

# Whole Child Supports Professional Learning Opportunities 2023 - 2024 School Year

## Wraparound Services Job-Alikes

Wraparound Services Job-Alikes are collaborative meetings designed to bring together school or district personnel working in student services/wraparound initiatives across metro Atlanta school districts. Facilitated by Metro RESA’s Wraparound Services Team, this collective group meets three times a year to enhance their craft through professional development, knowledge sharing and providing opportunities to network and share wraparound services to meet the needs of the whole child. The networking sessions combine resources, information sharing, discussion and action planning around relevant K-12 topics fueling the whole child school movement. Meetings for the 2023-2024 school year are:

## Community School Interest Sessions

Currently Metro RESA supports over 15 schools across 9 Metro Atlanta School Districts with the Community School strategy. A community school is a school that offers comprehensive educational opportunities through both academic and nonacademic services while partnering with families, students, and the community to increase student access and success. Allowing for individual community differences, the Community School strategy provides a customized approach while focusing on fundamental community school best practices that are guided by four main pillars: 1) Integrated student supports, 2) Expanded and enriched learning time and opportunities, 3) Family and community engagement and 4) Collaborative leadership and practices. There will be two interest sessions this year for those schools or districts wishing to learn more about this strategy inclusive of what is needed to start the process and the coaching provided across the align, scale, and build stages.

## Whole Child Support Trainings/Workshops

While Metro RESA works with District Coordinators to accommodate most of the professional learning and training needs within school districts, we also offer a small number of trainings through our agency which can accommodate educators across districts. These trainings are particularly helpful for districts who have only a few schools requesting various content, and do not have enough to conduct a full training within the district or for schools who were unable to attend a training offered in district due to scheduling conflicts. We also welcome individual participants who are looking to build their own knowledge, or school teams looking to build capacity in a particular area.

Trainings are offered either virtual or in-person, please note the location to determine the delivery mode. Each person wanting to participate in the class will need to register on Metro RESA's website using the corresponding link for the training. Registration typically closes one-week prior to the training, but some classes may close earlier. Please refer to the description at registration for details. Those registered will receive training details (materials, virtual meeting link if applicable, etc.) at least 48 hours prior to the event.
