

High School Syllabus

Department: Art

Course Title: Ceramics 1 – Pottery

Course #: 90932W

Grades: 10, 11,12

DESCRIPTION OF COURSE: In this course students will learn about and produce art works using the main hand building techniques which are pinch, coil, and slab construction. They will also learn about and make two introductory projects on the wheel. Each major project will be reinforced with art history and current trends in ceramics, as well as art criticism and aesthetics. Students will learn about and use the classical / academic method in sculpting in clay. We will also learn about and practice safe studio procedures in working with Clay and glazes.
