Associate Degree

Two Years of College Credit at HHS!

In order to earn an Associate degree, students *MUST* complete the 30 hours within the Indiana College Core Technical Certificate as well as 30 additional credits.

Visit page 15 for a complete listing of the Indiana College Core course requirements.

Hobart University students are able to graduate with an Associate Degree of General Studies just by taking dual credit courses in high school!

In order to obtain this, the students are required to earn 60 college credits (30 of those credits coming from the Indiana College Core) with a minimum 2.0 College GPA (average grade of a C in all courses). This prepares students to transfer into four-year universities on the pathway to a Bachelor's Degree, or students can move directly into the workforce.

The Associate of General Studies allows the most flexibility in terms of student electives, as 22 of the 60 required credits can come from any dual credit classes, including the PNW dual credit classes! Two of the required courses are:

- IVYT 111 – Student Success: This course provides students with an overview of skills and strategies necessary to successfully complete a degree or certificate from Ivy Tech Community College and to transfer to a four-year institution. Students focus on developing an individualized transfer plan focused on reaching their educational, career, and life objectives. **This course is completed during the 9th grade year in Preparing for College and Careers.**

- GENS 279 – Capstone Course: This course provides a culminating experience designed to demonstrate a student's mastery of information literacy; ethical and responsible behavior; political, social and environmental responsibility; and diversity awareness, both in general and in the student's area of interest. This course may require a research project, presentation, and/or portfolio. **This course is completed during the 12th grade year in Interactive Media.**
