

## **THE COUNSELING PROGRAM**

The Guidance and Counseling Department supports campus school counselors with the implementation of a comprehensive guidance counseling program that focuses on social and emotional wellness, academic achievement, and college and career readiness. School counseling programs are designed to include the four components:

**GUIDANCE CURRICULUM** School Counselors provide classroom instruction, participate in curriculum development, conduct group activities and present parent workshops.

**INDIVIDUAL STUDENT PLANNING** School Counselors help students establish personal goals and develop future plans. They also help students monitor and manage their own learning as well as meet competencies in the areas of academic, career and personal/social development.

**RESPONSIVE SERVICES** School Counselors meet student's immediate needs and concerns through individual/group counseling, consultation, referrals, peer facilitation or information. Additionally, crisis counseling provides support, intervention and follow-up assistance to students and families facing emergency situations.

**SYSTEM SUPPORT** School Counselors manage activities that establish, maintain and enhance the total school counseling program. Professional development, consultation, collaboration and program management are components of system support.
