BONDING TO BUILD BETTER SCHOOLS

LOS ALAMOS PUBLIC SCHOOLS

Early voting begins Oct. 10
Election Day Nov. 7

CURRENT PROJECTS

- Replacement of Piñon Elementary School and Chamisa Elementary School
- New HVAC systems at Los Alamos Middle School and Los Alamos High School
- Building upgrades and renovations at Los Alamos High School, Los Alamos Middle School and the Aspen Elementary School and Mountain Elementary School gyms
- Completion of Barranca Mesa Elementary School playground and gym
- Electrical and plumbing upgrades at every school
- District-wide security updates

BETTER SCHOOLS

LAPS is committed to helping our students attain the skills, knowledge and abilities to succeed in the 21st century. Part of this commitment includes quality facilities. With your help, we can continue to invest in our schools and our students.

No Tax Rate Increase

Voting for this bond will maintain the current tax rate and allow LAPS to reach the goal of raising \$30 million to further improve our schools.

Important to Our Community

Our schools are an important part of Los Alamos. Improved schools add to the vitality of our community and attract prospective employees AND employers to ensure a strong and thriving work force.

Our Strongest Asset

Our children are our strongest asset. LAPS is committed to 100% of our students will meet or exceed expectations in 3 key areas: academic success, social-emotional wellbeing and civic responsibility. Providing an improved and safe space for learning will enable us to achieve this goal.

Promises Made, Promises Kept

The LAPS School Board has promised the community to improve our facilities across the district. It is easy to see that they have kept their word, and continue to do so. Over the past 40 years LAPS has, with your help, invested in improvements at all of our school sites. Since 2012, we have made major renovations at Los Alamos High School, Los Alamos Middle School, Aspen Elementary, Barranca Mesa Elementary, Mountain Elementary and Sullivan Field.

BRIGHTER FUTURES

While the school district receives local, state and federal funding for operations, grants and instructional programs, it cannot use these funds for the "bricks and mortar." Only money raised by GO Bonds can be used to build buildings, remodel, furnish schools, and improve school grounds.
