PO Box 156,

Long Beach WA 98631

Covid-19 Vaccination Information

Once we receive more vaccine, we will call people on the waitlist to schedule an appointment for vaccine. Appts will be made for people on the waitlist in the order that they were added to the waitlist. (so don't delay completing the form!)

Other important information: There have been 3 separate forms related to vaccines that have been put out. Completing the form linked to this post is the **ONLY** way to get added to the waitlist. The other forms are the WA State's Phase Finder which tells you which priority group you are in and the contact list sign form we put out at the beginning of January which was only intended to add you to the contact list to receive vaccine information updates from the county. The waitlist survey (linked here) was established this week on Jan 28th and is the only way to get added to the waitlist.

We know this has been a confusing process and we are working hard to streamline communications. We are hoping that the waitlist will reduce frustration for the public and provide a fair process to schedule clinics as vaccine becomes available each week. If you have questions or need help completing the waitlist form, please call us at 360-875-9407 or visit <https://www.pacificcountycovid19.com/index.html>
