**CLARIFICATION NO. 1**

**Question from BL Companies:**

I just need to clarify that the RFQ is for services related to inspections/assessments and reporting on the existing HVAC systems at the five sites noted.

If I'm reading the doc correctly, cost estimates, plans, spec, bid docs and CA services would follow after the award of this phase.

**Answer:**

Budgetary numbers should be provided with the initial report.

Detailed cost estimates, plans, specifications, bid documents and construction administrative services will follow after the award of this phase.
