

5140	Budget Administration
-------------	------------------------------

The budget shall be considered as a controlled financial plan for the fiscal year. The Superintendent of Schools is authorized to make expenditures and commitments in accordance with the policies of the Board of Education and regulations of the State of New York.

The school business official shall be responsible for seeing that adequate records of all expenditures and incomes are maintained, controlling all major budget categories, and providing the information required for the annual budget preparation and fiscal planning.

After voter approval of the budget, the school business official shall acquaint District employees with the final provisions of the budget and guide them in planning to operate efficiently and economically.

Adoption Date: 07/10/2019
