

Enrichment Opportunities

Enrichment programs are offered throughout the school year and summer and provide a great opportunity to explore new areas of interest or dig deeply into something that you already enjoy. Below is a list of learning opportunities that have been offered in recent years through various colleges, universities, and organizations. This list is not exhaustive, and if you have certain colleges of interest, I encourage you to see if they offer summer experiences. Some award course credit! Read all the details for each program and note all deadlines.

Please let me know if you discover a program that is no longer offered and I will remove it from the list. Likewise, if you find something I should add, please send me the details. As you search, be sure to note eligibility requirements and application deadlines and, as always, **apply early!! Deadlines are often much earlier than you might expect.**

College/University Programs

Abilene Christian University (TX)

Summer Programs: <https://www.acu.edu/rising-scholars/>

Asbury University (KY)

ImpactU Academic Camps provide a unique opportunity for students to be in the classroom and learn from Asbury University professors and experience living in the dorms and community life with current students who will be counselors. <https://www.asbury.edu/life/conferences-camps/impactu/>

Auburn University (AL)

Auburn University's McWhorter School of Building Science is offering a Construction Management Summer Academy for Young Women. Every young woman selected to attend will receive a full scholarship for the cost of the camp. Students can apply online here:

<http://www.auburn.edu/outreach/opce/auburnyouthprograms/constructionmgmt.htm#apply>

Auburn also offers other summer camp opportunities within the fields of Architecture, Design and Construction open to any rising junior or rising senior. Registration is available at the following links. Scholarship applications are available.

Building Construction Camp:

Nashville Urban Heat Fellows Program

Urban Heat Youth Fellows program is an environmental leadership and research summer program for 15– 18 year old urban Nashville residents. This program is led by MTSU professors in collaboration with Cumberland River Compact and Root Nashville. The Fellows program focuses on the science of high temperatures in urban areas and how these affect community health and wellbeing. You'll collect, analyze, and interpret data with other fellows and community and university experts. You will also learn how to develop engaging science communication and help educate Nashville residents about urban heat.
