

8110 ATTENDANCE AREAS

The Board of Education directs the assignment of pupils to the schools, programs, and classes in a manner that is consistent with the best interests of the pupils and the best uses of the resources of this district.

The Board of Education has established attendance areas for each elementary school in the district. Attendance areas boundaries shall be the center of the roadway forming the boundary unless otherwise noted. Pupils shall attend the school within the attendance area where the parent or legal guardian resides. Exceptions may be made by the Superintendent of Schools.

The Superintendent shall annually review existing attendance areas and recommend to the Board such changes as may be justified by considerations of safe pupil transportation and travel; convenience of access to the schools; financial and administrative efficiency, the effectiveness of the instructional program, and a wholesome and educationally sound balance of pupil populations.

Mackay Elementary School
