Emergency Protocols for Outside Organizations

All school districts in New Jersey are required to have a school safety and security plan. Each plan must be designed locally with the help of law enforcement, emergency management, public health officials and all other key stakeholders. All plans must be reviewed and updated on an annual basis. These plans include procedures to respond to critical incidents ranging from bomb threats, fires and gas leaks, to an active shooter situation.

The purpose of this document is to identify the emergency protocols that should be utilized by outside organizations when responding to emergency situations that should arise when utilizing a Pine Hill School District Facility in accordance with NJS18A:41-7c:

"A local board of education and chief school administrator of a nonpublic school shall provide to all persons who supervise youth programs that are not sponsored by the school district or nonpublic school, but operate a program in a district or nonpublic school building before or after school hours, on the weekend, or during a period when school is not in session, information on school district or nonpublic school practices and procedures in the event of a school safety or security incident at a school including non-confidential information on evacuation procedures, emergency response protocols, and emergency contact information. It shall be the responsibility of the organization that sponsors the youth program to train the program's employees and volunteers on the school security and emergency procedures in effect in the school building in which the youth program is located. The organization that sponsors the youth program shall file a statement of assurance with the school district superintendent or chief school administrator of the nonpublic school that it has complied with the training requirements prior to the district or nonpublic school authorizing the use of the school building."

This document will provide practices and procedures in the event of a school safety or security incident to be utilized by an outside organization using a Pine Hill School District Building. In addition, the leaders of the organization should develop protocols for attendance taking to be used in the event of an emergency.

By agreeing to utilize a Pine Hill School District Facility, the organization will sign the statement of assurance attached that ensures all employees and volunteers are trained in the school security and emergency procedures outlined in this document.

Emergency Event Explanation and Actions

Term	Explanation	Actions
Fire Evacuation	Audible Fire Alarm sounds. Buildings are vacated by exits clearly marked in each classroom unless those exits are deemed unsafe at which point the closest safe exit is utilized.	<ul style="list-style-type: none"> - Fire Alarm will sound -All persons should exit via designated Fire Drill locations outlined on the placard or exit signs within each space. -Attendance should be taken in order to account for all organization members. -Once first responders deem the building safe, utilize the all call system to resume normal activities
Shelter in Place	All persons are to remain in classrooms / instructional areas. If needed, relocate people outside the building to inside. No movement in hallways or other common areas including the changing of classes. This procedure is used for when there is a need to keep the hallways in the building clear (i.e. bomb threat)	<ul style="list-style-type: none"> -Utilizing the All Call System, make an announcement and say "Please Shelter in Place at this time" -Everyone in a hallway should report to a classroom or area and remain there. -Attendance should be taken in order to account for all organization members. -If needed, relocate organization members outside the building back inside. -Once first responders deem the building safe, utilize the all call system to resume normal activities.
Lockdown	Significant threat to the safety of the building occupants. All interior/exterior doors are locked. All occupants seek cover and concealment to protect from an active assailant. This procedure is used when there is an active threat somewhere in the building.	<ul style="list-style-type: none"> -Utilizing the All Call System, make an announcement and say "Lockdown" - Locks, lights, out of sight." -Bring all persons in from the hallway, lock door, place cover over door if safely possible, turn off all lights and move away from classroom door and out of sight. -Attendance should be taken in order to account for all organization members. -If outside move as far away from the building as safely possible -First Responders will unlock rooms and spaces and give further instructions. -Once first responders deem the building safe, utilize the all call system to resume normal activities
Non-Fire Evacuation	All occupants are directed to evacuate to a specific area as directed. This procedure is used when there is a larger issue in the building that requires more than room clearing (gas/water leak etc., typically called for by law enforcement)	<ul style="list-style-type: none"> -Utilizing the All Call System, make an announcement and say "Please Evacuate the Building at this time" - Move all occupants out of the building and as far from the building as safely possible. Once first responders deem the building safe, utilize the all call system to resume normal activities
Room Clear Protocol	Directs the occupants of a specific classroom or area to immediately leave the room or area and relocate to another location under the care of a staff member. Typically used in conjunction with a shelter in place when there is an issue in a specific room (i.e. maintenance issue/leak, etc.)	<ul style="list-style-type: none"> -The directive, "Room Clear" shall mean that all persons must leave a room if directed to by an emergency responder. -Relocate all persons to another area. -Once first responders deem the room safe, persons may be returned to original room.

Reverse Evacuation	Recover all persons from outside of the building and secure the building perimeter. Normal business can continue, however no one should be permitted in the building or out of the building. Use this when there is an exterior threat to the building (i.e. Police Activity close to the building)	<ul style="list-style-type: none">-Utilizing the All Call System, make an announcement and say, "At this time we are locking out the building, secure the perimeter"-Bring all Organization Members that are outside inside the building and secure all exterior doors.-Normal Operations can resume inside the building, but no one may enter or exit.-Once first responders deem the building safe, utilize the all call system to resume normal activities.

2. ADMINISTRATION AND ENFORCEMENT

07 Permits required

5:70-2.7 Permits required

(a) Permits shall be required and obtained from the local enforcement agency for the activities specified in this section, except where they are an integral part of a process or activity by reason of which the use is required to be registered and regulated as a life hazard use. Permits shall at all times be kept in the premises designated therein and shall at all times be subject to inspection by the fire official.

1. Type 4 permits shall not be required when the storage or activity is incidental or auxiliary to the agricultural use of a farm property.

2. In a public or private K-12 educational building, or in a camp accommodating six or more children of school age, when such uses are registered as life hazard uses, no permit shall be required for activities which are consistent with the designed and intended use of the building or premises or part thereof.

3. Type 1 permit:

i. Bonfires

ii. The use of a torch or flame-producing device to remove paint from, or seal membrane roofs on, any building or structure;

iii. The occasional use of any non-residential occupancy other than Use Groups F, H or S for group overnight stays of persons over 2-1/2 years of age, in accordance with section F-709.0 of the Fire Prevention Code;

iv. Individual portable kiosks or displays when erected in a covered mall for a period of less than 90 days, and when not covered by a Type 2 permit;

v. The use of any open flame or flame-producing device, in connection with any public gathering, for purposes of entertainment, amusement, or recreation;

vi. Welding or cutting operations except where the welding or cutting is performed in areas approved for welding by the fire official and is registered as a type B life hazard use;

vii. The possession or use of explosives or blasting agents, other than model rocketry engines regulated under N.J.A.C. 12:194;

viii. The use of any open flame or flame-producing device in connection with the training of non-fire service personnel in fire suppression

or extinguishment procedures;

ix. The occasional use in any buildings of a multipurpose room, with a maximum permitted occupancy of 100 or more for amusement, entertainment or mercantile type purposes.

x. The storage or handling of class I flammable liquids in closed containers of aggregate amounts of more than 10 gallons, but not more than 660 gallons inside a building, or more than 60 gallons, but not more than 660 gallons outside a building.

xi. The storage or handling of class II or IIIA combustible liquids in closed containers of aggregate amounts of more than 25 gallons, but not more than 660 gallons inside a building, or more than 60 gallons, but not more than 660 gallons outside a building.

xii. Any permanent cooking operation that requires a suppression system in accordance with N.J.A.C. 5:70-4.7(g) and is not defined as a life hazard use in accordance with N.J.A.C. 5:70-2.4.

xiii. The use as a place of public assembly, for a total of not more than 15 days in a calendar year, of a building classified as a commercial farm building under the Uniform Construction Code.

xiv. The temporary use of any building or portion thereof as a special amusement building for a total of not more than 15 days in a calendar year.

(1) Use of a building or portion thereof as a special amusement building for a longer period shall require the issuance of a certificate of occupancy, pursuant to the Uniform Construction Code (N.J.A.C. 5:23), for the new use.

(2) Permits issued pursuant to this section shall require compliance with the requirements for special amusement buildings at N.J.A.C. 5:70-4.16.

xv. The erection, operation, or maintenance of any tent, tensioned membrane structure, or canopy, excluding those used for recreational camping purposes, that meets the criteria in (a)3xvi(1) or (2) below shall require a Type 1 permit. Tents, tensioned membrane structures, or canopies greater than 16,800 square feet in area and greater than 140 feet in any dimension, whether one unit or composed of multiple units; remaining in place for more than 180 days; used or occupied between December 1 and March 31; having a permanent anchoring system or foundation; or containing platforms or bleachers greater than 11 feet in height shall be subject to the permitting requirements of the Uniform Construction Code (N.J.A.C. 5:23-2.14).

(1) The tent, tensioned membrane structure, or canopy is greater than 900 square feet and more than 30 feet in any dimension whether it is one unit or composed of multiple units, but 16,800 square feet or less in area and 140 feet or less in any dimension, whether it is one unit or composed of multiple units.

(2) The tent, tensioned membrane structure, or canopy

contains platforms or bleachers 11 feet or less in height;

xvi. The erection, operation, or maintenance of any outdoor combustible maze shall require a Type 1 permit if the outdoor combustible maze is less than six feet in height and does not contain electrical equipment. Outdoor combustible mazes that are six feet or greater in height or contain electrical equipment shall be subject to the permitting requirements of N.J.A.C. 5:23-2.14.

(1) For the purposes of applying this requirement, an outdoor combustible maze is an attraction that lacks a roof and is designed to disorient patrons, reduce vision, present barriers, or otherwise impede the flow of traffic and does not consist solely of living rooted plants such as corn stalks or trees, but includes mazes created from plants that have been cut and attached to an object to support them.

(A) Mazes consisting solely of living, rooted plants, such as corn stalks or trees, may be repaired using cut, replacement plants that are otherwise the same as those of which the maze is created without the need for a permit.

(B) No permit shall be required for mazes up to 42 inches in height created of bales of hay or straw.

4. Type 2 permit:

i. Bowling lane resurfacing and bowling pin refinishing involving the use and application of flammable liquids or materials;

ii. Fumigation or thermal insecticide fogging;

iii. Carnivals and circuses employing mobile enclosed structures used for human occupancy;

iv. The use of a covered mall in any of the following manners:

(1) Placing or constructing temporary kiosks, display booths, concession equipment or the like in more than 25 percent of the common area of the mall;

(2) Temporarily using the mall as a place of assembly;

(3) Using open flame or flame devices;

(4) Displaying liquid or gas fueled powered equipment; or

(5) Using liquefied petroleum gas, liquefied natural gas, or compressed flammable gas in containers exceeding five pound capacity.

v. Storage outside of buildings of LP-gas cylinders when a part of a cylinder exchange program.

5. Type 3 permit:

i. Industrial processing ovens or furnaces operating at

approximately atmospheric pressures and temperatures not exceeding 1,400 degrees Fahrenheit which are heated with oil or gas fuel or which contain flammable vapors from the product being processed;

ii. Wrecking yards, junk yards, outdoor used tire storage, waste material handling plants, and outside storage of forest products not otherwise classified; or

iii. The storage or discharging of fireworks.

6. Type 4 permit:

i. Storage or use at normal temperature and pressure of more than 2,000 cubic feet of flammable compressed gas or 6,000 cubic feet of nonflammable compressed gas;

ii. The production or sale of cryogenic liquids; the storage or use of more than 10 gallons of liquid oxygen, flammable cryogenic liquids or cryogenic oxidizers; or the storage of more than 500 gallons of nonflammable, non-toxic cryogenic liquids;

iii. The storage, handling, and processing of flammable, combustible, and unstable liquids in closed containers and portable tanks in aggregate amounts of more than 660 gallons;

iv. To store or handle (except medicines, beverages, foodstuffs, cosmetics, and other common consumer items, when packaged according to commonly accepted practices):

(1) More than 55 gallons of corrosive liquids;

(2) More than 500 pounds of oxidizing materials;

(9) More than 10 pounds of flammable solids.

v. The melting, casting, heating treating, machining or grinding of more than 10 pounds of magnesium per working day.

7. Type 5 permit:

i. (Reserved)

(b) Application for a permit required by this Code shall be made to the fire official in such form and detail as the fire official shall prescribe. Applications for permits shall be accompanied by plans or drawings as required by the fire official for evaluation of the application.

(c) Before a permit is issued, the fire official or the fire official's designated representative shall make or cause to be made such inspections or tests as necessary to assure that the use and activity for which application is made complies with the provisions of this Code.

(d) A permit shall constitute permission to maintain, store or handle materials, or to conduct processes which produce conditions hazardous to life or property, or to install equipment used in connection with such activities in accordance with the provisions of this Code. Such permissions shall not be construed as authority to violate, cancel or set aside any of the provisions of this Code.

(e) Plans approved by the fire official are approved with the intent they comply in all respects to this Code. Any omission or error on the plans does not relieve the applicant of complying with all applicable requirements of this Code.

(f) The fire official may revoke a permit or approval issued under the provisions of this Code if upon inspection any violation of the Code exists, or if conditions of a permit have been violated, or if there has been any false statement or misrepresentation as to material fact in the application, data or plans on which the permit or approval was based.

(g) A permit shall remain in effect until revoked, or for one year unless a shorter period of time is otherwise specified. Permits shall not be transferable and any change in use, operation or tenancy shall require a new permit.

1. Exceptions:
