

Aeries Mobile Portal for Students and Parents

It's now even easier to track your student's grades, attendance and other important information with the Aeries Mobile Portal App. Here's what you need to know:

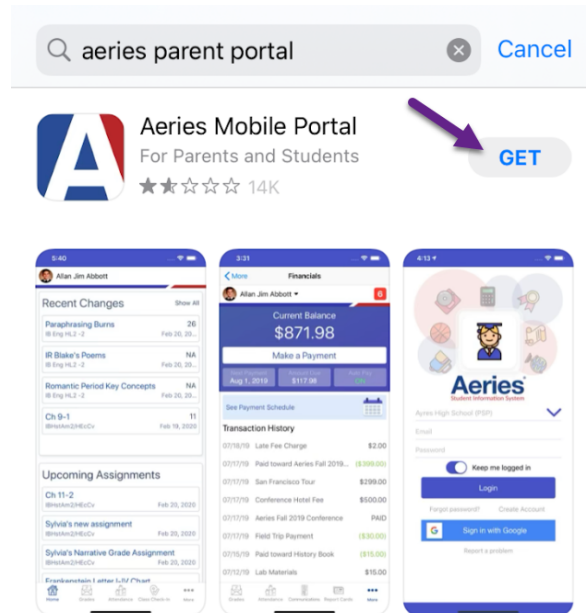

Getting the App

The app is available through the iPhone Apps Store or Google Play. Search for "Aeries Mobile Portal." The first app that appears is not an application that was created or is supported by Aeries, so make sure you choose the correct app to download.

Wrong App:

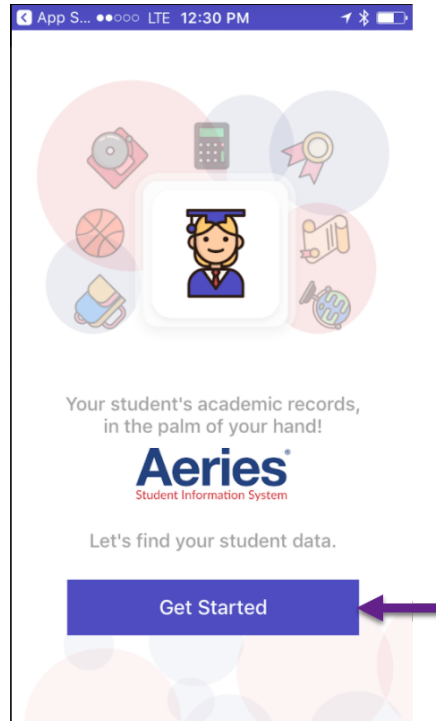

Choose this App:

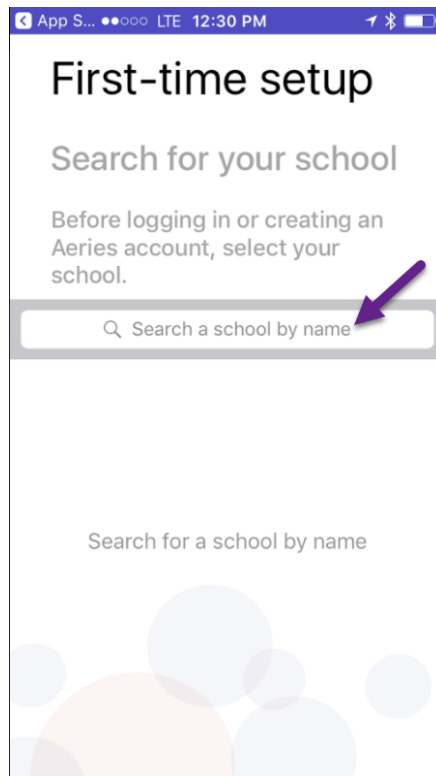

Getting Started

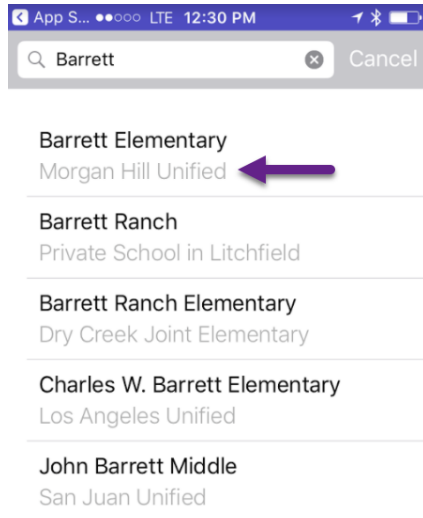

Once the app has been installed on your phone, click “Get Started.”

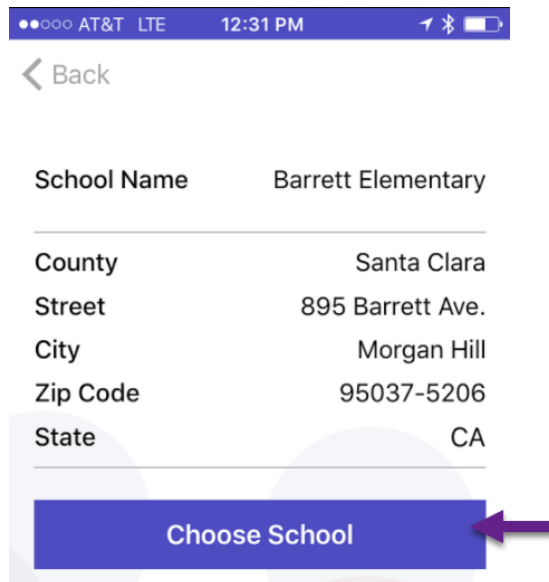

First-time setup will require you to enter your school name. If you have students enrolled in more than one school, you can search for any of your schools.

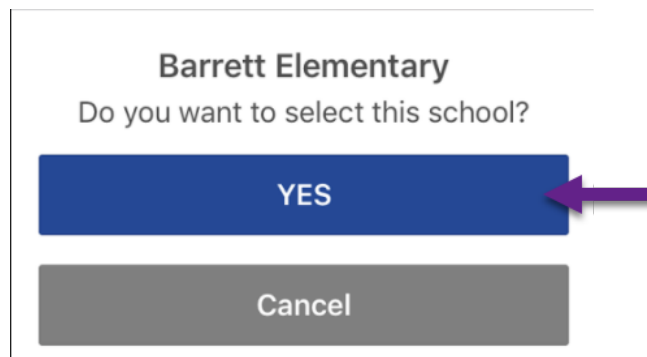

Select your school from the list of schools provided.

Confirm your school by clicking on “Choose School.”

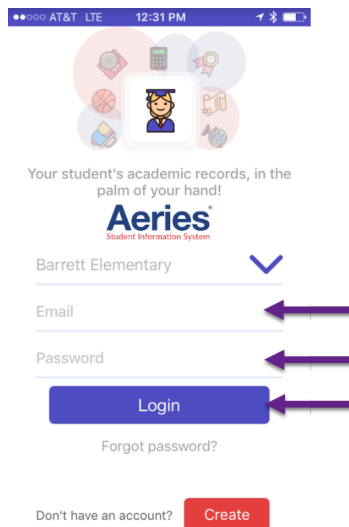

A final confirmation screen will appear. Click “Yes.”

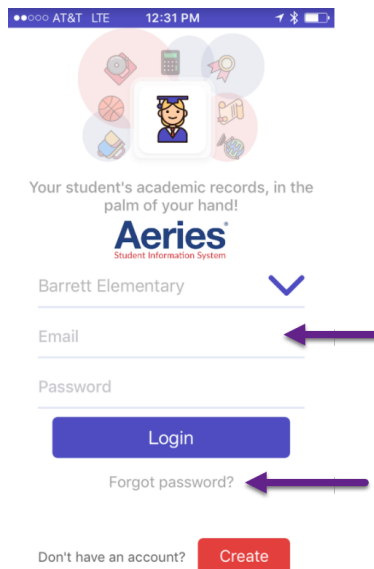

Logging In

After confirming your school, a login screen will appear. MHUSD creates parents portal accounts automatically upon enrollment as long as a parent email has been provided. You will receive a confirmation email at the time the account is created. If you have already accessed your portal account and created a password, you can simply enter them on the login screen.

If you have not logged in, or cannot remember your password, type your email address and click “Forgot Password?” You will be prompted to provide an email address and additional instructions will be emailed to you.

Because our portal accounts are automatically generated, DO NOT click on “Don’t have an account? – Create” as you will not be able to create your own portal account. Contact your school office if you need assistance accessing your portal account, so we can verify the information we have on file and troubleshoot any issues. Note: This app was not developed by MHUSD.
