**Whitehall-Coplay SD Syllabus**

**Course Title:** Ready Pennsylvania PA Core Edition

**Grade:** 5th

**DESCRIPTION OF COURSE:**

*Ready Pennsylvania Mathematics* helps teachers create a rich classroom environment in which students at all levels become active, real-world problem solvers. Through teacher-led instruction, students develop mathematical reasoning, engage in discourse, and build strong mathematical habits. The program’s instructional framework supports educators as they strengthen their teaching practices and facilitates meaningful discourse that encourages all learners.

- Encourages students to develop a deeper understanding of mathematics concepts through the embedded Standards for Mathematical Practice
- Builds on students’ prior knowledge with lessons that make connections within and across grade levels and directly address the major focus of the grade
- Incorporates a classroom mathematics routine that promotes conversations and increases accessibility of the mathematics for all students
- Prepares students for the challenges of the Pennsylvania System of School Assessment (PSSA) with tasks and activities that have a balance of conceptual understanding, procedural skills, fluency, and application
