

<b>7430</b>	<b>Student Awards</b>
-------------	-----------------------

The Board of Education requires that the Administration maintain a set of criteria for presenting awards to students for scholarship and distinguished service.

Public presentation of trophies, prizes, scholarships or other awards from non-school donors may be permitted when, in the judgment of the Superintendent or his/her designee, such presentations do not exploit the students for personal or corporate gain and when the criteria for making the award are approved by the Administration.
