MANUEL “BUZZ” LAGOS

Sports: Soccer, coach, teacher

Known to many as the “Father of Soccer” at St. Paul Academy and Summit School, Buzz Lagos has left his mark not only at SPA, but across the Minnesota soccer community. Throughout his many decades of coaching and teaching, Buzz has mentored and coached thousands of student-athletes, instilling values of teamwork and sportsmanship.

Buzz’s contributions to the SPA community can be traced back to the 1970’s, where he first served as the Head Coach of the boys’ soccer team beginning in 1973, leading the team to its first Minnesota State Soccer Tournament appearance. In the 1980’s, Buzz coached incredibly talented teams, reaching the state tournament nine seasons in a row. During that time, the team won four State Championships and two State runner-up titles. In addition to coaching,

Buzz taught math in SPA’s Upper School and was known for his ability to make learning fun and for teaching students to find joy in solving complex problems. In the years before SPA’s girls’ soccer program was established, Buzz was instrumental in ensuring that girls who wanted to play soccer were allowed to play with the boys’ team.

At SPA, Buzz coached multiple Mr. Soccer recipients, an award given to the best soccer player in the state of Minnesota. His 1988 soccer team was the top-ranked High School team in the nation, accumulating a fifty-two game winning streak that would be snapped in the state semifinals.

In addition to coaching at SPA, Buzz founded the Minnesota Thunder, Minnesota’s longest running professional soccer team, and served as the Head Coach of the Thunder for over a decade before retiring from coaching at the professional level. He then went to Higher Ground Academy to help establish their soccer program and in 2016, returned to SPA help on the boys’ soccer staff before formally joining the team in 2017 as an Assistant Coach. Head Coach Max Lipset ’03 says he has been an extremely positive influence on the student-athletes.

It is impossible to truly explain the impact that Buzz has had on St. Paul Academy and Summit School without providing a few testimonials from those who nominated him for this honor.

From Amos Magee ’89: “But more than the wins, the outstanding player development, the titles and the national recognition, Buzz was a fantastic human and teacher that shared an optimistic, energetic, self-affirming and motivating outlook on life. He made great teams, great players and great people.”

From Ben Seymour ’88: “Mr. Lagos’ coaching philosophy was rooted in hard work, in respect (for his players and others), in fairness, in composure and level headedness, in sportsmanship, and in a love of the game of soccer.

It was clear after having spent even a short period of time with him that this wasn’t just a coaching philosophy, it was a life philosophy; that the lessons he imparted were applicable beyond the field; and that he led by example. Years later, these lessons have helped to shape countless conscientious, kind, and decent people.”

From Daniel Zelle ’81: “Among the many qualities Buzz cultivated were accountability, vulnerability, open-mindedness, fair play and connectedness. He helped players understand their role on a team and how to be reliable for executing that position as well as relying on and supporting teammates to do theirs. He made it clear that everyone makes mistakes - our teammates, the opponents, officials, coaches, spectators and us - we all do.”
