SECTION II - ATTENDANCE INFORMATION

ELEMENTARY SCHOOLS TIME SCHEDULES: AVONA, WILLIAMS TOWNSHIP, and WILSON BOROUGH ELEMENTARY SCHOOLS

- Students should not arrive before 8:40 AM, which is when they will be permitted to enter the buildings. Students arriving early will be requested to stand in an orderly fashion in an assigned area outside of the building.
- Grades K through 4 - 8:55 AM to 3:15 PM.
- All students are expected to leave for home at dismissal unless they are requested to stay by a teacher/administrator.

ARRIVING LATE / LEAVING EARLY

If your child will be arriving late or leaving early for any reason, please notify the classroom teacher or the school office in advance. Also, if your child is arriving late and would like to order a school lunch, please notify the school of your child's lunch selection prior to 9:20 AM. All school lunches must be ordered by 9:20 AM.

Children leaving early must be picked up at our school office by a parent or guardian. Please contact the office and send a written note if someone other than the parent is picking up the child.

FIELD TRIPS

During the course of the school year students may have the opportunities to attend school-sponsored field trips that will enhance their educational experience at the elementary level. All students will be required to have a signed parent permission slip. Students must meet academic and behavioral guidelines in order to attend.

Parents of students who take prescribed medication during the school day must make arrangements with the nurse prior to the field trip. Students are required to adhere to district policies, school discipline codes, and school rules while on the trip.

An alternate program will be provided at school for any students who are excluded from or choose not to go on the trip.

REPORTING ABSENCES and REQUESTING HOMEWORK

Parents are required to call the appropriate school office each day that their child is absent from school. This contact serves as a safety measure and notifies the school that your child is not expected in attendance.

If homework is being requested for an absent child, please leave this request with the secretary at the opening of the school day. A teacher will need the full day to prepare your child's homework which may be picked up in the office after dismissal.

REQUEST FOR EXCUSED ABSENCE FROM SCHOOL

Families planning an educational experience during the school year are required to complete a **Request for Excused Absence from School** form in advance of the trip. Parents also agree to assume responsibility for the child's school work during the period of absence. As per the form absences are limited to five (5) school days. Request for Excused Absence from School forms

can be obtained from the school secretary and are maintained on file in the school office. Forms are also available on line on the district's website, www.wilsonareasd.org.

SECTION III - HOME AND SCHOOL SERVICES

ANNOUNCEMENTS AND NOTICES

Any organization wishing to send announcements home with the children must first have approval from an elementary principal.

Elementary age children have a hard time remembering dates, times, places, costs for events and registrations from oral announcements. Therefore, we are asking that all announcements or flyers be composed by the organization, printed, and counted out in packs of 30 to be delivered to the school secretary at least one day prior to expected distribution. All announcements should have a contact person and telephone number. Should emergency cancellations be required, please phone the school secretary who will make the necessary announcements.

BIRTHDAYS

In adherence with the Wilson Area School District Student Wellness Policy #5141.2 and state regulations, as well as concerns over student food allergies, we cannot permit food items to be sent to school in honor of a child's birthday or other special event. The Wilson Area School District Student Wellness Policy is contained within the Parent/Student Handbook on page 31 for your review.

We understand that birthdays are special days in the lives of our students and their families, and we look forward to sharing birthday excitement with your child. In lieu of a food treat, one suggestion to honor your child's special day would be the donation of a favorite book to the classroom library of your child. The book could be read to the class by the student or the teacher and then placed in the classroom collection for all of the students to read. Honoring your child's birthday in this way leaves a lasting gift that students throughout the years will be able to enjoy. Please note there is no obligation to recognize your child's birthday with a class gift of any kind.

Birthday or party invitations will not be given out in school unless the entire class is invited. A list of student names may be obtained by contacting the school secretary. Home addresses, email address and phone numbers cannot be given due to confidentiality.

HOME SCHOOL COMMUNICATION

Parents are encouraged to keep in close contact with the school concerning the progress of their children. If questions arise throughout the year, parents should feel free to call the office or send a written correspondence to staff. We will be glad to help in any way possible.

INSURANCE

Accident insurance is available to all students. Insurance application forms are available on the district website under school forms. Accident insurance is not required. Parents may contact the office if they need additional information.

NEED FOR PARENT COOPERATION

Each school year there are many activities and events that require teacher time. In order to maximize the time our teachers spend with students, we ask for your help in the following ways:

1. Make sure your child arrives to school on time.
2. Make sure your child attends school every day, unless he or she is ill.
Note: *Missing school because of bad weather, visiting others, or waking up late are not legal excuses.*
3. If your child has been absent, be sure that he or she returns to school with an excuse stating the reason for the absence.
4. Please treat all home injuries (cuts, scrapes, splinters, etc.) before your child comes to school.
5. Check that your child has all necessary supplies for the day (lunch money, lunch, books, homework, papers, etc.). *Note: A book bag helps youngsters to stay organized.*
6. Your child is to ride only on his or her regularly assigned bus.
7. Upon entering the school building, all visitors must register in the school office. This is to eliminate untimely interruptions and to insure the safety of all students and staff.
8. Please stand clear of hallways and bus loading zones during dismissal time. Also, please wait until after dismissal to visit teachers, as they are supervising children.
9. Please do not park in the bus or van loading zones.
10. Do not double park when dropping off or picking up children.
11. For the safety of the children, please do not call your child from your car or from between parked cars. Please help them to cross at street corners only.
12. Parents delivering items to the school are requested to leave them in the school office, so that classes aren't disrupted.
13. Please do not permit your child to wear headphones, or ride bicycles, skateboards or scooters to school. These can be hazardous for children when crossing streets or waiting for the bus.
14. Students should not wear flip-flops, sandals or slippery shoes. *Note: Sneakers are recommended for gym classes.*
15. If involved in a custody case, please provide the school with a copy of the custody order.
16. The procedure to discuss or report concerns, problems or complaints is to:
 - A. Contact your child's teacher. If the problem is not resolved then:
 - B. Contact the Principal
 - C. Contact the Superintendent

Multi-Tiered System of Supports (MTSS)

Multi-Tiered System of Supports (MTSS) in Pennsylvania refers to the use of a standards-aligned, comprehensive school improvement and/or multi-tiered system of support for implementing PA's Standards Aligned System (SAS). Response to Multi-Tiered System of Supports (MTSS) rests on using a continuum of student performance data to continuously inform, monitor and improve student access and response to high-quality core and supplemental instruction/intervention. Through a multi-tiered system of support, implementers have a road map for facilitating systems change within the context of data-based decision-making and instructional matching. The intent of MTSS is to improve learning as efficiently, effectively and equitably as possible for ALL students, including students with disabilities. Response to Instruction and Intervention is an "Every Ed" standards-aligned initiative.

In the Wilson Area School District, we have been evolving the district's Child Study Team process to better meet the state's requirements. If you are interested in learning more about MTSS and what it provides for your child, please contact your building principal or MTSS Coordinator.

SECTION V - EMERGENCY INFORMATION

EMERGENCY INFORMATION

Parents/guardians are required to submit emergency contact information for their student. This information is to be entered via the Skyward student system. Parents/guardians will be required to update this information annually prior to the start of the school year. Several contact people should be listed in case parents cannot be reached. Arrangements should be made to pick up sick children as quickly as possible. Parents must promptly report any change of information to the school nurse or secretary.

FIRE DRILLS

Fire drills are held periodically throughout the school year. Teachers review fire safety procedures and practice fire drills during the first few days of school. When the alarm is sounded, students move quickly and quietly to their designated exit. Children remain at a safe distance from the school building until the signal to return is given, at which time they are expected to re-enter the school building in a quiet fashion.

EMERGENCY DRILLS

Emergency drills are designed to prepare for the appropriate student response in the case of incidents that threaten the safety and welfare of the children and staff inside the building. Emergency drills are held periodically throughout the school year. Teachers review safety procedures which ensure that all students and staff follow necessary protocol.

Students will be able to purchase a cold breakfast at school for \$1.20. Breakfast will be served at all elementary schools in the classroom. Students who qualify for free or reduced lunches will also be eligible for free or reduced breakfasts. Breakfast will not be served if the start of the school day is delayed due to poor weather conditions.

CAFETERIA CONDUCT

An adult cafeteria aide is present daily for supervision of children in the cafeteria. Appropriate consequences for student misconduct will be assigned by the cafeteria aide, as necessary. Reports of misbehavior will be provided to the child's teacher. Common cafeteria rules include:

SECTION VII – STUDENT CONDUCT AND RESPONSIBILITY

CHROMEBOOK STATEMENT

Students are responsible for the appropriate use of the Chromebook both at school and at home. All commercial, illegal, unethical, and inappropriate use of the Chromebooks is expressly prohibited. Students are expected to arrive at school every day with the Chromebook battery fully charged and with the power adapter. Students must report issues with their Chromebooks as soon as possible. Similar to textbooks, damage to the Chromebook is the responsibility of the student. Information on the use of Chromebooks in a 1:1 environment can be found on the District website.

DAMAGES TO SCHOOL PROPERTY AND CAFETERIA CHARGES

Students will be held responsible for damages to Chromebooks, books borrowed from the school library, books loaned to them, and to school property. In addition, students will be responsible for making payment for any charged school meals. Fines will be assessed for such items and payment will be expected within a reasonable amount of time.

HALLWAY CONDUCT AND SAFETY

When walking through the halls, children should move directly and quietly to their assigned areas or classrooms. Children should observe safe conduct when passing in the halls by walking on the right, carefully opening doors, and using single file passage on the stairs.

ITEMS THAT SHOULD NOT BE BROUGHT TO SCHOOL

Students are reminded that they should not bring items to school that are not essential to instruction such as toys, electronic games, trading cards, etc. should be left at home (please refer to Policy #5114.1 on page 68). Anything that could be construed as a weapon should be left home (please refer to Policy #5114.2 on page 33). Cell phone use is governed according to Policy #5114.1 (please see page 68).

STUDENT DRESS

Students at the elementary schools take pride in their appearance. In addition to being neat and clean, we expect them to dress appropriately at all times. It is suggested that children dress with weather in mind. Layered clothing allows children to adjust due to changing temperatures both in the classroom and outdoors. Sneakers are recommended on days when they have physical education or are scheduled for outside recess activity. Shoes need to be secure to foot for safety. Following are helpful guidelines:

Head Gear	Hats, bandannas and kerchiefs' are not to be worn.
Shoes	Flip-flops, higher heeled/platform shoes are considered unsafe for normal school activity.
Tops	Tank tops, Crop tops, Halter/tube tops and those with "spaghetti like" straps are not permitted. Oversized shirts such as boys basketball team jerseys are only permitted with a t-shirt worn under it or an over shirt.
Shorts	Tight fitting shorts or "short-shorts" (shorts cut very high on the leg) are not allowed.
Temporary Hair Color	Water-soluble hair color is not permitted.

This information should be helpful to you managing what is considered appropriate and safe to wear to school.

HOMEWORK POLICY

Policy # 6154
Revised: 4/16/2007

Because education is a lifelong process, which extends beyond the school, it is important that learning occurs in the home and community. Homework is one means of teaching the necessary skills of independent study and learning outside the school. A broad definition of homework is considered here to include not only written work, but also related activities which are related to classroom work, but which are assigned to be done outside of the classroom.

Current research indicates that the amount and quality of time students spend studying has a direct and positive impact on learning success. The Wilson Area School District believes that teachers should use homework assignments to foster positive, long-term, education-related behaviors and attitudes. Homework should have different purposes at different grades. For younger students, it should foster positive attitudes, habits, and character traits, reinforcing the learning of simple skills introduced in class. For older students, it should facilitate knowledge acquisition in specific topics. Additionally, homework should be assigned when it is clearly connected to skills learned and can demonstrate a connection to improving student achievement.

Reasons for Homework

Reasons for assigning homework may well differentiate by grade and age developmental level. All homework assigned should clearly be based upon a viable and understood purpose.

- To assist students in developing positive work and study habits and attitudes.
- To provide practice for reinforcement of learning that a student has acquired and must learn to master.
- Discovery and preparation for the subsequent lesson when this preparation can increase interest, motivation and impact significantly on student learning.
- To provide opportunity for students to be involved in research activities. This would contribute to knowledge acquisition as well as provide opportunities to engage in higher order thinking activities.
- To enrich the learning experience and permit the student to demonstrate independent learning skills.

Types of Homework

The three basic types of homework are listed with a short explanation of each. Teachers are encouraged to utilize all three types depending on the needs of the student and the nature of the material being taught.

1. Focused Practice

This is given to provide students the opportunity to both practice an essential skill and to specifically reinforce previously learned skills that require retention for future skill attainment. The practice should strive to reinforce and improve retention of previously learned, essential skills that contribute to subsequent learning and standards attainment.

2. Preparation

These are assignments intended to permit the student to gain background information essential for subsequent learning. This is intended to enhance the depth of learning that can occur and to accelerate learning activities in the limited classroom time.

3. Enhancement of Learning

This provides students with opportunities through assignments to develop: independent work and learning skills, higher order thinking skills, the fostering of creativity and expression, research and reporting skills.

Guidelines for Teachers

Homework needs to have a purpose and specific focus related to learning, skill acquisition and mastery of a skill or knowledge. It should be assigned in amounts that diagnostically identify skills or knowledge to be learned as well as the developmental levels of individual students. Teacher-designed, rather than generic types of homework are recommended, as it will target the exact learning or skill to be attained.

Homework, if assigned, needs to be assessed with feedback to students providing reinforcement or re-direction for improved achievement. Quantity of homework should be considered to reflect what is necessary to meet the purpose for which it was designed. Homework should never be assigned as punishment or as a means to occupy student time or attention. Homework assigned to students requires effective communication for students with directions and expectations in clear and understandable form. Consideration should be given to balance the assignment of homework with the research relative to effective on-task attention spans of differentiated age levels. It is recommended that high school students combined homework should not exceed two hours per night. Homework for earlier grades should be adapted accordingly.

Guidelines for Parents

Parents can support a child's interest in lifelong learning by encouraging good study habits and providing a learning environment in the home.

- Provide a quiet, well-lit place for the student to do homework.
- Help your child budget time so that a regular schedule for study is set.
- Take an active interest in what your child is doing in school. Ask for an explanation of a particular assignment and what is being learned. Compliment good work or when improvement is shown. Make constructive suggestions but avoid severe criticism and undue pressure. A positive attitude by parents will encourage the student to do the best work possible.
- Encourage your child to seek additional help from the teacher at school if there seems to be any difficulty with the work
- Encourage and guide your child with assigned homework. Under no circumstances should you complete the assignment for your child.
- Regular school attendance is important for your child's continued learning. Absenteeism is not a valid excuse for not fulfilling homework requirements.
- Communicate with the teacher any concerns you have about your child's work habits and academic growth.
- Encourage your child to form the habit of writing homework assignments in a notebook or agenda book. Periodically check to see if your child is developing and maintaining this sound educational habit.

Guidelines for Students

- Keep a record of homework assignments in a notebook or agenda book as soon as the assignments are given.
 - Ask the teacher to clarify assignments that are not clear to you.
 - Be responsible for your own work; complete assignments on time; and hand assignments in when they are due.
 - Establish a regular time each day to do your homework in a comfortable, well-lit area equipped with all the necessary materials.
 - Do your own work and the best you can at all times.
 - Make effective use of study hall time.
 - Set a limit on co-curricular activities if they interfere with your academic growth.
 - When not in attendance, you are responsible for any missed assignments.
 - It is urgent that if you are having problems learning in school, discuss the problems with your parents, teachers, or other school officials.

1. **PURPOSE**
This policy has the purpose of prohibiting students from being in possession of weapons on school property, for providing procedures for investigation and notification in the event of a report of or suspicion of the presence of a weapon on school property, and for providing mandatory disciplinary consequences, in accordance with the Federal Gun Free Schools Act of 1994 and PA Act 26 of 1995 (Safe Schools Act).
2. **DEFINITIONS**

A “weapon” is defined as any loaded or unloaded firearm (including any pellet guns, B.B. guns and look-alike firearm); an explosive device or any kind; a knife, cutting instrument, cutting tool, or any other tool, instrument or implement that is capable of inflicting serious bodily injury and is not reasonably related to education such as chains, brass knuckles, night sticks, ax handles, numchuk (s), etc. For purposes of this policy, firearm is defined in accordance with United States code, Title 18, Section 921. The foregoing does not apply to any object which has been specifically authorized by school officials, which may include antique firearms, a sporting or recreational firearm, or Army surplus ordinance.

A student is deemed to be in possession of any illegal and/or banned item(s) under this policy when such item(s) is found on the person of the student, on his/her possessions, under his/her control, on property being used by the school or at any school function, or activity, or any school event held away from the school, or if the student enters the Drug-Free School Zone surrounding the schools while on his/her way to school.

This prohibition shall not apply to any weapon (a) if it is brought to school by a student for an approved academic or extracurricular purpose; and (b) if it is a firearm which is not loaded and/or rendered mechanically incapable of being fired; and (c) it is properly encased and locked.

3. **GUIDELINES**

If, after appropriate due process proceedings and notice, a student is found to be in possession of or transporting a weapon during school hours or activities on school property, regardless of intent, that student will immediately be reported to the local police, scheduled for informal hearing, cited for a suspension, and referred to the Superintendent.

In accordance with federal and state law, the Superintendent shall expel from school, for a period of not less than one (1) calendar year, any student who is found in possession of or transporting a weapon, as defined in this policy, and shall report such incidents to the Department of Education. The Superintendent may modify the one (1) year expulsion requirement on a case-by-case in order to conform to the provisions of the Individual with Disabilities Education Act.

The Superintendent may expel or suspend from school any student who is found in possession of or transporting harmful implements. Such determination will be made based upon degree of danger, intent, and potential for harm to others.

Any student who violates this policy will be referred to the criminal justice or juvenile delinquency system, as required by law.

4. **PROCEDURES**

The Superintendent will develop a public statement and will inform the Board Members.

The principal and Superintendent will coordinate the informal hearing procedure, (e.g., investigation, securing written statements, witness statements and anecdotal records substantiating the charges of possessing, transmitting and/or transporting a weapon); as well as the notification requirements for a formal hearing for expulsion proceedings, in accordance with the Pennsylvania School Code.

Policy #5111

Revised: 3/2/2020

1. Authority	The Board shall establish age requirements for the admission of beginning students, which are consistent with statute and sound educational practice and ensure the equitable treatment of all eligible children.
2. Guidelines	<p>Children who are entering kindergarten should be five years of age on or before September 1.</p> <p>Children who are entering first grade, with no previous kindergarten experience, should be six years of age on or before September 1.</p> <p>In the event a student has attended kindergarten in a public school in Pennsylvania or a public school in another state, and moved into the District, the student will not be required to repeat kindergarten even though the student does not meet the age requirement.</p> <p>A student moving into the District from a public school in Pennsylvania or a public school in another state, during the school year, will be considered for kindergarten placement based on previous experience and compatibility with the program offered by the District.</p> <p>In cases where the parent/guardian of a September-birthday child feel the child is ready for school, the parent/guardian may request District-administered academic achievement testing. The parent/guardian will, in writing to the Superintendent or Director of Student Services, request testing and the reasons they believe their child is ready for early entrance into school. The written request shall be made no later than June 1 of the year in which</p>

	<p>enrollment is being sought. This testing will determine whether or not the child demonstrates at least one standard deviation above the mean on academic achievement testing, showing advancement in both the areas of reading and math, the District standard for admission below the minimum age requirement. A District certified school psychologist will administer the test and report on his/her findings; the Director of Student Services and/or Superintendent will review the report and render a final decision. The parent/guardian must pay a non-refundable amount of \$250 in advance of testing for this service. The District will not consider any independent evaluation done outside the District. The results of the tests administered by the District are final; there is no appeal.</p> <p>The fee for testing is subject to periodic increases to reflect more closely the actual cost for the District. The testing fees will be waived if the parent/guardian can show their household income is within the limits of the Federal Eligibility Income Guidelines as outlined on the free/reduced lunch application. The access to academic achievement testing is provided only for children with September birthdays.</p>

At the discretion of the Superintendent, up to ten (10) additional days in the school year may be granted by the Superintendent, with prior approval. Consecutive days beyond fifteen (15) total days will require that the student be withdrawn from the District.

Permission to be absent for an educational trip will be granted only under the following conditions:

1. The parent or guardian must complete a “Request for Excused Absence” form, available in each school office, prior to the trip.
2. Approval for excused absences, not to exceed a total of five (5) days for the school year, will be at the discretion of the building principal and granted to students who do not have attendance issues.

COVID -19

During the pandemic outbreak, attendance requirements may be adjusted.

Truant

Three (3) or more school days of unexcused absences during the current school year by a child subject to the compulsory school attendance law.

Habitually Truant

Six (6) or more school days of unexcused absences during the current school year by a child subject to the compulsory school attendance law.

Unexcused Absences

Absences other than for the reasons already explained will be considered to be unexcused. When a student is charged with an unexcused absence, parents are liable to legal action under the laws of the State of Pennsylvania. Examples of unlawful absences include: cutting classes, skipping school, missing a bus, illegal employment and any other excuse that is not acceptable according to the School Code. Failure to provide a doctor's excuse, when required, will also be considered to be unexcused.

School time missed, due to chronic tardiness to school without a written legal excuse, may be accumulated and converted to an equivalent number of days of unexcused absence.

When an absence is determined as unexcused, the parents or guardian will be notified electronically, by phone or by letter after each of the first two offenses.

The District will notify parents or guardians in writing within ten (10) school days of the student's third unexcused absence that the child has been truant.

When a student has reached six (6) days of unexcused absences the District will notify parents or guardians in writing within ten (10) school days of the student's six (6) unexcused absences that the student is habitually truant. The student will also be required to participate in an attendance improvement conference. This conference is defined, under law, as a conference where the child's absences and reason for absences are examined in an effort to improve attendance.

The following individuals will also be invited to the conference:

- The student
- The person in parental relation to the student
- Other individuals identified by the person in parental relation who may be a resource
- Appropriate school personnel
- Recommended service provider
- Magisterial District Judge

The District is required to make meaningful attempts to encourage parent participation in attendance improvement conferences by advance written notice and attempts to communicate via telephone. The District will hold the conference even if the parent and/or the student declines to participate or fails to attend. A written attendance

improvement plan will be developed during the conference. Any further offenses after the attendance improvement conference could result in legal action against the parent or guardian.

When a student's absence is unexcused, the student may not have the opportunity to make up missed schoolwork

Returning to School Following an Absence

The District requires a parent to contact the school when a student is absent from school. Parents can contact the school by phone, email or provide a written excuse. Phone call or email excuses are required the day of the absence. A written excuse must accompany the student upon his/her return to school. The excuse must indicate the dates of absence, give the reason for the absence, and should bear the date on which it was written. Failure to produce a written excuse could result in an unexcused absence. When a student is absent for three or more consecutive days, a doctor's excuse may be required when the student returns to school. Doctors' excuses may be required for all absences if a student is excessively absent from school. Excessive absenteeism shall constitute absences exceeding ten (10) days for the school year. Doctor's excuses and request for excused absence shall not be counted toward the days specified above. Parents will be notified when doctor's excuses are required.

Participation in School Related Activities

Students who are absent from school will not be permitted to attend or participate in school-sponsored activities held the day or evening of the absence. This would include field trips, dances, concerts, plays, sporting events, etc. The only exception is absence due to approved trip/activity involvement as a representative of the school (student field trips, conferences, etc.) or planned pre-approved college trips that cannot be otherwise scheduled. The District will approve up to three (3) days per year for college trips for Juniors and Seniors. Any additional college visits will be counted as unexcused absences. Attendance on Friday is required for school-related activities scheduled on Saturday or Sunday, unless otherwise pre-approved by the principal.

The Compliance Officer shall publish and disseminate this policy and complaint procedure at least annually to students, parents, employees and the public. Nondiscrimination statements shall include the position, office address and telephone number of the Compliance Officer.

The obligation to conduct this investigation shall not be negated by the fact that a criminal investigation of the incident is pending or has been concluded.

Step 3 – Investigative Report

The building principal shall prepare a written report within fifteen (15) days, unless additional time to complete the investigation is required. The report shall include a summary of the investigation, a determination of whether the complaint has been substantiated as factual and whether it is a violation of this policy, and a recommended disposition of the complaint.

Copies of the report shall be provided to the complainant, the accused, and the Compliance Officer.

Policy #4400

Revised: 3/2/2015

1. Purpose	Research from many reliable sources has determined that smoking or tobacco use is hazardous to the health of the smoker as well as the non-smoker. STUDENT CONDUCT POLICY

Policy #5114

Revised: 6/5/2017

1. Purpose	The Wilson Area School Board believes that in order for students to gain the maximum benefits from the educational program, high standards of student conduct must be established and maintained. The Board is pleased with the general deportment, good citizenship, cooperative attitude, and mutual respect displayed by most of the students. It is largely through their efforts and those of School District personnel that a wholesome educational environment is present in all of the schools of the District.
2. Guidelines	<p>On occasion, however, unacceptable conduct on the part of a student does take place, and fair and reasonable disciplinary measures become necessary. It is for that reason that this policy has been adopted and is being implemented throughout the Wilson Area School District.</p> <p>Incorporated as a part of this policy are the Regulations of the State Board of Education of Pennsylvania entitled <u>Student Rights and Responsibilities</u>. The School District specifically endorses the due process requirements of these regulations while at the</p>

same time adopting the section listing student responsibilities as the code of conduct for all students.

Certain rules and regulations have been established within each school building regarding student conduct. It is the responsibility of School District personnel to make these available to the students so that they are aware of them. These rules and regulations along with the code included in this policy are applicable not only in school buildings and on school grounds but also when students are going to and from school, are being transported by school vehicles, and are participating in or attending school activities

In cases where students do not exercise self-discipline and are in violation of rules, regulations, or the code of conduct, School District personnel must assume the responsibility for enforcement. In this process the following list includes some of the techniques which may be applied: reprimanding, counseling, conferring with a parent or guardian, assigning additional work, detaining after school, and making referrals to guidance and administrative personnel

At times more stringent administrative action may be appropriate. Exclusion from school is specifically addressed by state regulations and is included in this policy in greater detail.

Corporal Punishment

No corporal punishment shall be administered to a student. However, reasonable force may be used by teachers and school authorities under any of the following circumstances: (1) to quell a disturbance, (2) to obtain possession of weapons or other dangerous objects, (3) for the purpose of self-defense, and (4) for the protection of persons or property.

Suspension or Expulsion

Certain offenses of a recurring or serious nature may lead to suspension or expulsion from school. The following list includes the reasons for which a student may be excluded from school:

1. The possession, use, sale, distribution or involvement with drugs and/or alcohol pursuant to Policy #5131.
2. Conduct that constitutes a danger to the health or safety of others.
3. Physical assaults upon fellow students, teachers, or other School District employees.
4. Continued and willful disobedience.
5. Defiance of authority.
6. Taking or possessing property belonging to others.
7. Willfully causing or attempting to cause damage to school equipment or property.
8. Excessive truancy or tardiness.
9. Smoking or tobacco use or possession.

	<p>making of obscene gestures.</p> <p>12. A violation of school or school bus rules or regulations.</p> <p>13. A violation of local, state, or federal laws or regulations.</p> <p>14. Communicating terroristic threats or committing terroristic acts, as defined Below:</p> <p>15. Terroristic threat - shall mean a threat to commit violence communicated with the intent to terrorize another, to cause evacuation of a building or to cause serious public inconvenience, in reckless disregard of the risk of causing such terror or inconvenience.</p> <p>16. Terroristic act - shall mean an offense against property or involving danger to another person.</p>

Homeless Act: McKinney Vento Act

About Homeless Act-McKinney Vento Act

The McKinney–Vento Homeless Education Assistance Act guarantees a free and appropriate public education for all homeless children and youth. [B.E.C. 42 U.S.C. 11431](#) outlines procedures for deciding school placement, enrolling students, and determining responsibility. Federal and state laws make our responsibility clear. With the huge number of homeless children currently attending Philadelphia public schools, we must provide proper educational support and services.

McKinney-Vento Act Basics At-a-Glance:

What is the definition of a “homeless youth” under McKinney-Vento?

“Homeless” is defined as “anyone lacking a fixed, adequate, regular nighttime residence.”

What situations fit this definition?

- Staying in the home of other people due to unavailable housing, financial hardship, or similar circumstances
- Living in motels, hotels, trailer parks (in some instances – examples: leaking roof, no heat, etc.), public places, or campgrounds due to unavailable suitable housing options
- Living in an emergency shelter or transitional housing
- Unaccompanied (not living in direct care of legal parent or guardian) or runaway youth
- Refugee and migrant youth

How does McKinney-Vento help these students?

The law makes sure that these students receive a free and suitable public education by removing barriers to school enrollment and full, basic, daily participation in school activities. This includes:

- Immediate enrollment
- Free and Reduced School Lunch
- Help from school with any necessary enrollment documents
- Help from school setting up transportation service (if the student qualifies)
- Help from school with getting basic uniform clothing
- Help from school with basic school supplies
- Help from school with any basic clothing needs
- Help from school with basic high school graduation needs and expenses
