RE: UPK Request for Proposals

DATE: February 3, 2023

We received four completed proposals from community-based organizations to enter into a partnership with the district to provide Universal PreK for Ballston Spa families. A representative committee reviewed the proposals, and selected three organizations to be presented to the Board of Education on February 8. The fourth application is from the Saratoga Regional YMCA; it was not accepted because they requested to relocate their program to school district facilities, which is not an option.

For the 23-24 school year, Ballston Area Community Center will host three full-day classrooms, Head Start will host four full-day classrooms, and Little Achievers will host one full-day classroom.

Thank you.
