Looking for a New Professional Read?

Developing Digital Detectives, by Jennifer LaGarde and Darren Hudgins, provides teachers the skills to make their students information-literate "digital detectives" through a framework of core values and lenses that moves beyond checklists and "fake news" protocols. It also includes access to an online evidence locker, filled with over 100 downloadable resources to support the lessons in the book for immediate impact in your classroom. Database of the Month

TeachingBooks is a database in [Library.fyi](https://www.library.fyi) under "Teacher Resources." It has tons of resources on thousands of books, including video book trailers, books guides, lessons, and activities, audiobooks excerpts, author Q&As, and more. Collaboration Corner

For the past few weeks, Sue Bernd's class has been working on an inquiry unit as well as exploring how to access library resources. The highlight of the month was our trip to the local Ballston Spa Public Library! We were able to learn about what it means to work at the library, how to get a library card, and we also had the opportunity to explore all the resources the public library has to offer.

We had many other exciting projects this month as well! Contact me if you need me to pull resources, want me to teach a lesson, are interested in some book talks, or if you want to collaborate on a multi-class project! There is nothing too big or too small.
