❖ NO SCHOOL ANNOUNCEMENTS

On receipt of a severe weather alert, heavy snowfall, icy streets or when other hazards make streets unsafe, the school session will be canceled. Parents/guardians can listen to radio and television stations listed below as well as referring to the FRPS website for school cancellations beginning at 5:30 am.

Automated Messaging Service: During the school year, the Fall River Public Schools (FRPS) will be using a communication platform for school-to-parent communication. Parents may receive messages from the district regarding school closure or cancellations, transportation or any activities taking place at the district level. Our school staff may also send parents information that is specific to our school, such as Open House, field trips or school-based events. Parents are asked to please be sure all phone numbers are kept current in the school office.

❖ EMERGENCY EARLY DISMISSALS

The FRPS will dismiss or cancel school in the event that an emergency situation exists, which could affect the safety and welfare of our students. At the beginning of each school year, all parents/guardians will be informed of the School Department's policy as it relates to no school, delays, and early dismissals for emergency reasons.

It is the expectation of the FRPS that each parent/guardian will make arrangements for their youngsters to get home safely in the event school is dismissed early. The FRPS will make every effort possible to provide the general public with at least one-hour notification through the local media prior to the dismissal of students for emergency reasons.

All employees of the FRPS will make every reasonable effort to assist in ensuring that youngsters get home safely.

The following television and radio stations will be contacted in the event that school will be dismissed or canceled during an emergency situation.

ATTENDANCE POLICY ALL GRADE LEVELS

Why Attendance Matters?

Fall River Public Schools' goal is to ensure that every student attends school regularly and is actively engaged in their learning. Attending school regularly has a huge impact on a student's academic success and helps them feel better about school—and themselves. Families play a key role in building this habit from Pre-Kindergarten through 12th grade so that students learn that going to school on time every day is important. Developing the skill of consistent attendance will help students succeed in their academic career, as a student, and through college and in the workplace.

While some absences are unavoidable due to health problems or other circumstances, when students miss too much school— regardless of the reason – it often causes them to fall behind academically. Your child is less likely to succeed if he or she is chronically absent—which means missing 18 or more days over the course of an entire school year.

Research shows:

- Children chronically absent in kindergarten and 1st grade are much less likely to read at grade level by the end of 3rd grade.
- By 6th grade, chronic absence is a proven early warning sign for students at risk of dropping out of school.
- By 9th grade, good attendance can predict graduation rates even better than 8th-grade test scores.

Absences can add up quickly. A child is chronically absent if he or she misses just two days every month!! We don't want your child to fall behind in school and get discouraged. Please ensure that your child attends school every day and arrives on time.

Attendance Information for All Levels Pre-K to 12

FRPS is dedicated to supporting students and their families through a range of support staff:

- Attendance Officers
- Adjustment Counselors (SACs),
- Guidance Counselors,
- Administrators
- Teachers
- Parent Community Facilitators
- School support staff

FRPS staff communicates by telephone, letters, or home visits with parents/guardians of children who are chronically absent.

They work with community partners, such as the Family Resource Center or the Department of Children and Families (DCF), to offer support to families and assist them in getting their children to school every day on time.

School Attendance Officers are mandated to take parents or students to court if truancy continues and children are being denied a consistent and comprehensive education.

Parents/guardians have a **legal responsibility** to ensure their child attends each school calendar day.

State Laws Regarding Attendance

The following State Laws outline the responsibilities of parents/guardians for monitoring and preventing children's absences from school:

- The Commonwealth of Massachusetts states that **parents are required** to ensure children between the ages of 6 to 16 attend school. (Chapter 76, section 19 of the MA General Laws)
- Parents/guardians must provide the school with accurate contact information and must inform the school regarding the reason for a child's absence. (Chapter 76, section 1A of the MA General Laws)
- Educational professionals are mandated to report to the Department of Children and Family (DCF) their belief that a child is suffering from educational neglect. (*Approved by SC 11.08.21*)
- Without a warrant, School Attendance Officers may apprehend truants found wandering and return them to school.
- If truancy persists, School Attendance Officers are mandated to file a Child Requiring Assistance application with Juvenile Court. If a student is in elementary school, a criminal complaint for Failure to Cause School Attendance will be filed against the parent. (<http://www.mass.gov/courts/selfhelp/family/cra.html>)
- Families that receive benefits under Transitional Aid to Families with Dependent Children are subject to specific attendance requirements.

Definitions:

Chronic Absenteeism

A student who misses 10% or more of school **due to excused and unexcused absences** is considered chronically absent. (e.g., school is in session for 30 days, and the student is absent a total of 3 or more excused and unexcused days)

- The state of Massachusetts DOES NOT recognize or differentiate between excused or unexcused absences; *an absence is an absence.*
- Fall River Public Schools monitors student attendance so that ALL STUDENTS remain **under 17** excused or unexcused absences for the school year.
- **18 or more** excused or unexcused absences in a school year designate your student chronically absent with the state of Massachusetts.
- Chronically absent students may be ineligible to move from one grade to the next. Circumstances surrounding promotion or retention will be considered by the school principal on an individual basis.

Truancy

- A student may be considered truant when he/she has an unexcused absence.
- A parent/guardian note does not excuse an absence if the absence does not meet the criteria to be excused.

Excused absences will be permitted under the following circumstances:

- Student illness or injury with a valid doctor's note specifying the dates to be excused

Note: Wellness visits should be scheduled after school hours or at the beginning or end of a school day so students can still be in school for as much of the school day as is possible.

- Death in the immediate family (parental note required/Principal discretion for verification) ○ *Note: Students shall be entitled to excused absence(s) for up to **THREE SCHOOL DAYS** at time of death or thereabouts. Immediate family shall include parent/guardian, grandparent, child, sibling, or step-family members. (Principal discretion can approve additional time as needed)*
- *In the case of the death of an aunt, uncle, niece, or nephew, an absence of ONE calendar day to attend the funeral. (Principal discretion can approve additional time as needed)*
- Religious holidays as determined by the MA Department of Elementary and Secondary Education (DESE) (parental note required)
- Court/Legal summons (student's name must appear on the summons)
- School-approved activities
- College visits (documentation required)

What are unexcused absences?

An absence is considered unexcused when a student misses school for reasons that are not accepted by the school, with or without parental permission. Unexcused absences including the following:

- Attending parent/guardian appointments
- Attending parent/guardian court summons
- Family travel/vacation
- Staying home to take care of siblings or other family members
- Missing the school bus
- Sleeping late
- Weather-related absences other than when the district has canceled school
- Undocumented illness/injury

Absence-Notification

On the day a student is absent, it is the responsibility of a parent or guardian to telephone your child's school within the first 90 minutes of the school day to give a valid reason for the absence. Families are also encouraged to use Parent Square to communicate with our schools directly.

All FRPS families will receive an automated message via email, text, or phone (Parent Square) when their child is marked absent from school within a timeframe, as determined by the Superintendent, after the official start of the individual school day.

Suspensions

Students who are absent due to out-of-school suspensions will be provided work and expected to complete all assignments. Absences due to suspension are considered excused but still count against a student's chronically absent total.

Tardies

A student who is not in his/her school at the start of the school day is considered tardy. Any school delays declared by the superintendent will not count as a tardy for students. Frequent or chronic tardiness shall result in a parent–school conference to determine whether additional action is necessary.

For a school day to be counted towards a student's attendance, he/she must be present for 50% or more of the school day. Anything less will be counted as an absence.

Dismissals

- All requests for early dismissals must be submitted in writing (written note or email) and given to the principal or designee at the start of the school day or, if possible, give the school 24-hour notice.
- Teachers are teaching students up to the final dismissal time. While early dismissals are discouraged, it is recognized that emergencies sometimes arise.
- Frequent or chronic early dismissals shall result in a parent–school conference to determine whether additional action is necessary.

Middle and High School Only Related Attendance Policy portion:

Impact on Grades/D4 Policy

- After the 4th unexcused absence of a class during a term at our traditional middle schools and Durfee High School, a student's grade will be lowered to a 65(D4) unless they participate in the attendance buyback initiative listed below. Students who have earned a grade lower than 65 will continue to earn their actual academic grade.
 - Community Schools (Doran/HLCS) on a trimester schedule will follow the D5 policy so that the absence ratio in the policy is consistent with that of schools on a term schedule.
- In extraordinary cases, a student with demonstrated proficiency who is in jeopardy of receiving a D4 or D5 due to the attendance policy may appeal the decision to the principal or designee. The principal's decision will be final.

Attendance Buyback Initiative

- Students at our traditional middle schools and Durfee High School who are in danger of or have hit their 4th unexcused absence (D4) in any term can request a buyback.
 - Students at our community schools (Doran/HLCS) who are in danger of or have hit their 5th unexcused absence (D5) in any term can request a buyback.
- The student must request a buyback form from a school-based administrator and are responsible for returning the form back to their school-based administrator when it is complete.
- A buy-back takes 5 consecutive days of being present.

During the duration of time, the student is on a buyback, they must:

- Have 100% attendance.
- Be on time to school and all classes (No Tardies and No Dismissals).
- Complete ALL work on time
- Show positive classroom and school-wide behavior. If the student successfully completes the agreed-upon expectations, one absence will be excused and entered into their attendance record as excused (buy-back). Students may buy back a maximum of two absences per term.

❖ DISTRICT RESPONSE WHEN A STUDENT MISSES SCHOOL

PARENTS AND GUARDIANS SHOULD EXPECT TO HEAR FROM SCHOOL TEAMS. When a student is absent from school, the school staff will make every effort to find out why the student is absent. Each school shall follow the outlined tiered approach to supporting students who are absent from school.

When a student is absent from school, the parent/ guardian can expect:

- **Tier 1:**
 - All Students: Daily automated calls regarding attendance from schools via Parent Square.
 - Any Students with historically Poor Attendance/Chronic Absenteeism: In addition to the automated call, the student will receive a call and/or email from school-based staff for the purpose of information gathering, messaging around the importance of regular attendance, and to seek a commitment to attend beginning the next school day.
 - Any student absent for 2 consecutive days, without communication by parent/guardian, in addition to the automated call, should expect to hear from school staff to discuss absences.
 - **Students Absent Three Consecutive Days:** In addition to the automated call, the student will receive a call from a building administrator for the purpose of information gathering, messaging around the importance of regular attendance, and to seek a commitment to attend beginning the next school day.

If contact is not made OR once a student has been absent for 10% of the school year, a referral will be made to the school Student Support Team or Attendance Team for a personal student intervention and incentive plan to foster school attendance.

If the actions listed above are unsuccessful and/or absences continue, the following actions will be taken:

- **Tier II:**
 - Students Absent Four Consecutive Days (Unaccounted For): When the Attendance Officer/SAC/school counselor is able to meet with the student(s) and family, a personal student intervention and incentive plan to foster school attendance will be created.
 - If the building administrator/attendance officer is unable to reach the student or family and the student is still unaccounted for, an unscheduled home visit will be made by the Attendance Officer and potentially SAC or school counselor.
 - If the Attendance Officer/SAC/school counselor is unable to meet with the student and family, a Tier III referral will be made.
- **Tier III:**
 - Students Absent Five Consecutive Days (Unaccounted For):
 - **At the request of building leadership, SROs may conduct safety and wellness checks for unaccounted students. (This is mandatory for students who have not made contact or have not been seen for 5 consecutive school days.)**

- Staff may file a 51A with DCF (this is not mandatory but an option to be considered by the administrative team).
- Attendance officers can make additional unannounced home visits to the homes of unaccounted students.

Should All School Interventions Fail?

Attendance officers may file an Adult Failure to Cause School Attendance complaint against the Parent/guardian when elementary students (6 yrs. old and up) with 7 unexcused days or in a 6-month period.

School Attendance Officers can initiate court action in the form of a CRA on middle and high school students (up to age 16) with:

- 9 or more unexcused absences in a quarter
- 11 or more unexcused absences in a trimester

Remote/ Hybrid Attendance Policy

In the event that hybrid learning is allowed and required due to a state of emergency Fall River Public Schools must implement remote or hybrid learning. All students will be expected to be active participants in all classes every day. If we cannot move safely to 100% full in-person learning, we will remain in the hybrid or remote model for as long as necessary. If a student is absent from class, the school will seek to implement the protocols described in the “**DISTRICT RESPONSE WHEN A STUDENT MISSES SCHOOL**” section of the district attendance policy.

❖ FRPS STUDENT TRANSFER POLICY

All children of school age who reside in the district will be entitled to attend the public schools, as will certain children who do not reside in the district but who are admitted under School Committee policies relating to nonresident students or by specific action of the School Committee. FRPS students are assigned based on their address to their neighborhood school.

At FRPS, a “transfer” is defined as a student moving from one FRPS (neighborhood school) to another FRPS.

Student transfers are determined based on the following criteria:

- Requests are reviewed during the first 2 weeks of August by a district team. The final decision on a student transfer request is granted by the Superintendent.
- Transfer requests are granted based on seats available at the requested school.
- Priority is given to families with siblings at the requested school, followed by hardships, then preference.
- Students who are chronically absent will not be eligible for a transfer.
- Transportation will not be provided.

Students who have been granted a transfer request will be sent back to their neighborhood school if they become chronically absent.

To submit a transfer, a parent/guardian must fill out the transfer request form online, located on the FRPS webpage during the month of July.

SPECIAL EDUCATION PLACEMENT AND TRANSFER PROCESS:

Massachusetts State Law CMR 28.06: Placement and Service Options

- 1. Reporting-** The Department shall determine specific protocols for school districts to report level of services and placement made for eligible students. School districts shall use such protocols for the purposes of reporting information only. No reporting protocol shall be used as the basis for specifying services, delaying, or otherwise limiting services or programs for eligible students.
- 2. Determining Placement-** At the Team meeting, after the IEP has been developed, the Team shall consider the identified needs of the student, the types of services required, and whether such services may be provided in a general education classroom with supplementary aids and/or services or in a separate classroom or school. The Team shall consider all aspects of the student’s proposed special education program as specified in the student’s IEP and determine the appropriate placement to provide the services. The Team shall determine if the student shall be served

in an in-district placement or an out-of-district placement and shall determine the specific placement according to the following requirements:

- (a) The decision regarding placement shall be based on the IEP, including the types of related services that are to be provided to the student, the type of settings in which those services are to be provided, the types of service providers, and the location at which the services are to be provided.
- (b) The placement selected by the Team shall be the least restrictive environment consistent with the needs of the student. In selecting the least restrictive environment, consideration must be given to any potential harmful effect on the student or on the quality of services that the student needs.
- (c) Least Restrictive Environment (LRE)- The school district shall ensure that, to the maximum extent appropriate, students with disabilities are educated with students who do not have disabilities, and that special classes, separate schooling, or other removal of students with special needs from the general education program occurs only if the nature or severity of the disability is such that education in general education classes with the use of supplementary aids and services cannot be achieved satisfactory.

1. In-district Placement- The placement decision made by the Team shall indicate the specific program setting in which services will be provided. The Team shall first consider in-district settings such as a general education classroom, a resource setting, a separate classroom, a work setting, a vocational school program, and/or another type of setting identified by the Team as appropriate and able to provide the services on the IEP in a natural or less restrictive environment. If an in-district setting is able to deliver the services on the IEP, the Team shall identify such placement and include such determination with the proposed IEP.

The school district shall determine specific instructional personnel and shall work jointly with the Team to arrange the specific classroom or school, in order to implement the placement decision and to assure that services begin promptly when parental consent to the IEP and placement have been received.

2. The school district shall not delay implementation of the IEP due to lack of classroom space or personnel, shall provide as many of the services on the accepted IEP as possible and shall immediately inform the parent in writing of any delayed services, reason, for the delay, actions that the school district is taking to address the lack of space or personnel and shall offer alternative methods to meet the goals on the accepted IEP. Upon agreement of a parent, the school district shall implement alternative methods immediately until the lack of space or personnel issues are resolved.

- (d) Placement Meeting-Upon developing the IEP, if the needs of the student and the services identified by the Team are complex, and the Team is considering an initial placement out-of-district or a different setting for a student who has been served in an out-of-district program, the school district may schedule a separate Team meeting to determine placement. The placement meeting shall meet the participant requirements of federal special education law as outlined in 34 CFR §300.116(a) (1) and shall be held within ten school days following the meeting at which the Team developed the IEP. At the request of the parent, the placement meeting may be held at a later date.

1. Any other school district that may be financially or programmatically responsible for the student shall be invited to participate in the placement meeting and shall receive notice of such meeting at least five schools days prior to the meeting. The department or other state agency involved with the student may designate a representative to participate in the placement meeting.
2. Prior to the placement meeting, the school district and parent shall investigate in-district and out-of-district placement options in light of the student's needs and identified services required.
3. At the placement meeting, the district and the parent shall report on the investigation of in-district and out-of-district options. If an in-district program can provide the services on the IEP, such program shall be identified at the placement meeting and provided by the district; if not, the placement Team shall identify an out-of-district placement.

- (e) Out-of-district placement- If an out-of-district placement is designated by the Team, the Team shall state the basis for its conclusion that education of the student in a less restrictive environment with the use of supplementary aids and services could not be achieved satisfactorily.

1. Students in out-of-district placements shall be entitled to the full protections of state and federal special education law and regulation. Out-of-district options include, but are not limited to, special education schools approved under 603 CMR 28.09.
2. When an out-of-district placement is identified by the Team, the determination shall ensure that the student's placement is as close as possible to the student's home.

The Team shall not recommend a day or residential school program outside of the city, town, or school district in which the student resides unless there is not suitable program within the city, town, or school district.

The school district shall implement the placement decision of the Team and shall include consulting with personnel of the school contemplated to provide the program for the student to determine that the school is able to provide the services on the student's IEP. The Team shall not recommend a specific program unless it is assured that the adequacy of said program has been evaluated and the program can provide the services required by the student's IEP. Team identification of specific schools, however, shall not supersede LRE considerations, IEP considerations, or requirements to give preference to approved as provided in 603 CMR 28.09(3) (d).

❖ **HARASSMENT POLICY: PROMOTING DIVERSITY**

The FRPS does not discriminate against student, parents, employees, or the general public on the basis of race, color, national origin, sex, sexual orientation, gender identity, disability, religion, or age. Additionally, the FRPS does not discriminate against the individuals on the basis of homelessness in a manner consistent with the McKinney-Vento Act.

DESIGNATION OF A HOMELESS EDUCATION LIAISON

(A current list of Liaisons is available on the Department of Education (DOE) website: (www.doe.mass.edu))

The FRPS will designate a staff person whose role will be in part to ensure that homeless students enroll in school and that they receive the educational and other services for which they are eligible and ensure that:

- Homeless children and youth are identified by school personnel and through coordination with other agencies;
- Parents or guardians are informed of educational and related opportunities, (i.e., providing public notice of the educational rights of homeless students in schools, family shelters and soup kitchens), access to school nutrition programs available to their children and are provided with meaningful opportunities to participate in the education of their children.
- Enrollment disputes are mediated and resolved; • Parents, guardians and unaccompanied youth are fully informed of all transportation services, including to the school of origin and are assisted in accessing needed transportation services; and
- Assistance is provided to children and youth who do not have immunizations, or medical records, to obtain necessary immunizations.
- Amendments to district policies that may act as barriers to the enrollment of homeless students are reviewed and recommended.

The FRPS Homeless Education Liaison is Cynthia Couto and can be contacted at 508-675-8421.

ENROLLMENT/SCHOOL SELECTION

The school selected shall immediately enroll homeless students even if they do not have the documents usually required for enrollment, (i.e., school records, medical records or proof of residency).

The Homeless Liaison will assist families if needed in obtaining the required records.

- To the extent possible:
- Homeless students will continue to be enrolled in their school of origin while they remain homeless (unless parent or guardian objects) or to attend school where they are temporarily residing;
- Students who choose to remain in their school of origin have the right to remain there until the end of the school year in which they obtain permanent housing;
- Homeless children or youth shall be permitted to enroll in any school those non-homeless students who live in the attendance area in which the child or youth is actually living are eligible to attend;
- Parents/guardians may request their child attend, if possible, any school within the FRPS.

In the case of unaccompanied youth, the Homeless Liaison or designee will assist in placement or enrollment decisions considering the requests of such unaccompanied youth.

TRANSPORTATION

Homeless students are entitled to transportation at the request of the parent or guardian (or in the case of an unaccompanied youth, the liaison) to their school of origin or the school where they are enrolled.

Also, transportation will be provided:

- If the homeless student moves to an area served by another district, though continuing his education at the school of origin, the district of origin and the district in which the student resides must agree upon a method to apportion responsibility and costs for transportation to the school of origin and;
- If the districts cannot agree upon such method, the responsibility and costs must be shared equally
- Children who move from a homeless situation into a permanent residence during the course of a school year have the right to stay in the school they were attending while they were temporarily homeless

The FRPS will provide transportation services to homeless children and youth that are comparable to those received by other students.

DISPUTES

If there is a school selection or enrollment dispute, the student shall immediately be enrolled in the school in which enrollment is sought, pending resolution of the dispute. Unaccompanied youth will also be enrolled pending resolution of the dispute.

The parent or guardian shall be informed of the district's decision and their appeal rights in writing. The FRPS Homeless Liaison will carry out dispute resolution as provided by state rule.

❖ DRUG/ALCOHOL POLICY AND STUDENT ASSISTANCE PROCEDURES

PHILOSOPHY

The school environment is the place in which intelligence, capabilities, and skills are developed and enhanced. Physical and psychological dependence upon chemical substance creates health problems and is counter-productive to the goals of education. Frequent use of any drug results in impaired-performance. Therefore, use, possession, or sale of illegal drugs or alcohol cannot be permitted as it undermines the education process.

School policy has been developed to maintain high standards of behavior and to underscore our commitment to maintaining healthy growth and development in our students and a respect for the quality of our educational environment.

DRUG AND ALCOHOL POLICY

The possession and/or sale or use of any controlled drug, look-alike drug, drug paraphernalia, and any prescription medication, volatile substance, or alcoholic beverage on or in the vicinity of school property or at any school function, on or off school grounds, is a violation of school rules. Such a violation may result in immediate suspension of the student involved from school and all school activities for the duration of the suspension. With parent permission, and appropriate physician documentation, any student required to take a prescribed medicine during school hours should deposit such drug with the school nurse or appropriate building administrator who will administer the drug according to school district policy.

AT NO TIME SHOULD A STUDENT BE IN POSSESSION OF ANY DRUG UNLESS SUCH DRUG HAS BEEN PRESCRIBED AND PHYSICIAN'S ORDERS ARE ON FILE WITH THE SCHOOL NURSE FOR SELF-ADMINISTRATION.

The following procedures, A – G, are applicable to students in middle schools and the high school: (Elementary school should refer to H)

- A.** If a student voluntarily confides a drug and/or alcohol use to a staff member, the following steps will be taken on a confidential basis to develop treatment options:
1. Staff member should refer student to a member of the Student Assistance Team.
 2. No disciplinary action is warranted.
 3. The Student Assistance Program will make a determination if internal services and/or outside evaluation/assessment are necessary.
 4. Parents will be included whenever services, evaluations, or assessments have been recommended.
- B.** If a student is exhibiting signs, symptoms, or behavior patterns which might indicate an ongoing alcohol or drug-related problem:
1. Staff member should contact any Student Assistance Program member to alert him/her of these concerns and fill out a referral form on the student.
 2. The Student Assistance Program will gather the necessary information and determine whether an intervention is necessary.

3. Parents/Guardians will be included whenever services, evaluations, or assessments have been recommended.

C. If at any time a student is suspected of being under the influence of drugs and/or alcohol:

1. The nurse will be notified immediately to assess potential medical risk.
2. Designated administrator or appropriate Team representative will notify parents or guardian who will take student home after a brief meeting with a Student Assistance Program member.
3. Referral to the Student Assistance Program for further exploration and Parent-Student-Team meeting to discuss background information and treatment options.
4. Primary focus of intervention is medical evaluation, parent involvement, in-house team meeting and counseling.
5. Disciplinary action may occur. Suspension up to five (5) days may result at the discretion of administrator.
6. It is strongly recommended that a student with repeat occurrences complete a medical/mental health evaluation prior to remittance. Failure to do so will result in referral to a disciplinary review committee.

Any treatment recommendations should be shared with the school nurse and the Student Assistance Program Team Coordinator.

D. Student found to be in presence of other student(s) using or distributing drugs or alcohol:

1. Staff member will notify designated administrator.
2. Administrator or appropriate Team representative informs parent or guardian of student's involvement.
3. Referral to Student Assistance Team for further exploration.
4. Disciplinary action may occur. Suspension up to five (5) days may result at the discretion of the Administrator.

E. Student found to be in possession of drugs or alcohol, or drug paraphernalia:

1. Administrator or appropriate Team representative informs parent or guardian and then refers student to the Student Assistance Team.
2. Student Assistance Team will develop background information.
3. Notification of Police. Any drug found must be turned over to the police.
4. Suspension for up to five (5) days will be considered and the principal may consider more severe consequence, including, in the case of drugs, expulsion from school. M.G.L. c. 71, § 37H.
5. Student Assistance Team Intervention Meeting: Parent-Student-Team meeting during disciplinary period to discuss recommendations and need for further treatment. All policies will be explained thoroughly to the parent/guardian.

F. Student found selling or distributing drugs or alcohol:

1. Staff member will notify designated administrator.
2. Notification of police. Any drugs found must be turned over to the police.
3. Administrator or appropriate team member informs parent or guardian of student's involvement.
4. Potential suspension of ten (10) days up to expulsion M.G.L. c. 71, § 37H.

G. Repeated violations of drug and alcohol policies or continued unacceptable behavior by a student will result in the Student Assistance Team reevaluating its recommendations. The team, after its review, will make appropriate follow-up recommendations for further action.

1. Recommendations may include one or more of the following: medical evaluation, participation in prevention education program, ongoing counseling, modified school schedule, or continued discipline, depending on the severity of the case.
2. It is expected that parents or guardians will be responsible to follow through with recommended treatment plans. Failure by parents to cooperate with the school department may result in the filing of legal proceedings with the local District Court and/or Massachusetts Department of Social Services.

H. Elementary School Procedures

1. In all cases involving substance abuse at the elementary level, these procedures will be followed:
The staff member will notify the school principal immediately.
2. If student is suspected of being under the influence, nurse will be notified immediately to assess potential medical risk. Staff member will then notify designated administrator.
3. The principal will notify the parents/guardian of the incident and requests a Parent - School meeting.
4. The principal** will contact the Student Assistance Team or Health Office staff who will pull together a team of trained intervention staff to work with the school. A Team member should be involved in the Parent meeting.
5. In cases where a student is thought to be under the influence of a substance, the principal should follow emergency procedures, making medical evaluation the first priority.
6. In cases where a student is in possession of an illegal substance the police will be notified immediately.

Additionally, any student who is under the influence of drugs or alcoholic beverages prior to, or during, attendance at or participation in a school-sponsored activity, will be barred from that activity and may be subject to disciplinary action.

3. Third Offense: Referral to the Office of the Superintendent for disposition.

STUDENTS:

1. First Offense: Up to one day suspension.
2. Second Offense: Possible one to three day suspension.
3. Repeated: Referral to the Office of the Superintendent for disposition.

VISITORS

2. Second Offense Directive to leave school property.
3. Repeated Offense Referral to supervisory personnel responsible for program/area of disposition.

❖ BULLYING INTERVENTION

The FRPS endeavors to maintain a safe learning environment where students can achieve the highest academic standard. The FRPS is committed to creating an environment, in which every student develops emotionally, academically, and physically, in a caring and supportive atmosphere, free of harassment, intimidation, bullying or cyber-bullying. To that end, bullying, cyber bullying and/or retaliation shall be prohibited.

Definitions:

“Bullying” is the repeating use by one or more students or by a member of school staff including but not limited to, an educator, administrator, school nurse, cafeteria worker, custodian, bus driver, athletic coach, advisor to an extracurricular activity or paraprofessional of a written, verbal or electronic expression, or physical act or gesture, or any combination thereof, directed at a target that:

- Causes physical or emotional harm to the target or damage to the target’s property

“Cyber-bullying” means bullying through the use of technology or any electronic communication, which shall include, but shall not be limited to, any transfer of signs, signals, writing, images, sounds, data or intelligence of any nature transmitted in whole or in part by a: wire, radio, electromagnetic, photo-electronic or photo-optical system, including, but not limited to, electronic mail, internet communications, instant messages or facsimile communications.

Cyber-bullying shall also include the creation of a web page or blog in which the creator assumes the identity of another person or knowingly impersonates another person as the author of posted content or messages, if the creation of impersonation creates any of the conditions enumerated in the definition of bullying. Cyber-bullying shall also include the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons, if the distribution or posting creates any of the conditions enumerated in the definition of bullying.

Bullying and cyber-bullying may occur in and out of school, during and after school hours, at home and in locations outside of the home. When bullying and cyber-bullying are alleged, the full cooperation and assistance of parents and families are expected. For the purpose of this policy, whenever the term bullying is used, it is to intend denote either bullying or cyber-bullying.

“Aggressor” is a student or a member of a school staff including, but not limited to, an educator, administrator, school nurse, cafeteria worker, custodian, bus driver, and athletic coach, advisor to an extracurricular activity or paraprofessional who engages in bullying or retaliation.

“Retaliation” means any form of intimidation, reprisal or harassment directed against a person, who reports bullying provides information during an investigation about bullying, or witnesses or has reliable information about bullying.

Prohibitions

- On school grounds;
- On property immediately adjacent to school grounds;
- At school-sponsored or school-related activities;

- At functions or programs whether on or off school grounds;
- At school bus stops;
- On school buses or other vehicles owned, leased or used by the school district; or,

Bullying and cyber-bullying are prohibited at a location, activity, function or program that is not school-related or through the use of technology or an electronic device that is not owned, leased or used by the FRPS if the act(s):

- Creates a hostile environment at school for the target;
- Infringes on the rights of the target at school; and/or
- Materially and substantially disrupts the education process or the orderly operation of a school.

PLANNING AND OVERSIGHT

The principal of each building or a designee will receive reports of bullying. Incident reports will be located in a separate binder. In order to collect and analyze accurate data on the extent of bullying within the district and to measure improved outcomes, all substantiated bullying reports must be entered into the current data collection system. It is important that accurate information is reported relative to targets and aggressors.

At the beginning of each school year, the school principal will review the bullying prevention policy, reporting procedures (including anonymous reporting), and reporting forms with all staff members. The principal will also amend student and staff handbooks and codes of conduct as needed to meet the letter and intent of the law.

The principal will also give parents a written copy of the procedure for investigating bullying and reporting forms in their native language. Students will be given a developmentally appropriate copy of the bullying policy.

Internet safety resources are to be published on the FRPS Technology website at: <http://www.fallriverschools.org/internetsafety.cfm>. In addition, each school will send out a developmentally appropriate Acceptable Use Agreement. These agreements are sent home at the beginning of each school year and signed by the student and parent. These agreements can be found at: <http://www.fallriverschools.org/technology.cfm>.

Each school was sent a packet of resources to use with parents and staff. Information in the packet included: Stop Bullying Now (K-5) and bullying and cyber-bullying information from the Massachusetts Aggression Research Center (MARC). Copies will be given to parents at registration and at each school's open house. A copy will be posted in the school office. Some of the titles include:

- Social Networking: A Guide for Parents
- No Child Left Online
- Cyber-bullying: A Guide for Parents
- When Your Child Is Being Bullied: A Guide for Parents

These titles are free to the public and are posted at: <http://webhost.bridgew.edu/marc/parpub.html>

Principals will report end of the year bullying data to the Bullying Prevention Committee. This data should include but is not limited to: 1) the number of bullying complaints/investigations, 2) the number of substantiated bullying reports, and 3) a count of the action taken. This District-wide Committee will meet to review the data. The data will be used to determine what changes, if any, need to be made in the Bullying Prevention and Intervention Plan.

APPEAL PROCESS

Any person believing that the FRPS or any part of the school organization has inadequately applied the bullying policy shall bring forth a complaint to the school principal and if necessary to the District-wide Bullying Prevention Committee. The complaint may be made verbally or in writing. The principal or Bullying Prevention Committee will investigate the complaint and respond to the complainant within ten (10) business days.

Within five (5) business days, any person who disagrees with the Committee's decision shall be entitled to appeal this decision to the Superintendent of Schools. The Superintendent shall gather all documentation from the Bullying Prevention Committee, investigate the complaint, and reply to the complainant within ten (10) business days from the date the appeal was received.

TRAINING AND PROFESSIONAL DEVELOPMENT

ANNUAL STAFF TRAINING

At the beginning of each school year, all staff members will be trained on the Bullying Prevention and Intervention Plan, Bullying Policy, and Bullying Procedures including: reporting requirements, investigation guidelines, ensuring the safety of the target and witnesses, and the required documentation.

WRITTEN NOTICE TO STAFF ABOUT THE LAW AND RESPONSIBILITIES

FRPS has revised its Anti-Bullying Policy and Procedures to ensure it complies with the law. The policy will be posted on the school system website. During each new school year, the policy will be reviewed on the first day of school with all staff members.

STUDENTS WITH DISABILITIES Note: This section was taken from Draft Technical Assistance Advisory (SPED 2011-1: Bullying Prevention and Intervention.)

Sections 7 and 8 of the bullying prevention and intervention law have specific implications for the IEP process and for students with disabilities.

SECTION 7 STATES: Whenever the IEP Team evaluation indicates that a student's disability affects social skills development, or when the student's disability makes him or her vulnerable to bullying, harassment, or teasing, the IEP must address the skills and proficiencies needed to avoid and respond to bullying, harassment, or teasing. (M.G.L. c. 71B, § 3, as amended by Chapter 92 of the Acts of 2010.)

SECTION 8 STATES: For students identified with a disability on the autism spectrum, the IEP Team must consider and specifically address the skills and proficiencies needed to avoid and respond to bullying, harassment, or teasing. (M.G.L. c. 71B, § 3, as amended by Chapter 92 of the Acts of 2010.)

Since disabilities can affect multiple aspects of a student's life, a student's individual evaluation must be comprehensive in order to identify areas affected by the disability and to allow for appropriate supports to ensure student success. Generally speaking, this means that well planned evaluations will already contain the information needed to address the special education requirements of the bullying prevention and intervention law. The new bullying prevention and intervention law requires the IEP Team to discuss and address students' social skill development and vulnerability to bullying, harassment, and teasing.

CHARACTERISTICS OF STUDENTS WHO ARE VULNERABLE TO AND/OR ENGAGE IN BULLYING HARASSMENT OR TEASING

Because schools are social places and learning is a social process, appropriate social skills are necessary for successful interactions in the school environment. Students whose disabilities impede social skills development may become an aggressor, a target of, or vulnerable to bullying, harassment, and teasing. Some students may exhibit behaviors that are characteristic of both targets and aggressors.

FRPS includes the provision of skill-building opportunities for students including offerings, supports, and where appropriate. Individual Behavior Plans addressing the recognition that certain students may be more vulnerable to becoming a target of bullying or harassment based on actual or perceived differentiating characteristics, including race, color, religion, ancestry, national origin, sex, socio economic status, homelessness, academic status, gender identity or expression, physical appearance, pregnant or parenting status, sexual orientation, mental physical, developmental, or sensory disability, or by association with the person who has or is perceived to have one or more of these characteristics.

Some of these characteristics are identifiable in students with disabilities because of the nature of their disability.

For example, a defining characteristic of Autism Spectrum Disorder (ASD) is a qualitative impairment of social communication and interactions. Impairments in social interaction may also be mistaken for behavior problems in students with ASD. A functional behavior assessment is a useful tool for identifying factors that reflect social skills deficiencies that are better served by providing skill development rather than strictly through a behavior modification or management plan.

REFERRAL PROTOCOL FOR REFERRING STUDENT TO OUTSIDE AGENCIES REFERRAL FOR COUNSELING SERVICES

Any parent, teacher, or staff member may refer a child for counseling. Students themselves may seek counseling services. Children involved in any confirmed case of bullying will be referred to the School Adjustment Counselor. The counselor will meet with the aggressor individually.

The counselor will hold small groups sessions with children who are targets or likely targets of bullying.

The FRPS is fortunate to have several teachers, counselors, nurses, vice principals, and principals who are bilingual or tri-lingual. When necessary, it is a practice to shift services and providers to schools that needs counseling or other interventions by a multilingual staff member.

The Designee will consult with the principal to determine appropriate consequences. The school counselor will work with an aggressor individually. The targets and bystanders will also have access to the school counselor.

If safety issues continue and signs of stress and depression are indicated, referral to an outside agency should be considered. School counselors will keep a current list of outside service providers to give to parents as needed. Progressive discipline will be used as needed for moderate and severe cases.

POLICIES/PROCEDURES FOR REPORTING AND RESPONDING TO BULLYING

A **reporter** is defined as a person reporting an incident under this policy and not the recipient of the alleged behavior that violates the policy. A reporter may make an anonymous report.

A **Community Member** is defined as any student, district or school employee, school committee member, independent contractor, school volunteer, parent or legal guardian of a student, or a visitor on school premises or at a school-related or school sponsored function or activity.

Reporting Bullying or Retaliation: All members of the school community are responsible for reporting any observation of bullying or harassment, or credible information that such an act has taken place.

A FRPS Bullying Reporting form is available in every office. That form states: “(Note: Reports may be made anonymously, but no disciplinary action will be taken against an alleged aggressor solely on the basis of an anonymous report.)”

Responding to a report of bullying or retaliation: Each school building administrator will appoint one person (Designee) who will be responsible for receiving the bullying report, investigating, and applying appropriate sanctions for all complaints of bullying. Upon receiving the report, the Designee must contact the parent/guardian of the target of the incident and the parent/guardian of the person accused of bullying. The Designee will notify both sets of parents or guardians that a complaint has been received and that an investigation is going to be conducted. Neither the name of the target nor the name of the student alleged of bullying should be disclosed to the other student's parent. The parent/guardian will also be advised that it is necessary to prevent any further acts of bullying and/or retaliation.

The Designee must provide for the safety of the target and any witnesses to the incident while conducting the investigation. The investigation shall include prompt interviews of students, staff, witnesses, parents or guardians, and others as necessary. The Designee will also remind aggressor, target and witnesses that retaliation is strictly prohibited and will result in disciplinary action.

The Designee will determine if the complaint is substantiated and if any remedial action is necessary.

Designee will consider the following remedial actions:

1. Teaching appropriate behavior through skills-building
2. Taking Disciplinary Action as outlined on the Bullying Investigation Form
3. Promoting Safety for the Target and Others

The parent/guardian of the target and the parent/guardian for the one alleged of bullying will be notified of the findings of the investigation. The Designee will keep all Bullying Report Forms and Investigation Forms in a Separate binder. All substantiated incidents of bullying must be reported in the FRPS Data Management System (X2).

COLLABORATION WITH FAMILIES

Parent Education and Resources

It is essential that all appropriate family members are instructed about the dangers of bullying and cyber-bullying. Appropriate family members will be taught what bullying is and what bullying is not. To aid in this effort, all principals were sent a packet of print material on October 1, 2010. Principals were encouraged to make this material available at open houses and to have it readily available for appropriate family members having an issue with bullying. At future Kindergarten Orientations and the Open Houses of each elementary school, the parent video from the Second Step Program will be used to demonstrate appropriate social skill development.

Each principal at the high school and middle school levels will discuss the Bullying Prevention and Intervention Plan with appropriate family members through a presentation at open house and parent conferences. Bullying, cyber-bullying, retaliation, hazing and harassment terminology and its contextual meaning will be reviewed at these mandated MIAA parent meetings.

Notification Requirement to parents/guardians

Upon determining that bullying or retaliation has occurred, the principal or designee will promptly notify the appropriate family members of the target and the aggressor involved in the bullying incident regarding the FRPS Administrative procedures for responding to it. There may be circumstances in which the principal or designee contacts appropriate family members prior to any investigation. The principal or designee will notify both sets of appropriate family members that a complaint has been received and that an investigation is going to be conducted. Neither the name of the target nor the name of the student alleged of bullying should be disclosed to the other student's parent.

The appropriate family members will also be notified regarding, specific actions taken by FRPS to prevent any further acts of bullying and/or retaliation based on each individual bullying/retaliation circumstance. Notice will be consistent with state regulations at 603 CMR 49.00.

ADMINISTRATIVE ACTIONS TO PREVENT FURTHER ACTS OF BULLYING

Support and Assist the Target:

- Develop an Individualized Safety Plan and enact it. Each Individual Safety Plan will be promptly and consistently put into place to prevent further bullying.
- A School Counselor or School Adjustment Counselor will be assigned to the targeted student. The assigned Counselor will meet regularly with the target to support the target and assure that retaliation does not occur. If retaliation does occur it will be reported and dealt with immediately on a case by case basis.
- Follow up meetings between the counselor and targeted student will take place twice a week for a period of a month. The counselor will provide a biweekly progress report to the principal or administrative designee, and appropriate family members. The progress report will address the individualized safety of the student (target).

An Individualized Safety Plan will continue until the following people collectively agree it is no longer needed: targeted student, appropriate family members, and the principal or administrative designee.

- School guidance counseling services that the target needs will be provided to the target as well as appropriate family members. The targeted student will be provided with strategies to deal with future incidents, empowering the student to use self-advocacy to report any further acts.
- Follow up school counseling will be provided by the guidance counselor and or School Adjustment Counselor as determined necessary for the target.
- If school counseling personnel determine more in depth support will be needed then information regarding outside counseling services will be provided to the student's appropriate family members. The School Adjustment Counselor will assist the student and family to secure further outside of school counseling.

Support and Assist the Aggressor:

- An Individualized Monitor Plan will be developed and put into place to ensure no further acts of bullying will be committed by the aggressor. Consistent, direct, and prompt action will be put into place to prevent further bullying by the aggressor towards the specifically targeted student.
- A School Counselor or School Adjustment Counselor will be assigned to the aggressor. The aggressor will be counseled and educated on acceptable alternative behaviors by the assigned guidance counselor or school adjustment counselor. The aggressor and appropriate family members will be made aware of the schools anti- bullying plan and the potential for severe consequences for his/her aggressive actions by the assigned School Counselor or School Adjustment Counselor. The assigned School Counselor will meet regularly with the individual aggressor to assure that retaliation has not occurred. But if retaliation does occur it will be reported and dealt with immediately.
- Follow up counseling will be provided by a School Counselor or School Adjustment Counselor as determined necessary for the aggressor and appropriate family members.
- Counseling services that the aggressor needs will be available to the appropriate family members. School staff and, for middle and secondary levels, the school resource officer will provide appropriate support and counseling for the aggressor as needed within the school setting.
- If needed, information regarding outside counseling services will be provided to the aggressor's appropriate family members.

The School Adjustment Counselor will assist the student's family to secure additional outside counseling services.

- The Individualized Monitoring Plan will include meetings twice a week and the duration will depend upon the aggressor's future actions. All meetings will be documented and the ending of the monitoring plan will be determined by the Principal or administrative designee. The aggressor and the appropriate family members will be advised that this documentation will become part of the student's record.
- The district may make appropriate law enforcement referrals/reports (assist target in reporting to law enforcement). Criminal charges may be filed at the discretion of the School Resource Officer.

Notice to another School District

If the reported incident involves students from more than one school district, charter school, non- public school, approved private special education day or residential school, or collaborative school, the principal or designee first informed of the incident will promptly notify by telephone the principal or designee of the other school(s) about the incident so that each school may take appropriate action. All communications will be in accordance with state and federal privacy laws and regulations, and 603 CMR 49.00.

Notice to Law Enforcement

At any point after receiving a report of bullying or retaliation, including after an investigation, if the principal or designee has a reasonable basis to believe that criminal charges may be pursued against the aggressor, the principal will notify the local law enforcement agency. Notice will be consistent with the requirements of 603CMR 49.00 and locally established agreements with the local law enforcement agency. In addition, if an incident occurs on school grounds and involves a former student under the age of 21 who is no longer enrolled in school, the principal or designee shall contact the local law enforcement agency if he or she has a reasonable basis to believe that criminal charges may be pursued against the aggressor.

In making this determination, the principal will, consistent with the Plan and with applicable school or district policies and procedures, consult with the school resource officer, if any, and other individuals the principal or designee deems appropriate. A Memorandum of Agreement between the FRPS and the Fall River Police Department is being discussed.

Appointing School Designee: Each school building administrator will appoint one person (Designee) who will be responsible for receiving, investigating, and applying appropriate sanctions for all complaints of bullying. The school administrator must provide notification of the name and contact information of the Bullying Designee to all school administrators, teachers, paraprofessionals, custodians, cafeteria workers, office staff, bus staff, parents, and any other individual who comes in contact with a child who attends school in the FRPS

A copy of this procedure, along with the name and contact information for the Designee, will be posted in the Main Office of every school.

Receiving Complaints of Bullying: A person, other than the Designee, who receives a report of bullying must:

1. Direct the reporter to the Designee;
2. Report all information received from the reporter directly to the Designee.

Designee Responsibilities: The Designee must complete the following steps once a report of bullying has been received: (the word target means victim)

1. Complete the Bullying Report Form. This form may be completed by the target of the bullying, a parent, guardian, the Designee, or any other individual who reports an incident of bullying.
2. The Designee must contact the parent/guardian. The Designee will gather the parent/guardian contact information for the target of the bullying, and the person accused of bullying.
The Designee will call the respective parents/guardians and advise them a complaint has been received, and an investigation is going to be conducted by the Designee.

Neither the name of the target, nor the name of the one alleged of bullying, should be disclosed to the other student's parent/s.

If after the investigation, the Designee believes that the incident was so egregious so as to warrant a parent meeting, the parent/s may be contacted again to meet with the Designee and the Discipline Administrator for the building.

3. The Designee will investigate the alleged incidence of bullying by talking with the target of the bullying and the person alleged to have bullied. This is to be done separately, never bringing the target and the person alleged to have bullied together in the same room.

The Designee will speak to the person/s who reported the incident, witnesses, and any other individuals having information about the incident. The Designee will check the alleged conduct record to determine if the student has been disciplined for other incidences of bullying. The investigation and the Bullying Investigation Form should both be completed, within three (3) school days from the time the incident was reported.

4. The Designee will determine if the alleged incident of bullying occurred, and the appropriate sanction/s to be given. The Designee should choose the sanction from those enumerated on the Bullying Investigation Form. If the Designee believes that the sanction should be greater than one of the enumerated sanctions, or that further steps need to be taken to assure the target's safety, the designee will speak with the Discipline Administrator for the Designee's school, and appropriate measures will be taken.
5. The parent/guardian of the target and the parent/guardian for the one alleged of bullying will be notified of the findings of the investigation.
6. Relationship to Other Laws

Consistent with state and federal laws, and the policies of the school or district, no person shall be discriminated against in admission to a public school of any town or in obtaining the advantages, privilege and courses of study of such public school on account of race, color, sex, religion, national origin, or sexual orientation.

Nothing in the Plan prevents FRPS or individual school from taking action to remediate discrimination or harassment based on a person's membership in a legally protected category under local, state, or federal law, or school or district policies.

In addition, nothing in the Plan is designed or intended to limit the authority of the any school within the FRPS to take disciplinary action or other action under M.G.L. c. 71, §§ 37H or 37H½, other applicable laws, or local school or district policies in response to violent, harmful, or disruptive behavior, regardless of whether the Plan covers the behavior.

Conclusion:

One of the goals of the FRPS is to develop: "socially and emotionally competent children and youth who get along well with others. [The children will learn] how to communicate effectively. They [will be] cooperative. They [will be able to] negotiate with others to solve problems.

They [will] have good refusal skills ... and know when and how to seek help. They [will] make a positive contribution to their families, school, and community ...” (Safe and Sound: An Educational Leader’s Guide to Evidence-Based Social and Emotional Learning (SEL) Programs, CASEL, 2003, page 5)

“Improving the social emotional climate of schools, and the social and emotional competence of students, advances the academic mission of schools. It actually increases student’s capacity for learning. Social and emotional learning has been shown to increase mastery of subject material, motivation to learn, commitment to school, and time devoted to school work. It also improves attendance, graduation rates, and prospects for constructive employment while at the same time reducing suspensions, expulsions, and grade retention. Code of Conduct

2023 - 2024

FRSC approved 5/8/17

Our first and foremost goal is to ensure the safety, security and well-being of each and every one of our students. Our core values run deep in this school district, and we work very hard to model and implement a positive and caring learning environment across all our schools.

Our Code of Conduct is a model of collaboration initiated by union and management, with broad-based representation from stakeholders at every level of the school system. It is driven by our deep commitment to the well-being of our students. During the 2016-2017 School Year, a cross-functional team of educational professionals and community partners worked to refine and enhance the document contained herein.

The catalyst for this work was to ensure greater consistency, application, and enforcement of a clear set of norms and rules that drive student decorum in our schools. We feel that the improvements made in this document will better enable us to proactively and responsibly address violations of our Code of Conduct, keeping in mind the principles of restorative practices and justice.

We hope that you find this handbook to be user friendly and organized for accessibility. We encourage our educational professionals to employ alternative discipline consequences, not always using out-of-school suspension, as a first response. Remember, student discipline is about changing behaviors. Our hope for the future of our system - we use this tool as a living document, to refine it where we must — to always strive for improvements in student behavior.

❖ STANDARDS OF BEHAVIOR

The Fall River Public Schools is committed to ensuring that our schools are safe, secure and orderly environments in which teaching and learning take place each day. A safe and supportive school depends upon the efforts of all members of the school community—teachers, students, administrators, parents, counselors, social workers, safety personnel, related service providers, cafeteria, custodial and bus staff—to treat one another with mutual respect.

Included in this document is the Student Bill of Rights and Responsibilities that promotes responsible student behavior and an atmosphere of dignity and respect by establishing guidelines to help students as they strive to become productive citizens in a diverse society.

Standards of Behavior

All members of the school community— students, staff and parents—must know and understand the standards of behavior which all students are expected to live up to and the consequences if these standards are not met.

The Code of Conduct provides a description of conduct that does not meet the standards of behavior expected of students in the Fall River Public Schools. It includes a range of interventions and a range of permissible disciplinary and intervention measures which schools may use to address misbehavior.

Also included is the Bill of Students Rights and Responsibilities.

The Discipline Code applies to all students

❖ PROMOTING POSITIVE STUDENT BEHAVIOR

CREATING SAFE, SUPPORTIVE, AND INCLUSIVE SCHOOLS

Each school is expected to promote a positive school culture and climate that provides students with a supportive environment in which to grow both socially and academically. Schools are expected to take a proactive role in nurturing students' pro-social behavior by providing them with a range of positive behavioral supports as well as meaningful opportunities for social emotional learning.

School staff members are also responsible for addressing inappropriate student behaviors which disrupt learning. Administrators, teachers, counselors and other school staff are expected to engage all students in intervention and prevention strategies that address a student's behavioral issues and discuss these strategies with the student and his/her parent(s).

Intervention and prevention approaches include but are not limited to support and services to address personal and family circumstances; social/emotional learning, such as conflict resolution/mediation/negotiation, restorative consequences, anger management, stress management, and/or communication skills acquisition; the use of alternate instructional materials and/or methods; enrichment services; and/or development or review of functional behavioral assessments and behavioral intervention plans which should be developed and/or reviewed as an early intervention strategy.

Through the use of intervention and prevention strategies that engage students and give them a clear sense of purpose, school staff members facilitate students' academic and social-emotional growth and assist them in following school rules and policies.

Student engagement is integral to creating a positive school culture and climate that fosters students' social/emotional growth and academic achievement. Providing students with multiple opportunities to participate in a wide range of pro-social activities and, at the same time, bond with caring, supportive adults can help prevent negative behaviors.

Examples can include: providing students with meaningful opportunities to share ideas and concerns and participate in school-wide initiatives; student leadership development; periodic recognition of students' achievements in a range of academic and co-curricular areas; using corrective feedback; and developing school-wide positive behavior systems. Such opportunities, coupled with a comprehensive guidance program of prevention and intervention, provide students with the experiences, strategies, skills, and support they need to thrive.

Establishing a school-wide tiered framework of behavioral supports and interventions guides the entire school community toward following the school's rules and expectations, as well as the delivery of consistent and appropriate consequences.

Effective social emotional learning helps students develop fundamental skills for life effectiveness, including: recognizing and managing emotions; developing caring and concern for others; establishing positive relationships; making responsible decisions; and handling challenging situations constructively and ethically. Such skills help prevent negative behaviors and the disciplinary consequences that result when students fail to live up to behavioral standards.

❖ PARENTS* AS PARTNERS

Students, parents and school personnel all have a role in making schools safe and must cooperate with one another to achieve this goal. School staff should keep parents informed of their child's behavior and enlist parents as partners in addressing areas of concern. Outreach to parents can include, but is not limited to, a phone call and/or a written communication. As role models, parents and school staff should exhibit the behaviors which they would like to see students emulate.

To ensure that parents become active and involved partners in promoting a safe and supportive school environment, they must be familiar with the Discipline Code. Educators are responsible for informing parents about their child's behavior and for nurturing the skills students need to succeed in school and in society.

Parents are encouraged to discuss with their child's teacher and/or other school staff issues that may affect student behavior and strategies that might be effective in working with the student. It is important that there is maximum consultation and communication between the school and the home.

Collaborative Problem Solving conferences attended by the principal or his/her designee, a student adjustment or guidance counselor, the student's parent(s) and one or more of the student's teachers are an effective means of encouraging parental input and should be held with students when appropriate.

Parents who want to discuss behavioral interventions in response to student behavior should contact their child's school or teacher.

Attendance at school is vital to a student's academic progress and success. School personnel must ensure that appropriate outreach, intervention and support are provided for students who exhibit attendance problems that may manifest themselves as truancy or patterns of unexcused absence or educational neglect.

In cases of truancy, school personnel will make every effort to meet with the student and parent in order to determine if supports are needed and an appropriate course of action which may include, but not limited to parental contracts, referral for social service supports, and/or referral to after-school programs.

The school's social/emotional learning team should review cases of chronic absenteeism and/or truancy and should involve attendance officers, guidance counselors, teachers, student adjustment counselors, and administrators in facilitating a resolution.

School officials are responsible for sharing the information in this document with students, parents, and staff.

In the event a student engages in infractions/disruptive behavior, the student is assigned a consequence, the principal or principal's designee must report the behavior to the student's parent. When a student is believed to have committed a crime, the police must be summoned and the parent must be contacted.

** Whenever used in this document, the term "parent" means the student's parent(s) or guardian(s) or any person(s) in a parental or custodial relationship to the student, or the student, if she/he is an emancipated minor or has reached 18 years of age.*

❖ PROGRESSIVE DISCIPLINE

Understanding discipline as a "teachable moment" is fundamental to a positive approach to discipline. Progressive discipline uses incremental interventions to address inappropriate behavior with the ultimate goal of teaching pro-social behavior. Progressive discipline does not seek punishment. Instead, progressive discipline seeks concurrent accountability and behavioral change.

The goal is prevention of a recurrence of negative behavior by helping students learn from their mistakes. Essential to the implementation of progressive discipline is helping students who have engaged in unacceptable behavior to:

- Understand why the behavior is unacceptable and the harm it has caused
- Understand what they could have done differently in the same situation
- Take responsibility for their actions
- Be given the opportunity to learn pro-social strategies and skills to use in the future
- Understand the progression of more stringent consequences if the behavior reoccurs

Determining the Disciplinary Response

School officials must consult this document when determining which disciplinary measure to impose. In determining how to best address inappropriate conduct, it is necessary to evaluate the totality of the circumstances surrounding the conduct. The following facts should be considered prior to determining the appropriate disciplinary measures:

- Student's age and maturity;
- Student's disciplinary record (including the nature of any prior misconduct, the number of prior instances of misconduct, and the disciplinary and intervention measures applied for each
- The nature, severity, and scope of the behavior
- The circumstances/context in which the conduct occurred
- Frequency and duration of the behavior
- Number of persons involved in the behavior
- If applicable, the student's IEP (Individual Education Plan), BIP (Behavioral Intervention Plan) and 504 Accommodation Plan

Every reasonable effort should be made to correct student behavior through interventions and other school-based resources. Interventions are essential because inappropriate behavior or violations of the Discipline Code may be symptomatic of more serious problems that students are experiencing. It is, therefore, important that school personnel be sensitive to issues that may influence the behavior of students and respond in a manner that is most supportive of their needs.

Appropriate disciplinary responses should emphasize prevention and effective intervention, prevent disruption to students' education, and promote the development of a positive school culture.

❖ INFRACTION LEVELS

The FRPS Code of Conduct holds students accountable for their behavior. Infractions are grouped into a total of five levels (3 levels of Elementary School, 5 levels for Middle School, and 3 levels for High School) based on the severity of the infraction. Whenever possible and appropriate, interventions should begin with the lowest level of disciplinary response.

Infractions levels are as follows:

- **Level 1** – Uncooperative/Noncompliant Behavior
- **Level 2** – Disorderly Behavior
- **Level 3** – Disruptive Behavior
- **Level 4** – Aggressive or Injurious/Harmful Behavior
- **Level 5** – Seriously Dangerous or Violent Behavior

Principals, teachers, school staff, students and parents need to know the disciplinary measures that can be taken when a student misbehaves or substantially disrupts a classroom.

The Code of Conduct is divided into three sections: Section E Grades K-5, Section M Grades 6-8, and Section H Grades 9-12 to ensure that the age and general maturity of the student are considered. Some infractions may not apply to students in grades K-3.

Each level of infractions contains possible interventions as well as a minimum to a maximum range of possible disciplinary responses that may be imposed by a teacher, school level administrator, Superintendent or Superintendent's designee.

The enumerated infractions are not all-inclusive. Students who engage in misconduct which is not listed are subject to appropriate disciplinary measures by the teacher, school level administrator or other designee of the Superintendent based on violation of school rules. To ensure that staff, students and parents are aware of all expected standards of behavior, school rules must be in writing and distributed along with the Code of Conduct. The Discipline Code provides progressive accountability measures for students who engage in repeated misbehaviors despite prior interventions and/or prior imposition of appropriate disciplinary measures.

More severe accountability measures will be imposed on those students who engage in a pattern of persistent misconduct. Whenever possible and appropriate, prior to imposing such penalties, school officials should exhaust less severe disciplinary responses and use interventions.

In cases of vandalism, The FRPS reserves the right to seek restitution for damages to facility, equipment, or materials perpetrated by students of parents/guardians.

The infraction and the consequences contained within this handbook are not exhaustive nor are they meant to be; rather these are guidelines for addressing inappropriate conduct and suggested disciplinary consequences. A range of discipline is possible within these guidelines, and school administrators have the discretion to impose more severe consequences than contained within these guidelines depending on the individual circumstances presented. In some instances consequences may carry over from one year to the next. In serious cases involving possible criminal behaviors; FRPS referral to appropriate legal authorities will be made, separate from any school disciplinary action. Parents will be notified when such referral takes place.

*It is noted that chronic infractions of the Code of Conduct on one level, regardless of the grade stacking (elementary, middle, high), may "bump" the student to the next level of violation within the Code of Conduct.

Note: *The Code of Conduct should be used in conjunction with other relevant FRPS policies and Massachusetts General Laws (MGL) and Commonwealth of Massachusetts Regulations (CMR). Included in the appendix are select MGL's and CMR's*

It should be duly noted that some students, (ex. Special Education students, Ch7l b) may be provided additional protections and may supported by additional Federal Law.

Additionally, we need to ensure that we follow reporting functionality consistent with CMR (ex. Physical Restraint, CMR 46.00). For all FRPS policies, please refer to <http://www.fallriversschools.org/noliciesprocedures.cfm>

❖ BEHAVIORAL INTERVENTIONS -

To promote positive behavior schools provide a range of prevention and intervention strategies and support services for students during and/or after school hours throughout the school year. When a student engages in misconduct, the Discipline Code provides a non-exhaustive list of behavioral interventions that must be considered based on the type of behavior in which a student has engaged.

When used consistently and appropriately, interventions help improve student behavior, lower repeated misbehavior and contribute to a more positive school environment. Interventions are an integral part of a comprehensive response and schools are expected to provide support services at all stages of the disciplinary process, including during suspension. Support services may include any of the interventions or a combination of such services that best meet the needs of the individual students.

Types of Student Support Services

<p>Parent Outreach: School staff should keep parents informed of their child’s behavior and enlist parents as partners in addressing areas of concern. Outreach to parents can include, but is not limited to a phone call and/or written communication.</p>	<p>Development of Individual Behavior Contract: The student meets with teachers to create a written contract that includes objectives and the specific performance tasks that student will accomplish to meet those objectives. The contract is signed by the student, teacher, and where appropriate by the parent.</p>
<p>Collaboration Problem Solving Conference: Principals and teachers may request a conference with student and parent, where appropriate. The conference is to review the behavior, find solutions, and address academic, personal, and social issues that might have caused or contributed to the behavior.</p>	<p>Referral to RTI (Response to Intervention) Team: RTI teams are school based teams that utilize a multidisciplinary approach to encourage student success through prevention and intervention strategy supports. A case manager is identified for each student referral to create an individualized plan to help students overcome their academic and/or social-emotional difficulties.</p>
<p>Individual/Group Counseling: Counseling provides students with an outlet to share issues in privacy that may be negatively impacting their attendance, behavior, and/or academic success. Students discuss and formulate goals, and learn problem solving strategies which will enable them to overcome a variety of personal challenges. Counselors will conference with parents on a regular basis to discuss students’ progress.</p>	<p>Referral to Appropriate Substance Abuse Counseling Services: In the case where a student is presenting problems with substance abuse, including the use, possession, and/or distribution of illegal drugs, drug paraphernalia, and/or alcohol, referral should be made to counseling services that are either school based or an outside community based organization.</p>
<p>Referral to a Community Based Organization (CBO): Students may be referred to a community based organization for a wide range of services including after school programs, individual or group counseling, leadership development, conflict resolution, and tutoring</p>	<p>Positive Youth Development (PYD) or Community Service: With parental consent, students may be provided with PYD or community service opportunities for a sense of feeling connected to other youth in a positive way. They can gain greater appreciation of their school neighborhoods and develop skills to become positive social change agents.</p>
<p>Mentoring/Advisory Program: A mentoring program matches a mentor or advisor who may be a counselor, teacher, and/or leader with a protégé. The object of this relationship is to help the protégé in their personal, academic, and social development.</p>	<p>Re-Entry Process: Assignment of a trained school staff member to provide transition support for a student returning from a long term suspension or from a prolonged absence.</p>
<p>Referral to Counseling Services for Bias Based Bullying, Intimidation or Harassment: When student/group of students engage in bias-based bullying, intimidation, or harassment of another student(s), both victim and the student(s) who engage in this behavior should be referred to separate appropriate counseling support and education services provided by school staff or a community based agency. Neither, mediation nor conflict resolutions are, under any circumstances appropriate intervention in this case.</p>	<p>Referral to Counseling Services for Youth Relationship Abuse or Sexual Violence: When one person uses a pattern of threatened or actual physical, sexual, and/or emotional abuse to control a dating partner, the school should refer both the victim and the student who engages in this behavior to separate appropriate school or community based counseling, support, and education. Neither, mediation nor conflict resolutions are, under any circumstances appropriate intervention in this case.</p>

❖ RESTORATIVE APPROACHES

A restorative approach can be used as both a prevention and intervention measure. Restorative processes can help schools build relationships and empower community members to take responsibility for the well-being of others; prevent or deal with conflict before it escalates; address underlying factors that lead youth to engage in inappropriate behavior and build resiliency; increase the pro-social skills of those who have harmed others; and provide wrong doers with the opportunity to be accountable to those they have harmed and enable them to repair the harm to the extent possible.

When used as an intervention measure, taking a restorative approach to discipline changes the fundamental questions that are asked when a behavioral incident occurs. Instead of asking who is to blame and how those engaged in the misbehavior will be punished, a restorative approach asks four key questions:

- What happened?
- Who was harmed or affected by the behavior?
- What needs to be done to make things right?
- How can people behave differently in the future?

TYPES OF RESTORATIVE APPROACHES

Morning Meeting/Advisory Program: These groups are effective as both a prevention and intervention strategy. They may be used as a regular practice in which a group of students (or faculty or students and faculty) participates. They can also be used in response to a particular issue that affects the school. The process enables a group to build relationships and establish understanding and trust create a sense of community, learn how to make decisions together, develop agreements for the mutual good, resolve difficult issues, etc.

Collaborative Negotiation: Using the collaborative negotiation process enables an individual to talk through an issue or conflict directly with the person with whom he/she disagrees to arrive at a mutually satisfactory resolution. Training in collaborative negotiation includes learning active listening and other conflict resolution communication skills.

Mediation: An impartial, third party mediator facilitates the negotiation process between conflicting parties so they can come to a mutually satisfactory resolution. Mediation recognizes that there is validity to conflicting points of view that disputants bring to the table and helps disputants work out a solution that meets both sets of needs. Disputants must choose to use mediation and must come to the process willingly. Mediation is not used where one individual has been victimized (for example, in cases of harassment or bullying) by another.

Formal Restorative Conference: A conference is facilitated by an individual who has received specific training in bringing together individuals who have acknowledged causing harm with those who have been harmed. Regardless of the circumstances, the mental, physical health, safety, and welfare of the individual who was harmed are of paramount importance when considering this option in a school setting. Both sides may bring supporters to the circle that has also been affected by the incident. The purpose of the conference is for the harm doer and the harmed to understand each other's perspective and come to a mutual agreement which will repair the harm as much as it is able to be repaired.

Supports for Students Transitioning from Suspension: Schools are expected to provide support services to students returning from suspension to maximize their ability to meet social and academic standards within the school community. Support services may include any of the range of guidance interventions or a combination of services as best meets the needs of the individual student. This includes "distance learning" or other online learning programs.

Alternative Education Options: FRPS will place students in alternative schools such as Resiliency Preparatory Academy or other placement options currently under development, if said placement is in the best interest of the student and/or the school system to ensure a safe, orderly school environment conducive to learning and individual student learning/competency progress towards a high school diploma. This could also include home tutoring or distance learning among other options.

**In addition to the Code of Conduct, each school also has school-based rules specific to each school in their student handbooks. The Code of Conduct is subordinate to state law (MGL) and FRPS follows MGL in all disciplinary processes.*

❖ APPENDIX

Education Laws and Regulations

Chapter 71 Section 37H: Policies relative to conduct of teachers or students; student handbooks

Section 37H. The superintendent of every school district shall publish the district's policies pertaining to the conduct of teachers and students. Said policies shall prohibit the use of any tobacco products within the school buildings, the school facilities or on the school grounds or on school buses by any individual, including school personnel. Said policies shall further restrict operators of school buses and personal motor vehicles, including students, faculty, staff and visitors, from idling such vehicles on school grounds, consistent with section 16B of chapter 90 and regulations adopted pursuant thereto and by the department. The policies shall also prohibit bullying as defined in section 370 and shall include the student-related sections of the bullying prevention and intervention plan required by said section 370. Copies of these policies shall be provided to any person upon request and without cost by the principal of every school within the district.

Each school district's policies pertaining to the conduct of students shall include the following: disciplinary proceedings, including procedures assuring due process; standards and procedures for suspension and expulsion of students; procedures pertaining to discipline of students with special needs; standards and procedures to assure school building security and safety of students and school personnel; and the disciplinary measures to be taken in cases involving the possession or use of illegal substances or weapons, the use of force, vandalism, or violation of a student's civil rights. Codes of discipline, as well as procedures used to develop such codes shall be filed with the department of education for informational purposes only.

In each school building containing the grades nine to twelve, inclusive, the principal, in consultation with the school council, shall prepare and distribute to each student a student handbook setting forth the rules pertaining to the conduct of students. The student handbook shall include an age-appropriate summary of the student-related sections of the bullying prevention and intervention plan required by section 370. The school council shall review the student handbook each spring to consider changes in disciplinary policy to take effect in September of the following school year, but may consider policy changes at any time. The annual review shall cover all areas of student conduct, including but not limited to those outlined in this section.

Notwithstanding any general or special law to the contrary, all student handbooks shall contain the following provisions:

- a) Any student who is found on school premises or at school-sponsored or school-related events, including athletic games, in possession of a dangerous weapon, including, but not limited to, gun or a knife; or controlled substance as defined in chapter ninety-four C, including,

but not limited to, marijuana, cocaine, and heroin, may be subject to expulsion from the school or school district by the principal.

- c) Any student who is charged with a violation of either paragraph (a) or (b) shall be notified in writing of an opportunity for a hearing; provided, however, that the student may have representation, along with the opportunity to present evidence and witnesses at said hearing before the principal.

After said hearing, a principal may, in his discretion, decide to suspend rather than expel a student who has been determined by the principal to have violated either paragraph (a) or (b).

- d) Any student who has been expelled from a school district pursuant to these provisions shall have the right to appeal to the superintendent. The expelled student shall have ten days from the date of the expulsion in which to notify the superintendent of his appeal. The student has the right to counsel at a hearing before the superintendent. The subject matter of the appeal shall not be limited solely to a factual determination of whether the student has violated any provisions of this section.
- e) Any school district that suspends or expels a student under this section shall continue to provide educational services to the student during the period of suspension or expulsion, under section 21 of chapter 76. If the student moves to another district during the period of suspension or expulsion, the new district of residence shall either admit the student to its schools or provide educational services to the student in an education service plan, under section 21 of chapter 76.
- f) Districts shall report to the department of elementary and secondary education the specific reasons for all suspensions and expulsions, regardless of duration or type, in a manner and form established by the commissioner. The department of elementary and secondary education shall use its existing data collection tools to obtain this information from districts and shall modify those tools, as necessary, to obtain the information. On an annual basis, the Department of Elementary and Secondary Education shall make district level de-identified data and analysis, including the total number of days each student is excluded during the school year, available to the public online in a machine readable format. This report shall include district level data disaggregated by student status and categories established by the commissioner.
- g) Under the regulations promulgated by the department, for each school that suspends or expels a significant number of students for more than 10 cumulative days in a school year, the commissioner shall investigate and, as appropriate, shall recommend models that incorporate intermediary steps prior to the use of suspension or expulsion. The results of the analysis shall be publicly reported at the school district level.

❖ SPECIAL EDUCATION STUDENT DISCIPLINE

All students are expected to meet the requirements for behavior as set forth in this Code of Conduct. In addition to those due process protections afforded to all students, the Individuals with Disabilities Education Act ("IDEA") and related regulations as well as state special education law, require that additional provisions be made for students who have been found eligible for special education services or who the school district knows or has reason to know might be eligible for such services. Students who have been found to have a disability that substantially limits a major life activity, as defined under § 504 of the Rehabilitation Act are generally also entitled to increased procedural protections.

The protections are as follows:

1. Students with disabilities may be excluded from their programs for up to ten (10) school days to the extent that such sanctions would be applied to all students. Before a student with a disability can be excluded from his/her program for more than ten (10) consecutive school days in a given school year or subjected to a pattern of removal constituting a "disciplinary change of placement", building administrators, the parent(s)/guardian(s) and relevant members of the student's IEP or 504 Team will meet to determine whether the conduct for which the student is subject to discipline was caused by or directly and substantially related to the student's disability or was the direct result of a failure to implement the student's IEP or 504 Plan ("Manifestation Determination"). During days of disciplinary exclusions exceeding ten (10) school days, students on IEPs have the right to receive the services which will allow them to participate in the general education curriculum and to progress toward meeting the goals set out in the child's IEP. Under Section 504, student do not have the right to services during the period of exclusion, except for the services available to all students in accordance with M.G.L. c., 76, §21.
2. If building administrators, the parent(s)/guardian(s) and relevant members of the student's IEP or 504 Team determine that the student's conduct was not a manifestation of the student's disability, the school may discipline the student in accordance with the procedures and penalties applicable to all students but will continue to provide a free appropriate public education to those students with IEPs. The student's IEP Team will identify the services necessary to provide a free appropriate public education during the period of exclusion, review any existing behavior intervention plan and, where appropriate, conduct a functional behavioral assessment.
3. If building administrators, the parent(s)/guardian(s) and relevant members of the student's IEP or 504 Team determine that the conduct giving rise to disciplinary change in placement was a manifestation of the student's disability, the student will not be subjected to further disciplinary removal or exclusion from the student's current educational program based on that conduct (except for conduct involving weapons, drugs, or resulting in serious bodily injury to others) until the IEP or 504 Team develops, and the parent(s)/guardian(s) consent to, a new placement or unless the District obtains an order from a court or from the Bureau of Special Education Appeals (BSEA) authorizing a change in the student's placement. The student's Team shall also review, and modify as appropriate, any existing behavior intervention plan or arrange for a functional behavioral assessment.
4. CHROMEBOOK POLICY AND PROCEDURE

FRPS teachers and administrators believe that excellence in education requires a seamless integration of technology into the curriculum/instruction, and Chrome books constitute an innovative and powerful tool to increase students' access to technology and prepare them for college and the 21st Century workplace.

Chrome book Goals: a) to support the implantation of the local curriculum and common core learning standards, b) to enhance learning opportunities by focusing on the application of skills in information retrieval, searching strategies, research skills, and critical thinking, and c) to promote life-long learning.

Acceptable Usage: In the interest of consistency and proper management of Chrome books, students using Chrome books and other authorized digital learning devices at FRPS must accept the Chrome book Usage Policy. The use of FRPS technology resources is a privilege, not a right. The privilege of using the technology resources provided by FRPS is not transferable or extendable by students to people or groups outside the district and terminates when a student is no longer enrolled in FRPS. This policy is provided to make all users aware of the responsibilities associated with efficient, ethical and lawful use of technology resources. If a person violates any of the user terms and conditions outlined in this policy, privileges may be terminated, access to the school district technology resources may be denied, and the appropriate disciplinary action shall be applied. The FRPS Student Code of Conduct shall be applied to student infractions. Teachers have the prerogative of setting additional requirements for Chrome books and other digital device usage in their classrooms.

Note: Violation may result in disciplinary actions up to and including suspension/expulsion for students. When applicable, law enforcement agencies may be involved.

Parent/Guardian Responsibilities:

1. Talk to your child about values and the standards that your child should follow on the use of the internet, just as you do on other social media information sources (e.g. television, telephones, movies, and radio).
2. You may opt out of having a Chrome book. However, keep in mind that this action may prevent your child from benefiting from learning opportunities that the Chrome book offers. Should you opt out, your child will still be responsible for completing his/her Chrome book assignment, which could take him/her longer.

School Responsibilities:

1. Provide internet and email access to your child
2. Filter or block inappropriate or harmful materials transmitted via the internet
3. Provide network data storage areas. FRPS reserves the rights to review, monitor, and restrict information stored on or transmitted via FRPS-owned equipment and to investigate inappropriate use of resources.
4. Provide staff guidance to aid students in doing research and help assure student compliance of the acceptable use policy.

Students are Responsible for:

1. Using computers/devices in a responsible and ethical manner.
2. Obeying general school rules concerning behavior and communication that apply to Chrome book or related digital learning devices.
3. Using all technology resources in an appropriate manner so as to not damage school equipment. This “damage” includes, but not limited to, loss of data resulting from delays, non-deliveries or service interruptions caused by the student’s own negligence, errors, or omissions.
4. Contacting school administrator about any security problems they may encounter.
5. Turning off and securing their Chrome book after finishing with their work to protect their work and information.
6. If a student should receive an email containing inappropriate or abusive language or if the subject matter is questionable, he/she is asked to print a copy and turn it into the main office.
7. Returning their Chrome books to the Learning Commons at the end of each school year. Students, who graduate early, withdraw, are suspended or expelled, or terminate enrollment with FRPS for any other reason must return their individual school Chrome book on the date of termination.

Note: Unreturned Chrome books will be treated as unreturned book and related instructional materials to school, which means that students will be put on social probation. Students on social probation will be precluded from participating in school functions, activities, social events, including graduation. Grades, transcripts, diplomas or any other records will be withheld until the Chromebook is turned to school.

Students Activities Strictly Prohibited:

1. Illegal installation or transmission of copyrighted materials.
2. Taking any action that violates existing school policy or public law.

1. Chrome book batteries must be charged and ready for school each day.
2. Only labels or stickers approved by FRPS may be applied to the Chrome books.
3. Students will use mandatory school provided cases (or cases officially approved by the school) or face progressive discipline measures.

1. Comply with trademark and copyright laws and all license agreements. Ignorance of the law is not immunity. If you are unsure, ask a teacher or parent.
2. Plagiarism is a violation of the FRPS Code of Conduct. Give credit to all sources used, whether quoted or summarized. This includes all forms of media on the internet, such as graphics movies, music, and text.

Use or possession of hacking of software is strictly prohibited and violators will be subject to penalties in the FRPS Student/Parent Handbook. Violation of applicable state or federal law will result in criminal prosecution or disciplinary action by the district.

Parents' Guide to General Student Internet Use: The FRPS recognizes that with new technologies come new challenges to both educators and parents. Below is a series of suggestion drawn from a wide variety of professional sources that may aid you, the parent, in effectively guiding your child's use of the Chrome book.

Emphasize the concept that "Cyberspace" is NOT "Private Space"

Parents/Guardians should talk to their children about what they are doing in Cyberspace. Talk openly and honestly about online and cell phone activity. Make sure that your children fully understand that messages or pictures they send over the internet or their cell phones are not private or anonymous. Also, make sure they know that other might forward their pictures or message to people they do not know. It is essential that students grasp the potential short-term and long-term consequences of their actions on the internet and while using their cell phone or other electronic devices.

Know with whom your child is communicating electronically

- **Encourage** your child to use and store the Chrome book in an open area. The kitchen or family room is a great area for your child to work on and store the Chrome book.

- Open areas will help you monitor what your child is doing online.
- **Learn** who your children are spending time with online and on cell phones. Supervising and monitoring your child's whereabouts in cyberspace is now part of conscientious parenting today.
- **Limit** electronic communication. You can limit the time your children spend online and on the phone. Do not permit access to phones and computers at inappropriate times such as after bedtime.
- **Monitor** your child's public online profiles. Be aware of what your child is posting publicly on the internet.

❖ ACCEPTABLE USE POLICY

EXECUTIVE SUMMARY

In response to the growing use of the internet in our classrooms, the FRPS have implemented Acceptable Use Policies (AUPs) to ensure that school computers are being used in a safe and appropriate manner. This policy includes ALL users, students, staff, and the community.

At each school throughout the district, an AUP acts as a written agreement between administrators, teachers, students, and parents. It outlines the terms and conditions for internet use by defining access privileges, rules of online behavior, and the consequences for violating those rules.

Users are responsible for good behavior on school computers just as students are responsible for good behavior in class and school hallways. Communications on the network are often public in nature. The general school rules for behavior and communication apply.

The network is provided for staff and students and other users to conduct research or school business and communicate with others. Access to the network services is given to staff, students, and others who agree to act in a considerate, legal and responsible manner. Access is a privilege-not a right!

Although the district will make every effort to promote the proper and safe use of the internet, individual users are responsible for their behavior and communications over the network.

The district has installed a firewall (filter) on the network to restrict access to areas on the internet that are illegal or inappropriate for students in the school setting.

Although these precautions have been taken, accessing inappropriate material remains a possibility and parents/guardians, as well as staff members, are responsible for setting and conveying standards to our students.

It is presumed that all users will comply with the FRPS Network Access Policy and will honor the following rules:

Responsible Users May:

- Do school business and send appropriate district reports to municipal, state, and federal agencies.
- Use the internet to research educational topics and assigned classroom projects.
- Use email to communicate and send messages related to district or school business.
- Use the network to do other school business and/or classroom work.

Responsible Users May Not:

- Use the internet for any illegal purposes.
- Engage in “cyber bullying” or use impolite or abusive language.
- Violate the rules of common sense or etiquette.
- Change computer files that do not belong to the user.
- Send or receive copyrighted materials without permission.
- Share a restricted password with anyone.
- Change or tamper with network configurations.
- Place unapproved hardware or software on the network including LAN/WAN or wireless devices.

During school, teachers will guide students toward appropriate materials. The network administrators may review staff and student files and communication to maintain system integrity and insure that users are using the system responsibly. Note, these services and resources are not the same as a private home internet and email accounts, and therefore all actions including information stored, accessed, viewed, written, or actions performed are logged and accessible by the administration. These actions are also legally discoverable and could be subpoenaed by a court of law.

Therefore, the FRPS has the right to monitor, quarantine, backup, move, archive and/or delete, and access all electronic files, local or remote, on systems managed by the FRPS. Students should have no expectation of privacy; all actions including, but not limited to, information stored, accessed, viewed or written are logged and accessible by administration. All FRPS students should not have any expectation or guarantee of privacy when using the schools IT resources, whether use takes place during or outside school hours.

In accordance with the law, FRPS filters internet content to prevent access to pornography and material that is otherwise inappropriate for minors.

However, it is recognized that this and any filter alone is no guarantee that users will not be able to access internet resources, which are profane, offensive, obscene, or otherwise objectionable. Students should report accidental or inappropriate sites to a teacher or administrator for blocking. Internet usage is logged and monitored for use consistent with educational mission of the FRPS.

INTERNET AND NETWORK ACCEPTABLE USE AGREEMENT

1.0 PURPOSE

- 1.1** The FRPS provides employees and students with access to FRPS data network (hereinafter referred to as The Network), which also serves as our gateway to the internet.
- 1.2** The network has been developed for educational purposes. It is intended to assist in preparing students for a successful life in the 21st century. The network provides access to a wide range of information resources and the ability to communicate with people throughout the world. The term “educational purposes” includes use of the network for curriculum activities, and professional or career development activities related to education.
- 1.3** Additionally, the network will be used to enhance productivity through increased communication within the district and assist its employees in upgrading their skills through greater exchange of information with their peers. The network will also assist the district in communicating with parents, social service agencies, government agencies, and businesses.
- 1.4** The network may not be used for personal commercial purposes, such as, but not limited to, offering, providing, or purchasing goods and/or services for personal use.

2.0 DISTRICT RESPONSIBILITIES

- 2.1** The network manager will oversee access to the network and will establish processes for the following: individual and class accounts, authorization for installation of all software and hardware, quotas for disk usage on the system, retention and archival schedules, district virus protection process, review of filtering issues, and other necessary activities.
- 2.2** The principal/supervisor or designee will serve as the site-based coordinator for the network. The site-based coordinator in partnership with the Network Manager and the Director of Technology Integration and Management will approve building-level activities. Together they will ensure employees receive proper training in the use of the network and the requirements of this policy. In addition they will establish a system to ensure that students using The Network receive adequate supervision and network orientation. The building principal/supervisor will post the network policy in appropriate locations, and be responsible for interpreting and enforcing the district Internet/Network Acceptable Use Agreement at the school/building level.
- 2.3** When using the Internet for class activities, teachers will select material appropriate to the students and relevant to their course objectives. In order to determine the appropriateness of the material contained on, or accessed through web sites, teachers will preview required materials prior to student use. Teachers will provide guidelines and resource lists to assist their students in developing the necessary skills to ascertain the reliability of information. Teachers will also assist their students with skills such as distinguishing fact from opinion, and engaging in discussions about controversial issues, and demonstrating tolerance and respect for those who may hold divergent views.
- 2.4** FRPS will maintain a web presence and will continue to develop dynamic web pages that will present information about the district and our community.
- 2.5** With the approval of the Chief Information Officer, the Principal and the Director of Technology Integration and Management, schools and classes may establish web pages on the district website that present information about the school and/or individual class activities.
- 2.6** FRPS will continue to use its firewall (filters) and/or contracted sources to block access to inappropriate sites in accordance with the Children’s Internet Protection Act (CIPA).

3.0 ACCESS TO THE SYSTEM

3.1 The Internet/Network Acceptable Use Agreement will govern all utilization of the network. Student use of the system will also be governed by applicable sections of the Administrators Handbook, Staff Notices, and relevant student handbooks.

3.2 All district employees and students will have access to the World Wide Web through the district's networked computers.

Parents/Guardians may specifically request that their children not be provided such access by indicating so on a letter to the principal of the school in which the student is enrolled. Upon receipt of such letter, FRPS will make its best effort to restrict all Internet access. However, there can be no guarantee that such a student can be restricted at all times.

3.3 E-mail access will be provided to all staff as necessary.

3.4 A guest, such as a visiting teacher or consultant, may receive an individual account at the discretion of the Chief Information Officer if there is a specific, district-related purpose requiring such access. Use of the system by a guest must be specifically limited to this district-related purpose.

4.0 PARENTS/GUARDIAN NOTIFICATIONS AND RESPONSIBILITY

4.1 The district will publish and make available to all parents/guardians the network policies governing its use on its web site www.falliverschools.org. In addition; principals and teachers WILL require staff, students, parents and guardians to sign Internet/Network Acceptable Use Agreements before allowing network access.

4.2 FRPS Acceptable Use Agreement contains restrictions on the access of inappropriate material. There is a wide range of material available on the Internet, some of which may not be in concert with the particular values of the families of students. It is not practically possible for FRPS to monitor and enforce a wide range of social values in student use of the Internet. Further, the district recognizes that parents/guardians bear primary responsibility for transmitting their particular set of family values to their children. The district will encourage parents/guardians to specify to their children what material is and is not acceptable for their children to access through the network.

4.3 FRPS will provide students and parents with guidelines for the student's personal safety while using the internet and will utilize the resources of NetSmartz (<http://www.netsmartz.org/>) and I-Safe (<http://www.isafe.org/>) as vital components of the technology curriculum at all grade levels.

5.0 DISTRICT LIMITATION OF LIABILITY

5.1 FRPS makes no warranties of any kind, either expressed or implied, that the functions or the services provided by or through its data network will be error-free or without defect. The district will not be responsible for any damages users may suffer, including but not limited to, loss of data or interruptions of service, or personal physical, psychological, or monetary damages.

The district is not responsible for the accuracy or quality of the information obtained through or stored on the system. The district will not be responsible for unauthorized financial obligations arising through the use of the system.

6.0 DUE PROCESS

6.1 FRPS will cooperate fully with local, county, state, and federal officials in any investigation concerning or relating to any illegal activities conducted through the network.

6.2 Violations of the Internet/Network Acceptable Use Agreement will carry serious consequences and may result in the immediate suspension of the user's privileges. Further disciplinary action may be taken by the Administration of FRPS and/or City, County, State or Federal authorities. Disciplinary actions will be tailored to meet specific concerns related to the violation. These disciplinary actions may include termination, suspension, or expulsion.

6.3 The Chief Information Officer, the Network Manager or the Director of Technology Integration Management, may terminate the account privileges of a user by providing notice to the user. Guest accounts not active for more than 30 days may be removed, along with the user's files, without notice to the user.

7.0 SEARCH AND SEIZURE

- 7.1** The Network is the property of the school department and its storage systems are therefore subject to inspection by the administration at any time. System users have a limited privacy expectation in the contents of their personal files on The Network.
- 7.2** Routine maintenance and monitoring of the system may lead to discovery that the user has violated or is violating the district Internet/Network Acceptable Use Agreement, the law or the disciplinary code. The nature of the investigation will be in the context of the nature of the alleged violation.
- 7.3** An individual search will be conducted if there is suspicion that a user has violated the district Internet/Network Acceptable Use Agreement, or the law. The nature of the investigation will be in the context of the nature of the alleged violation.

8.0 INTERNET ACCEPTABLE USE AGREEMENT

- 8.1** Existing copyright law will govern the use of material accessed through the network. Because the extent of copyright protection of certain works found on the Internet is unclear, users will make a standard practice of requesting permission from the holder of the work and respect copyright law.
- 8.2** All users shall assume full liability, legal, financial, or otherwise, for their use for the network.
- 8.3** Access to the Internet provided by the network is provided for classroom activities, professional and career development in line with the educational goals of the district.
- 8.4** The Internet connection is not to be used for any non-educational purposes including, but not limited to, commercial solicitations.
- 8.5** The user of the network internet connection becomes an extension of the FRPS and is expected to abide by the rules of conduct set forth by the district. Students should reference the Student Handbook where applicable. Inappropriate behavior will not be allowed.
- 8.6** The user will not use obscene, profane, lewd, vulgar, rude, inflammatory, threatening, or disrespectful language or images.
- 8.7** The user will not engage in any form of “cyber-bullying”. This includes, but is not limited to, e-mail, text messages, cell phone calls, or web site postings.
- 8.8** The user will not engage in personal attacks, including prejudicial or discriminating attacks.
- 8.9** The user will not post information that could cause damage or disruption to the network.
- 8.10** The user will not install unauthorized hardware, software, wireless routers, or download unauthorized software from any remote location.
- 8.11** Users will not attempt to go beyond their authorized access, make deliberate attempts to disrupt system performance, destroy data (by spreading computer viruses or by any other means), or engage in other illegal activities.
- 8.12** The user will not disseminate passwords, codes, access telephone numbers, or account numbers to unauthorized persons.
- 8.13** The user will not use the network to access material that is profane or obscene (e.g., pornography), that advocates illegal acts, or that advocates violence or discrimination towards other people (e.g., hate literature).

Search and Seizure

The FRPS recognize that School Administrators are under an obligation to insure that reasonable safety, discipline and good order be maintained by and for all students at all times. It also recognizes, however, that students have certain constitutional rights. It is to balance the sometimes conflicting need of school officials to insure order and safety on the one hand, and the need to insure applicable constitutional rights of students on the other hand that this policy is written.

Search of Student Lockers and Desks

1. Lockers and desks are the property of FRPS and maintain control of all locks affixed to lockers. No other locks are permitted and such locks will be removed by the school administration.
2. Students shall not have any expectation of privacy in school lockers and desks and should be aware that school lockers and desks may be searched at any time by school officials.
3. It is prohibited to store any illegal items/substances or items/substances in violation of any school rule or Federal, State or Local law in a locker or desk.
4. Items/substances prohibited from being in lockers include but are not limited to: guns/knives/weapons (real or fake), drugs or alcohol, fireworks/explosives, fire/smoke/odor producing products, and any other evidence of a school rule or legal violation.
5. Students should be aware that, at the discretion of a school administrator, a student's locker or desk may be searched at any time and prohibited items/substances will be seized.

Search of Students and Their Belongings

1. Search of a student will only be performed, and seizure of a student's belongings will only take place, if there exists reasonable suspicion that the student has violated or is violating either the law or the rules of the school. The search will be conducted in a manner reasonably related to its objectives and will not be excessively intrusive in light of the age and sex of the student and the nature of the infraction.
Whenever a personal search is deemed necessary, the student shall be advised of the reason for the impending search prior to its implementation. Search of a student may extend to articles of clothing such as pockets; and to the removal and search of outer garments such as hats/caps/headgear, jackets, coats, sweaters, sweatshirts, or shoes; and to items such as pocketbooks, lunch bags, book bags, athletic bags, or backpacks.
2. Search of a student or his/her belongings shall be conducted, when possible, with at least two adult school personnel present, one of whom shall be the Principal or his/her designee. A female staff member shall be present when a female student is searched, and a male staff member shall be present when a male student is searched.
3. Search of a student's belongings or of a student's automobile parked on school property will only be performed, and seizure of a student's belongings will only take place, if there exists reasonable suspicion that the student has violated or is violating either the law or the rules of the school. The search will be conducted in a manner reasonably related to its objectives and will not be excessively intrusive in light of the age and sex of the student and the nature of the infraction. When reasonably possible, search of a student's belongings not in the immediate possession of the student or of a student's automobile parked on school property will be in the presence of the student(s) whose conduct is under scrutiny and in the presence of a second school official.
4. "Strip searches" of students come with it a heightened degree of expectation of privacy and require a heightened degree concern for school and student safety, therefore, no school administrator or teacher shall ever conduct a "strip search" of a student without the prior authorization of the superintendent of schools.
5. Should a student refuse to voluntarily comply with a request for a search, the student must be detained until parents, and, if necessary, police, can arrive at school to assist, as appropriate, in the investigation.
6. Should a search uncover any substances or contraband, such shall be turned over to the appropriate authorities or rightful owner, as appropriate, and suitable disciplinary action shall be taken.
7. Search of a student or his/her belongings in accordance with the above policy may take place at school or at any school sponsored event on or off school property or during the transportation to such event.

❖ RESTRAINT POLICIES

RESTRAINT

The FRPS recognizes that on occasion physical restraint is required to protect the safety of community members from assault or serious, imminent physical harm. Physical restraint may be used only as an emergency procedure of last resort and shall be prohibited in public education programs except when a student's behavior poses a threat of assault, or imminent, serious, physical harm to self or others and the student is not responsive to verbal directives or other lawful and less intrusive behavior interventions, or such interventions are deemed appropriate under the circumstances. Physical restraint shall mean direct physical contact that prevents or significantly restricts a student's freedom of movement. Physical restraint does not include: brief physical contact to promote student safety, providing physical guidance or prompting when teaching a skill, redirecting attention, providing comfort, or a physical escort.

Physical restraint shall not be used: (a) as a means of discipline or punishment; (b) when the student cannot be safely restrained because it is medically contraindicated for reasons including, but not limited to, asthma, seizures, a cardiac condition, obesity, bronchitis, communication-related disabilities, or risk of vomiting; (c) as a response to property destruction, disruption of school order, a student's refusal to comply with a public education program rule or staff directive, or verbal threats when those actions do not constitute a threat of assault, or imminent, serious, physical harm; or (d) as a standard response for any individual student. No written individual behavior plan or individualized education program (IEP) may include use of physical restraint as a standard response to any behavior.

Physical restraint is an emergency procedure of last resort. All physical restraints must be terminated as soon as the student is no longer an immediate danger to himself or others, or the student indicates that he or she cannot breathe, or if the student is observed to be in severe distress, such as having difficulty breathing, or sustained or prolonged crying or coughing.

Physical restraint in a public education program shall be limited to the use of such reasonable force as is necessary to protect a student or another member of the school community from assault or imminent, serious, physical harm.

PREVENTION OF PHYSICAL RESTRAINT POLICY I. OVERVIEW

The FRPS seeks to ensure that every student is free from the use of physical restraint that is inconsistent with the requirements of 603 C.M.R. 46.00. Physical restraint is an emergency measure of last resort. It may be administered only when necessary to protect a student and/or school community member from assault or imminent, serious physical harm. When, based on this standard, physical restraint is necessary, staff will strive to prevent or minimize any harm to the student as a result of the use of physical restraint. The district will annually review its Restraint Prevention and Behavior Support Policy and Procedures, provide it to all district staff, and make it available to parents of enrolled students.

II. DEFINITIONS

Mechanical Restraint: the use of any device or equipment to restrict a student's freedom of movement. The term does not include devices implemented by trained school personnel, or utilized by a student that have been prescribed by an appropriate medical or related services professional, and are used for the specific and approved positioning or protective purposes for which such devices were designed.

Examples of such devices include: adaptive devices or mechanical supports used to achieve proper body position, balance, or alignment to allow greater freedom of mobility than would be possible without the use of such devices or mechanical supports; vehicle safety restraints when used as intended during the transport of a

student in a moving vehicle; restraints for medical immobilization; or orthopedically prescribed devices that permit a student to participate in activities without risk of harm.

Medication Restraint: the administration of medication for the purpose of temporarily controlling behavior. Medication prescribed by a licensed physician and authorized by the parent for administration in the school setting is not medication restraint.

Physical Escort: a temporary touching or holding, without the use of force, of the hand, wrist, arm, shoulder, or back for the purpose of inducing a student who is agitated to walk to a safe location.

Physical Restraint: direct physical contact that prevents or significantly restricts a student's freedom of movement. Physical restraint does not include: brief physical contact to promote student safety, providing physical guidance or prompting when teaching a skill, redirecting attention, providing comfort, or a physical escort.

Principal: instructional leader of a public school education program or his or her designee.

Prone Restraint: a physical restraint in which a student is placed face down on the floor or another surface, and physical pressure is applied to the student's body to keep the student in the face-down position.

Seclusion: involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving. Seclusion does not include a time-out as defined below.

Time-Out: a behavioral support strategy, developed pursuant to 603 CMR 46.04(1), in which a student temporarily separates from the learning activity or the classroom, either by choice or by direction from staff, for the purpose of calming. During time-out, a student must be continuously observed by a staff member. Staff shall be with the student or immediately available to the student at all times. The space used for time-out must be clean, safe, sanitary, and appropriate for the purpose of calming. Time-out shall cease as soon as the student has calmed. DESE's *Technical Assistance Advisory SPED 2016-1*, issued on July 31, 2015, provides the following additional definitions pertaining to time-out:

Inclusionary time-out: when the student is removed from positive reinforcement or full participation in classroom activities while remaining in the classroom.

Exclusionary time-out: the separation of the student from the rest of the class either through complete visual separation or from actual physical separation.

III. PROHIBITIONS

Chemical restraint, mechanical restraint and seclusion are prohibited in all public school education programs.

IV. SPECIFIC RIGHTS

Neither 603 C.M.R. 46.00 nor this policy prohibits: (1) any teacher, employee or agent of the district from using reasonable force to protect students, others or themselves from imminent, serious, physical harm; (2) any individual from reporting to appropriate authorities a crime committed by a student or other individual; (3) law enforcement, judicial authorities or school security personnel from exercising their responsibilities, including the physical detainment of a student or person alleged to have committed a crime or posing a security risk; or (4) an individual from reporting neglect or abuse to the appropriate state agency, pursuant to M.G.L. c. 119 § 51A.

V. DESE TECHNICAL ASSISTANCE ON USE OF TIME-OUT

DESE's *Technical Assistance Advisory SPED 2016-1*, issued on July 31, 2015, explains the differences between "Inclusionary time-out" and "exclusionary time-out" as follows:

- *“Inclusionary time-out”*: when the student is removed from positive reinforcement or full participation in classroom activities while remaining in the classroom. The use of “inclusionary time-out” functions well as a behavior support strategy while allowing the student to remain fully aware of the learning activities of the classroom. “Inclusionary time-out” includes practices used by teachers as part of their classroom behavior support tools, such as “planned ignoring,” asking students to put their heads down, or placing a student in a different location within the classroom. These strategies, used to reduce external stimuli in the student’s environment while keeping the student physically present and involved in learning, have proven to be useful tools for classroom management. If the student is not “separated from the learning activity” or the classroom, the student will be in “inclusionary time-out” and the requirements that accompany the use of “exclusionary time-out,” listed below, do not apply.

A student is not “separated from the learning activity” if the student is physically present in the classroom and remains fully aware of the learning activities. “Inclusionary time-out” does not include walled off “time-out” rooms located within the classroom; use of those is considered to be “exclusionary time-out.”

- *“Exclusionary time-out”*: the separation of the student from the rest of the class either through complete visual separation or from actual physical separation.
- “Exclusionary time-out” may be used only for the purpose of calming;
- During “exclusionary time-out,” the student must be continuously observed by a staff member;
- The staff member will either be with the student or immediately available to the student at all times;
- The space used for “exclusionary time-out” must be clean, safe, sanitary and appropriate for calming;
- Unless it poses a safety risk, a staff member must be physically present with the student who is in an exclusionary time-out setting;
- If it is not safe for the staff member to be present with the student, the student may be left in the time-out setting with the door closed.

However, in order to ensure that the student is receiving appropriate support, a school counselor or other behavioral support professional must be immediately available outside of the time-out setting where the individual can continuously observe and communicate with the student as appropriate to determine when the student has calmed;

- Students must never be locked in a room;
- For students displaying self-injurious behavior, a staff member must be physically present in the same setting with the student;
- An “exclusionary time-out” must be terminated as soon as the student has calmed; and
- An “exclusionary time-out” may not extend beyond thirty (30) minutes without the approval of the Principal. A Principal may grant an extension beyond thirty (30) minutes based only on the individual student’s continuing agitation.

VI. REQUIREMENTS FOR USE OF PHYSICAL RESTRAINT

Legal Standard for Use

Physical restraint is considered an emergency procedure of last resort. This means that it may be used only when the student’s behavior poses a threat of assault or imminent, serious, physical harm to self and/or others; *and* the student is not responsive to verbal directives or other lawful and less intrusive behavior interventions, or such interventions are deemed to be inappropriate under the circumstances.

Physical restraint may never be used for punishment. Physical restraint may not be used as a response to a student’s property damage, disruption of school order, refusal to comply with rules/directions, or verbal threats, unless the above harm standard is also met.

Brief physical contact to promote safety is not considered a restraint. DESE's *Question and Answer Guide to Implementation of 603 CMR 46.00, The Regulations for the Prevention of Physical Restraint and Requirements if Used*, issued on July 31, 2015, states that "brief physical contact to promote safety refers to measures taken by school personnel consisting of physical contact with a student for a short period of time solely to prevent imminent harm to a student, for example, physically redirecting a student about to wander on to a busy road, grabbing a student who is about to fall, or breaking up a fight between students."

Physical restraint may not be used as a standard response for any student. No IEP or written behavioral plan may include physical restraint as a standard response to any behavior.

Safety

To ensure student safety, staff will review and consider a student's medical and psychological limitations, known or suspected trauma history, and/or behavior intervention plans.

Physical restraint will not be used when it is medically contraindicated for reasons including, but not limited to, communication-related disorders, asthma, seizures, cardiac condition, obesity, bronchitis, or risk of vomiting.

During a physical restraint, staff will continuously monitor the student's physical status, including skin temperature, color and respiration, and make certain that the student is able to breathe and to speak. Staff will use the safest physical restraint method available and appropriate for the situation, and will use only the amount of force necessary to protect the student or others from physical injury or harm. Whenever possible, another adult who is not a participant in the restraint will witness the administration of the restraint.

Duration

A physical restraint must be terminated as soon as the student is no longer an immediate danger to himself or others, or the student demonstrates or expresses significant physical distress (e.g., difficulty breathing, sustained or prolonged crying, sustained or prolonged coughing).

If a student demonstrates or expresses significant physical distress, staff will release the restraint and seek medical assistance immediately. For any student to be restrained for more than twenty (20) minutes, staff must obtain the Principal's approval. This approval must be based on the student's continued agitation justifying the need for continued restraint.

Follow-up

Follow-up procedures will be implemented after the release of the student from physical restraint. These will include reviewing the incident with the student to address the precipitating behavior, reviewing the incident with staff who administered the restraint to discuss whether proper restraint procedures were followed, and considering whether any follow-up is appropriate for students who witnessed the incident.

Prone and Floor Restraints

Prone restraints are prohibited, except on an individual basis and when all of the following conditions, which

require specific documentation, are met:

- Student has a documented history of repeatedly causing serious self-injuries and/or injuries to other students or staff;
- All other forms of physical restraint have failed to ensure the safety of the student and/or others;
- There are no medical contraindications, as documented by a licensed physician;
- There is psychological or behavioral justification for the use of prone restraint and no psychological or behavioral contraindications, as documented by a licensed mental health professional;

- The program has obtained consent to use prone restraint in an emergency as set out in 603 CMR 46.03(1) (b), and the use of prone restraint is approved in writing by the Principal; and
- The program has documented all of the above before using prone restraint and maintains the documentation. The only staff authorized to administer a prone restraint are staff who have received in-depth restraint training in accordance with 603 C.M.R. 46.04(3).

Floor restraints are prohibited unless the staff administering the restraint has received in-depth training in accordance with 603 C.M.R. 46.04(3), and these trained staff members determine that such method of restraint is required to provide safety for the student or others.

VII. REPORTING PHYSICAL RESTRAINT USE

All physical restraints, regardless of duration, will be reported.

Reporting within School and to Parents

The reporting process within the school and to the student's parents is as follows: The staff will immediately verbally inform the Principal, and the Principal will make reasonable efforts to verbally inform the student's parents within 24 hours of the restraint. The staff will file a detailed written report no later than the next school day, and the Principal will e-mail or mail the written report to the parents within three (3) school days of the restraint. There are no individual waivers permitted for these reporting requirements.

Report Contents

The report will include: names and job titles of those involved, including observers; date and time the restraint began and ended; the name of the administrator who was verbally informed; the name of the Principal or designee who approved extending the restraint beyond twenty (20) minutes, when such approval was obtained; what was happening before the restraint; the efforts staff used to prevent escalation of the student's behavior, including the specific de-escalation strategies that the staff used; the alternatives to restraint that staff attempted; the justification for initiating the restraint; a description of the holds used and why they were necessary; a description of the student's behavior and reaction during the restraint, and any medical care given; information regarding any further actions the school has taken or may take; and information regarding opportunities for the student's parents to discuss the restraint with the school.

Reporting to the Department of Elementary and Secondary Education

The reporting process to the Department of Elementary and Secondary Education (DESE) is as follows: The district will report to DESE all restraints that result in injury to either a student or a staff member within three (3) working days of the restraint. Additionally, the district will provide DESE with an annual report of its physical restraint use.

VIII. ADMINISTRATIVE REVIEWS OF PHYSICAL RESTRAINT USE

Two types of administrative reviews will be conducted in regards to the use of physical restraint. The Principal will conduct a Weekly Individual Student Review and a Monthly School-Wide Review.

Weekly Individual Student Review

A Weekly Individual Student Review will be conducted in regards to any student who has been restrained multiple times during the week. The Principal will convene a review team to assess the progress and needs of any such student, with the goal of reducing or eliminating future restraint. This team will review and discuss the written restraint reports, analyze the factors that led to the restraint, consider the factors that may have contributed to the escalation of the student's behavior, and develop a written action plan.

Monthly School-Wide Review

A Monthly School-Wide Review will also be conducted by the Principal. In this review, the Principal will consider patterns of restraints, number of restraints, duration of restraints and any injuries caused by restraints.

The Principal will assess whether the restraint prevention and management policy needs to be modified and/or whether there is a need for additional staff training on restraint reduction and restraint prevention strategies.

IX. TRAINING REQUIREMENTS

General Training

The Principal will ensure that all staff receives training on the district's Restraint Prevention and Behavior Support Policy and Procedures and the requirements for the use of restraint. This training will comply with the requirements of 603 C.M.R. 46.04(2).

In-Depth Training

The Principal will identify and authorize certain staff to serve as a school-wide resource to assist in ensuring the proper administration of physical restraint. These identified staff will participate in an in-depth training that complies with the requirements of 603 C.M.R. 46.04(3) and 603 C.M.R. 46.04(4).

X. SPECIFIC PROCEDURES

FRPS has developed and implemented specific procedures regarding appropriate responses to student behavior that may require immediate intervention.

Methods to prevent student violence, self-injurious behavior, and suicide (individual crisis planning, de-escalation techniques); Alternatives to physical restraint (verbal prompting, physical escort, time-out, de-escalation techniques); Description of physical restraints used in emergency situations; Restraint complaint procedure (how it is filed, how it is investigated) Methods to engage parents in discussions about restraint prevention and the use of restraint solely as an emergency measure. *Legal Authority: 603 C.M.R. § 46.00 DESE Technical Assistance Advisory SPED 2016-1, July 31, 2015*

❖ EQUAL EDUCATIONAL OPPORTUNITIES

In recognition of the diversified characteristics and needs of our students and with the keen desire to be responsive to them, the School Committee will make every effort to protect the dignity of the students as individuals. The FRPS does not discriminate against students, parents, employees, or the general public on the basis of race, color, national origin, sex, sexual orientation, gender identity, disability, religion, or age. Additionally, the FRPS does not discriminate against the individuals on the basis of homelessness in a manner consistent with the McKinney-Vento Act.

The individuals listed below have been designated to handle the inquiries regarding the district's non-discrimination policies in education-related activities, including but not limited to inquiries related to Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act, the Age Act and M.G.L. c. 76, Section 5.

Thomas Coogan, Executive Director of Human Resources

The Committee and its staff will make every effort to comply with the letter and the spirit of the Massachusetts equal educational opportunities law (known as Chapter 622 of the Acts of 1971), which prohibits discrimination in public school admissions and programs.

This will mean that every student will be given equal opportunity in school admission, admissions to courses, course content, guidance, and extracurricular and athletic activities. All implementing provisions issued by the Board of Education in compliance with applicable laws will be followed.

❖ DISCRIMINATION AND HARASSMENT/GRIEVANCE PROCEDURES

The FRPS is committed to maintaining a school environment free of discrimination and harassment based on race, color, religion, national origin, gender, sexual orientation, gender identity, age or disability.

Harassment or discrimination by administrators, teachers, certified and support personnel, students, vendors and other individuals at school or at school-sponsored events is unlawful and is strictly prohibited. The FRPS requires all employees and students to conduct themselves in an appropriate manner with respect to their fellow employees, students and all members of the school community.

Definitions

For the purposes of this procedure:

- A. Complaint:** is defined as an allegation that a student or employee has been discriminated against or harassed on the basis of race, color, national origin, age, sex, sexual orientation, gender identity, disability, or religion.
- B. Discrimination:** means discrimination or harassment on the basis of race, age, color, national origin, sex, sexual orientation, gender identity, disability or religion by which an individual is excluded from participation in, denied the benefits of, or otherwise subjected to discrimination under any program or activity of the school.
- C. Harassment:** means unwelcome conduct on the basis of race, age, color, national origin, sex, sexual orientation, gender identity, disability or religion that is sufficiently severe, persistent or pervasive to create a hostile environment for the individual at school. Harassment may include insults, name-calling, off color jokes, threats, comments, innuendoes, notes, display of pictures or symbols, gestures, or other conduct which rises to the level of a hostile environment.
- D. Sexual Harassment:** means unwelcome, sexually offensive or gender-based conduct which is sufficiently severe, persistent or pervasive to create a hostile environment for the individual at school. Additionally, under M.G.L. c.151C, § 1, the term “sexual harassment” may also include, but is not limited to, sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature when:
 - i) submission to or rejection of such advances, requests or conduct is made either explicitly or implicitly a term or condition of the provision of the benefits, privileges or placement services or as a basis for the evaluation of academic achievement; or
 - ii) such advances, requests or conduct have the purpose or effect of unreasonably interfering with an individual’s education by creating an intimidating, hostile, humiliating or sexually offensive educational environment.

When determining whether an environment is hostile, the school district examines the context, nature, frequency, and location of the sexual or gender-based incidents, as well as the identity, number and relationships of the persons involved. The school district must consider whether the alleged harassment was sufficient to have created such an environment for a reasonable person of the same age, gender, and experience as the alleged victim, and under similar circumstances.

Retaliation Prohibited

Harassment and discrimination in any form or for any reason is prohibited. This includes harassment or discrimination by administrators, certified and support personnel, students, vendors and other individuals in school or at school related events. Retaliation against any individual who has brought harassment or discrimination to the attention of school officials or who has cooperated in an investigation of a complaint under this policy is unlawful and will not be tolerated by the FRPS. Persons who engage in harassment, discrimination or retaliation may be subject to disciplinary action, including, but not limited to reprimand, suspension, termination/expulsion or other sanctions as determined by the school administration and/or School Committee, subject to applicable procedural requirements.

How to make a complaint

- A.** Any student or employee who believes that he/she has been discriminated against or harassed should report their concern promptly to the school principal or designee. If the school principal receives the report, he or she will notify the Civil Rights Coordinator of the complaint. Students or employees who are unsure whether discrimination or harassment has occurred are encouraged to discuss the situation with the school principal.
- B.** District staff is expected to report allegations of discrimination or harassment of students and fellow employees. Parents and other adults are also encouraged to report any concerns about possible discrimination or harassment of students or employees which have allegedly occurred on school grounds, at school related events, or actions which occurred outside of school but possibly create a hostile environment for a student or employee while he/she is at school.
- C.** Students and employees will not be retaliated against for making a complaint. Any retaliation by students or school staff will result in disciplinary measures, up to and including expulsion or dismissal.
- D.** Students and employees are encouraged to utilize the district's Complaint Procedure.

However, students and employees are hereby notified that they also have the right to report complaints to:

- B.** After notifying the appropriate Civil Rights Coordinator, the school principal or designee may pursue an informal resolution of the complaint with the agreement of the parties involved. Informal resolution is optional, and the complainant may elect to proceed according to the formal resolution procedure at any time prior to the completion of the informal resolution.
- C.** Under the formal resolution procedure, the complaint will be investigated by the school principal or other individual designated by the school principal or Civil Rights Coordinator. Any complaint about an employee who holds a supervisory position shall be investigated by a person who is not subject to that supervisor's authority.

Any Complaint about the Superintendent should be submitted to the School Committee Chair, who will consult with legal counsel concerning handling the investigation of the complaint.

- 1) The Complainant shall have the opportunity to present witnesses and other relevant evidence to the investigator.
- 2) The person who is the subject of the Complaint will be provided with an opportunity to be heard as part of the investigation including the opportunity to provide relevant information and identify witnesses for the investigator's consideration.
- 3) The privacy rights of all parties to the Complaint shall be maintained in accordance with applicable state and federal laws.
- 4) The investigator will keep a written record of the investigation process.

- 5) The investigator may take interim remedial measures to reduce the risk of further discrimination or harassment while the investigation is pending.
- 6) The investigation will be completed within fifteen (15) school days of the date of receipt of the complaint.
- 7) The notification of the outcome to the complainant and the subject of the complaint shall be completed within ten (10) school days after the investigation is completed.
- 8) The investigator may extend the investigation period beyond fifteen (15) school days because of extenuating circumstances, including but not limited to availability and cooperation of witnesses, complexity of the investigation, school vacation periods, and the involvement of law enforcement and other outside agency investigations. If the investigator extends the investigation, he or she will notify the complainant of the extension.
- 9) If a complaint or report of discrimination or harassment is received after June 1 of a given school year, the investigator will attempt to complete the investigation by the end of the school year. In the event that the investigation extends beyond the last day of school, the district will make reasonable efforts to complete the investigation within the above-referenced time frame, but may extend the investigation period to account for the availability of witnesses during the summer vacation period.
If the investigator extends the investigation, he or she will notify the complainant of the extension and make reasonable efforts to interview the witnesses during the summer vacation period.
- 10) Nothing in this procedure will preclude the investigator, in his or her discretion, from completing the investigation sooner than the fifteen (15) school days described above.

D. If the investigator determines that discrimination or harassment has occurred, he/she shall take steps to eliminate the discriminatory or harassing environment, which may include but is not limited to:

1. Determining what disciplinary action should be taken against the person(s) who engaged in discrimination or harassment, if any;
2. Determining what steps are necessary to prevent recurrence of any discriminatory behavior, including but not limited to harassment, and to correct its discriminatory effects if appropriate; and
3. Informing the Complainant and the person(s) who was the subject of the Complaint of the results of the investigation (in accordance with applicable state and federal privacy laws) in accordance with the above timelines, unless the investigation is extended under the provision described above.

E. If the Complainant or the student's parents/legal guardians are dissatisfied with the results of the investigation, an appeal may be made to the Superintendent or designee within seven (7) calendars days after receiving notice of the outcome of the investigation. PROCEDURES FOR DEALING WITH SEXUAL HARASSMENT (STUDENT-TO-STUDENT):

1. Each school will designate one or more persons to be the mediator(s) for all such complaints. The identities of these individuals should be disseminated to all students. These mediators will be principals, vice principals, counselors or others who have received training in this area.
2. All students' complaints regarding sexual harassment should be referred to an appropriate mediator who will then inform the building principal before proceeding. The student making such a complaint has the option of including any other person in addition to the mediator at his/her discretion.

INFORMAL RESOLUTION: On the first complaint the mediator will assist the victim in communicating to the harasser, in writing or verbally, a description of the harassing behaviors, how the behavior made, the victim feel, noting any consequences to school performance, and a request to stop the harassment.

The mediator will be present when such communication is made and should record the date, time and substance of said communication for later reference.

In cases where alleged harassment is of a verbal nature and clearly not suggestive or criminal activity or sexual abuse, the principal or his/her designee will call in the alleged harasser, communicate the complaint, and seek an informal resolution. The date, time, and substance of this meeting will be recorded.

If the victim chooses, the communication to the harasser may be made by the mediator alone. Care should be taken not to place the total onus for this communication on the victim. In either instance the mediator must inform the alleged harasser of the disciplinary consequences should the harassment not cease or if any retaliation follows the communication.

When an informal resolution does not resolve the complaint, the principal will notify the superintendent of schools who will make a decision regarding additional action to be taken.

NOTE: When sexual harassment is more than verbal, involving serious sexual behavior, an informal resolution is not desirable. In such cases, after consultation with the principal, a referral should be made for a formal investigation.

FORMAL INVESTIGATION: According to prior experience, in most cases an informal resolution will resolve harassment. However, when the victim brings a second complaint, a more formal investigation will be made by the principal or his/her designee (vice-principal) to determine if disciplinary action is now warranted. This investigation, in which witnesses and additional evidence is gathered, should be conducted while maintaining confidentiality and without violating the due process rights of the accused.

If the principal or designee finds sufficient cause, the harasser may be suspended from school as outlined in the School Discipline Code. The appropriate suspension forms should be completed and forwarded to the student/parent, with a copy to the Student Services office. In addition, a separate file of all records related to the resolution of a sexual harassment dispute should be kept in the principal's office.

NOTE: If at any time during this process a mediator or school official is made aware of behavior which may constitute a criminal offense, he/she is obliged by law to report such actions to the legal authorities as described in the discipline code.

In addition, any behaviors observed by any school official which detract from the good order of the school or inhibit the educational process may lead directly to disciplinary action as already outlined in the discipline code.

Procedures for Dealing with Sexual Harassment (Adult-to-Student, Adult-to-Adult, Student-to-Adult)

All complaints of sexual harassment involving adults must be reported to the building principal (or in locations where there is not a principal, the immediate supervisor). For the location of individual school buildings, and the work telephone numbers of individual principals and/or supervisors, persons making a complaint may contact the Office of the Superintendent of Schools, 417 Rock Street, Fall River, MA - telephone number: 675-8420.

FORMAL ACTION:

1. When a sexual harassment complaint suggests a criminal offense or sexual abuse, a report must be filed with the appropriate legal authorities for an independent investigation. In cases involving adult to student sexual behavior, the principal must file a 51A with the Department of Social Services.
2. After such a report has been filed, the principal will immediately notify the superintendent of schools who will make a decision regarding any interim action while the independent investigation is taking place.
3. Upon completion of the independent investigation, the superintendent will take any additional action deemed necessary based upon the ultimate findings of such investigation. Such action could include (but not be limited to) an oral or written reprimand, a suspension, or in severe cases, termination.

MANDATORY REPORTING:

According to the Massachusetts General Law: Chapter 119-Section 51-A, school department employees are mandated to report all cases of physical or sexual abuse of any child under the age of eighteen (18) to the Department of Social Services should an investigation reveal reasonable cause to so do.

❖ DRESS CODE (FOR SCHOOLS WITHOUT SPIRIT WEAR)

INTRODUCTION

FRPS recognizes that, within certain limits, each student's mode of dress and grooming is a manifestation of personal style and individual preference. It therefore will not interfere with the ability of students and their parents to make decision regarding their appearance except when their choices affect the educational program within the schools or the health and safety of others. For students, school is the time when they acquire skills that will eventually lead to their becoming productive citizens. As such, school is the first "job". It is important that students come to school dressed comfortably so as to be able to fully participate in all lessons and activities.

It is equally important that students dress in a respectful fashion and come to school ready to learn. Proper attire can influence behavior in a positive way and set the tone for order and positive school experience. Conservative attire helps students focus on learning because their attention is not drawn away from the work at hand. Clothing should be sturdy and comfortable and be able to accommodate group work and other cooperative learning activities which require the use of many different areas in the classroom.

DRESS CODE

Any manner of dress that presents a health or safety hazard to a student or others is potentially damaging to school property, or disruptive to the educational process is prohibited.

Students in violation of the above will receive the following sequential consequences:

1. Principal/Student/Parent will attempt an informal resolution to the situation
2. Student may, at the principal's/vice principal's discretion, be sent home to change into more appropriate clothing (with parent notification).
3. A parent conference may be called to discuss the issue.
4. If the problem persists, appropriate disciplinary action will be taken as indicated in the Discipline Code.

The following guideline may be useful in helping parents to determine school attire which may be disruptive to the educational process. Students who wear any of the following may be disruptive to the school environment, and therefore may be found in violation of this dress code:

1. Outdoor clothing during the usual course of the school day except when coming or going out of the building.
2. Clothing which advertises or alludes to drugs, alcohol or tobacco products.
3. Clothing depicting any words or symbols that could in any way be construed as sensual, sexual, or obscene.
4. Clothing or other attire which may be perceived a gang related symbol (for example, hats, bandanas, beads.)
5. Any accessories, devices, objects which may cause or inflict bodily harm. (Example: jewelry that could be used as a weapon, such as chains, or piercing of body parts which may pose a safety hazard).
6. Apparel or other modes of appearance (such as tattoos) which promote hatred regarding another person's race, color, sex, national origin, religion, or sexual orientation
7. Footwear which poses hazard to the student or school such as jelly shoes, flip flops, spikes etc.

Note: According to the Educational Reform Act, individual School Councils have the authority to recommend to the School Committee changes in their codes of student conduct. As such these Councils may decide to augment these guidelines according to the individual needs of their school.

❖ SPIRIT WEAR POLICY

The FRPS recognizes that certain schools have elected to participate in the program known as Spirit Wear. In an effort to promote school pride and spirit, and to encourage a sense of belonging to the school community, schools may opt to participate in the spirit wear program.

The School Committee asks that the school create a representative body including stakeholders from the student, staff and parent elements of the school community. If the group feels that there is sufficient support for the concept, schools may petition the School Committee for authorization to participate in the program.

The School Committee does not wish to create overly restrictive guidelines, and encourages provisions that would assist families that may be determined to be worthy of some form of assistance in obtaining uniforms. Schools should also create a provision for handling the issues of protecting the school from discriminating against the rights of students and parents.

The School Committee also wishes to maintain a level of equity between schools that choose to participate in the program. For that reason, schools will not include provisions that vary significantly from the following general guidelines:

- A choice of shirts should be consistent with other participating school programs, with a minimum of two color options and allowing styles that are available at other schools in the spirit wear program.
- A choice of pants should be consistent with other spirit wear programs, with a minimum of two colors options, and allowing styles that are in place at other schools in the program.
- In creating suggested guidelines for shoes, boots, and sneakers, the goal should be to ensure student safety, and to avoid possible issues or distractions.
- Minimal restrictions on color choices should be the guideline, with the goal being to avoid any cost hardship to families, while minimizing possible distractions.
- The guidelines for accessories should simply be to ensure personal safety for all students and avoid any excessive features that would be a distraction to the educational process, as outlined under the district Dress Code policy (File: JICA).

Any appeal of the enforcement or changes of this process will be directed to the office of the Superintendent.

❖ SCHOOL BUILDING SAFETY/SECURITY POLICY

The following procedures are to be followed in all school buildings:

- **All school entrances are to be locked at all times.** *Doors may be opened during the day for education purposes (i.e. recess, physical education classes, deliveries, etc.), as long as there is adult supervision or monitoring during this time period.
- In each school, entrance(s) will be monitored. At the main entrance(s) in the middle schools and the high school, video surveillance cameras will be utilized for this purpose.
In all schools, visitors will be required to ring buzzer to gain entrance. **
- Appropriate signs must be placed at the entrance of each school to notify visitors and non-school personnel that they must report to the office prior to visiting any classrooms in the building. No one is allowed to wander through the school at any time without an appropriate staff member.
- No one is allowed in a school building to pick up a child before school is dismissed unless there is an emergency. Parents are requested to provide the building principal with a 24- hour notice whenever an early dismissal will be needed.
- Any suspicious individuals or activities that are observed in or around the school should be reported to the police department immediately, followed by notification to the Office of the Superintendent.
- Any activity of a suspicious nature should be immediately investigated by the principal or other appropriate staff member.

❖ ATHLETICS AND CLUBS

Students in good standing at RPS are not only capable of participating in the sport's program and extra-curricular activities at B.M.C. Durfee High School, and Middle School athletics programs but are also encouraged. Please see the student handbook eligibility and requirements.

Note: In some circumstances, special permission may need to be granted by the B.M.C. Durfee principal or his/her designee.

AN ACT OF PHOBITING THE PRACTICE OF HAZING

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

Chapter 269 of the General Laws is hereby adding the following three sections: Section 17: "Whoever is a principal organizer or participant in the crime of hazing as defined herein shall be punished by a fine of not more than one thousand dollars or by imprisonment in a house of correction for not more than one hundred days, or by both such fine and imprisonment."

The term “hazing” as used in this section and in sections eighteen and nineteen, shall mean any conduct or method of initiation into any student organization, whether on public or private, which willfully or recklessly endangers the physical or mental health of any student or other person.

Such conduct shall include whipping, beating, branding, forced calisthenics, exposure to the weather, forced consumption of any food, liquor, beverage, drug or other substance, or any other brutal treatment or forced physical activity which is likely to adversely affect the physical health or safety of any such student or other person, or which subjects such student or other person to extreme mental stress, including extended deprivation of sleep or rest or extended isolation.

Section 18: “Whoever knows that another person is the victim of hazing as defined in section seventeen and is at the scene of such crime shall, to the extent that such person can do so without danger or peril to himself or others, report such crime to an appropriate law enforcement official as soon as reasonably practicable. Whoever fails to report such crime shall be punished by a fine of not more than five hundred dollars.”

Section 19: “Each secondary school and each public and private school or college shall issue to every group or organization under its authority opening on or in conjunction with its campus or school, and to every member, plebe, pledge, or applicant for membership in such group or organization, a copy of this section and sections seventeen and eighteen. Each secondary school and each public or private school or college shall file, at least annually, a report with the regents of higher education and in the case of secondary schools, the board of education, certifying that such institution has complied with the provisions of this section and also certifying that said school has adopted a disciplinary policy with regards to the organizers and participants of hazing.

The board of regents and in the case of secondary schools, the board of education shall promulgate regulations governing the content and frequency of such reports, and shall forthwith report to the attorney general any such institution which fails to make such report.

❖ SERVICE ANIMAL POLICY

FRPS is committed to providing a high quality educational program to all students in a safe and healthy environment.

School principals, in consultation with the Health Services Providers in each building, shall permit service animals (dogs or miniature horses only) in a manner consistent with Title II of the American with Disabilities Act.

❖ MULTI-LINGUAL LEARNERS

The district shall identify students whose dominant language may not be English through home language surveys that identify a primary home language is other than English (PHLOTE), observations, intake assessments, and recommendations of parents, teachers and other persons. Identified students shall be assessed annually to determine their level of proficiency in the English language.

The district shall certify to the Massachusetts Dept. of Elementary and Secondary Education each year those students whose dominant language is not English, including specification of the number of non-English languages identified as dominant languages and the number and percent of students who speak each non-English language as their dominant language.

The district shall provide additional information as required by the Massachusetts Department of Elementary and Secondary Education (DESE) to comply with the 2015 federal law Every Student Succeeds Act (ESSA), the 2017 LOOK Act of Massachusetts and the Massachusetts DESE December, 2018 guidance documents related to English learners.

Legal REFS.: OMD #1810-0576 (language instruction for English Language Learners and Immigrant students contained in Every Student Succeeds Act (ESSA) 42 U.S.C. 2000d (Title VI of the Civil Rights Act of 1964) 603CMR 14.00

❖ **TEMPORARY HOME OR HOSPITAL TUTORING**

A student who, due to documented medical reasons, is confined to a home or a hospital for no fewer than fourteen (14) school days during the school year is entitled to receive home/hospital educational services under 603 CMD 28.03(3) (c).

Such services shall be provided with sufficient frequency to allow student to continue his/her educational program, as long as such services do not interfere with the medical needs of student.

To qualify for the program the student needs a written statement from a medical doctor requesting the home bound instruction, stating the reasons why, and estimating the time the student will be out of school.

This statement needs to be sent to the Director of Special Education.

Home or Hospital Tutoring is temporary in nature and is offered in basic elementary subjects and in secondary subjects who do not require laboratories and special equipment, subject in all cases to the availability of qualified teachers. Certified teachers are assigned to homebound instruction by the Assistant Superintendent of Special Education with the approval of the Superintendent.

❖ **HOME SCHOOL**

The Massachusetts General Law requires the School Committee to determine that a Home Schooling program meet with the minimum standards established for public schools in the Commonwealth prior to approving such a program.

Families who wish to home school their children must first submit the “Notice of Intent to Pursue a Program of Home Education” application found on the FRPS website. Notice of Intent applications, for both new and continuing proposals, should be sent, prior to beginning the Home Education Program, to:

*Assistant Superintendent/Chief Academic Officer
417 Rock St.
Fall River, MA 02720*

Any questions on either the Notice of Intent or the Home Education process may be directed to Assistant Superintendent at 508-675-8420 ext. 53811.

Step 2: Upon receipt of the Notice of Intent, Assistant Superintendent will review the proposed home schooling plan.

Step3: The parent/guardian will then be notified as to whether the plan is approved or denied.

If the plan is approved, an approval notice will be signed by the Assistant Superintendent and Principal, and then sent to the parent/guardian. If the plan is denied, the parent/guardian will be provided with specific reasons for the denial so that the parent/guardian may revise and resubmit the plan.

Step 4: If the parent/guardian elects to proceed with implementing an approved Home Education plan, the parent/guardian must notify Assistant Superintendent of this in writing, either by signing and returning the approval notice, or by otherwise notifying Assistant Superintendent in writing of their decision.

If you plan to continue homeschooling during the next school year, you will need to file a “Notice of Intent to Pursue a Program of Home Education” along with the results of an annual assessment. Please use the printable version Notice of Intent to Pursue a Program of Home Education (located on the FRPS website) application form for children who were homeschooled in Fall River during the past academic school year. Notice of Intent applications, for both new and continuing proposals, should be sent, prior to beginning the Home Education Program to the address above.

A student being educated in a home-based program within the district may have access to public school activities of either a curricular or extracurricular nature upon approval of the Superintendent.

❖ **SPECIAL INSTRUCTION PROGRAMS AND ACCOMMODATIONS** (PROGRAMS FOR STUDENTS WITH DISABILITIES)

Under the Individuals with Disabilities Education Act (“IDEA”) and M.G.L. c. 71B, some students with disabilities may be eligible for services if they require specialized instruction and/or supportive services to help them make effective progress in school. These services can include, but are not limited to, speech therapy, physical therapy, occupational therapy, specialized instruction, or placement in a special classroom.

Students may be referred to the Special Education Department for an evaluation of eligibility for special education services. Within five (5) school days of such a referral, a consent form authorizing an evaluation of the student will be forwarded to the parent(s). Within forty-five (45) school days of receipt of the parent(s)’ consent, an evaluation will be conducted and a Team meeting will be held to determine if the student is eligible for special education services. If the student is found eligible for special education services, the Team will develop an Individualized Education Program (IEP) identifying the necessary services.

Section 504 of the Rehabilitation Act of 1973 (“Section 504”) is a federal law designed to protect the rights of individuals with disabilities in programs and activities that receive federal financial assistance from the U.S. Department of Education.

Section 504 provides: “No otherwise qualified individual with a disability in the United States shall, solely by reason of her or his disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance, Title II of the Americans with Disabilities Act of 1990 (Title II) is a federal law that applies to public entities, including the conforming amendment to Section 504 that affects the meaning of a disability under Section 504.

The Section 504 regulations require a school district to provide a “free appropriate public education” (FAPE) to each qualified student with a disability who is in the school district’s jurisdiction, regardless of the nature or severity of the disability. Under Section 504, a FAPE consists of the provision of regular or special education and related aids and services designed to meet the student’s individual educational needs as adequately as the needs of nondisabled students are met. Compliance with the IDEA is one means of complying with Section 504.

Additionally, FRPS provides nonacademic and extracurricular services and activities in such a manner as is necessary to afford students with disabilities an equal opportunity for participation.

Also generally permitted to establish and utilize skill-based eligibility criteria for participation in extracurricular programs and activities (e.g., school-sponsored athletics) so long as the criteria are rationally related to the purposes and goals of the specific program or activity.

❖ HEALTH SERVICES PREK-12

All students will be in compliance with Massachusetts General Laws and the Massachusetts Department of Public Health (MDPH) school immunization requirements prior to school entry. An up-to-date health record must be on file with the nurse containing a physician’s certified immunization record, physical examination, and a completed tuberculin questionnaire or, if needed tuberculin test with results, unless the student provides adequate documentation that they fall within one of the limited exemptions provided by law.

Physical exams are required within one (1) year prior to entrance to school or within 30 days after school entry and at intervals of 3-4 years. A student transferring from another school system shall be examined as an entering student.

Starting in the 2020-2021 school year, all students entering grades 7 and 11 will need a meningococcal conjugate vaccine, MenACWY (brand names Menveo or Menactra) for school entry.

- **Grade 7 entry:** 1 dose of MenACWY for all students.
- **Grade 11 entry:** 1 booster dose of MenACWY received on or after 16 years of age (1 or more doses of MenACWY are acceptable as long as 1 dose was received on or after 16 years of age.)

Therefore, it is recommended to schedule an appointment for a physical exam prior to the start of 7th and 11th grade.

Health screenings: will be performed during the school year based on Stat mandated requirements. Parents will be notified if medical follow-up with their child’s primary care provider is needed.

The Student Health Office is staffed by a full-time registered nurse that provides assistance to those who are ill or require emergency care. All students with a fever above 100 degrees will be sent home. Students with respiratory symptoms, vomiting or diarrhea usually require that a student be dismissed. Also, there are additional symptoms that may need further evaluation by a student Primary Care Provider. The school nurse will assess student symptoms and make a determination to dismiss the students who are possibly contagious or are too ill to be in school. Please keep your child home if they are sick and contact the school nurse if your child is diagnosed with a communicable disease.

The Health Services Department encourages that **medication** be administered to your child before or after school, if possible. When any medication is needed during school hours, including over-the-counter medications such as Tylenol or Ibuprofen, there must be a completed physician’s order and completed parental permission form for each medication. Physician order forms and parent consent forms must be renewed at the beginning of each school year. Medication must be delivered to the nurse, by an adult, in a sealed pharmacy bag with the original pharmacy label container.

Please ask your pharmacy to provide separate bottles for school and home. Medications are not accepted in such things as plastic bags or unmarked container. Contact your school nurse for the proper forms that must accompany all medications.

Importance of Recess:

Recess is a vital component in educating the whole child and has been a common practice in FRPS at the elementary level.

It is also important and encouraged for students in the middle and secondary levels to get outside for both structured and unstructured learning in addition to their regular physical education classes.

The health and well-being of our students is our top priority, and recess provides opportunities for physical activities which help students stay alert and attentive in class, as well as providing other educational and social-emotional benefits. The district strongly encourages schools which house the elementary grades to provide students with daily supervised recess, preferably outdoors. When outdoor recess is not an option, indoor activity breaks are strongly encouraged.

Extended periods of inactivity (two or more hours) should be discouraged or, when necessary, interspersed with some sort of kinesthetic activity. Recess is meant to complement rather than be a substitute for physical education classes.

As our wellness policy states: “recess shall not be withheld from students for classroom misbehavior or for such remedial work as interventions, tutoring, or academic make-up work, except under extreme circumstances”
The FRPS values recess and believe that:

- Current brain research supports the importance of recess
- Recess improves student focus and student behavior while reducing stress
- Physical activity improves academic performance
- Structured and unstructured play supports social-emotional learning*

*A combination of structured activities such as “Playworks” coupled with unstructured options for play has been successful in many of our schools.

F. Wellness and Staff

- Positive nutritional and physical environments shall be promoted.
- Wellness opportunities shall be provided for all staff.
- Staff shall serve as positive role models for students.

1. Bus drivers and monitors will utilize behavior management strategies taught in the training sessions provided prior to the start of the school year.
2. Verbal warnings and redirection, or preferred seating assignments will be given to students either by the bus company or principal.
3. After verbal warning and redirection, if the behavior continues, the incident and intervention will be reported in written form to the school principal. Principal will report the incident in writing to the parent concerned, with a copy to the Office of Student Transportation.
4. After two documented incidents on completed written forms, parents will be contacted and requested to attend a meeting with the principal, a representative from the bus company, and the Office of Transportation to review bus regulations and procedures if deemed necessary.
5. After three incidents, three completed written forms, student will receive appropriate consequences or discipline from the school.
6. If the same bus expectations continue to be violated, the principal will suspend the student's transportation privileges with immediate written notice to the parent and the Office of Student Transportation.

LOADING AND UNLOADING AT THE BUS STOP

1. Riders are required to be present outside the designated pickup location at least 5 minutes before the scheduled time. While bus drivers will make an effort to wait for up to 3 minutes, this should not be expected as a regular occurrence.
2. Riders will enter/exit bus only after monitor steps off the bus to monitor boarding and ensure safety.
3. Orderly behavior, respect for private property and adherence to safety guidelines by all riders will be required.
4. Riders will enter or leave the bus at their regular scheduled stops only.
5. Instructions of the driver/monitor must be followed by riders when entering or leaving the bus. Bus driver and/or monitor have the right to assign seating.

REQUIRED CONDUCT ABOARD THE BUS

1. Riders must remain in seats with seat belt (if available) fastened at all times.
2. Appropriate language and volume are expected.
3. Smoking is prohibited.
4. Riders are required to respect the personal space of other riders in order to ensure safety.
5. Riders are required to conduct themselves in a manner that ensures the safety of all passengers.
6. Consumption of food and drink are prohibited.

SCHOOLBUS SAFETY PROGRAM

The safety and welfare of student riders will be the first consideration in all matters pertaining to transportation. Safety precautions will include the following:

1. Children will be instructed as to the proper procedure for boarding and exiting for a school bus and in proper and safe conduct while aboard.
2. Emergency evacuation drills will be conducted at least twice a year to acquaint student riders with procedures in emergency situations.
3. All vehicles used to transport children will be inspected periodically for conformance with state and federal safety requirements.

DROP OFF PROCEDURE FOR BUSED STUDENTS

1. Students in grades PreK, K, 1st & 2nd must be released to an adult at the bus stop in an "adult to adult" acceptable for release with the school/transportation department.

When a student leaves a school on the bus, it is the responsibility of the bus driver/monitor to make certain that each student requiring an “adult to adult” exchange is met by an adult who is responsible for the child. Children in 3rd, 4th and 5th grades may walk from the bus stop. This does not apply to Special Education students who receive door-to-door transportation.

2. During the drop off at a stop, if a child requiring an adult to adult exchange is not met by an adult, the bus driver will keep the child on the bus, and contact his respective dispatcher, who will contact the school to inform them of the return of the student. They will attempt to make contact with the family of the child, and notify Transportation Department.
3. The principal/designee will keep the child in the school until such time as contact can be made with the family or emergency contact.
4. The parent/guardian will be required to come to the school to pick up the child.*
5. In the event of an emergency dismissal, such as a snow emergency, principals must not leave the building until all children (not only bus children) have been met by an appropriate adult.
6. If an appropriate adult cannot be contacted after a reasonable period of time, the school should call the Fall River Police Department and the Office of Student Transportation should also be notified.
7. Parents whose children are returned to school on the bus will receive information on the progressive practices implemented if their child is returned multiple times. These practices may include losing bus privileges and reporting to the Department of Children and Families.

** Note: If a parent of student is unable to pick up his/her child, alternative transportation may be necessary. In such an event, the principal should call the Coordinator of Transportation to make other arrangements.*

❖ PARENT PARTICIPATION POLICY

The Fall River School Committee recognizes the necessity and value of parent involvement to support student success and academic achievement. In order to assure collaborative partnerships among schools, parents and the community, the Fall River School Committee, working through the administration is committed to:

- Involving parents as partners in school governance, including shared decision-making.
- Establishing effective two- way communications with all parents.
- Respecting the diversity and differing needs of families.
- Developing strategies and programmatic structures at schools to empower parents to participate actively in their child’s education involvement from preschool through grade twelve.
- Utilizing schools to connect students and families with community resources that provide educational enrichment and support. *

THE IMPORTANCE OF PARENT INVOLVEMENT

As stated above, FRPS believes that parents’ participation and involvement in our schools is of utmost importance.

Research continues to suggest that student achievement is directly related to such involvement. Moreover, FRPS Improvement Plan seeks to foster family and school partnership so that parents are actively involved in their child’s learning.

The cornerstone of successful involvement is the quality of communication between teachers, students, administrators and parents. Through effective communication, any concerns can be addressed in a timely manner.

Students always benefit when parents and staff work together, in a spirit of cooperation, to solve problems.

Staff is expected to receive parental concerns with courtesy and respect, while parents are asked to exercise patience with our efforts. With this in mind, the following procedure for addressing parental concerns is hereby promulgated.

BEING PROACTIVE

Parents are encouraged to avail themselves of any opportunities offered by the school to meet with teachers to discuss their child's educational progress. Parent teacher conferences are held in all schools for this purpose. In addition, being active in Parent Teacher Organizations or School Parent Councils may also enhance one's understanding of the educational process and provide an important outlet for participation in their child's education.

ADDRESSING PARENTAL CONCERNS

Contacts with those who work directly with a student should always be the first course of action should concerns arise. The following sequence of communication is strongly urged:

1. Parent speaks directly to the staff member to clarify a situation of concern. (Parents must see the building principal, vice principal or department head to arrange a mutually convenient time for meeting with a staff member.)
2. When this is not possible, the parent may contact the building principal, vice principal, or a person designated by the principal to receive complaints.
3. Where applicable, the principal may arrange a meeting of all relevant parties to resolve any outstanding issues.

If the first three steps have not satisfactorily resolved the problem, the parent may wish to contact the Office of the Superintendent. These initial steps must have been taken **BEFORE** the Superintendent's office becomes involved. The Office of the Superintendent will refer parents back to the Principal, if these initial steps have not been taken.

The Fall River School Committee recognizes the necessity and value of parent involvement to support student success and academic achievement. In order to assure collaborative partnerships among schools, parents and the community, the Fall River School Committee, working through the administration is committed to:

4. If a problem persists, after the initial steps have been taken, the parent may contact the Office of the Superintendent of Schools.
5. The Superintendent of Schools may designate a member of his Central Administrative Team to investigate the parental concern, attempt a resolution and report back to the Superintendent.
6. If the problem remains, the parent may wish to contact a member of the Fall River School Committee.
7. A School Committee Member will **NOT** attempt to directly resolve a parent's concerns, but will rather refer the parent back to the Superintendent or his designee, for response. (The School Committee person should **NOT** be the first person contacted. If this process is bypassed, the School Committee person will refer the parent back to the Building Principal or Superintendent, as described in this procedure.)
8. When a parent concern raises a question about school policy, the School Committee person, after consultation with the Superintendent, may wish to raise such questions within the context of a regular Committee or Sub Committee meeting.

FIELD TRIP PARTICIPATION

Most field trips are to locations that are open to the general public. FRPS encourages parent participation in their child's education. Parents may wish to participate in the field trip, either as a chaperone (if needed by the school), or on a volunteer basis by traveling to the location. Parents wishing to attend a field trip (as a non-chaperone) are responsible for their own transportation and admission costs, and are reminded that they must comply with the district policy and applicable laws on CORI clearance.

Depending on the location, some events or facilities may have limited seating or attendance capacity. Parents should inform the school of their intention to attend, and parents are asked to cooperate with school chaperones and avoid interfering in with the planned or scheduled activities.

❖ PARENTAL NOTIFICATION RELATIVE TO SEX EDUCATION

Parental Notification Relative to Sex Education Committee has adopted this policy on the rights of parents and guardians of our students in relation to curriculum that primarily involves human sexual education or human sexuality issues.

At the beginning of each semester, all parents and guardians of students in FRPS will be notified in writing of the courses and curriculum we offer that primarily involve human sexual education or human sexuality issues. The Superintendent or designee will determine the administrator responsible for sending out the notice to parents.

Parents/guardians of students who enroll their children after the start of the school year will be given written notice at the time of enrollment. If the planned curriculum is changed during the school year, parents and guardians will be notified of the fact in a timely manner, in the fastest manner that is practicable.

Each such notice to parents/guardians will include a brief description of the curriculum covered by this policy and will inform parents/guardians that they may:

- 1) Exempt their child from any portion of the curriculum that primarily involves sexual education or human sexuality issues, without penalty to the student, by sending a letter to the school Principal requesting an exemption. Any student who is exempted by request of the parent/guardian under this policy may be given an alternative assignment.
- 2.) Elementary students in grade five students will be required to have a parent/guardian signed permission form to be able to participate in the puberty lessons taught in 5th Grade Health Classes.
- 3.) Inspect and review program instruction materials for these curricula, which will be made reasonably accessible to parents/guardians and others to the extent practicable. Parents or guardians may arrange to review these materials through a request made to the principal of the school.

A parent/guardian who is dissatisfied with a decision of the Principal concerning notice, access to instructional materials, or exemption for the student under this policy may send a written request to the Superintendent for review of the issue.

The Superintendent or designee will review the issue and give the parent/guardian a timely written decision, preferably within two weeks of the request.

A copy of this policy will be included in all student handbooks at the middle and high school level. The Superintendent of Schools will distribute a copy of this policy to each Principal by September 1 of each year.

❖ STUDENT RECORDS REGULATIONS

FRPS complies with applicable federal and state laws and regulations pertaining to Student Records. Those laws and regulations are designed to ensure these regulations are set forth to insure student rights of confidentiality, inspection, amendment, and destruction of student records.

The Massachusetts Student Record Regulations and the Family Education Rights and Privacy Act (FERPA) apply to all information kept by a school on a student in a manner such that he or she may be individual identified. The regulations divide the record into the transcript and the temporary record.

The transcript includes only the minimum information necessary to reflect the student's educational progress. This information includes name, address, course titles, grades, credits, and grade level completed. The transcript is kept by the school system for at least sixty (60) years after the student leaves the system.

The temporary record contains the majority of the information maintained by the school system about the student. This may include such things as standardized test results, class rank, school sponsored extra-curricular activities, and evaluations and comments by teachers, counselors, and other persons. The temporary record is destroyed no later than seven (7) years after the student leaves the school system.

The following is a summary for parent/guardian and the student regarding their student records:

Inspection of Record: A parent, or a student who has entered the ninth grade or is at least fourteen (14) years old, has the right to inspect all portions of the student record upon request. The record must be made available to the parent or student within ten (10) days of the request, unless the parent or student consents to a delay. In the event the parent/student requests copies of a student record, the district may charge the parents/student for said copies at the district rate.

Confidentiality of Record: With a few exceptions, no individuals or organizations but the parent, student, and authorized school personnel are allowed to have access to information in the student record without specific, informed, written consent of the parent or the student.

Amendment of Record: The parent and student have the right to add relevant comments, information, or other written materials to the student record. In addition, the parent and student have the right to request that information of the record be amended or deleted. The parent and student have a right to a conference with the school principal to make their objections known. Within a week after the conference, the principal must render a decision in writing.

If the parent and student are not satisfied with the decision, the regulations contain provisions through which the decision may be appealed to higher authorities in the school system.

Directory Information: Federal law requires that the district release the names, addresses and telephone listings of students to military recruiters and institutions of higher education upon request for recruitment and scholarship purposes without prior consent. In addition, the district may release the following directory information about a student without prior consent: a student's name, address, telephone listing, date and place of birth, major fields of study, dates of attendance, weight and height of members of athletic teams, class participation in officially recognized activities and sports, degrees, honors and awards, post-high school plans and directory information such as homeroom assignments. However, in all instances, parents may request that such directory information not be released without prior consent by notifying their school building office in writing by the end of September of each school year.

Destruction of Records: The regulations require that certain parts of the student record, such as the temporary record, be destroyed a certain period of time after the student leaves the school system.

School authorities are also allowed to destroy misleading, outdated, or irrelevant information in the record from time to time while the student is enrolled in the school system. Before any such information may be destroyed, the parent and student must be notified, and have an opportunity to receive a copy of any of the information before its destruction.

Transfer of Records: It is the practice of the FRPS to forward the student record of any student who seeks or intends to transfer to another school.

Non-Custodial Parents: Unless there is a court order to the contrary, a non-custodial parent (parent without physical custody of the student)

of any public school student has the right, subject to certain procedures, to receive information regarding the student's achievements, involvement, behavior, etc. A non-custodial parent who wishes to have this information shall submit a written request annually to the child's school principal.

Upon receipt of such a request, the principal shall send written notification to the custodial parent by certified and first class mail that the records and information will be provided to the non-custodial parent in twenty-one (21) calendar days unless the custodial parent provides documentation of the non-custodial parent's ineligibility to access such information.

In all cases where school records are provided to a non-custodial parent, the electronic and postal address and other contact information for the custodial parent shall be removed from the records provided. Any such records provided to the non-custodial parent shall be marked to indicate that they may not be used to enroll the student in another school.

Upon receipt of a court order that prohibits the distribution of information pursuant to M.G.L. c. 71, §34H, the school will notify the non-custodial parent that it shall cease to provide access to the student record to the non-custodial parent. M.G.L. c.71, §34H, 603 CMR 23.07.

Third Party Access: Authorized school personnel, to include: (a) school administrators, teachers, counselors and other professionals who are employed by the school committee or who are providing services to the student under an agreement between the school committee and a service provider, and who are working directly with the

student in an administrative, teaching, counseling, and/or diagnostic capacity; (b) administrative office staff and clerical personnel, employed by the school committee or under a school committee service contract, and whose duties require them to have access to student records for purposes of processing information for the student record; and (c) the Evaluation Team which evaluates a student, shall have access to the student record of students to whom they are providing services, when such access is required in the performance of their official duties. The consent of the parent or eligible student shall not be necessary.

Complaints: A parent or eligible student has a right to file a complaint with the Family Policy Compliance Office, U.S. Department of Education
400 Maryland Avenue SW, Washington, D.C. 20202-5901
(202) 260-3887 or with the

❖ SURVEYS-NOTIFICATION OF RIGHTS UNDER PROTECTION OF PUPIL RIGHTS AMENDMENT

SURVEYS-NOTIFICATION OF RIGHTS UNDER THE PROTECTION OF PUPIL RIGHTS AMENDMENT

PPRA affords parents certain rights regarding our conducting of surveys, collection and use of information for marketing purposes, and certain physical exams.

These include the right to:

- Consent before students are required to submit to a survey that concerns one or more of the following protected areas ("protected information survey") if the survey is funded in whole or in part by a program of the U.S. Department of Education (DOE): political affiliations or beliefs of the student or student's parent; Mental or psychological problems of the student or student's family; sex behavior or attitudes; illegal, anti- social, self- incriminating, or demeaning behavior; critical appraisals of others with whom respondents have close family relationships; legally recognized privileged relationships, such as with lawyers, doctors, or ministers; religious practices, affiliations, or beliefs of the student or parents; or income, other than as required by law to determine program eligibility.
- Receive notice and an opportunity to opt a student out of the following: any other protected information survey, regardless of funding; any non-emergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student, except for hearing, vision, or scoliosis screenings, or any physical exam or screening permitted or required under State law; and activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.
- Inspect, upon request and before administration or use: protected information surveys of students; instruments used to collect personal information from students for any of the above marketing, sales, or other distribution purposes; and instructional material used as part of the educational curriculum.
- These rights transfer from the parents to a student who is 18 years old or an emancipated minor under State law.

FRPS will develop and adopt policies, in consultation with parents, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes. The district will directly notify parents of these policies at least annually at the start of each school year and after any substantive changes. The district will also directly notify, such as through U.S. Mail or email, parents of students who are scheduled to participate in the specific activities or surveys noted below and will provide an opportunity for the parent to opt his or her child out of participation of the specific activity or survey.

The district will make this notification to parents at the beginning of the school year if the district has identified the specific or approximate dates of the activities or surveys at that time. For surveys and activities scheduled after the school year starts, parents will be provided reasonable notification of the planned activities and surveys listed below and are provided an opportunity to opt their child out of such activities and surveys. Parents will also be provided an opportunity to review any pertinent surveys.

Specific activities and surveys covered under this requirement include: the collection, disclosure, or use of personal information for marketing, sales or other distribution; the administration of any protected information survey not funded in whole or in part by DOE, and any non-emergency, invasive physical examination or screening as described above.

Parents who believe their rights have been violated may file a complaint with:
