### Report on the Audit of the Financial Statements

#### *Opinions*

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Derry Township School District (District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the Contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2022, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### *Emphasis of Matter*

As disclosed in Note 1 to the financial statements, the District adopted the provisions of Governmental Accounting Standards Board ("GASB") Statement No. 87, *Leases*, as of July 1, 2021. Our opinion is not modified with respect to this matter.

#### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards*, will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the required supplementary information as listed in the Contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the *Governmental Accounting Standards*, Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information as listed in the Contents and Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information as listed in the Contents and Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated February 10, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*, in considering District's internal control over financial reporting and compliance.

MANAGEMENT DISCUSSION AND ANALYSIS (MD&A)  
Year Ended June 30, 2022**

The *Management Discussion and Analysis* (MD&A) provides an overall review and insight into the District's financial activities for the fiscal years ended June 30, 2022 and 2021. This MD&A summarizes the district's financial performance as a whole. Therefore, the reader should also review the entire financial statements, including the Notes to Financial Statements, as well as the independent auditor's transmittal letter, to enhance their understanding of the district's financial performance.

**Background**

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) Statement No. 34. Certain condensed comparative analyses of financial statements have been presented in these statements.

Pre-GASB No. 34 standards required use of the modified accrual system of accounting for revenues (no receivables/accruals beyond 60 days). In addition, pre-GASB No. 34 standards also did not record depreciation expense on capital assets and did not require reporting of net assets of various funds. GASB No. 34 now requires full accrual of revenue and calculating depreciation on capital assets.

**Financial Highlights**

In accordance with GASB Statement No. 54, the District has recorded as a Permanent Fund the fair market value of assets held in trust by Fulton Financial Advisors under a bequest made by Milton S. Hershey. As of 2022 and 2021, the value of this fund was \$45,488,795 and \$54,012,098, respectively. The fund balance is classified as "Nonspendable" due to the restrictive nature of the trust since the District has use of income only.

Also in accordance with GASB 54, the Board of School Directors adopted Policy 620, Fund Balance. This policy classifies the General Fund Balance based on the relative strength of constraints that control the purposes for which specific amounts can be spent. Effective June 30, 2012, fund balances are now reported in the following classifications:

Nonspendable	Amounts that cannot be spent because they are in a nonspendable form (such as inventory and notes receivable).
Restricted	Amounts limited by external parties (grants or donations).
Committed	Amounts limited by Board policy (future anticipated costs).
Assigned	Amounts intended for a particular purpose.
Unassigned	Amounts available for consumption or not restricted in any manner.

Board Policy 625 and 625.1 limit amounts that may be accumulated in the General Fund. Policy 625, Maintenance of Fund Balance, provides that the District shall maintain an unassigned General Fund Balance of not less than 3% of expenditures, and not more than the amount allowed by the Commonwealth of Pennsylvania, currently 8% of budgeted expenditures. Policy 625.1 established a Capital Reserve Fund to support the District's approved Capital Maintenance/Growth Plan, to which funds in excess of the amount determined under Policy 625 is transferred. In accordance with these policies, no unbudgeted transfer occurred as of June 30, 2022, or as of June 30, 2021.

**DERRY TOWNSHIP SCHOOL DISTRICT  
MANAGEMENT DISCUSSION AND ANALYSIS (MD&A)  
Year Ended June 30, 2022**

The accompanying Fund Balance Review, on page 5, summarizes General Fund activity for the current and prior year. Total Fund Balance increased by \$2,921,308 and decreased \$1,225,937 for the years ended June 30, 2022 and 2021, respectively, after transfers in accordance with Policy 625 noted above.

The District has committed a portion of the General Fund Balance for future state retirement costs, for the District's self-insured medical plan and for future capital plans. The committed portion of the General Fund Balance for future retirement costs and for the District's self-insured medical plan is \$2,100,000 and \$500,000, for year ended June 30, 2022, respectively and \$2,384,692 and \$500,000 for year ended June 30, 2021, respectively. The committed portion of the General Fund Balance for future capital plans for the year ended June 30, 2022 is \$3,000,000.

2021-2022 revenues from all sources, local, state, federal and other exceeded budgeted revenues by \$3,995,476, or about 5.95%. Although it was unknown how the COVID-19 pandemic would affect the 2021-2022 school year, the local Derry Township economy rebounded more quickly than had been anticipated. The most significant increase was in local revenues which surpassed the budgeted revenues by more than \$2.9 million. Collections of current Real Estate Taxes, Earned Income Taxes, Transfer Tax and Amusement Taxes were the most significant revenues collected greater than budget.

2021-2022 actual expenditures exceeded budgeted expenditures by \$1,959,367. Actual expenditures were greater than budgeted due to the unknown expenses needed to educate students following the COVID-19 Pandemic in order to support the return to in-person learning. Expenses in Plant Operations & Maintenance exceeded budget by more than \$900 thousand. These expenses were necessary to provide necessary PPE for staff and student safety, as well as the need to address normal building repairs and maintenance that had been delayed due to the Pandemic.

**Annual Financial Report**

The governmental statements consist of the Statement of Net Assets and the Statement of Activities. These governmental statements combine governmental activities with business-type activities. The governmental activities include most of the District's programs and operations such as instruction, support services, plant operation and maintenance, pupil transportation and extracurricular activities. The business activities include services provided on a charge basis to recover the expenses of the services provided. The food service enterprise fund is reported as a business-type activity.

The Statement of Net Assets is a government-wide statement that summarizes the District's assets and liabilities in their entirety. It includes capital assets, net of a provision for accumulated depreciation, as well as long-term debt (mainly bonds payable).

The Statement of Activities is a government-wide statement that summarizes expenditures among the eight largest functions, as well as each program's net cost (total cost less subsidies, revenues generated by the activity, unrestricted grants and contributions by other organizations). It includes depreciation expense not previously recorded, and interest expense previously reported only in the debt service fund. The Governmental Funds Balance Sheet includes only assets expected to be used or consumed, and liabilities which will be due during the next year. Neither capital assets nor long-term debt are included. Note 1B to the Financial Statements explains the financial statements presentation in detail.

**Fund Financial Statements**

The Fund Statements present financial information in greater detail than the District-wide statements. Major funds are reported in separate columns, while non-major funds are aggregated and presented in a single column.

Governmental Funds are used to report most of the District's activities and focus on the flow of cash and other assets to and from the funds, and the remaining fund balances at the end of the fiscal year, which are available to be used in future periods. The governmental funds use the modified accrual method of accounting that measures cash and assets that can be readily converted to cash. The governmental funds provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine if there are greater or less financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities reported in the Statement of Net Assets and the Statement of Activities and governmental funds is reconciled in the financial statements.

Proprietary Funds are used to report District activities that are similar to business operations in the private sector. The Food Service Fund and the Granada Project Fund are the District's proprietary funds. Proprietary funds use the accrual method of accounting; therefore, proprietary fund reports will match, in all essential respects, the business-type activities portion of the government-wide statements.

Permanent Funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, are used to support school programs. The District is a beneficiary under the will of Milton S. Hershey and receives quarterly income distributions calculated annually at approximately 5% of the March 31st market value, in accordance with procedures established by the Pennsylvania Attorney General. The distributions support the overall academic programs of the District.

**DERRY TOWNSHIP SCHOOL DISTRICT  
MANAGEMENT DISCUSSION AND ANALYSIS (MD&A)  
Year ended June 30, 2021**

Fiduciary Funds are those funds that the District is the trustee, or fiduciary. Donations or bequests designated for scholarships are the primary fiduciary funds. Donors specify how the funds may be used. Since the funds may not be used for any other purpose, they are excluded from other District funds because the District is prohibited from using these funds to finance any other activities. The District's fiduciary activities are reported in separate Statements of Fiduciary Net Position.

The analysis of the District's major funds provides detailed information about the most significant funds - not the District as a whole. Some funds are required by state statute, while other funds are established by the District to help manage money for particular purposes and compliance with various grant provisions. The District's four types of funds: governmental, proprietary, permanent and fiduciary, use different accounting approaches as further described in the notes to the financial statements.

## District Budget

The District's budget is prepared in accordance with Pennsylvania law and is based on accounting for certain transactions based on cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund. The budgeting system controls expenses by classifying expenses by functional areas and by type of expense. A summary of budget to actual results for 2021-2022, is shown in the review below:

**Debt**

The District did not issue any new debt during 2021-2022, The District continues to maintain a AAA credit rating as issued by Standard & Poor's. This rating is the highest rating that can be achieved. This places the District among only a handful of Pennsylvania districts with that rating.

**Current Issues**

On June 27, 2006, Pennsylvania's governor signed Act 1 of Special Session 2006 into law. This legislation is far-reaching and complex and includes provisions for District property tax reduction funded through gaming revenue, facilitates a tax reduction and possible tax shift through imposition of additional earned income tax or personal income tax, requires voter approval through a "back end referendum" for real estate tax rate increases beyond a state-calculated index and created a Local Tax Study Commission to submit a recommendation to the Board regarding the tax shifting noted above. The Act also requires adoption of a preliminary budget as much as six months earlier than in the past.

The District is required to make contributions to the Pennsylvania State Employees Retirement System (PSERS) which covers substantially all employees. Although contribution rates were projected to increase, the contribution rate for 2023-2024 is actually being reduced compared to the current rate. The PSERS Board of Trustees will continue to monitor the performance of the fund as it sets the rates going forward. Historic rates have been as follows:

2013-2014	16.93%
2014-2015	21.40%
2015-2016	25.84%
2016-2017	30.03%
2017-2018	32.57%
2018-2019	33.43%
2019-2020	34.29%
2020-2021	34.51%
2021-2022	34.94%
2022-2023	35.26%
2023-2024	34.00%

The Commonwealth of Pennsylvania provides a subsidy for one-half of the retirement contributions.

TO THE STATEMENT OF NET POSITION**

**June 30, 2022**

<b>Total fund balances - governmental funds</b>		\$ 63,241,799
<p>Amounts reported for governmental activities in the Statement of Net Position are different because:</p>		
Capital assets used in governmental activities are not financial resources, and therefore, are not reported as assets in governmental funds. The cost of the capital assets is \$163,396,188, and the accumulated depreciation is \$94,033,838.		69,362,350
Property taxes receivable will be collected, but are not available soon enough to pay for the current period's expenditures, and therefore, are deferred inflows of resources in the funds.		285,711
Deferred inflows and outflows of resources related to pensions are applicable to future periods, and therefore, are not reported within the funds. Deferred inflows and outflows related to the pension are as follows (see footnotes for detail):		
Deferred outflows of resources		14,379,000
Deferred inflows of resources		(14,992,000)
Deferred inflows and outflows of resources related to OPEB are applicable to future periods, and therefore, are not reported within the funds. Deferred inflows and outflows related to OPEB are as follows (see footnotes for detail):		
Deferred outflows of resources		1,123,669
Deferred inflows of resources		(3,531,088)
Long-term liabilities, including bonds payable, lease obligations and payables, net pension liability, compensated absences and other post-employment benefits, are not due and payable in the current period, and therefore, are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:

**RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES**  
**Year Ended June 30, 2022**

---

<b>Net changes in fund balances - governmental funds</b>	<b>\$ (4,931,514)</b>
--	-----------------------

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation and dispositions exceed capital outlays in the current period:

Capital outlays	666,637	
Less net book value of disposed assets	-	
Less depreciation expense	<u>(4,860,012)</u>	(4,193,375)

Some taxes will not be collected for several months after the District's fiscal year end, they are not considered as "available" revenues in the governmental funds. Deferred inflows of resources decreased by this amount during the year. (57,860)

Interest on long-term obligations in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due. The change in interest accrued in the Statement of Activities over the amount due is shown here. 18,662

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:

Change in net pension liability, net of deferred resources		3,644,744
Change in OPEB liabilities, net of deferred resources		(298,159)
Change in compensated absences		68,661

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effects of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Issuance of general obligation debt, including bond premium	-	
Issuance of extended term financing	(601,268)	
Repayment of leases payable	77,164	
Issuance of leases payable	(235,389)	
Repayment of long-term debt	3,338,071	
Amortization of charges for bond refunding	(74,112)	
Amortization of bond premiums and discounts - net	209,082	
Repayment of extended term financing	<u>368,761</u>	<u>3,082,309</u>

## NOTES TO FINANCIAL STATEMENTS

### Note 1. Summary of Significant Accounting Policies

Derry Township School District (the District), operates a public school system that encompasses one municipality in Dauphin County. The District operates one elementary school, one middle school and one high school. The District operates under current standards prescribed by the Pennsylvania Department of Education in accordance with the provisions of the School Laws of Pennsylvania. The governing body of the District is comprised of a board of nine school directors who are each elected for a four-year term. The daily operation and management of the District is carried out by the administrative staff of the District, headed by the Superintendent of Schools who is appointed by the Board of School Directors. Funding for the District is received from local, Commonwealth and Federal sources and must comply with the requirements of the various funding source agencies.

The District assesses the taxpayers of these municipalities based upon taxing powers at its disposal. The ability of the District's taxpayers to pay their assessments is dependent upon economic and other factors affecting the taxpayers.

The financial statements of the District have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the authoritative, standard setting body for the establishment of governmental accounting and financial reporting principles. The more significant of these accounting policies are as follows:

#### A. Reporting Entity

In evaluating the District as a reporting entity, management has addressed all potential component units which may or may not fall within the District's financial accountability. The criteria used by the District to evaluate the possible inclusion of related entities within its reporting entity are financial accountability and the nature and significance of the relationship. In determining financial accountability in a given case, the District reviews the applicability of the following criteria:

The District is financially accountable for:

Organizations that make up the legal District entity.

Legally separate organizations if District officials appoint a voting majority of the organizations' governing body and the District is able to impose its will on the organization or if there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.

Impose its will: If the District can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization.

Financial benefit or burden: Exists if the District (1) is entitled to the organization's resources or (2) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide support to, the organization or (3) is obligated in some manner for the debt of the organization.

Organizations that are fiscally dependent on the District.

Fiscal dependency is established if the organization is unable to adopt its budget, levy taxes or set rates or charges, or issue bonded debt without approval by the District.

Based on the foregoing criteria, the District has no component entities that need to be included in the District's financial statements.

### Note 1. Summary of Significant Accounting Policies (Continued)

#### A. Reporting Entity (Continued)

Joint Ventures: The District is a participant in several joint ventures, each of which is a separate legal entity that offers services to the District and its residents. These entities serve multiple school districts and municipalities, and therefore, are not included in this reporting entity as a component unit. These entities do not have taxing authority, but are required to adopt an annual budget, which is funded primarily by its members and others that use its services.

Dauphin County Area Vocational Technical School: The District is one of seven-member school districts of the Dauphin County Technical School (DCTS). The Vo-Tech School provides vocational-technical education to the constituents of all participating school districts. Member school districts are responsible for funding the major portion of the Vo-Tech School's operating budget. For the year ended June 30, 2022, Derry Township School District paid \$562,400 for its estimated share of the operating budget. As of June 30, 2022, the Vo-Tech School's General Fund had total assets of \$3,557,698 and total liabilities of \$2,832,425. As of June 30, 2022, the Vo-Tech School had property and equipment net of accumulated depreciation of \$22,609,540, and long-term liabilities of \$44,042,652. The Vo-Tech School's outstanding balance on their Series of 2015 bond as of June 30, 2022, is \$13,525,000.

Derry Township Tax Collection Association: This Tax Association is a non-profit corporation created by both Derry Township School District and Derry Township to collect occupation privilege taxes and amusement taxes and to assist the elected tax collector in the collection of all real estate and occupation taxes and municipal street light assessments. The Association's expenses are shared equally by both the District and Township. During the year ended June 30, 2022, the District paid \$152,520 for its estimated share of the operating expenses. As of December 31, 2021, the Tax Association's General Fund had total assets of \$131,555 and total liabilities of \$8,521, resulting in a total fund balance of \$117,334. As of December 31, 2021, the Tax Association had general fund fixed assets net of accumulated depreciation of \$5,700.

Capital Area Intermediate Unit: This Intermediate Unit provides support and services to students with special needs that cannot be provided by district staff.

Harrisburg Area Community College: Provides higher education services. All Dauphin County Schools provide support to reduce tuition for district residents who attend full time.

The most recent audited financial statements of these joint ventures are available for inspection at the District's business office.

### Note 1. Summary of Significant Accounting Policies (Continued)

#### B. Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities and Fund Financial Statements, which provide a more detailed level of financial information.

Government-wide Financial Statements: The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

The Statement of Net Position presents the financial condition of the governmental and business-type activities of the District at year end. The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities, and for the business-type activities of the District. Direct expenses are those that are specifically associated with a service, program, or department, and therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements: During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

#### C. Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental funds are those through which most governmental functions of the District are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds for the year ended June 30, 2022:

The General Fund is the operating fund of the District and is used to account for all financial resources, except those required to be accounted for in another fund.

The Capital Projects Funds are made up of the Capital Reserve Fund as well as the Capital Projects Fund. The Capital Reserve Fund was established by the Board in April 2008, to fund various future school projects. The annual funding level shall be adjusted based on a board approved "capital maintenance/growth plan" and shall not exceed three years of projected expenditures. Expenditures are limited to capital improvements, replacement of and additions to public works and improvements, for deferred maintenance thereof, and for the purchase or the replacement of school buses, and for no other purpose. The Capital Projects Fund was established by the Board in 2019, and is used to account for and report financial resources that are restricted to expenditures for the acquisition, construction, or improvement of major capital facilities.

The Permanent Fund is a beneficial interest in a perpetual trust. The fund is legally restricted to the extent that only earnings, and not principal, are used for purposes that support the District's programs.

The Debt Service fund accounts for accumulation of resources for, and the payment of long-term debt principal, interest and related costs.

The Student Sponsored Activity Fund is set up in accordance with Section 511 of the PA School Code for student sponsored school organizations and publications which do not meet the criteria to be reported as custodial funds per GASB Statement No. 84 *Fiduciary Activities*.

Proprietary Funds focus on the determination of the changes in net position, financial position and cash flows. Proprietary funds are classified as enterprise or internal service; the District has no internal service funds.

Enterprise Funds are used to account for any activity for which a fee is charged to external users for goods or services. The District reports the following enterprise funds:

The Food Service Fund accounts for the financial transactions related to food service operations.

The Granada Project Fund accounts for financial transactions related to facility rental operations.

#### C. Fund Accounting (Continued)

Fiduciary Fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are, therefore, not available to support the District's own programs. The District's only trust funds are private purpose trust funds which account for scholarship programs for students.

#### D. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Net position (total assets, plus deferred outflows of resources, less total liabilities, less deferred inflows of resources) is used as a practical measure of economic resources and the operating statement includes all transactions and events that increased or decreased net position. Depreciation is charged as expense against current operations and accumulated depreciation is reported on the Statement of Net Position.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers tax revenue to be available if collected within 60 days of the end of the fiscal period. Revenue from Federal, state and other grants designated for payment of specific School District expenditures are recognized when the related expenditures are incurred; accordingly, when such funds are received, they are recorded as deferred revenues until earned. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

#### E. Budgets and Budgetary Accounting

An operating budget is adopted prior to the beginning of each year for the General Fund on a modified accrual basis of accounting. The General Fund is the only fund for which a budget is legally required.

The Pennsylvania School Code dictates specific procedures relative to adoption of the District's budget and reporting of its financial statements, specifically:

The District, before levying annual school taxes, is required to prepare an operating budget for the succeeding fiscal year.

The District is required to publish notice by advertisement, at least once in two newspapers of general circulation in the municipality in which it is located, and within 15 days of final action, that the proposed budget has been prepared and is available for public inspection at the administrative office of the District.

Notice that public hearings will be held on the proposed operating budget must be included in the advertisement; such hearings are required to be scheduled at least 10 days prior to when final action on adoption is taken by the Board.

Legal budgetary control is maintained at the sub-function/major object level. The Board may make transfers of funds appropriated to any particular item of expenditure by legislative action in accordance with the Pennsylvania School Code. Management may amend the budget at the sub-function/sub-object level without Board approval. Appropriations lapse at the end of the fiscal period. Budgetary information reflected in the financial statements is presented at or below the level of budgetary control and includes the effect of approved budget amendments. The Board made no supplemental budgetary appropriations throughout the year.

In order to preserve a portion of an appropriation for which an expenditure has been committed by a purchase order, contract or other form of commitment, an encumbrance is recorded. Encumbrances outstanding at year end are reported in the fund financial statements as a committed fund balance.

Included in the General Fund budget are program budgets as prescribed by the Federal and state agencies funding the program. These budgets are approved on a program by program basis by the Federal and state funding agencies.

#### F. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Fund Balance

Cash and Cash Equivalents and Investments: Cash includes all demand deposits, petty cash, savings, money market accounts and Certificates of Deposit owned by the District. Investments include repurchase agreements, investment trusts which mature at a future date, mutual funds and United States Treasury Notes. Investments are stated at fair value. Accrued interest is reflected as “other receivables” on the balance sheet.

The District is authorized by Sec. 440.1 of the Public School Code of 1949, as amended, to invest in United States Treasury Bills, short-term obligations of the United States Government or its agencies and instrumentalities, or in deposits, in savings accounts or time deposits or share accounts of institutions insured by the Federal Deposit Insurance Corporation (FDIC) or the Federal Savings and Loan Insurance Corporation (FSLIC) or the National Credit Union Share Insurance Fund (NCUSIF), to the extent that such accounts are so insured, and for any amounts above the insured maximums, provided that approved collateral as required by provisions of Act No. 72 of the Commonwealth of Pennsylvania are pledged by the depository.

For purposes of these financial statements, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Interfund Balances: On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “interfund receivables/payable.” These amounts are eliminated in the governmental and business-type activities columns of the Statement of Net Position, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

Inventory: On the government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

On fund financial statements, inventories of governmental funds are based upon the latest invoice price, which approximates cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption. Inventories of the governmental funds and enterprise fund are expensed when used.

Prepaid Expenses: Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items (consumption method) in both the government-wide and fund financial statements.

### Note 1. Summary of Significant Accounting Policies (Continued)

#### F. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Fund Balance (Continued)

Capital Assets: General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net Position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide Statement of Net Position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land, land improvements and construction-in-progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Buildings and improvements	20-50 years	N/A
Furniture and equipment	5-15 years	5-12 years
Vehicles	8-10 years	N/A

Deferred Outflows of Resources - Pensions and Other Post-Employment Benefits: The District recognizes deferred outflows of resources, which represent a consumption of net assets that is applicable to a future reporting period and so will not be recognized as an outflow of resources (expense) until that time. The District has identified these items in subsequent notes to the financial statements.

Deferred Outflows of Resources - Deferred Amounts on Refunding Debt: The District recognizes the difference between the re-acquisition price and the net carrying amount of the old debt as a deferred outflow which is a component of interest expense over the remaining life of the old or new debt, whichever is shorter.

### Note 1. Summary of Significant Accounting Policies (Continued)

#### F. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Fund Balance (Continued)

Long-Term Obligations: In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental or business-type activity columns in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are recognized as an expense in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Leases: The District is a lessee for non-cancellable leases of equipment. A lease liability and an intangible right-to-use lease asset is recognized in the government-wide financial statements.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term and (3) lease payments. The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.

The lease term includes the non-cancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Compensated Absences: Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the District's past experience of making termination payments. The compensated absence liability is reported on the government-wide financial statements.

#### F. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Fund Balance (Continued)

Pensions: Substantially all full-time and qualifying part-time employees of the District participate in a cost sharing, multiple employer defined benefit pension plan. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits: In the government-wide financial statements, the District recognizes the costs and liabilities associated with post-employment benefits other than pension compensation. The District participates in two plans, the first is a single employer plan administered by the District. The Plan provides retiree health, vision, dental care and prescription drug benefits for eligible, retired employees and their qualified spouses/beneficiaries. The District estimates the cost of providing these benefits through an actuarial valuation.

The District also participates in a governmental cost sharing, multiple employer other post-employment benefit plan (OPEB) with PSERS for all eligible retirees who qualify and elect to participate. For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### Note 1. Summary of Significant Accounting Policies (Continued)

#### F. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Fund Balance (Continued)

Deferred Inflows of Resources - Unearned Revenues: The District recognizes property tax revenues when they become available. Available includes those property taxes expected to be collected within 60 days after year end. Those property taxes expected to be collected beyond 60 days after year end are shown as deferred revenue in the fund financial statements. Governmental funds also defer revenues in connection with resources that have been received, but not yet earned.

Deferred Inflows of Resources - Pensions and Other Post-Employment Benefits: The District recognizes deferred inflows of resources, which represent an acquisition of net assets that is applicable to a future reporting period and so will not be recognized as an inflow of resources (revenue) until that time. The District has identified these items in subsequent notes to the financial statements.

Government-wide Net Position: Net position represents the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources. The District's net position is composed of the following:

Net Investment in Capital Assets: Consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of these assets.

Restricted: Represents amounts with external constraints placed on the use of these resources or imposed through constitutional provisions or enabling legislation. Restricted net position for the governmental activities is composed of the following:

	Amount
Capital improvements	\$ 3,559,739
Student sponsored activities	192,463
Beneficial interest in perpetual trust (nonexpendable)	45,488,795
Total restricted net position	<u>\$ 49,240,997</u>

There were no restrictions placed on net position for the business-type activities.

Unrestricted: The difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not reported in net investment in capital assets or as restricted net position.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first and then unrestricted resources as they are needed.

### Note 1. Summary of Significant Accounting Policies (Continued)

#### F. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Fund Balance (Continued)

Fund Balances: In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable: Represents amounts that cannot be spent either because they are in nonspendable form (such as inventory or prepaids) or because they are legally or contractually required to be maintained intact (such as notes receivable or principal of a permanent fund).

Restricted: Represents amounts with external constraints placed on the use of these resources (such as grantors, bondholders and higher level of government) or imposed through constitutional provisions or enabling legislation.

Committed: Represents amounts that can only be used for specific purposes imposed by a formal action of the District's highest level of decision making authority, the Board. Committed resources cannot be used for any other purpose unless the Board removes or changes the specific use by taking the same formal action that imposed the constraint originally.

Assigned: Represents amounts the District intends to use for specific purposes as expressed by the Board or an official delegated the authority. The Board has delegated the authority to assign fund balances to the Business Manager. The District does not have any amounts that are assigned.

Unassigned: Represents amounts that are available for any purpose, reported only in the General Fund.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expensed is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance and unassigned fund balance.

The District's policy is to maintain eight percent (8%) of annual budgeted operating expenditures for the next fiscal year as its maximum general fund unassigned fund balance.

The following schedule provides information about the specific fund balance classification by fund:

	General Fund	Capital Projects Fund	Student Sponsored Activity Fund	Permanent Fund	Total
<b>Nonspendable</b>

##### G. New Accounting Pronouncements

The following list reflects only those pronouncements initially effective in the current or upcoming reporting periods which based on our review, may be applicable to the District's reporting requirements.

Following are descriptions of significant pronouncements that were considered or initially selected during the year ended June 30, 2022:

GASB issued Statement No. 87, *Leases*, increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021, per GASB No. 95, and earlier application is encouraged. The District has implemented this pronouncement in the current year.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, establishes accounting requirements for interest cost incurred before the end of a construction period to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and to simplify accounting for interest cost incurred before the end of a construction period.

GASB Statement No. 92, *Omnibus 2020*, enhances comparability in accounting and financial reporting and improves consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of various GASB standards previously issued.

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, addresses accounting and financial reporting implications that result from the replacement of an IBOR.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans - an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*, (1) increases consistency and comparability related to the reporting of fiduciary component units where a governing board does not exist and the primary government performs the duties that a governing board typically would perform; (2) mitigates costs associated with the reporting of certain defined contribution pension and OPEB plans and other employee benefit plans as fiduciary component units and (3) enhances the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans that meet the definition of a pension plan.

### Note 1. Summary of Significant Accounting Policies (Continued)

#### G. New Accounting Pronouncements (Continued)

The following are descriptions of accounting pronouncements which will be considered for implementation during subsequent fiscal years, with modified effective dates as established by GASB Statement No. 95:

GASB Statement No. 91, *Conduit Debt Obligations*, will be effective for the District beginning with its year ending June 30, 2023 (periods beginning after December 15, 2021). This Statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, will be effective for the District beginning with its year ending June 30, 2023 (fiscal periods beginning after June 15, 2022). This Statement improves financial reporting by addressing issues related to public-private and public-public partnerships.

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. The requirements for this Statement are effective for fiscal years beginning after June 15, 2022. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset-an intangible asset and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. The District is currently evaluating what effect, if any, the adoption of GASB No. 96 will have on the District's financial statements.

GASB Statement No. 99, *Omnibus 2022 will be effective in fiscal years between June 30, 2022 and 2024*, depending on the topics addressed and their relation to other standards. This Statement enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees.

GASB Statement No. 100, *Accounting Changes and Error Corrections - an amendment of GASB Statement No. 62*, will be effective for fiscal years beginning after June 15, 2023. This Statement defines accounting changes as changes in accounting principles, changes in accounting estimates, and changes to or within the financial reporting entity and describes the transactions or other events that constitute those changes. As part of those descriptions, for (1) certain changes in accounting principles and (2) certain changes in accounting estimates that result from a change in measurement methodology, a new principle or methodology should be justified on the basis that it is preferable to the principle or methodology used before the change. That preferability should be based on the qualitative characteristics of financial reporting - understandability, reliability, relevance, timeliness, consistency, and comparability. This Statement also addresses corrections of errors in previously issued financial statements.

### Note 1. Summary of Significant Accounting Policies (Continued)

#### G. New Accounting Pronouncements (Continued)

GASB Statement No. 101, *Compensated Absences*, will be effective for fiscal years beginning after December 15, 2023. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. It requires that a liability for certain types of compensated absences - including parental leave, military leave, and jury duty leave - not be recognized until the leave commences. This Statement also establishes guidance for measuring a liability for leave that has not been used, generally using an employee's pay rate as of the date of the financial statements. A liability for leave that has been used but not yet paid or settled should be measured at the amount of the cash payment or noncash settlement to be made. Certain salary related payments that are directly and incrementally associated with payments for leave also should be included in the measurement of the liabilities.

#### H. Other

Encumbrances: Encumbrances at year end are reported in the fund financial statements as restricted or committed fund balances since they do not constitute expenditures or liabilities but serve as authorization for expenditures in the subsequent year.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Significant estimates used in preparation of these financial statements include depreciation, compensated absences, pension related items and other post-employment benefits. Accordingly, actual results could differ from those estimates.

Subsequent Events: In preparing these financial statements, the District has evaluated events and transactions for potential recognition or disclosure through February 10, 2023, the date that the financial statements were available to be issued.

#### Note 2. GASB Standard Implementation

The District implemented Governmental Accounting Standards Board Statement (GASB) No. 87, *Leases*. The Standard requires the inclusion of lease liabilities and underlying assets associated with the nonfinancial, right to use assets resulting in a potential restatement of the government-wide statement of net position. The change did not require a restatement of the District's Governmental Net Position.

#### Note 3. Deposits and Investments

Under Section 440.1 of the Public School Code of 1949, as amended, the District is permitted to invest funds consistent with sound business practices in the following types of investments:

- U.S. Treasury Bills
- Short-term obligations of the U.S. Government or its agencies or its instrumentalities
- Deposits in savings accounts or time deposits or share accounts of institutions insured by:
  1. The Federal Deposit Insurance Corporation (FDIC), or
  2. The Federal Savings and Loan Insurance Corporation (FSLIC), or
  3. The National Credit Union Share Insurance Fund (NCUSIF) to the extent that such accounts are so insured, and for any amounts above maximum insurable limits, provided that approved collateral as provided by law shall be pledged by the depository
- Obligations of (a) the United States of America or its agencies or instrumentalities backed by the full-faith and credit of the United States of America, and (b) the Commonwealth of Pennsylvania, or instrumentalities thereof, backed by the full-faith and credit of these political subdivisions
- Shares of investment companies whose investments are restricted to the above categories

The deposit and investment policy of the District adheres to state statutes and prudent business practices. There were no deposit or investment transactions during the year that were in violation of either state statutes or the policy of the District.

#### Deposits: Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank default, the District's investments may not be returned to it. A summary of the District's deposits at June 30, 2022, are shown below:

	Carrying Amount	Bank Balance	Financial Institution
Insured (FDIC)	\$ 250,000	\$ 250,000	First National Bank
Insured (FDIC)	250,000	250,000	WSFS Institutional Services
Uninsured, collateralized in accordance with Act 72	18,900,907	19,412,183	First National Bank
Uninsured, collateralized in accordance with Act 72	3,809,906	3,809,906	WSFS Institutional Services
	<u>\$ 23,210,813</u>	<u>\$ 23,722,089</u>	

Act 72 of 1971, as amended, is an act standardizing the procedures for pledges of assets to secure deposits of public funds with banking institutions pursuant to other laws; establishing a standard rule for the types, amounts and valuations of assets eligible to be used as collateral for deposits of public funds; permitting assets to be pledged against deposits on a pooled basis and authorizing the appointment of custodians to act as the pledgers of the assets.

#### Investments

It is the District's investment policy to optimize its return through investment of cash balances in such a way as to minimize non-invested balances and to maximize return on investments. The primary objectives of investment activities, in priority order, shall be:

1. Legality - All investments shall be made in accordance with applicable laws of Pennsylvania.
2. Safety - Safety of principal shall be of highest priority. Preservation of capital in the portfolio of investments shall be ensured through the mitigation of credit risk and interest rate risk.
3. Liquidity - Investments shall remain sufficiently liquid to meet all operating requirements that are reasonably anticipated. A fiscal year operations anticipated cash flow shall be developed so that investments can be made as early as possible, with maturities concurrent with anticipated cash demands.
4. Yield - Investments shall be made with the objective of attaining a market-average rate of return throughout the budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs.

At June 30, 2022, the District had no investments with maturities greater than 12 months within the governmental funds.

#### Investments (Continued)

As of June 30, 2022, the James L. Fillmore Scholarship Trust Fund (contained within the fiduciary fund - private purpose trust fund), to be used to provide scholarships for students to attend the University of Cincinnati, had the following investments:

<u>Investments</u>	<u>Fair Value</u>
Money market fund	\$ 214,310
Mutual funds	697,909
Common stock	62,656
Exchange traded funds	86,660
Total investments	<u>\$ 1,061,535</u>

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Common Stocks, Mutual Funds and Exchange Traded Funds: The fair value of common stocks and mutual funds are based on closing market prices for the identical security as reported in active markets. These investments are reported at fair value as Level 1 investments under GASB Statement No. 72.

Money Market Funds: Fixed income securities do not always trade on a daily basis so the fair values of each security are dependent upon various pricing models that incorporate benchmark yields, interest rates, credit risk, broker-dealer quotes and other valuation processes. These investments are reported at fair value as a Level 2 investment under GASB Statement No. 72.

#### Note 4. Beneficial Interest in a Perpetual Trust

The District is named the beneficiary in a perpetual trust, which originated from a bequest by Milton S. Hershey in 1946, and is administered by Fulton Bank, NA. The perpetual trust is to pay income to the District quarterly, and the District is to use the funds for such purpose as determined by the Board. The funds in the trust are restricted and are not available to the District, except for distributions made from the trust to the District per the trust agreement and state law governing perpetual trusts. Assets of the perpetual trust are restricted in the Statement of Net Position and designated as nonspendable in the governmental funds balance sheet. The assets are recorded at fair value. Income less trustee fees and changes in fair value of the perpetual trust are recorded as investment earnings. The following is a summary of the transactions for the year ended June 30, 2022:

	Amount
Balance at July 1, 2021	\$ 54,012,098
Net investment loss	(5,271,426)
Trustee fees	(189,337)
Transfers to general fund	(3,062,540)
Balance at June 30, 2022	<u>\$ 45,488,795</u>

The assets of the perpetual trust are categorized as Level 3. Financial assets valued using level 3 inputs are based on significant unobservable inputs and have the lowest priority. According to FASB ASC 820-10-35-58, if an organization will never be able to redeem its investment at the net asset value per share (as in a perpetual trust), the measurement should be categorized as a Level 3 fair value measurement.

### Note 5. Property Taxes

Based upon assessed valuations provided by the County, the District bills and collects its own property taxes. The schedule for property taxes levied for 2021-2022, is as follows:

July 1, 2021	Tax levy date
Through August 31, 2021	2% discount
September 1 - October 31, 2021	Face payment period
November 1 - December 31, 2021	10% penalty period
January 1, 2022	Lien filing date

The District's tax rate for all purposes in 2021-2022 was 18.7958 mills (\$18.7958 per \$1,000 assessed valuation). Refunds on payments of prior year taxes are classified as Other Debt Service items under the Commonwealth of Pennsylvania's accounting system. Current tax collections for the District were approximately 99% of the total tax levy.

### Note 6. Taxes Receivable, Deferred Inflows of Resources and Estimated Uncollectible Taxes

A summary of the taxes receivable and related accounts at June 30, 2022, are as follows:

	Amount
Uncollected Taxes	\$ 3,800,452
Estimated uncollectible taxes	(2,033,068)
Taxes Receivable - Net	<u>\$ 1,767,384</u>

### Note 7. Interfund Receivables and Payables and Transfers

Individual fund receivable and payable balances at June 30, 2022, are as follows:

<u>Fund</u>	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
Governmental Funds		
General	\$ 236,343	\$ 957,433
Capital projects	1,739,454	1,340,000
Proprietary Funds		
Food service	452,726	142,886

Fiduciary Fund		
Private purpose trust	-	93,457
	<u>\$ 2,533,776</u>	<u>\$ 2,533,776</u>

In order to take advantage of higher interest rates, the District holds all of the cash for each fund in one account. They make monthly transfers to cover the expenses of each fund. The balances in the interfund receivables are the amount of cash belonging to that fund in the general fund account.

All interfund receivable/payable balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system and (3) payments between funds are made. All balances are expected to be repaid within the following year.

Individual fund transfers during the fiscal year ended June 30, 2022, are as follows:

<u>Fund</u>	<u>Transfers In</u>	<u>Transfers Out</u>
Governmental Funds		
General	\$ 3,062,540	\$ 5,016,302
Permanent	-	3,062,540
Debt service	3,713,060	-
Capital projects	1,000,000	-
Proprietary Fund		
Food service	303,242	-
	<u>\$ 8,078,842</u>	<u>\$ 8,078,842</u>

Transfers and payments within the District are substantially for purposes of funding capital projects and asset acquisitions or maintaining debt service on a routine basis. Transfers are made from the general fund to the food service fund for operation of the school's cafeteria program. Transfers are made from the general fund to the capital projects fund for to provide funding for future projects. Transfers are made from the permanent fund to the general fund for investment earnings of the fund. Resources are accumulated in a fund to support and simplify the administration of various projects or programs.

General Obligation Bonds - Series of 2015 - On February 19, 2015, the District authorized the issuance of General Obligation Bonds, Series of 2015, in the aggregate principal amount of \$9,995,000. The proceeds of the bonds were used to provide funds to: (1) the partial current refunding and redemption of the general obligation bonds, series A of 2010 of the District and (2) pay the costs of issuing the bonds. The refunding reduced total debt service payments by \$722,397 over the next 8 years. This resulted in an economic gain (difference between present value of the debt service payments on the old and new debt) of \$686,114. The Bonds bore interest rates that were not to exceed 4.00%; the initial rate was 0.20%. The bonds were to mature serially in amounts ranging from \$105,000 to \$1,820,000 through 2023. On January 25, 2021, the District issued General Obligation Note - Series of 2021 to fully refund these bonds.

#### **Note 9. Long-Term Obligations (Continued)**

General Obligation Bonds - Series A of 2015 - On November 23, 2015, the District authorized the issuance of General Obligation Bonds, Series A of 2015, in the aggregate principal amount of \$6,120,000. The proceeds of the bonds were used to provide funds to: (1) advance refund a portion of the outstanding General Obligation Bonds, Series of 2008 of the District and (2) pay the costs of issuing the bonds. A portion of the proceeds was irrevocably deposited in an escrow fund maintained by Manufacturers and Traders Trust Company. These proceeds were used to purchase certain United States Treasury Securities, which will mature and earn interest to provide for all future debt service on the refunded portion of the Series 2008 bonds. As a result, a portion of the Series 2008 bonds are considered defeased and the District has removed a portion of the liability from its accounts. The outstanding principal of the defeased bonds was \$5,875,000 at June 30, 2018, and this amount was paid in full during the year ending June 30, 2019. The advanced refunding reduced total debt service payments by \$712,639 over the next 9 years. This results in an economic gain (difference between present value of the debt service payments on the old and new debt) of \$674,897. The Bonds bear interest rates that shall not exceed 4.00%; the initial rate is 1.00%. The bonds mature serially in amounts ranging from \$170,000 to \$2,230,000 through 2024. On January 25, 2021, the District issued General Obligation Note - Series of 2021 to partially refund these bonds.

General Obligation Bonds - Series of 2016 - On February 22, 2016, the District authorized the issuance of General Obligation Bonds, Series of 2016, in the aggregate principal amount of \$7,200,000. The proceeds of the bonds were used to provide funds for: (1) the current refunding of the general obligation bonds, series of 2011 of the District and (2) pay the costs of issuing the bonds. The refunding reduced total debt service payments by \$269,880 over the next 9 years. This results in an economic gain (difference between present value of the debt service payments on the old and new debt) of \$267,605. The Bonds bear interest rates that shall not exceed 4.00%; the initial rate is 0.37%. The bonds mature serially in amounts ranging from \$255,000 to \$1,360,000 through 2023.

General Obligation Notes - Series A of 2019 - On December 17, 2018, the District authorized the issuance of General Obligation Notes, Series A of 2019, in the aggregate principal amount of \$3,310,000. The proceeds of the notes were used to provide funds to: (1) the current refunding of the outstanding General Obligation Bonds, Series of 2012, of the District; (2) the current refunding of a portion of the outstanding General Obligation Bonds, Series A of 2012, of the District; (3) various capital projects of the District and (4) pay the costs of issuing the notes. The economic loss on the refunding of the 2012, and 2012A bonds was \$165,934. The Notes bear interest rates that shall not exceed 4.00%; the initial rate is 1.78%. The notes mature serially in amounts ranging from \$10,000 to \$1,685,000 through 2026. On January 25, 2021, the District issued General Obligation Bond - Series A of 2021 to partially refund these bonds.

General Obligation Notes - Series B of 2019 - On December 17, 2018, the District authorized the issuance of General Obligation Notes, Series B of 2019, in the aggregate principal amount of \$1,555,000. The proceeds of the notes were used to provide funds to: (1) various capital projects of the District and (2) pay the costs of issuing the notes. The Notes bear an interest rate of 3.5%. The notes are not subject to redemption prior to maturity and are scheduled to mature in May 2026.

Lease Obligations - Dauphin County Technical School Lease Obligation

The Board authorized the incurring of lease rental debt in connection with the Dauphin County Technical School, by entering into an agreement of lease and guaranty with Dauphin County Technical School, dated March 15, 2007. The Technical School constructed improvements and renovations and acquired equipment for the Technical School and has financed it by issuing \$24,750,000 in School Lease Revenue Bonds, Series of 2007, dated March 15, 2007. These bonds were refinanced by the issuance of Series of 2015, dated March 15, 2015, in the amount of \$19,005,000. This debt is supported by the full faith, credit and taxing power of the seven-member school districts who participate in the Technical School. Derry Township School District's original share of this debt was \$3,170,034, which was based on the market valuation of all taxable real property in each school district.

#### Compensated Absences

Under the terms of the District's employment policies, employees are reimbursed for accrued vacation upon retirement or other termination of employment. The reimbursement rate is established by the employment contract and varies by employee classification. In addition, employees are granted sick days per school year, and any unused sick days are permitted to be carried over to future years. Upon retirement from the District, employees are reimbursed for accumulated sick days equal to the number of unused days multiplied by an amount established by the employment contract. The employees are also offered options regarding retirement payouts as prescribed in the contract if certain conditions are met. The total liability for accrued vacation, sick leave and retirement bonuses has been reflected in the Statement of Net Position.

#### Other Lease Obligations

The District leases computers which are located throughout the District. The related lease agreements qualify as capital leases, and accordingly, these transactions are recorded at the present values of related future, minimum lease payments as of the inception date. All lease-purchase obligations are funded by the General Fund.

The assets acquired through capital leases are as follows:

	Amount

#### Note 10. Defined-Benefit Pension Plan

##### Plan Description

PSERS (Pennsylvania Public School Employee's Retirement System or the System) is a governmental cost sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at [www.psers.pa.gov](http://www.psers.pa.gov).

##### Benefits Provided

PSERS provides retirement, disability and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least one year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes: Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of three years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members, whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

**Note 10. Defined-Benefit Pension Plan (Continued)**

Benefits Provided (Continued)

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Contributions (Continued)

Employer Contributions (Continued):

The District is required to pay the entire contribution and will be reimbursed by the Commonwealth in an amount equal to the Commonwealth's share as determined by the income aid ratio (as defined in Act 29 of 1994), which is at least one-half of the total District's rate. The District's contributions to the Plan, relating to pension benefits, for the year ended June 30, 2022, was \$10,183,128, and is equal to the required contribution for the year. For the year ended June 30, 2022, the District recognized gross retirement subsidy revenue from the Commonwealth in the amount of \$5,277,736.

Pension Liabilities, Pension Expense, Deferred Outflows/Inflows of Resources Related to Pensions

At June 30, 2022, the District reported a liability of \$84,545,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2020 to June 30, 2021. The District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2022, the District's reported proportion was .2057%, which was an decrease of .0018% from its proportion reported as of June 30, 2021.

For the year ended June 30, 2022, the District recognized pension expense of \$6,464,547. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 62,000	\$ 1,110,000
Changes in assumptions	4,096,000	-
Net difference between projected and actual investment earnings	-	13,443,000
Changes in proportion	260,000	745,000

Contributions subsequent to the measurement date	10,183,000	-
	<u>\$ 14,672,000</u>	<u>\$ 15,298,000</u>

\$10,183,000 is reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ending June 30:</u>	<u>Total</u>

#### Note 10. Defined-Benefit Pension Plan (Continued)

##### Actuarial Assumptions

The total pension liability as of June 30, 2021, was determined by rolling forward the System's total pension liability as of June 30, 2020 to June 30, 2021, using the following actuarial assumptions, applied to all periods included in the measurement:

- Valuation Date - June 30, 2020
- Actuarial cost method - Entry Age Normal - level % of pay.
- Investment return - 7.00%, includes inflation at 2.50%.
- Salary growth - Effective average of 4.50%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases.
- Mortality rates were based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.
- The discount rate used to measure the Total Pension Liability decreased from 7.25% as of June 30, 2020 to 7.00% as of June 30, 2021.

The actuarial assumptions used in the June 30, 2021 valuation, were based on the results of an actuarial experience study that was performed for the five-year period ended June 30, 2020.

##### Investments

The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

For the year ended June 30, 2021, the annual money weighted rate of return on pension plan investments, net of pension plan investment expense, was 24.58%. The money weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

#### Investments (Continued)

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global public equity	27.0%	5.2%
Fixed income	35.0%	1.8%
Commodities	10.0%	2.0%
Absolute return	8.0%	3.1%
Infrastructure/MLPs	8.0%	5.1%

	<u>100.0%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2021.

#### Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### Actuarial assumptions

The total OPEB liability was determined by an actuarial valuation as of July 1, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

- Inflation - 2.5%.
- Salary Increases - 2.5% cost of living adjustment, 1% real wage growth and for teachers and administrators a merit increase which varies by age from 2.75 to 0%.
- Discount Rate - 2.28%. Based on S&P Municipal Bond 20 Year High Grade Rate Index at July 1, 2021.
- Health Care Cost Trend Rate - 5.5% in 2020 through 2023. Rates gradually decrease from 5.4% in 2024, to 4.0% in 2075, and later based on the Society of Actuaries Long-Run Medical Cost Trend Model.
- Retirees' Share of Benefit-Related Costs - Retiree contributions are assumed to increase at the same rate as the Health Care Cost Trend Rate.
- Mortality rates are separate and assumed preretirement and postretirement using the rates assumed in the PSERS defined benefit pension plan actuarial valuation. Incorporated into the table are rates projected generationally by the Buck Modified 2016 projection scale to reflect mortality improvement.

#### **Note 12. Other Post-Employment Benefits - PSERS Cost Sharing Plan**

##### Plan Description

PSERS administers a defined benefit pension plan, and two post-employment healthcare programs, the Health Insurance Premium Assistance Program (Premium Assistance) and the Health Options Program (HOP) for its retirees. The HOP is a PSERS sponsored voluntary health insurance program for the sole benefit of PSERS retirees, spouses of retirees, and survivor annuitants and their dependents who participate in HOP. The HOP is funded exclusively by the premiums paid by its participants for the benefit coverage they elect.

The System provides Premium Assistance which, is a governmental cost sharing, multiple-employer other post-employment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

Retirees of the System can participate in Premium Assistance if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health.

##### Benefits Provided

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2021, there were no assumed future benefit increases to participating eligible retirees

#### Actuarial Assumptions

The Total OPEB Liability as of June 30, 2021, was determined by rolling forward the System's Total OPEB Liability as of June 30, 2020 to June 30, 2021, using the following actuarial assumptions, applied to all periods included in the measurement:

- Valuation Date - June 30, 2020.
- Actuarial cost method - Entry Age Normal - level % of pay.
- Investment return - 2.18% - S&P 20 Year Municipal Bond Rate.
- Salary growth - Effective average of 4.5%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.
- Participation rate:
  - Eligible retirees will elect to participate Pre age 65 at 50%
  - Eligible retirees will elect to participate Post age 65 at 70%
- The discount rate used to measure the total OPEB liability decreased from 2.66% as of June 30, 2020 to 2.18%, as of June 30, 2021.

The actuarial assumptions used in the June 30, 2020 valuation, were based on the results of an actuarial experience study that was performed for the five-year period ending June 30, 2015.

### Note 12. Other Post-Employment Benefits - PSERS Cost Sharing Plan (Continued)

#### Actuarial Assumptions (Continued)

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2019, determined the employer contribution rate for fiscal year 2021.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

#### Investments

Investments consist primarily of short-term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	79.8%	0.1%
U.S. Core Fixed Income	17.5%	0.7%
Non-U.S. Developed Fixed	2.7%	-0.3%
	<u>100.0%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class of June 30, 2021.

### Note 12. Other Post-Employment Benefits - PSERS Cost Sharing Plan (Continued)

#### Discount Rate

The discount rate used to measure the Total OPEB Liability was 2.18%. Under the plan's funding policy, contributions are structured for short-term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short-term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 2.18% which represents the S&P 20-year Municipal Bond Rate at June 30, 2021, was applied to all projected benefit payments to measure the total OPEB liability.

#### Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net OPEB liability, calculated using the discount rate of 2.18%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.18%) or one percentage point higher (3.18%) than the current discount rate:

	1% Decrease 1.18%	Current Discount Rate 2.18%	1% Increase 3.18%
District's proportionate share of the net OPEB liability	\$ 5,590,000	\$ 4,871,000	\$ 4,279,000

#### Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates (between 5% to 7%) that are one percentage point lower or one percentage point higher than the current healthcare cost trend rates:

	1% Decrease	Current Trend Rate	1% Increase
District's proportionate share of the net OPEB liability	\$ 4,871,000	\$ 4,871,000	\$ 4,872,000

#### OPEB Plan Fiduciary Net Position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at [www.psers.pa.gov](http://www.psers.pa.gov).

## NOTES TO FINANCIAL STATEMENTS

---

### Note 12. Other Post-Employment Benefits - PSERS Cost Sharing Plan (Continued)

#### Plan Payables

At June 30, 2022, the District reported a payable to PSERS of \$79,693 which represents the employer contributions owed to the OPEB plan.

### Note 13. Act 93 Employee Annuity

The District provides all Act 93 employees with a tax-sheltered annuity. The District provides a \$0.50 contribution to each \$1.00 of employee contribution, up to a maximum District contribution of \$2,500. The District contributed \$40,960 to the Plan for the year ended June 30, 2022.

### Note 14. Risk Management

The policy of the District is to not purchase health and vision insurance for the risks of losses to which it is exposed. Instead, the District's management policy is that it is more economical to manage its risks internally. The District pays all claims for risk of loss which the District is exposed, including medical, dental, drug and vision claims, which are administered by third parties. The District has purchased stop loss insurance from commercial insurers that will reimburse the District for 100% of all medical claims over \$170,000 per year per participant with exceptions. The District will also receive a stop loss reimbursement of 100% for all aggregate medical claims which exceed \$7,346,362, adjusted upward based on participation, for the year.

Liabilities are reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. Liabilities include the amount for claims that have been incurred but not reported. Because of delays between the time a claim is incurred, and it is reported to the District for payment, the estimated liability does not necessarily result in an exact amount. A current net liability has been included in accrued salaries and benefits of the General Fund for claims reported but not paid by June 30, 2022, plus accrued teachers summer benefits, which both amount to \$389,595. The current year's asset is due to stop loss reimbursements in excess of incurred but not reported claim amounts at year end. Changes in the District's claims liability (asset) amount for the year ended June 30, 2022, were:

	Amount
Liability (asset) - beginning of year	\$ 328,313
Current year claims and changes in estimates	(7,037,160)
Less - claim payments	7,098,442
Liability (asset) - end of year	<u>\$ 389,595</u>

The District continues to carry commercial insurance for all other risks of loss, including workers compensation, liability and property and casualty insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

## **DERRY TOWNSHIP SCHOOL DISTRICT**

### **NOTES TO FINANCIAL STATEMENTS**

---

#### **Note 15. Contingent Liabilities**

The District is subject to real estate tax assessment appeals on an ongoing basis. If tax appeals are successful, the result is a loss of tax revenue to the District. It is anticipated that any material loss of tax revenue on individual tax appeals will be offset with additional revenues from other properties or other sources of revenue and would not create a financial hardship to the District.

The District is involved in various lawsuits in the normal course of operations. Management cannot predict the outcome of the lawsuits or estimate the amount of any loss that may result. Accordingly, no provision for any contingent liabilities that may result have been made in the financial statements. Management believes that losses resulting from these matters, if any, would be covered under the District's professional liability insurance policy and would not have a material effect on the financial position of the District.

The District participates in numerous state and Federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2022, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL  
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND  
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Board of School Directors  
Derry Township School District  
Hershey, Pennsylvania

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Derry Township School District (District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated February 10, 2023.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

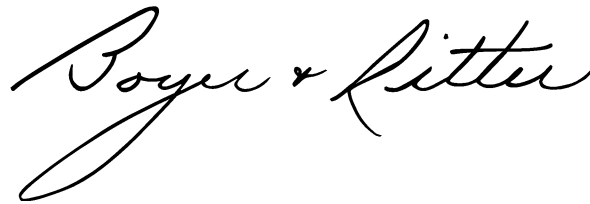

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards*, in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH  
MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER  
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Board of School Directors  
Derry Township School District  
Hershey, Pennsylvania

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Federal Program***

We have audited Derry Township School District's (District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major Federal programs for the year ended June 30, 2022. The District's major Federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District's complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2022.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major Federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's Federal programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major Federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control Over Compliance**

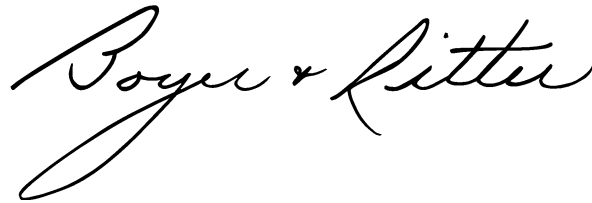

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## DERRY TOWNSHIP SCHOOL DISTRICT

### NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

---

#### **Note 1. Basis of Presentation**

The accompanying schedule of expenditures of Federal awards includes the Federal award activity of the District's under programs of the Federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the District's operations, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the District.

#### **Note 2. Significant Accounting Policies**

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Revenue is recognized when earned, and expenses are recognized when incurred. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available. The District has not elected to use the 10% de Minimis indirect cost rate as allowed under the Uniform Guidance.

#### **Note 3. Access Program**

The ACCESS Program is a medical assistance program that reimburses local education agencies for direct, eligible health-related services provided to enrolled special needs students. ACCESS reimbursements are Federal monies but are classified as fee-for-service revenues and are not considered Federal financial assistance and are not included on the Schedule. The amount of ACCESS funding expended, but not included on the Schedule, for the year ended June 30, 2022, was \$378,487.
