Subject: Addendum 2 - RFP2016-06-002 Custodial Supplies

Donna,

Below is the response to the second question I received. Let me know if this is okay to say:

We re-evaluated the soap and sanitizer last year and replaced all soap dispensers this year. We have had very good success this year with both the soaps and durability of the dispensers. Because of this, we are not currently considering changing our soap and sanitizer.

Thanks,

Good Morning,

Thank you for the updated information, wanted to inquire if you were doing any product evaluation on soap and sanitizer? I realize what is specified, however it is proprietary and did not know if it was something that you wanted to invest time in for consideration of another system. Just thought I might ask. Have a wonderful day!

Theresa
