

ADDENDUM TO CONTRACT
Addressing Personally Identifiable Information (PII)
and the Americans with Disabilities Act Requirements (ADA)

This Addendum to Contract (“Addendum”) is entered into by and between the Ascension Parish School Board (hereinafter “School Board”) and Remind101, Inc. (hereinafter “Vendor”). The Addendum is effective as of the 25th day of June, 2018 and remains in effect for renewal terms until a new agreement is signed. This agreement may stand for up to a maximum of 4 renewals or until June 30, 2023.

1. The School Board, as a public entity, is subject to Title II of the Americans with Disabilities Act (ADA). The Vendor agrees to assure the School Board that it will operate in a manner that will enable the School Board to meet its Title II obligations to its staff and students. If the School Board is made aware of a shortcoming by the vendor in meeting this standard, the vendor agrees to make all reasonable efforts to meet the needs of the individual requiring the accommodation. (This assumes that the individual has the appropriate software and/or hardware that is required to take advantage of the accommodations offered.)

2. During the 2014 Louisiana Legislative Session, the State of Louisiana enacted new laws governing the collection, disclosure and use of students’ personally identifiable information. The new laws require that any contracts between a Louisiana school system and a third-party, who is entrusted with personally identifiable information of any student of such school system, contain the statutorily prescribed minimum requirements as to the use of student personally identifiable information. In order to comply with the requirements of the new laws, this Addendum and the terms contained herein are hereby incorporated into any agreement previously entered into or currently being entered into between Vendor and the School Board, entitled APSB 2017-2018_V1 and dated June 30th, 2017 (the “Contract”).

3. In accordance with La. R.S. 17:3913(F), Vendor agrees to protect any personally identifiable information of students of School Board provided to Vendor under the Contract (“Student PII”) in a manner that allows only those individuals and entities, who are authorized by Vendor to access the information, the ability to do so. Student PII should be protected by appropriate security measures, including, but not limited to, the use of user names, secure passwords, encryption, security questions, etc. Vendor’s network must maintain a high level of electronic protection to maintain the integrity of, and to prevent unauthorized access to, Student PII. The Vendor agrees to perform regular reviews of its protection methods and perform system auditing to maintain protection of its systems. For systems intended to process or store Student PII, Vendor will maintain secure systems that are patched, up to date, and have all appropriate security updates installed.

4. To ensure that the only individuals and entities who can access Student PII are those that have been specifically authorized by Vendor to access Student PII, Vendor shall implement appropriate forms of authentication to identify the specific individual or entity who is accessing the information. Vendor must individually determine the appropriate level of security that will provide the necessary level of protection for the Student PII it maintains. Vendor shall not allow any individual or entity unauthenticated access to confidential Student PII at any time.

5. Vendor shall implement appropriate measures to ensure the confidentiality and security of Student PII, protect against any unauthorized access or disclosure of information, and prevent any other unauthorized action within Vendor's control regarding the access, disclosure or use of Student PII that could result in substantial harm to the School Board or any individual identified by the data.

6. Vendor agrees that any and all Student PII will be stored, processed, and maintained in a secure location and solely on servers and systems owned by Vendor or operated by Vendor through use of third-party services (collectively, "Vendor Systems"). All servers, storage, backups, and network paths utilized in the delivery of the product(s) and/or service(s) called for under the Contract shall be contained within the United States unless specifically agreed to in writing by the School Board.

7. Vendor agrees that any and all Student PII shall be used expressly and solely for the purposes enumerated in the original Contract, as supplemented hereby. Student PII shall not be distributed, used, or shared for any other purpose. As required by Federal and State law, Vendor further agrees that no Student PII of any kind shall be revealed, transmitted, exchanged or otherwise passed outside the Vendor Systems to other vendors or interested parties unless specifically requested or authorized in writing by School Board. Vendor shall not sell, transfer, share or process any student data for any purposes other than those listed in the Contract, including commercial advertising, marketing, or any other commercial purpose. The foregoing does not, however, preclude Vendor from using de-identified data derived from the operations of Vendor Systems to improve Vendor's own products and services.

8. Vendor shall establish and implement a clear data breach response plan outlining organizational policies and procedures for addressing a potential breach. Vendor's response plan shall require prompt response for minimizing the risk of any further data loss and any negative consequences of the breach, including potential harm to affected individuals. A data breach is any instance in which there is an unauthorized release or access of personally identifiable information or other legally or contractually protected information not suitable for public release. This definition applies regardless of whether Vendor stores and manages the data directly or through a contractor, such as a cloud service provider.

9. Vendor shall develop a policy for the protection and storage of audit logs. The policy shall require the storing of audit logs and records on a server separate from the system that generates the audit trail. Vendor must restrict access to audit logs to prevent tampering or altering of audit data. Retention of audit trails shall be based on a schedule determined after consultation with operational, technical, risk management, and legal staff.

10. Vendor is permitted to disclose Student PII to its employees, authorized subcontractors, agents, consultants, service providers and auditors on a need to know basis only, provided that all such subcontractors, agents, consultants, service providers and auditors have written confidentiality obligations to Vendor consistent with, and at least as protective as, the terms of the Contract, as supplemented hereby. The confidentiality obligations shall survive termination of any agreement with Vendor for so long as the information remains confidential. Vendor shall be

16. The obligations of Vendor under this Addendum apply to the Vendor Systems and the actions of Vendor (and, if applicable, its subcontractors, agents, consultants, service providers and auditors). School Board is and shall remain responsible for: (a) only authorizing those school officials and parents (each as defined in the Privacy Policy) who have a legitimate need to access Student PII, (ii) limiting a school official's access to only that information necessary for her to perform her duties (e.g., restricting a teacher's access to information about only that her current students) and (iii) limiting a parent's access to only information about that parent's minor student. In addition, School Board retains responsibility and control over the operation, maintenance and management of, and all access to and use of, School Board's information technology infrastructure, whether owned by School Board or operated by School Board through use of third-party systems and services.

17. The terms of this Addendum shall supplement and supersede any conflicting terms or conditions of the original Contract between the Parties. Subject to the foregoing, the terms of the original Contract shall remain in full force and effect.
