Ferguson Facilities Supply	Michael Boehnke	michael.boehnke@ferguson.com	Prices submitted are for delivery to a single-point destination. We believe that PSJA ISD could significantly reduce its expenses by going to a campus-delivery model. In this way, PSJA reduces its delivery expenses and labor, but also reduces its usage on custodial products. When a purchasing/custodial department has the ability to audit usage by campus, usage always is reduced. Once we deliver to a campus, that data is stored and can be analyzed by custodial supervisors or purchasing staff to identify over-usage. We can find theft, address honest over-use with custodial training, and help eliminate hoarding by custodial staff that happens all too often. We can offer next day delivery to your schools for 5% more than bid pricing on orders that total \$300 or more. Or, we can offer next-day delivery without a minimum for bid pricing plus 10%. Please review the attachments provided, and contact Michael Boehnke with any questions that you may have. We see total spend by districts reduced all the time when consistent deliveries are made by campus and information is able to be audited by custodial/purchasing staff by campus.
