About Us

When a young person's life has been shattered by the death of a loved one, Jessica's House is there. Jessica's House provides a unique source of grief support for children, teens, young adults and their caregivers at no charge to families. Support groups combine therapeutic talk, play and creative expression, which promotes healing and hope for the future. We know life will never be the same, but it helps to find connection with those walking a similar path.

Peer Support Groups

Jessica's House peer support groups provide children, teens, young adults and adult family members who are grieving with connection and expression. Facilitated by staff and highly trained volunteers, groups provide a safe place for participants to share their stories, and find support from each other.

Organized by age and type of loss, peer support groups meet every other week. Adult caregiver (parent) groups take place at the same time as the child and teen groups.
