III. Committee Reports

No Reports

IV. Superintendent Report

A. Updates

Dr. Maria Rianna welcomed everyone back to the 2023-2024 school year. Teachers were in the buildings last week for Superintendent Conference days which included preparation and professional development. Dr. Rianna thanked Alexa Drescher along with all the coordinators and principals that worked with Alexa with professional development. She stated that our goal is going to be enhanced student engagement which Dr. Rianna again thanked Alexa Doeschner for her presentation during the conference as they spoke to both teachers and administration on their vision for this school year.

Students were greeted by teachers on the first day of school who were eagerly awaiting their arrival. Dr. Rianna thanked all the teachers that went out to help with arrivals and dismissals. She also thanked the community, the parents, the grandparents, the neighbors who assist in picking up and dropping off students. She stated that each building has gone through some type of construction that can influence the routines in picking up and dropping off. Dr. Maria Rianna thanked the principals in communicating and ensuring that those procedures were done flawlessly. The Superintendent of Schools went on to say that first day arrivals were greeted by administrators, teachers, staff and support staff helping to make our students feel extremely comfortable as it should be like that at the beginning of a great school year.

She went onto discuss school construction from our December 6, 2022 election when our bond passed. There are three major components to our construction that's happening and a fourth component includes our custodial and maintenance staff under the supervision of Viktor Tymchynyuk. It's been a very busy summer in all of our buildings whether it was construction or educational programs. Dr. Rianna also mentioned that we're waiting for our next real rainfall at Connolly school to see if the water that collects in the parking lot known as Lake Connolly forms after a drywell was put in the other day. She thanked Viktor for working with the mitigation crew on that.

1. Construction Update

Dr. Rianna went on to mention that they are going to go over some of what's going on with the construction projects. Updates have been updated on a regular basis on our website for the community to view. She turned this section of the meeting over to Ms. Victoria Galante and Mr. Viktor Tymchynyuk.

Ms. Galante and Mr. Tymchynyuk both presented on the projects going on district wide. They showed where on the website everything can be viewed. They went over the Energy Performance contract work, all of which has been internal but will extend to the outside areas. Construction update includes the bond issues; the Deasy school elevator and stairwell; the Landing school classroom addition and the Deasy school patio construction. They went through all the phases of the projects and stated that all the projects are on schedule.

Dr. Rianna thanked our architects and engineers in working with Viktor to get the approvals needed and get the state aid without question. It actually expedited the work that started over the summer including the bidding for the different materials needed. It has moved in an expedited manner and looks forward in seeing in the next couple of months some major projects being completed. She also thanked Viktor and Victoria for working with FEMA on the damage caused to several of our schools by tropical storm Ida. Dr. Rianna mentioned that we wanted to make sure that that type of damage does not happen to our facilities again. Through working with FEMA, they were able to recoup 90% of that money making it the whole 100%. It is not an easy process to go through and once again thanked them both as it was no cost to the community.

Dr. Rianna encouraged everyone to refer to the district website where the construction information is updated weekly and the community can be kept informed.

2. District Goals

Dr. Maria Rianna thanked the Board of Education for taking time out of their summer for their approval with new hirings needed but also for the work sessions so that we stay ahead of the curve, ahead of the calendar and determining what our goals for the 23-24 school year are.

Dr. Rianna went over the district goals via a PowerPoint presentation which included Instruction, Social Emotional Growth, Transparency & Accountability, Facilities: Health & Safety and Community Engagement. Questions from the Board of Education were addressed.

Dr. Rianna commented that 11 years ago a group of 17-year-olds approached her if they could have a 5K to raise monies for children with childhood cancer in memory of a relative of one of the individuals that stood before her. We did what we could in giving them some direction. She went on to say that these young people came together and started the Nick Pedone 5K we gave them the facility to use for this legacy that they've created and each year the 5K has individuals not just from Glen Cove but from surrounding areas come together to run the 5K. The monies raised help these families that have children with cancer. She continued by saying what an incredible organization it has become. This family has taken a great loss and turned it around in such a way that they are helping other families through very difficult times. With big smiles and big hearts, they have raised over \$650,000 in the last ten years. They presented the Glen Cove School District, Allen Hudson and Ralph DiMaggio with a plaque for their contribution and support.

Dr. Rianna added that attendees of this event that had graduated from Glen Cove high school were excited to see all the projects going on. It's a wonderful experience to hear such positive feedback from the community. I know my crew is working very hard this summer and it's being noticed and it's being noticed in a big way. Can't wait for these projects to move forward. She closed with thanking the Board of Education for making this happen.

V. Student Board Member Report

The new 23-24 Student Board Member, Ava Scagliola, stated that she's looking forward to working with the Board of Education as well as represent the high school student body. She's excited along with the students about the construction going on is looking forward to a great school year. She closed by thanking the Board of Education for having her.

VI. Public Participation

This section gives opportunity to residents who wish to raise a question or make a brief statement on agenda items.

Members of the audience addressed the Board of Education with questions and comments that were all addressed.

Dr. Maria Rianna responded to one of the comments that she would like to see the faces of the students once they open up the field with perhaps a special occasion or some type of game where they can say they had that experience on the new field. Dr. Rianna is looking forward to a new phase in our sports program, whatever that is.

Trustee Lia Leone suggested a faculty vs. senior's football game.

Trustee Audre Lynn Hurston James also added to the comment about the temporary loss of the field. One of her children was a 2020 graduate and he experienced a different ceremony. Our district stood by them and did the best they could. Her twins went through the lockdown. Trustee James' children are performing arts students and they all did Select Choral and her twins got to watch their older siblings go to the Vatican and perform at the White House and all these other things. I tried not to let my feelings as a mom show because I didn't want to impact them in that way and when we look back, we took those things harder than our kids took them. They will be ok about not playing, senior year or not senior year, because they have a school district staff that is about these kids and a community behind them and friends under that same spirit. My kids did not have any of what's coming but they are ecstatic about what's coming. They will be fine now and when it's a memory.

President Maria Elena Venuto agreed with Trustee James.
