DO...

Use the computer for homework, projects and school work.

Upload **TRUSTED** files onto the school server. Games are not trusted files, nor is anything you pirate / download from a strange source.

Wear headphones if using sound.

Inform any teachers of damages to the computer.

Keep your files on the school server clean. Delete what you dont want or use.

Sign out of **ALL** internet websites and accounts when finished.

Remember to shutdown or log off when finished on your computer.

DONT...

Use a VPN. Do not install one on chrome or the computer itself.

Add **ANY** Google Chrome extensions unless instructed so by your teachers.

Use the keyboard to flip the computer screens in any way.

Change the brightness, contrast or color setting of the computer.

Upload **UNTRUSTED** files onto the school server. (Pirated versions of minecraft are not safe AND are illegal to share.)

Do not punch / hit / smash or treat the computers roughly. Pretend it is your computer.

Play games on any school computers. The school computers are meant for projects and schoolwork.
