

**Department:** Art

**Course Title:** 2-D Design

**Course #:** 911

## **DESCRIPTION OF COURSE:**

Students will learn the fundamentals of 2-dimensional art. They will design and produce a series of drawings, paintings, and other 2-dimensional work which demonstrate knowledge of careers that relate to the arts. A historical and critical inquiry of artists and designers will be explored through analysis, synthesis, and evaluation. Achievement and understanding will be demonstrated by improvement of skills and a progression to more challenging projects. A structured portfolio and a student sketchbook/journal will be maintained.
