories, at the time they leave the district. The device and all accessories should be returned to the school's Main Office. Failure to return a device in a timely fashion may result in payment in full (up to \$300).

You can enroll by submitting payment through My Payments Plus. Alternatively, if online payment is not possible, please complete the form and send a check made payable to Riverview Community Technology Department.

In the case that a Chromebook is stolen, Riverview Community School District will require that a police report be submitted for claim purposes. Students making false reports will be subject to disciplinary action as outlined by the school code of conduct. In the absence of a police report families will assume full replacement cost of the device. If a report is filed, the RCSD Technology Department will aid the Police in the recovery of the device.
