

## **STUDENTS**

### Associated Student Bodies

An associated student body (ASB) shall be formed in each school within the district whenever one or more students in that school engage in money-raising activities with the approval and at the direction or under the supervision of the district. An associated student body shall be a formal organization of students, including subcomponents or affiliated student groups. Each associated student body shall submit a constitution and bylaws to the Board of Directors for approval. The constitution and bylaws shall identify how student activities become approved as student body activities and establish standards for their supervision, governance and financing. Subject to such approval process, any lawful activity which promotes the educational, recreational or cultural growth of students may be considered for recognition as an associated student body activity. Furthermore, any lawful fund raising practices that are consistent with the goals of the district and which do not bring disrespect to the district or its students may be acceptable methods and means for raising funds for student body activities.

The principal of each school may designate a staff member as the primary advisor to the ASB and assure that all groups affiliated with the ASB have an advisor assigned to assist them. Advisors shall have the authority and responsibility to intervene in any activities that are inconsistent with district policy, ASB standards, student safety or ordinarily accepted standards of behavior in the community. When in doubt, advisors shall consult the principal regarding the propriety of proposed student activities.

Each ASB shall prepare and submit annually a budget for the support of the ASB program to the Board of Directors for approval. All property and money acquired by ASB's shall be district funds and shall be deposited and disbursed from the district's associated student body program fund.
