

## REPORT A STUDENT ABSENCE

## BREAKFAST/LUNCH MENU

### Principal's Message

Happy Friday! I hope you have managed to stay comfortable through this week's humidity.

I want to thank everyone for their safe driving when dropping off or picking up our students each day. I know it can be frustrating to wait when the line is long, but we are committed to a one-to-one hand-off of children to parents, as we believe that is what is safest for our young students.

Our goal is to move as many cars as far up in the line as possible so we can unload approximately 10 cars at a time. While school has just begun and some children still want parents to walk them to the door, our driveway is safer when people do not have to drive around into the left lane to pass. Anyone who truly needs to walk up to the doors should park in the parking lot and walk up from there. As the days go by we will expect all parents to refrain from parking or leaving their car unattended, and will only allow cars to drive around other cars in the left lane when signaled by our SRO to pass.

Please reach out if there is any aspect of acclimating to school that we can help you with.

Have a great weekend!  
Principal Ryan Quinn
